# The Valente.

The family mover that's big on comfort and style.

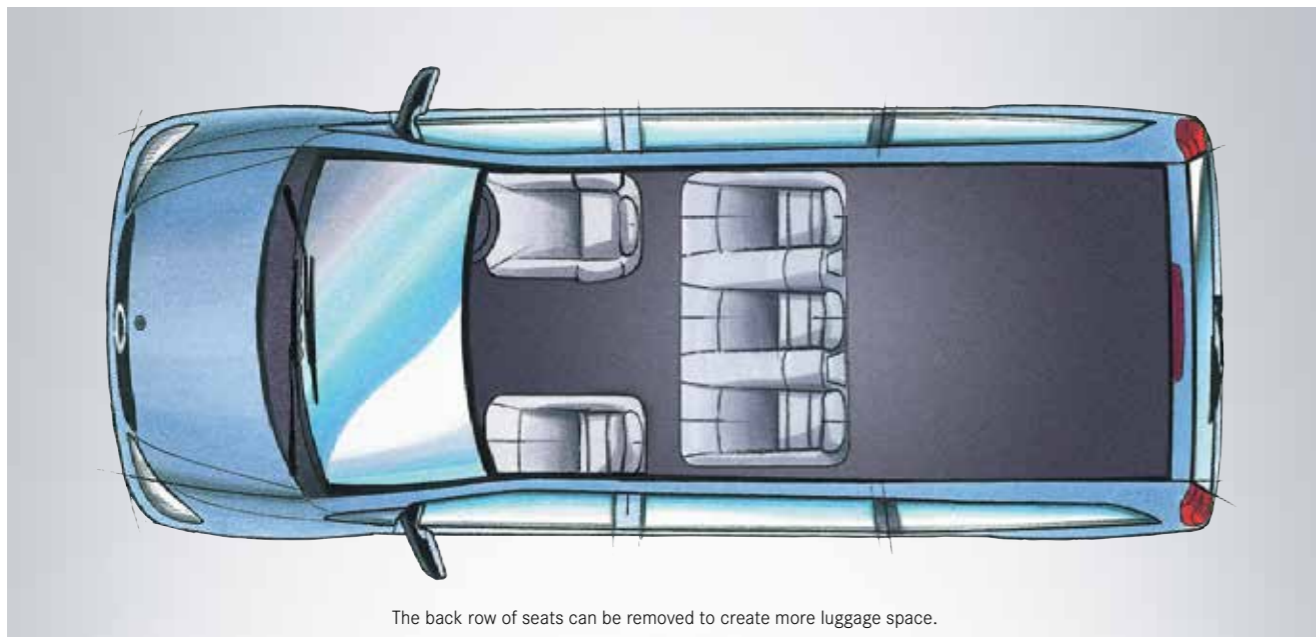

When it comes to moving the family and all that goes with it, the Mercedes-Benz Valente is built for just that. With dual sliding doors, eight full-sized seats, space for all the essentials and packed with safety features, the Valente is just what the growing family needs. Add to that a powerful state-of-the-art engine and unique BlueEFFICIENCY technology, Mercedes-Benz has raised the benchmark for large-capacity vehicles to a whole new level.

The sleek Valente has stepped up in the style stakes and strikes quite the pose with 17" alloy wheels, rear tinted windows and day-time running lights all featured as standard. This people mover is perfectly practical, but its dynamic design is leading the way.

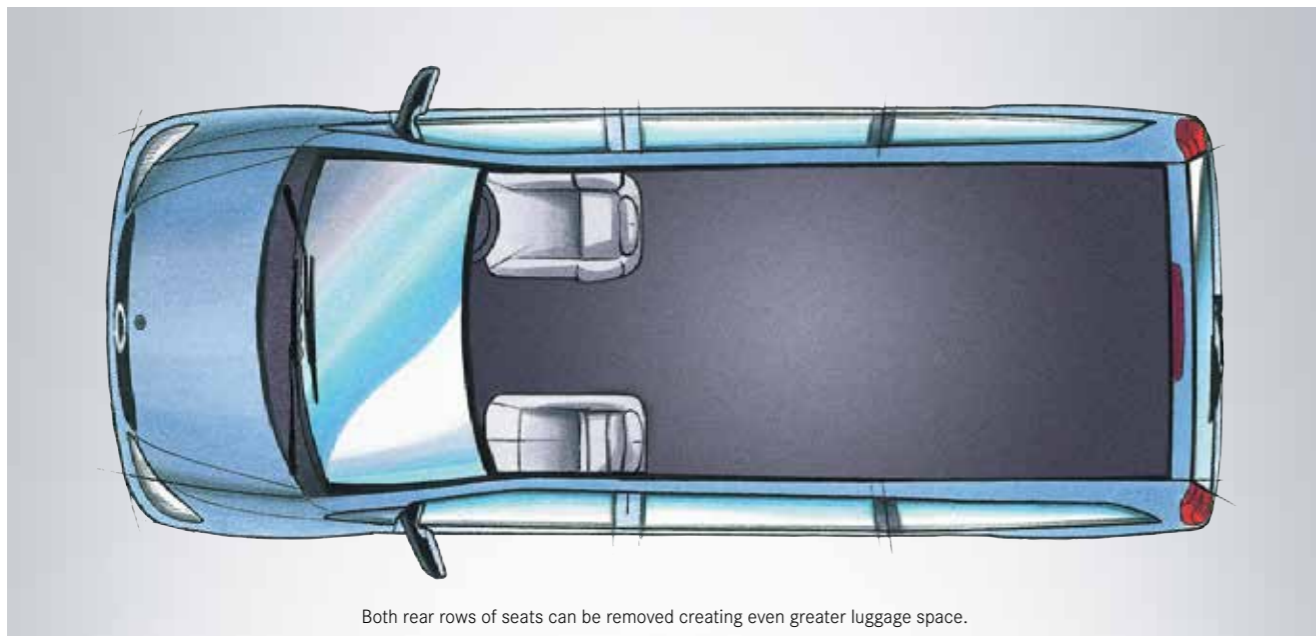

Eight adults can be transported in comfort.

The back row of seats can be removed to create more luggage space.

Both rear rows of seats can be removed creating even greater luggage space.

## Room to move.

The flexible seating advantage.

There's plenty of room to move in the Mercedes-Benz Valente. With more than ample space to seat eight people in comfort, the fully flexible seating options can be configured to fit your needs whenever you wish. Seats can be safely rotated to face in almost any direction, opening up the possibility of a cosy face-to-face seating position. You can also adjust the backrest angle of the seats, so passengers can really relax and there's even a space between the two front seats giving you unrivalled access from front to back.

With so much room you'll be pleasantly surprised to know that there is also plenty of room for luggage. The 730 litre luggage space means there will be no need to pack lightly anymore for those family holidays. With its rare combination of spacious seating and generous luggage capacity, the Valente offers unparalleled practicality.

# The perfect combination.

Safety and comfort that puts you in the right space.

The Valente has all the ingredients for the perfect family car. Combine the meticulous Mercedes-Benz safety standards with innovative design, ride comfort and driving enjoyment and you get a car that firmly puts you in the right space. The Valente is packed with the safety features you've come to expect from a Mercedes-Benz, including ABS brakes, Electronic Stability Control, passenger airbags and adaptive brake lights, but they haven't stopped there.

The unique Mercedes-Benz ADAPTIVE ESP® system has the ability to detect in an emergency the weight distribution of all passengers at any given time and compensate accordingly. The Valente is also packed with technology to make time spent in the car more enjoyable, including parking sensors, automatic rain/light sensors along with iPod® and Bluetooth® connectivity. There is also a family friendly space that features built in child restraints, dual sliding doors for easy access no matter where you're parked and dual zone climate control.

Reversing camera as part of COMAND APS (optional).

THERMOTRONIC climate control.

PARKTRONIC Parking sensors.

The picture left shows various activated airbags at maximum deployment for illustrative purposes only. iPod® is a registered trade mark of Apple Inc. Bluetooth® is a registered trade mark of Bluetooth SIG.

# Power to the people.

The Valente engine goes from strength to strength.

When you have a people mover filled with a large family or even a sports team, you need power. The Valente has that and more. Powered by a 2.2L 4-cylinder CDI engine producing 120kW and 360Nm, and with the added benefit of twin turbo flexibility, the Valente delivers peak torque from as low as 1,600rpm through to 2,400rpm. This will ensure that the Valente will have no trouble with eight adults and luggage.

For Mercedes-Benz, responsibly shaping the long-term future of mobility is both an aspiration and a duty. The way forward is called BlueEFFICIENCY – a package of intelligently combined, innovative technologies that help to significantly cut fuel consumption and pollutant emissions. In the Valente 4-cylinder model you are now able to experience the benefits of this for yourself – without having to compromise on safety, comfort or driving pleasure.

The standard BlueEFFICIENCY package includes:

- 8.2L/100km and 216g of CO<sub>2</sub>/km performance
- ECO power steering pump, internal engine measures, battery management, regulated fuel pump and lower rolling resistance tyres

Engineered for maximum passenger comfort.

5 speed automatic transmission that provides seamless gear changes.

BlueEFFICIENCY technology helps to significantly cut fuel consumption and pollutant emissions.

# Standard features.

## Multifunction leather steering wheel

The multifunction leather steering wheel can control the audio system without having to take your hands off the steering wheel.

## THERMOTRONIC climate control

The THERMOTRONIC automatic climate control system allows the driver and front passenger to adapt the climate in their respective seats to suit their individual requirements.

## Cruise control with SPEEDTRONIC

Cruise control allows the driver to set a desired cruising speed. SPEEDTRONIC helps to assist the driver in adhering to speed limits by setting a maximum speed.

## PARKTRONIC\*

A highly advanced system that helps make parking even easier. Visual and audio warnings are provided upon detection of obstacles at the front and rear of the vehicle.

## Seating for eight adults

The fully flexible seating options seats eight people in comfort. Seats can be safely rotated to face in almost any direction, opening up the possibility of a cosy face-to-face seating position.

## 730 litres of boot space

The 730 litres of boot space allows for plenty of room for luggage.

\*Not in conjunction with comfort passenger bench seat.

# Optional features.

## COMAND APS

Our innovative multimedia system combines contemporary in-vehicle hi-fi technology with an intelligent hard-drive based navigation system. The 17.7cm colour screen with high resolution map depiction and dynamic route guidance takes into account congestion information provided via TMC to ensure optimum driver performance. Up to 4GB memory offers space for your favourite music in MP3 format, and of course COMAND APS also plays audio or video DVDs. COMAND APS can be operated via the multifunction steering wheel. Available with DVD changer as an option.

## Sunroof

Front and rear sunroof provides ample natural light.

## Reversing camera as part of COMAND APS

As part of COMAND APS, the integrated reversing camera gives added visibility and safety.

## Bi-Xenons

Bi-Xenon headlights with LED daytime driving lights (includes headlight cleaning system).

## Dual electric sliding doors (RHS and LHS)

Automatic, quiet opening/closing of the sliding passenger compartment doors without jolting or jarring.

# Genuine accessories.

**Alustyle basic carrier bars** e.g. B6 656 1045\*  
Bolted into the roof channel. Maximum roof load of up to 100kg. Elegant and aerodynamic: the Alustyle system is designed to be combined with a variety of accessories such as roof boxes or ski racks.

**Roofbox for Alustyle carrier bars** e.g. A0008403362\*  
Elegant, practical, aerodynamic design, made for your Valente. High quality, extremely durable material. Boxes open on both sides for convenient loading and unloading.

**Luggage net** B66560594  
The robust net prevents contents from falling out of the load compartment, even when the tailgate is opened quickly. Items can also be stowed in handy mesh pockets.

**Rear mounted bicycle rack** e.g. B66560545\*  
Designed to be fitted to the tailgate. Holds 2 bicycles. Tailgate can still be opened with the rack in place. Includes statutory repeater lights. Rear power supply required.

**Load Compartments** e.g. shallow tub A6398140441\*  
The handy way to protect the load compartment of your Valente from dirt and scratches. Made from lightweight, durable plastic.

**Floor Mats**  
Velour Floor Mats. e.g. B6 656 0549  
Rep Style Floor Mats. e.g. B6 468 639

**Rear Entertainment System** e.g. A6398200002\*  
Equipped with a 25.9cm (10.2") LCD colour screen and is compatible with various popular formats such as MPEG4, DivX, MP3, JPG. Comes with Infrared headphone and infrared remote control.

**Mercedes-Benz iPod® interface kit and iPod®/iPhone® holder\*\***  
Interface Kit: B6 782 4559  
Holder: B6 782 4501  
Connects your iPod®\*\* to your vehicle's audio system. It's easy to control your iPod® using the buttons on the multifunction steering wheel. The iPod® is connected in the glove compartment, where it is hidden from prying eyes. Its battery is also charged while connected. The flock-lined iPod®/iPhone® holder is designed to protect your valuable device and prevents it from sliding around.

\*Please contact your Mercedes-Benz Authorised dealer for full product and part number range.  
\*\*For details of supported iPod® models, please contact your Mercedes-Benz Dealer. iPod® and iPhone® are registered trademarks of Apple Inc.

# Paintwork.

## Non-Metallic Paints

arctic white 9147

velvet red® 3583

## Metallic Paints

brilliant silver metallic® 9744

flint grey metallic® 7368

obsidian black metallic® 9197

The Valente paintwork puts the finishing touch to the carefully crafted Mercedes-Benz corrosion protection system. The bodies are fully galvanised at the factory and treated with a cavity sealant for long-lasting protection.  
\*Metallic and non-metallic colour paint finishes are available as an option.

# Finance solutions.

Mercedes-Benz Financial Services.

**Our finance products include:**

- Agility (Guaranteed Future Value)
- Operating lease
- Asset-hire purchase
- Asset loan
- Finance lease
- Consumer Loan

## Agility Finance Programme.

Guarantee the future value of your vehicle.

**The benefits of Agility:**

- Enjoy peace of mind with the future value of your vehicle guaranteed by Mercedes-Benz<sup>+</sup>
- Stay in control with the flexibility to trade, retain or return at the end of the agreement<sup>^</sup>
- Benefit from the ability to increase your deposit or trade-in to reduce monthly repayments
- Available to both business and private customers<sup>^</sup>

For further information regarding finance solutions from Mercedes-Benz Financial please contact your authorised Mercedes-Benz Vans dealership or call 1300 730 200.

Mercedes-Benz Financial

# Insurance solutions.

Insurance solutions by Mercedes-Benz Financial Services.\*

**Mercedes-Benz Van Insurance features:**

- Customer choice of repairer
- Two year new vehicle replacement in the event of a total loss
- Original Mercedes-Benz genuine replacement parts
- Sign writing costs included
- Optional cover for hire car costs following an accident

**Finance GAP Insurance.**

In cases of 'total loss', Mercedes-Benz Finance GAP Insurance can help to cover the financial gap between the insured value of your vehicle and the total amount owed to your financier.

For further information regarding insurance solutions from Mercedes-Benz Financial please contact your authorised Mercedes-Benz Vans dealership or call 1300 730 200.

\*Guaranteed Future Value is subject to vehicle maintenance in accordance with the manufacturer's specification, Fair Wear and Tear conditions and Excess Kilometre charges calculated at \$0.15/km in excess of the agreed annual allowance. <sup>+</sup>Finance is restricted to approved customers of Mercedes-Benz Financial Services Australia Pty Ltd ABN 73 074 134 517, Australian credit licence 247271 and is subject to standard credit assessment and lending criteria. Please contact an authorised Mercedes-Benz dealer for further details (including vehicle eligibility). <sup>^</sup>Before purchasing any insurance products please refer to the Product Disclosure Statement and Policy Wording booklet for full terms and conditions. Mercedes-Benz Van Insurance provided on behalf of Allianz Australia Insurance Limited ABN 15 000 122 850, AFSL 234708 (Allianz). In arranging this insurance Global Transport & Automotive Insurance Solutions Pty Ltd ABN 93 069 048 255 AFSL 240714 (Global Transport) act as agents of Allianz, whereby Mercedes-Benz Financial Services Australia Pty Ltd ABN 73 074 134 517 AFSL 247271 (MBFS) and its authorised dealers act as agents of Global Transport and not as your agent. Finance GAP Cover is underwritten and issued on behalf of QBE Insurance (Australia) Limited ABN 78 003 191 035 AFSL 239545 and administered by MBFSAu.

## Servicing and repairs.

We're with you all the way.

Choosing the best people mover is an excellent start, but it's just the beginning. Making sure that your Mercedes-Benz people mover is working at the optimum level is critical. A Mercedes-Benz authorised workshop is staffed and equipped for excellence and will assist to keep your people mover operating as intended. Mercedes-Benz technicians complete training and retraining every year to ensure they are up-to-date with technology. Genuine Parts are available at every Mercedes-Benz workshop. Every Genuine Part has been tested to exacting standards for maximum reliability supported by a two year, and unlimited kilometre, warranty.

## You're covered.

On the road and off.

### Warranty.

Our comprehensive Mercedes-Benz Vans Warranty means peace of mind for three years or until the vehicle has travelled up to 200,000km, for new Mercedes-Benz Motorhomes purchased from authorised Mercedes-Benz dealers in Australia. You're covered for parts and labour charges incurred in rectifying a manufacturing defect relating to materials or workmanship.

### Roadside Assist.

In the unlikely event of needing assistance, all you have to do is call. Mercedes-Benz Van Road Care is designed to provide you with assistance in case of a breakdown anywhere in Australia - 24 hours a day, 365 days a year. Standard cover comes at no extra cost on a wide range of vehicles\* during the manufacturer warranty period and can be upgraded depending on your needs.

\*Please note, some vehicles are excluded from the Road Care program, please see the Road Care brochure for full terms and conditions. Upgrades to the standard Road Care package are available at additional cost.

## Service programmes.

Putting you in control.

### Service Plans.

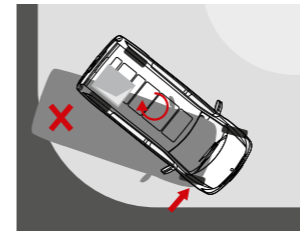

Our Service Plans are designed to protect your vehicle from unexpected operating costs. Through our Service Plans, the Mercedes-Benz authorised dealer network carries out maintenance and repairs according to an agreed schedule and pre-determined costs.

### Benefits include:

- Scheduled Servicing - A planned service and mechanical repair schedule
- Operational Reliability - Reduce the risk of vehicle downtime through regular scheduled servicing and repairs
- Nationwide Service - Programme is supported by a comprehensive network
- 24-Hour Emergency Contact - Vehicle support anytime, anywhere in Australia
- Available for up to five years - The program can be amended to reflect changes in the operation of your vehicle.
- Great Rates - Preferential rates on genuine parts and labour
- Flexibility - Choose from three levels of cover designed to suit your individual needs

# Safety features.

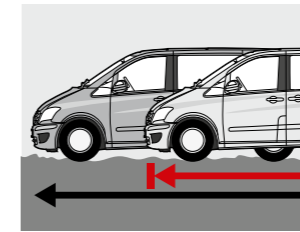

## ADAPTIVE ESP® Electronic Stability Program

ADAPTIVE ESP® is an innovative dynamic handling control system, which for the first time also takes the vehicle load into account. It actively intervenes in certain hazardous driving situations, e.g. if there is an imminent risk of skidding, by applying a braking force to one or more wheels and adjusting the engine output as required so as to help the driver deal with the hazardous situation. As well as aiding directional stability, ADAPTIVE ESP® combines the functions of the anti-lock braking system (ABS), acceleration skid control (ASR), electronic brake force distribution (EBD), Brake Assist (BAS) and the optional Start-off Assist system. The ESP® Trailer Stability Assist furthermore enhances driving safety when towing a trailer.

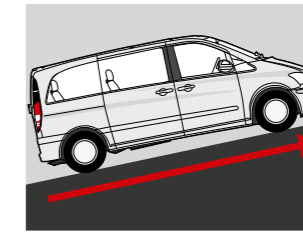

### Note:

ADAPTIVE ESP® can only act within the limits of the laws of physics. As a result, it cannot prevent skidding caused by aquaplaning, for example. If the driver exceeds these limits, even ADAPTIVE ESP® will not be able to prevent an accident.

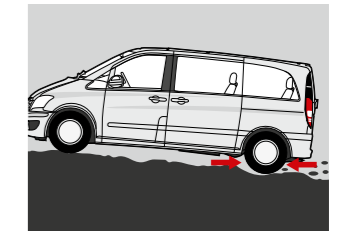

## Brake Assist (BAS)

In tests carried out in the driving simulator, our research engineers established that drivers do not apply the brakes vigorously enough during emergency braking. This finding led them to develop the Brake Assist system. From the speed at which the brake pedal is depressed, Brake Assist is able to detect a situation, which calls for emergency braking. In such cases, the system automatically increases the brake pressure, aided by the anti-lock braking system (ABS), which prevents the wheels from locking.

## Start-off Assist

Start-off Assist, which is integrated into the ESP® system and comes as standard on automatic models, allows hill starts to be performed with ease. After the brake pedal is released, the brake pressure is maintained for approximately two seconds, allowing the driver to move their foot from the brake pedal to the accelerator without having to worry about the vehicle starting to roll. Start-off Assist is activated on uphill slopes of approx. 4% or steeper. It is not activated when starting off on the flat or on a downhill slope.

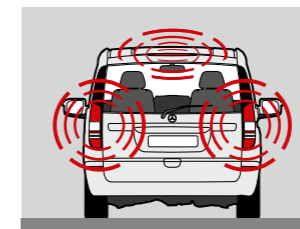

## Acceleration skid control (ASR)

At the first signs of wheel slip, that is to say if the rotational speed of one of the driven wheels suddenly increases, ASR reduces the engine power and also intervenes in the brake system to prevent prolonged wheel spin. ASR ensures smooth start-off and acceleration, without prolonged wheel spin or sideways drift. The result is improved traction and safety – particularly on split-friction or slippery surfaces.

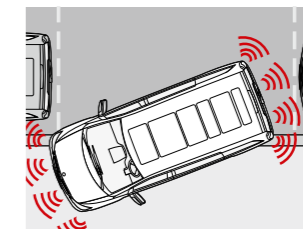

## ESP® Trailer Stability Assist

This system complements ADAPTIVE ESP® and improves driving safety when towing a trailer by strategically applying the wheel brakes on the towing vehicle and reducing the engine torque if the trailer starts to sway from side to side, thereby helping the driver to stabilise the vehicle/trailer combination. Where the system intervenes several times in succession, the braking force is increased each time, resulting in a noticeable drop in road speed.

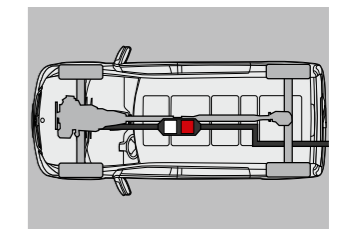

## Adaptive brake lights

The adaptive brake lights enhance active safety as they give a clearer signal when the vehicle is braked in an emergency. This is achieved by all the brake lights starting to flash in the event of emergency braking at speeds above 50 km/h, thus warning following traffic and shortening the reaction times of the drivers behind. If the vehicle is braked to a standstill from a speed of over 70 km/h, the hazard warning lights are activated automatically.

## PARKTRONIC

PARKTRONIC is a parking aid which assists the driver when parking or manoeuvring in confined spaces. Working on the same principle as sonar, the system automatically warns the driver of obstacles just in front of or behind the vehicle. The warning is provided initially in the form of a visual display in the centre of the instrument panel. When the distance to an obstacle falls below 35 cm, the audible warning is also activated, first intermittently and then as a continuous tone at a distance of about 20 cm.

## Diesel particulate filter

Particulate emissions per diesel car have been drastically lowered in recent years. Nonetheless, the constantly increasing number of diesel vehicles means that total emissions are too high and need to be reduced further. The diesel particulate filter from Mercedes-Benz is a breath of fresh air in this respect. It removes more than 95% of the particulates from the exhaust gases. At the same time a continuous regeneration process prevents the filter from becoming clogged – which means that no fuel additives are needed.

# Valente.

## Mercedes-Benz Technical Data

Engine	
No. of cylinders	4
Bore/stroke (mm)	83/99
Total displacement (cc)	2143
Rated output (kW @ rpm)	120kW @ 3800rpm
Max torque (Nm @ rpm)	360Nm @ 1600-2400rpm
Fuel supply	Common rail direct injection
Air Induction	Intercooled (2 stage) turbo chargers
Fuel tank capacity (L)	Approx. 75
Fuel consumption (L/100km) <sup>1</sup>	8.2
Emission (g/km)	216 (EU5)
Transmission	5 Speed Automatic
Drive Type	Rear Wheel
Front Suspension	Independent suspension; McPherson strut with stabiliser
Rear Suspension	Independent suspension; coil springs, semi-trailing arms
Weights & Capacities (kg)	
Kerb weight <sup>1</sup>	2155
Trailer load with brakes <sup>2</sup>	2000
Trailer load without brakes	750
Dimensions (mm)	
Length	5008
Width (body)	1901
Width (with door mirrors)	2253
Height	1875
Ground clearance	149
Sliding door opening (WxH)	985 x 1240
Tailgate opening (WxH)	1196 x 1220
Luggage compartment volume	730L
Interior height	1338
Other specification	
Seating	8
Turning circle (m)	11.8
Rim (inches)	7.0x17
Tyre profile	225/55 R17

1. Kerb weight - Includes 75kg Driver, spare wheel jack, tools, and all operating fluids and fuel tank 90% full. Weights are intended as a guide only. For accuracy the actual vehicle should always be weighed to determine the exact weight for the specification ordered. Weight tolerance of up to +5% in production, and additional weight of optional equipment must be taken into consideration. 2. 2000kg aggregate trailer mass with 200kg ball load.

## Standard equipment

Exterior Features	
Dark tinted windows in rear cabin with "pop-out" function for ventilation	•
Colour coded bumpers	•
17" alloy wheels with 225/55 R17 tyres	•
Electrically adjustable & heated mirrors	•
Dual sliding doors	•
Interior Features	
THERMOTRONIC - fully automatic dual zone climate control	•
Multifunction steering wheel (audio and phone controls)	•
Leather steering wheel	•
Front power windows	•
Remote central locking (programmable for individual settings)	•
Audio 20 sound system with 5-inch TFT colour display and telephone keypad	•
6 CD changer/player with AM/FM tuner and MP3/WMA compatibility	•
AUX interface	•
Bluetooth® handsfree system	•
Highline pixel matrix display	•
3 x 12V power sockets distributed throughout the vehicle	•
Full luxury headlining	•
Carpet flooring	•
Driver authorisation system with engine immobiliser	•
Lockable glovebox	•
Two storage trays and cupholder on dashboard	•
Auto dimming rear view mirror	•
Light and rain sensor	•
Park brake warning buzzer	•
Tailgate grab strap	•
Front and rear storage compartments	•
Front and rear cupholders	•
Illuminated vanity mirror	•
Dashboard mounted gearshift lever	•
Illuminated exits	•
Interior panelling	•
Outside temperature gauge	•
Lumbar support (front seats)	•
Ruffled backrest pockets	•
Comfort driver and front passenger with adjustment capabilities, including lumbar support	•
Luxury head restraints on Comfort driver and front passenger seats	•
Quick release system allowing rear seats to be removed	•
Two luxury 3 seat benches in rear	•
Bench seats with folding capability	•
Overhead reading lamps	•
Warm/cool air ducts to rear	•
Black tinted windows after B-pillar	•

Safety Features	
4 seats with child anchor point tethers and ISOFIX anchor points	•
5 Star ANCAP safety rating	•
Adaptive electronic stability program (ESP®) with ABS, ASR, BAS, EBD, ROM, LAC, RMI, EUC	•
Driver and front passenger dual airbags	•
Thorax airbags	•
Window airbags	•
Four wheel disc brakes	•
Height adjustable head restraints	•
3-point inertia reel seat belts with pre-tensioners (front only)	•
Height adjustable front seat belts	•
Front and rear brake pad wear indicators	•
Height and reach adjustable steering column	•
Rear centre stop light	•
Adaptive brake light	•
Headlight beam range control	•
Halogen front and rear fog lamps	•
Child safety locks	•
Seat belt warning signal	•
Illuminated exits	•

## Optional Equipment

Features	
Dual electric sliding doors (RHS and LHS)	◦
Metallic and non-metallic paint	◦
Vehicle alarm system	◦
Bi-Xenon headlights, LED daytime driving lights (Includes headlight cleaning system)	◦
Window tinting	◦
Insert Sunroof (Front and Rear)	◦
COMAND APS (Satellite Navigation with Reversing Camera)	◦

• Standard Equipment ◦ Optional Equipment

IMPORTANT! This brochure has been compiled by Mercedes-Benz Australia/Pacific Pty Ltd to provide a general indication of the models available in Australia. Some of the features, optional extras and/or colours shown may not be available in Australia or may only be available in a different specification. Additionally, some models, features, optional extras and/or colours may only be available in combination with others. Some equipment depicted either on vehicle illustrations or separately may be non standard or options may, where applicable, be available at an additional cost. For current information on the availability, design features and prices of all models, features, optional extras and/or colours available in Australia, you should contact your authorised Mercedes-Benz Dealer at [www.mercedes-benz.com.au/dealers](http://www.mercedes-benz.com.au/dealers) or go to [www.mercedes-benz.com.au/vans](http://www.mercedes-benz.com.au/vans)

All of the information contained in this brochure was correct as at April 2014. However, the manufacturer reserves the right to discontinue, make changes to design and specifications to vehicles or optional equipment without notice.
