

CITROËN DS 4

FORM MEETS FUNCTION

CITROËN is for the curious – the ones that refuse to conform. It's been that way since 1919. We've spent over 90 years innovating and producing industry firsts. The CITROËN DS Line continues this tradition by breaking free from established cues with sophisticated styling and refinement, as with the CITROËN DS 4. Uniquely non conformist, it mixes urban presence with coupé grace, luxurious quality with smart flexibility.

So while the CITROËN DS 4 is not an SUV or a hatchback, it distils what's best about all of these genres and creates something genuinely fresh. It's a striking, sophisticated 5-door coupé that has the balance and fine-tuned engineering to inspire keen drivers with quick responses and nimble handling. It's a luxurious way to travel for five and it's a creative design statement. This is what happens when you begin with innovation.

ADVANCED LUXURY

In every sense, the CITROËN DS 4's interior is a special place. Naturally light and roomy, it is made with meticulous care, combining craftsmanship with technology. Beginning with the fundamentals, the whole interior is thoroughly soundproofed, using carefully chosen materials that absorb noise and vibration. This restful space is then shaped for five people, bringing them an environment that can be fine-tuned in numerous ways. Backlighting can be changed from white to blue, you can choose from five different polyphonic sounds for the turning indicator and the automatic digital air conditioning has a special 'Rest' function that maintains its temperature setting for a few minutes after the engine stops.

The tradition of fine luxury is alive and well in the hand-made bracelet design of the optional "Habana" brown watchstrap leather seats. The Habana watchstrap colour and design was inspired by French president Georges Pompidou's CITROËN SM présidentielle convertible. The front sport seats with sumptuous leather touches include soothing heat and a massage function to create an all-encompassing feel of refinement and quality.
