# MICRA

SHIFT the way you move

The new Nissan Micra is the car that's in sync with the city. It's as skilful zipping you through crowded streets as it is getting you into the smallest of parking spots. At the same time, Micra is packed with plenty of features to make getting around more fun than ever. The Nissan Micra will shift your urban experience; it will shift your enjoyment of travel; it will **shift the way you move.**

ARTHUR'S

MICRA

**The Nissan Micra is the city specialist.** It's light and nimble enough to get you through the traffic with ease. There's a choice of two very responsive and efficient engines: a 1.2 litre engine on the ST or a 1.5 litre engine on the ST-L and Ti models. Plus a choice of either manual or automatic transmissions across the range. You'll also appreciate the smallest turning circle in its class when you're navigating those tight city lanes.

Glasgow Green Ti and Monaco Platinum Ti with optional rear spoiler

Space may be a precious commodity in the city but there's plenty of it inside the Nissan Micra. At the same time, **Micra's compact exterior** means you'll slide easily into just about any parking spot. To make it even simpler, the Micra features reverse parking sensors\* so you'll know

how close you are to the car you're backing towards. Also convenient is the fact that every Micra comes with five doors as standard so your friends can get in and out without feeling like they've just run an obstacle course.

\*Standard on the Ti, optional on the ST and ST-L.

Prague Nightshade Ti

MOVING  
SALE

The new Nissan Micra has more than just a contemporary appearance; it boasts some of the most innovative features of any car in its class. The Intelligent Key on the Ti model can stay in your pocket or bag while you open the doors and start the engine.

**The Bluetooth<sup>®</sup> handsfree phone system** allows you to connect your phone to the car's audio system so you can chat on the phone legally and safely. The MP3 player input will let you play all the favourite music on your iPod<sup>®</sup> through Micra's stereo system.

<sup>^</sup>iPod is a registered trade mark of Apple Inc.

In fact, this car is so advanced, it'll even remind you of someone's birthday or an anniversary – just program important dates into the **drive computer**. You can also check average and current fuel consumption to make sure you're getting the most out of Micra's very efficient engine.

**The automatic headlights<sup>\*</sup>** take care of themselves by turning on whenever the ambient light gets low. And just to prove that we've thought of everything – when you lock the doors on the Ti model, the car's exterior mirrors can fold in automatically, keeping them out of harm's way.

<sup>\*</sup>ST-L and Ti models only.

Inside, the interior has been designed to provide you and your passengers with the ultimate in comfort. The high roof design gives everyone plenty of headroom, even in the rear seats. It's also full of clever storage solutions including a **three-tier storage system** with large glovebox. The Ti model also features a front passenger seat bag holder so your handbag, takeaway food or bottle of wine won't go skidding around the floor as you navigate a sharp city corner. Meanwhile, the excellent visibility offered by the Micra allows you to see all corners of the car so both driving and parking are simpler and safer.

Although compact, the new Micra also surprises when it comes to luggage space. Its very large boot carries plenty, and can be made even more spacious by just utilising the **60/40 split fold rear seats**. The removable luggage cover also keeps things hidden from prying eyes.

Nissan has introduced **Blue Citizenship**, a new way for us to look at our business. Blue Citizenship involves contributing to communities, promoting diversity, delivering mobility to more people all over the world and helping to protect the environment. Developing vehicles which produce low emissions is a priority and the Micra ST manual model's **low emission levels** have led it to achieving a 5 star Green Vehicle Guide rating. Meanwhile, its light weight and smooth aerodynamics mean the new Micra offers excellent fuel efficiency. The ST manual achieves impressive fuel consumption of just 5.9l/100km\*. At Nissan we believe that a new car is just the beginning, introducing **myNissan** – our comprehensive owner support program.

It includes a 3 year/100,000km warranty as well as our 3 year 24 hour roadside assistance to help get you back on the road at no charge. Nissan's **myNissan iPhone app** lets you request roadside assistance plus set registration, service and parking expiry reminders. Nissan also offers a variety of Nissan Genuine Accessories to protect, personalise and enhance your Micra. **Nissan Financial Services** can provide approved applicants with affordable repayment options and insurance products personalised to your needs, we can assist in finding your ideal finance and insurance solution.

Barcelona Red ST

\*Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.

Amsterdam Orange Ti with optional rear spoiler

Voltaire

Nissan's Safety Shield® concept is an advanced, proactive approach to vehicle safety that operates on three tiers. Firstly, the Micra's excellent level of visibility, combined with powerful halogen headlights, helps you to identify and avoid potential hazards. Secondly, a variety of systems aid you in maintaining control in emergency situations. **Vehicle Dynamic Control (VDC)**, helps stabilise the vehicle if you suddenly over or understeer when trying to avoid a collision while the Anti-lock Braking System, Electronic Brakeforce Distribution and Brake Assist, work together to avoid skidding and wheel-lock when braking suddenly. Finally, in the event of a collision, Micra's zone body construction and a total of six airbags – dual front, side and curtain – create a protective cocoon to keep you and your passengers safe.
