¹ These figures are obtained from controlled laboratory tests conducted by Ford Motor Company of Australia Limited to Australian Design Rule 81/01 and are provided to assist you in comparing the fuel consumption and CO₂ emissions of Ford Fiesta with other vehicles. The actual fuel consumption and CO₂ emissions depend, however, on many factors including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use. Carbon dioxide (CO₂) is the main greenhouse gas responsible for global warming.
