

ESCAPE

Escape in style

With genuine 4WD capabilities and sedan like handling, the Ford Escape is equally at home in the city or off the beaten track.

Escape shown in Hot Red.

4x4 Lock Mode.

4x4 Lock Mode enables you to switch from AWD to constant 4WD while driving. In 4WD Lock Mode, the system switches to permanent 4WD giving you all the confidence you need to tackle that rugged terrain.

The really satisfying thing about driving the ZD Escape is that it gives you the power and handling to escape just about anywhere in comfort. Pick up the kids from school and decide to load up the ski gear and head to the mountains? No problem. Weather for the weekend looking good so you plan to make tracks to the coast. Easy. In short, having a capable SUV like the Escape means that you can take on rugged terrain and be as adventurous as you want. The 2.3 litre 4-cylinder engine with Variable Valve Timing (VVT) provides responsiveness, while the Independent Rear Suspension assists in maintaining full wheel contact, and delivers better stability and grip. Plus the Escape's ground clearance and 'On-Demand 4WD' lets you take the rough stuff in your stride.

Escape in comfort

Travelling couldn't be any easier or more comfortable because everything has been designed to make your escape as easy and luxurious as possible.

Standard automatic transmission.

The sleek floor-shift T-bar automatic is ergonomically located in the centre floor console and is standard on Escape.

Welcome to the great indoors. With an interior that feels more like your lounge room, the Escape interior is designed to make long trips feel like you're driving to the shops. And a trip to the shops? Well, you'll wish the trip was longer. There's ample room for 5 adults, and with seats that fold flat you have the option of extra carrying capacity. Sitting behind the wheel you'll feel right at home. The high ride height gives you excellent visibility, while the comfort of the plush seats, easy-reach buttons and centre console, one-touch climate control and a six stacker CD player means no matter where you drive the Escape you'll arrive more relaxed than when you started.

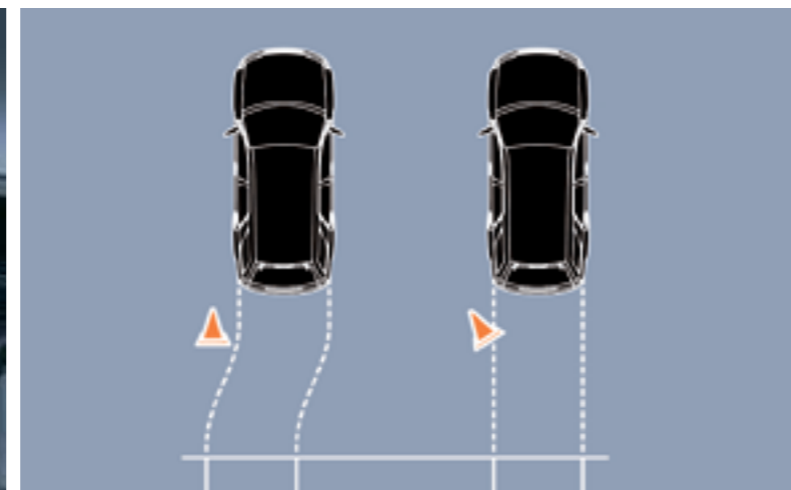

Safety

With a swag of safety features that help protect both driver and passengers, you can be assured every journey in the Escape is a safer one.

Airbags.

Escape has driver, front passenger and front seat side head/thorax airbags as standard.

ABS.

The standard Anti-lock Braking System (ABS) makes for safer stopping and cornering.

Whether you find yourself on a bumpy bush track or on basketball pick-up duties with the kids, you'll feel the Escape travels solidly on all terrain. And with double door seals and a quiet cabin, everyone on board can sit back, relax and enjoy the journey even more. Adding to Escape's robust build and assured handling is a long list of safety measures including side intrusion beams for extra cabin strength and driver, front passenger and front seat side head/thorax airbags. Plus, when you do find yourself off the beaten track you'll be glad to know Escape's high ground clearance means you'll

be able to navigate steep inclines and declines. Wherever you travel you need to be prepared and, when it comes to helping you avoid accidents, Escape has all the features. For example, Electronic Brakeforce Distribution (EBD) assists in balancing braking force between front and rear wheels, depending on driving and vehicle load conditions. Working alongside EBD is Emergency Brake Assist (EBA), a system that interprets a driver's braking behaviour and automatically initiates full braking faster than a driver ever could.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully, too.

Sustainability

Using advanced technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Safety

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to protect you.

Smart

Vehicles with smart, intuitive technologies designed to connect you to your world and many clever solutions that make life a little easier.

Speak to your Ford Dealer today about how we can help you make the most out of your vehicle ownership experience.

3 year/100,000km new car warranty.#

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion.#

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

myFord Warranties and Insurance.

When you first turn the key of your brand new Ford you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties and Insurance, visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.

12 months/15,000km service intervals.

Under normal driving conditions service intervals are 12 months or 15,000km, whichever occurs first.

Running a fleet?

Our Ford Fleet team is available to assist fleet customers with information on Ford products and services. Call 1300 13 13 30 or email askfleet@ford.com

Want to contact us?
