

FREELANDER 2

GO BEYOND

Revolutionary, all new Freelander 2. Redefining the class standards, Freelander 2 delivers outstanding breadth of capability on and off-road. With its dynamic design, sporty stance, spacious interior and the most up-to-date technology, Freelander 2 offers the latest thinking from Land Rover – in compact form. Freelander 2 is instantly recognisable as pure, full-strength Land Rover. Its design picks up on the bold form of Discovery 3, the powerful lines of Range Rover Sport and the elegance of Range Rover Vogue.

From the first exciting glimpse, all new Freelander 2's distinctive, purposeful exterior with sharp, chiselled lines gives an immediate sense of dynamism. Freelander 2 is substantial and broad-shouldered: it looks like it is hewn from solid material, and with the wheels planted four-square at the corners, has a sporty stance that offers exceptional on road and off-road performance. The independent suspension with long wheel travel, coupled with the exceptionally stiff body structure, delivers agile handling with outstanding ride comfort.

All new Freelander 2 is the most complete vehicle in its class and matches the refinement usually associated with premium saloon cars. Premium levels of equipment and technology add further capability and assistance for the driver. For instance, the optional Bi-Xenon adaptive front lighting system swivels with the direction of travel, to help improve the driver's view of the road ahead. For added convenience at night, approach lighting is available, which is activated from the remote control.

All new Freelander 2 is a true Land Rover. With its ever-ready versatility it is equipped to take on all weather and terrain, all of the time. By being first in its class to introduce revolutionary off-road technology, it gives more adventurous drivers the edge with the freedom and flexibility to go where they want, when they want. Freelander 2 is available with Land Rover's unique Terrain Response™ and latest generation Hill Descent Control technology, which engages smoothly and easily when the foot brake is released, improving driver control on steep and slippery descents. Linked to Hill Descent Control is Land Rover's gradient release control which ensures smooth hill starts whether ascending or descending.

Using any one of four different settings, Land Rover's unique Terrain Response™ maximises traction in all driving situations, however challenging, through the vehicle's electronic management systems and traction aids. This optimises driveability and comfort and is like having a Land Rover expert sitting alongside you. There are four settings: – 1 general driving, 2 grass/gravel/snow, 3 mud and ruts, 4 sand – which can be selected via a convenient rotary control located in front of the gear lever.

The premium interior is designed to be elegant, with leather seats and high quality materials used throughout. Adding to the feeling of lightness and airiness is the optional panoramic sunroof, which incorporates an electrically operated front section. Importantly, the glass is specially formulated to filter the infrared spectrum and so provide light without unpleasant heat. The dual zone ATC, with pollen filter, maintains the freshness of the air circulating in the cabin, ensuring that all occupants are as comfortable as possible.

All new Freelander 2 provides the driver with the very latest technology including, as standard, a keyless Start/Stop button and Dual Climate Control. Operated from the large, high definition colour touch-screen, the optional DVD satellite navigation system in the Freelander 2 HSE has an easy-to-use menu for quick, efficient operation. It makes finding a destination or the nearest filling station simple and straightforward. Clear, concise directions are communicated via the audio system and displayed on screen.

There are three outstanding in-car entertainment systems fitted to all new Freelander 2. All systems offer a 6-disc in-dash CD player. The SE has 6 speakers while the HSE upgrades to 9 speakers in total including an 8 x 40W amplifier and MP3 file compatibility. An auxiliary MP3 socket is standard on every all new Freelander 2. A premium Dolby Pro Logic II 7.1 surround sound system with 13 speakers and MP3 file compatibility, plus integrated Bluetooth® Hands-Free telephone system is also available on HSE as part of the technology pack option.

Comfort and spaciousness are given high priority in all new Freelander 2. For example, the seats provide excellent support, safety and durability with the driver enjoying six-way electric adjustment, including electric lumbar, and the passengers, four-way electric adjustment as standard. All occupants benefit from superb leg, head and shoulder room. Land Rover's renowned Command Driving Position improves visibility and helps the driver feel in control. What's more, stadium seating places the rear passengers 50mm higher than those in front, so everyone can enjoy the view. The loadspace has been made as versatile as possible with a 60/40 split rear seat and reversible load floor cover – carpet on one side and a water-resistant surface on the other.

Seven airbags, fitted as standard on all vehicles. Driver and front passenger airbags for head and chest protection. Side airbags for side impact protection. Full-length curtain airbags provide head impact and rollover ejection protection for all occupants.

Driver's inflatable knee bolster for additional lower body protection. Secondary safety is predicated on the immensely strong monocoque body and its inner safety cell. The inner safety cell itself is protected by meticulously engineered front and rear crumple zones which absorb energy during an impact.

There are large disc brakes all round which, on the front, are reverse vented to improve thermal stability under severe braking. For superior traction and better on road fuel economy the electronic centre coupling adapts continuously and instantaneously to the conditions.

RSC
Roll Stability Control

CBC Corner Brake Control. Enhances rear-end stability when braking in corners.

DSC Dynamic Stability Control. Designed to correct over or understeer, it interacts with the engine and brakes to help maintain stability.

EBA Emergency Brake Assist. Increases hydraulic pressure during emergency braking and can improve stopping distances by up to 15 percent.

ETC Electronic Traction Control. Senses when wheel-slip is occurring and uses the braking system to minimise wheel spin.

RSC Roll Stability Control. Detects critical levels of roll and applies braking to increase the turn radius to help reduce the likelihood of a rollover.

Stylish factory-fitted alloy wheels enhance the looks and capability of the all new Freelander 2.

All new Freelander 2 introduces two all new power units which deliver an exceptional balance of performance, refinement and fuel economy. The compact 3.2 litre straight-six petrol engine employs advanced technologies including Cam Profile Switching and Variable Valve Timing for more power, a better spread of torque and greater efficiency. The standard six-speed automatic transmission adapts to individual driver styles and comes with CommandShift™ for manual sequential gear changes. Selecting sport mode offers even livelier performance. The 2.2 litre four cylinder turbodiesel (TD4) uses the latest common-rail diesel technology which aids economy and refinement, whilst the Variable Nozzle turbocharger helps to deliver exceptional torque. The six-speed automatic transmission with CommandShift™ is standard.

ENGINE DATA

i6 Auto

Transversely mounted straight-six cylinder petrol. Aluminium engine block, cylinder head and bedplate. 24 Valve with twin overhead camshafts and Cam Profile Switching (CPS). Engine management system mapped for both low and high driving loads/speeds. Variable Valve Timing (VVT) and multi-holed fuel injectors. Three-way catalysts, unleaded fuel only. Bore 84mm. Stroke 96mm. Cubic capacity 3,192cc. Compression ratio 10.8

TD4 Auto

Transversely mounted high pressure injection Common Rail four cylinder diesel. Aluminium cylinder head, double walled cast iron engine block and sump-mounted counter-rotating balance shafts. Engine management system mapped to deliver excellent response, mid-range torque and flat power curve. Latest Common Rail 3 fuel injection system. 16 Valve with Garrett variable-nozzle turbocharger. Diesel fuel only. Bore 85mm. Stroke 96mm. Cubic capacity 2,179cc. Compression ratio 16.5

STANDARD FEATURES

Engine & Transmission

- Six-speed automatic transmission with CommandShift™
- Full time intelligent four-wheel drive
- Terrain Response

Suspension & Steering

- Independent front & rear suspension
- Power steering with manual tilt and reach adjustment

Safety & Security

- Remote control central locking on all doors, fuel cap and tailgate
- Push button Start/Stop
- Perimetric alarm system
- Anti-lock Braking System (ABS)
- Emergency Brake Assist (EBA)
- Electronic Brake-force Distribution (EBD)
- Electronic Traction Control (ETC)
- Corner Brake Control (CBC)
- Dynamic Stability Control (DSC)
- Roll Stability Control (RSC)
- Hill Descent Control (HDC)
- Driver & front passenger airbags, front seat side airbags, full length curtain airbags & inflatable driver's knee bolster
- Four-wheel disc brakes with mechanical handbrake

Interior

- Rear seat split 60:40 design
- Central stowage bin in fascia
- Dual cup holder in centre console
- Glove box
- Electric front and rear windows with one touch operation
- 6-disc in-dash player with six speakers
- Auxiliary MP3 audio socket
- Interior mirror
- Automatic dual climate control

Exterior

- Body coloured front & rear bumpers
- Heated, electrically adjustable door mirrors
- Halogen headlights with headlamp courtesy delay
- Two bar grille in Titan finish
- Solid paint
- Heated rear window with wash/wipe
- Alloy Wheels

WARRANTY, ROADSIDE ASSISTANCE, CUSTOMER CARE AND FINANCIAL SERVICES

Warranty. A comprehensive manufacturer's warranty is a feature of every Land Rover vehicle and extends to any genuine Land Rover accessories fitted by a Land Rover Retailer. The warranty period for the vehicle is three years/100,000 kilometres. In addition, the paint surface is also covered for three years/100,000 kilometres and the body work covered for corrosion for six years.

Land Rover Roadside Assistance. All Land Rover vehicles purchased in Australia benefit from complimentary Land Rover Roadside Assistance service for the length of the new car warranty. This covers you Australia-wide 24 hours per day every day. And because it is Land Rover Assistance, help will also be provided if you become bogged or disabled on roads that only four-wheel drives can travel.

Customer Care. Land Rover Australia has a dedicated Customer Care Centre to assist owners who may have a general query. Owners seeking this level of assistance are invited to phone our Customer Care Centre on the toll-free number 1800-625-642. Land Rover ownership includes a package of benefits designed to provide a high standard of after sales care and support.

Land Rover Financial Services. Just as Land Rover lets you tailor a vehicle to your specific requirements, we offer you the same service when it comes to finance. You can arrange to purchase and finance your Land Rover from the people who know it best – your Land Rover Retailer. Your Land Rover Business Manager can explain the full range of finance options available from Land Rover Financial Services and provide expert advice to help tailor a finance package to best suit your needs.

To discover more about Land Rover Financial Services visit your nearest Land Rover Retailer or visit www.landroverfinancialservices.com.au or the link at www.landrover.com.au
