

Mercedes-Benz

# Vito Wagon

2010 Model Range

## The Vito Wagon. Now you can upgrade everyone to business class.

Moving people safely and in style is where the Mercedes-Benz Vito Wagon excels. With the flexibility to transport up to nine passengers\* in superior comfort, the Vito Wagon also brings another level of versatility to the people-mover segment. Best of all, because it's a Mercedes-Benz, quality and reliability is a given.

**Talented all-rounder.** Inside, the cabin boasts a range of creature comforts. Storage compartments, front and rear air conditioning, front power windows, vanity mirrors and a full headlining bring practicality and purpose to the business of moving people around.

Excellent interior appointments and ride comfort are assured every time – two key aspects that your passengers are bound to appreciate. With up to nine seats as an option,\* the interior space is very passenger-friendly.

The Vito Wagon lends itself to a wide range of uses. With its flexible seating concept, the Vito Wagon's rear seats fold forward or are removable. Allowing the spacious passenger accommodation to be transformed, for those times when you need more space.

\*Nine seats optionally available at extra cost with three front seats.

Nine seats optionally available with three front seats.\*

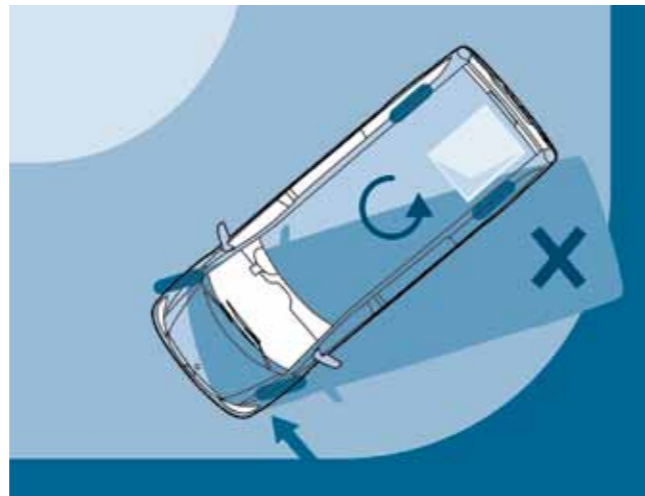

The back row of seats can be removed to create more luggage space.

Or both rear rows of seats can be removed creating even greater luggage space.

## When it comes to Safety, it's no option.

To our way of thinking, there's nothing more important than safety. That's been the Mercedes-Benz way, right from the beginning. Our vehicles are designed to meet high standards of practicality and economy, but this is always combined with driver and passenger safety.

**Safety: Our key design principle.** Because the Vito Wagon is built by Mercedes-Benz, you get the benefits of over 100 years of innovations and leadership in the area of vehicle safety. With its wealth of safety features, the Vito Wagon meets the highest van standards of active and passive safety.

We were the first to equip our vans with comprehensive safety features such as ADAPTIVE ESP® (Electronic Stability Program). This system which combines anti-lock braking (ABS), in conjunction with acceleration skid control (ASR); electronic brake force distribution (EBD) and a brake assist system (BAS) assist in greatly improving directional stability and traction in critical situations.

Working in conjunction with the Vito Wagon's powerful brake system, ABS, BAS and EBD assists in keeping your stopping distances short, helping to ensure that the vehicle remains easy to control, even during emergency braking.

Additional safety features that come standard in the Vito Wagon include:

- 3 point seat belts, with pretensioners for the driver and front passenger\*
- Driver and passenger airbags
- Four wheel disc brakes
- Safety body with high-strength load-bearing members
- Height adjustable head restraints
- Seat belt warning signal
- Rear centre stop light
- Front and rear brake pad wear indicators
- Child safety locks

\*Seat belt pretensioner not available for front centre passenger in conjunction with 9 seat option.

## Get a better grip on the road.

Technological refinement and clever engineering have made the Vito Wagon a driver's machine. For our engineers, the measuring stick isn't other vans, it's our own passenger cars. You'll understand what we mean once you've discovered how the Vito Wagon delivers. Right from your very first drive, every time you accelerate out of a bend, move off from traffic lights or join a freeway.

**CDI Engines: Dynamic and powerful.** The second generation common-rail direct injection (CDI) diesel technology employed in the Vito Wagon, delivers 110kW (150hp) and 330Nm giving you the best of both worlds: high performance and low fuel consumption.

In the all-important low-rev range, the CDI diesel powerplant offers a degree of pulling power that makes for an engaging driving experience. The Vito Wagon owes its high power output and impressive torque curve to the very latest engine architecture.

The CDI diesel technology features four valves per cylinder, a 1600 bar injection system and an exhaust turbocharger with a variable nozzle turbine. Good fuel economy figures complement the enhanced power and performance created by the engine.

The electronic immobiliser, which is standard equipment, acts directly on this control unit to help prevent unauthorized starting of the vehicle.

## Standard features.

Every Vito Wagon is equipped with a high list of standard features. Here are just a few.

### 5 Speed fully automatic transmission

5 speed automatic offers smoothness and well-spaced ratios.

### Driver and passenger airbags

When triggered, the airbags deploy within fractions of a second and in conjunction with the seat belt pretensioners, helps to provide a high level of protection.

### ADAPTIVE ESP®

The ADAPTIVE ESP® (Electronic Stability Program) helps ensure your vehicle remains steady and on course, even when the road surface changes.

### Dual air conditioning with rear controls

Enables a more agreeable climate throughout the vehicle with evenly distributed air throughout the rear section. Dehumidification helps to prevent fogging in cold, damp weather.

### Cruise control with SPEEDTRONIC

Cruise control allows the driver to set a desired cruising speed. SPEEDTRONIC helps to assist the driver in adhering to speed limits by setting a maximum speed.

### Windows all round, pop out in the rear for ventilation

Assists in giving driver better visibility when manoeuvring the vehicle. Allows more light and ventilation into passenger compartment.

### Adjustable steering wheel

The steering wheel is adjustable for both height and reach. This helps ensure the most comfortable position can be achieved by drivers.

## Optional features.

Personalise your Vito Wagon to suit your needs. Some of the many options available are shown below.

### PARKTRONIC\*

A highly advanced system that helps make parking even easier. Visual and audio warnings are provided upon detection of obstacles at the front and rear of the vehicle.

\*not in conjunction with comfort passenger bench seat.

### Luxury driver & passenger bench seat

Enables the Wagon to seat up to 9 passengers.

### Thorax airbag\*

In conjunction with a fastened seat belt, the thorax bag helps to aid the reduction of torso injuries to the driver and co-driver in the event of a serious accident involving a side impact.

\*not in conjunction with comfort passenger bench seat.

### Alloy wheels

16 or 17 inch light alloy wheels (16 inch wheel shown).

### Colour coding

The front and rear bumpers and side strips are painted in the body colour helping to enhance the vehicles overall appearance.

### Electric tilting/sliding glass sun roof

Allows hot or stale air to exit the vehicle quickly and speeds air circulation. In adverse weather conditions, it can be tilted up, to provide continued ventilation. The sunblind can be used to help protect against direct sunlight.

### Dual electric sliding doors

Automatic, quiet opening/closing of the sliding passenger compartment doors without jolting or jarring. Allows opening from a short distance, e.g. for rapid access in wet weather or when carrying packages by simply pressing a button on the key.

All options available at extra cost.

## Efficiency on the road, plus peace of mind.

Cost-efficiency is essential when looking at a new vehicle, it's not just the purchase price that you need to consider but everything else that comes after it. That's why our engineers have given particular attention to those aspects of the vehicle that affect your hip pocket: like reliability, long service life and an engine that combines fuel economy with ample power reserves.

### Servicing.

There is nothing better than the feeling of a brand new Mercedes-Benz. And a Mercedes-Benz service helps to keep your vehicle running like new. Factory-trained technicians, with the resources and backing of Mercedes-Benz, have the tools, the knowledge and the dedication needed for your Vito Wagon.

A feature of the Vito Wagon is the CDI diesel engine, which owes its outstanding cost-efficiency to the low fuel consumption, long service life and long service intervals. The engine oil needs changing every 22,000km or every 12 months.

### Warranty.

To make you feel more comfortable, the Vito Wagon has a Mercedes-Benz factory-backed warranty for 3 years or 200,000km - whichever comes first.

### Dealer network.

With a national dealership network in over 60 locations around the country, you can hit the road with confidence, knowing you're never too far from Mercedes-Benz trained technicians and factory-approved spare parts.

### Roadside assist.

In the unlikely event of needing assistance, all you have to do is call. And because we have a nation-wide dealer network, help is never far away. Mercedes-Benz Van Road Care is designed to provide you with assistance in case of a breakdown anywhere in Australia - 24 hours a day, 365 days a year. The standard Mercedes-Benz Van Road Care is available to the owner at no additional cost for the duration of the manufacturer's warranty period and can be upgraded depending on your needs.

Vehicles shown may have non-standard options and colours available at extra cost. \*Please note, some vehicles are excluded, please see Road Care brochure for full terms and conditions. Upgrades to the standard Road Care package are available at additional cost.

## Paintwork

arctic white (9147)

dark violet (4513)

mellite yellow (1247)

aqua green (6830)

atlantis blue (5373)

velvet red (3583)

magma red (3586)

broom yellow (1212)

obsidian black metallic\* (9197)

brilliant silver metallic\* (9744)

jasper blue metallic\* (5345)

amber red metallic\* (3548)

cubanite silver metallic\* (9723)

lugano grey metallic\* (7735)

The colours depicted here are as close as the printing process allows us. Please contact your dealer for colour samples.

Standard van colour is white. \*Metallic and matte colour paint finishes available as options at extra cost.

# Standard Equipment

## Standard Exterior Features

Dual sliding doors	•
Electrically adjustable & heated mirrors	•
Integrated windscreen washer nozzle on wipers	•
Heated rear window with washing/wiper	•
4 Fixed left and right rear windows	•
Full wheel covers	•
Mudflaps - rear	•

## Standard Interior Features

Air conditioning	•
Rear air conditioning with rear controls	•
Power front windows	•
Manual rear vent windows	•
Power steering	•
Cruise Control with SPEEDTRONIC - variable speed limiter	•
Remote central locking	•
Driver authorisation system including engine immobiliser	•

Stylish cloth upholstery	•
Single CD with RDS AM/FM tuner (mute function)	•
AUX interface 3.5mm jack plug	•
8 x 2 way speaker system - tweeter and woofer	•
4-way adjustable driver and passenger seat	•
Heater/demister plus five blower settings	•
Large door pockets on driver and passenger side	•
2 speed wipers plus intermittent function	•
Lights-on warning buzzer	•
Passenger side grab handle	•
Tailgate grab strap	•
Park brake warning buzzer	•
Interior panelling	•
Outside temperature gauge	•
Luxury roof trim	•
Luxury driver & passenger seats	•
Lumbar support (front seats)	•
Two luxury 3 seat benches in rear	•
Ruffled backrest pockets	•
Quick-Fit system allowing rear seats to be removed	•
Overhead reading lamps	•
12V plugs in rear	•
Front and rear cup holders	•
Underfoamed plastic floor	•
Illuminated vanity mirrors	•
Luxury rear folding seats	•
Warm air-duct to rear	•

## Standard Safety Features

Adaptive electronic stability program (ESP) with ABS, ASR, BAS, EBD, ROM, LAC, RMI, USC	•
Driver & front passenger airbags	•
Four wheel disc brakes	•
Height adjustable head restraints	•
3-point inertia reel seat belts with pretensioners	•
Height adjustable front seat belts	•
Front and rear brake pad wear indicators	•
Height & reach adjustable steering column	•
Rear centre stop light	•
Adaptive brake light	•
Headlight beam range control	•
Halogen front and rear fog lamps	•
Child safety locks	•
Seat belt warning signal	•

# Optional Equipment

## Features

Electric sliding doors	◦
16" alloy rims	◦
17" alloy rims	◦
Front window airbags	◦
Thorax airbags	◦
Metallic paint	◦
Colour coded bumpers	◦
9 - seat version (3 seats across front)	◦
PARKTRONIC	◦
Vehicle alarm system	◦
Light and rain sensor	◦
Sunroof	◦
Roof rails	◦
Sliding windows in rear side doors	◦
Multifunction steering wheel	◦

# Mercedes-Benz Technical Data

Engine Specification	
Model	Vito 115 CDI
Body Style	Long
Engine	Diesel 2-stage Turbocharged & Intercooled
No. of cylinders	4/in line
Bore/stroke (mm)	88.0/88.3
Total displacement (cc)	2148
Rated output (kW @ rpm)	110kW @ 3800rpm
Max torque (Nm @ rpm)	330Nm @ 1800-2400rpm
Fuel supply	Electronically Controlled Direct Injection with Common Rail (CDI)
Fuel tank capacity (litres)	Approx. 75
Fuel consumption <sup>1</sup> (litres/100km)	8.6
Transmission	
Type	5 Speed Automatic
Drive	Rear Wheel
Weights & Capacities (kg)	
Unladen weight <sup>2</sup>	1910
Gross vehicle mass (GVM)	2940
Trailer load with brakes <sup>3</sup>	2000
Trailer load without brakes <sup>3</sup>	750
Dimensions (mm)	
Wheelbase	3200
Length	4993
Width	1901
Height	1875
Sliding door opening (WxH)	985 x 1240
Tailgate opening (WxH)	1396 x 1220
Luggage compartment (mm)	
Luggage compartment length	516
Only with 1 passenger seat row	1482
Luggage compartment width	1196
Interior height	1338
Luggage compartment volume litres	
With full complement of seats	730
Only with 1 passenger seat row	3160
Other Specification	
Seating standard/optional	8/9 seats (optional front bench seat)
Turning circle (m)	11.8
Rear axle ratio	3.273
Rim (inches)	6.5Jx16
Tyre profile	205/65 R16

1/ The above fuel consumptions are in accordance with ADR 81/01 under the Motor Vehicles Standard Act 1989. 2/ Unladen tare weight of vehicle, including spare wheel, jack, tools and 10 litres fuel. Weight are intended as a guide only. For accuracy the actual vehicle should always be weighed to determine the exact tare weight for the specification ordered. Weight tolerance of up to +5% in production and additional weight of optional equipment must be taken into consideration. 3/ Maximum towing capacities depend on individual state legislation.
