

CITROËN C4

CRÉATIVE TECHNOLOGIE

Assertive, elegant and surprisingly compact. Every shape in the CITROËN C4 is aerodynamic and bold. The flush curves of the bonnet and headlights accentuate the iconic CITROËN double chevron grille. Whilst finishing touches such as the sculpted wing mirrors, alloy wheels, chrome window sills and tinted tailgate glass ensure the CITROËN C4 always cuts a striking figure on any road.

The ingenious CITROËN C4 is available with a Euro 5 petrol or diesel engine. The 88kW petrol engine benefits from variable valve timing, which guarantees outstanding performance and economy. Whilst the CITROËN e-HDi direct diesel injection engine is refined and frugal, boasting an innovative 'Stop & Start' system that puts the engine in idle mode as you decelerate and stops the engine altogether as you come to a complete halt – helping to reduce fuel consumption by up to 15% in city driving.

For safety and convenience you can select the optional Safety Pack. The Safety Pack includes a blind spot monitoring system for when you change lanes and front and rear parking sensors which integrate with the Parking Space Gap Measurement System. The sensors automatically assess the size of parking spaces and tell you if you'll fit for pinpoint accuracy every time.
