NISSAN PATROL Y61

STAY TRUE TO YOUR ROOTS

Today, what's affectionately known as 'the serious 4WD', maintains its legendary status as the 4x4 with heaps of grunt, loads of power and plenty of comfort that's in danger of offending the purists. One thing's for sure, once you've driven the Nissan Patrol Y61, you'll understand what fans get so worked up about. From being the first vehicle to make it across the Simpson Desert in 1962, to the countless life changing journeys it's given to so many, the Nissan Patrol Y61 is fiercely loved by all who've experienced it. What are you waiting for?

ST in Platinum.

ST in Polar White.

THE 4WD THAT'S UP FOR ANYTHING

Every Nissan Patrol Y61 is powered by a 3.0 litre common rail intercooled turbo-diesel engine, with a gutsy 118kW to give you a high level of torque that's accessible across the rev range. At the flick of a switch you can engage the rear differential lock to tackle even the toughest traction situations; locking both rear wheels to turn in unison, making you master of your domain. With a strong engine, an incredible ride height, changeable 4x4 modes and one of the toughest diffs around, the Nissan Patrol Y61 is just about the most fun you can have on dry, or wet, land. You can shift from 2WD to 4WD on the go, with locking front hubs on the ST model that engages automatically. Front and rear telescopic shock absorbers with a stabiliser bar keep cornering smooth, and heavy duty coil springs give you all-terrain suspension for durability and comfort when the going gets rough. The dual-range transfer gearbox helps you stay in control with a high or low range ratio, low giving you more command in demanding terrain. And if you really need to haul, manual transmission models give you a very impressive 3,200kg braked towing capacity,* so you can take on just about anything. Who's up for it?

*Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of any accessories or towing equipment limitations including the maximum towball download.

ST in Platinum.

BUILT SAFER SO YOU CAN GO HARDER

It's not such a far stretch to say the Nissan Patrol Y61 is built like a tank. A solid steel body (built on a separate ladder chassis), with high strength cabin reinforcement and energy absorbing side structures to protect you when the outside tries to come in. All models come with front driver and passenger SRS airbags, as well as driver and front passenger side-impact SRS airbags.

Standard across the range is Anti-lock Braking System (ABS), to prevent wheel lock up when braking and help you maintain steering control. The system even has a gravel sensor that detects the ground surface and adjusts itself accordingly. You also get Vehicle Dynamic Control (VDC) which senses both under and oversteer, and reduces engine power or increases brake power to help you stay on the straight and narrow. When things get a little slippery the Active Brake Limited Slip (ABLS) works to apply individual brake force to the wheel losing traction to help slow it down. Power is then redirected to the wheels with greater traction. On top of this, Brake Assist (BA) senses emergency braking and automatically helps to apply maximum braking pressure if needed. Wherever you're headed, it'll look after you.

ST in Platinum. Hard wheel cover optional.

A detailed view of the interior of a Nissan X-terra SUV. The dashboard is dark grey with a central infotainment screen displaying 'CH6 107.5'. Below the screen are climate controls with three circular dials. The steering wheel is black with a silver Nissan logo and 'X-TERRA' text. The gear shift is black with a silver knob. The passenger seat is visible on the right. The background shows a bright, hazy outdoor scene through the windshield.

THE INTERIOR HINTERLAND

You might like to rough it on the outside, but on the inside a few creature comforts and smart gadgets never go astray. All models have a keyless entry system and a leather accented* 4-spoke steering wheel, with a leather accented* shift lever in the ST. Keep your hands on the wheel with handsfree Bluetooth® which you can link your compatible phone to, and be entertained with an AM/FM radio, CD player and iPod® connectivity through a USB port.

The ST model gives you a 6 stack in-dash CD player, rear air-conditioning (cooling only) and loads of passenger and storage possibilities with 7 seats. In fact, the split-folding middle row seating and side-folding third row enables you to fit just about anything. All models feature heaps of convenient storage to stash all the stuff you need to head out into the sunburnt country.

*Leather accented feature and upholstery may contain synthetic material.

DX Features

ST Features

- 3.0 litre intercooled common rail turbo-diesel engine
- 5-speed manual transmission or 4-speed automatic transmission
- Single CD player with AM/FM radio
- iPod^ connectivity via USB connection
- Bluetooth® handsfree phone system
- Cruise control
- Front air-conditioning
- Driver and front passenger front and side-impact SRS airbags
- Woven fabric interior seat trim
- Keyless entry
- Engine immobiliser
- Manual free wheeling hubs
- Main and sub fuel tank
- 5 seat capacity
- Rear Differential Lock
- Vehicle Dynamic Control (VDC)
- Anti-lock Braking System (ABS) with gravel sensor
- Active Brake Limited Slip (ABLS)
- Brake Assist (BA)
- Black over-fender flares
- Steel wheels
- Vinyl floor trim

^iPod is registered trademark of Apple Inc.

All the features of the DX model plus/or:

- 7 seat versatility
- Moquette interior seat trim
- 6 stack CD player with AM/FM radio
- Front and rear air-conditioning
- 17" alloy wheels
- Auto locking free wheeling hubs
- Drivers seat height and lumbar adjustment
- Side-folding third row bench seats
- Side steps
- Power windows with driver auto up/down
- Front fog lights
- Rear glass antenna
- Body coloured bumpers and over-fender flares
- Carpet floor trim

Minor trim variations may occur from time to time.
Nissan Patrol Y61 ST model shown. In some cases the printed colours may vary from the actual paint colours. ^Indicates a premium paint, which is available at extra cost. *Not available on DX models.

Towball download	Vehicle Mass
200kgs	GVM (all models)
250kgs	Reduce loaded vehicle mass below GVM** by 150kgs
300kgs	Reduce loaded vehicle mass below GVM** by 220kgs
350kgs	Reduce loaded vehicle mass below GVM** by 290kgs

If the loaded vehicle mass is reduced as shown in the table, the towball download can be increased correspondingly. Accordingly, if the laden mass is 290kgs less than the GVM, a towball download of 350kgs is approved. Different trailer types and different trailer manufacturers have varying towball downloads. The customer will need to contact the trailer manufacturer for information as to the download. Nissan is not able to make any recommendation on the use or suitability of load-levelling or weight distribution devices to be fitted to the vehicle. Customers should contact the manufacturers of these devices for further information.

^{*} Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.
^{**}GVM = Gross Vehicle Mass. GVM includes the driver, passengers, full fuel tank and luggage.
[†] Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non genuine Nissan towbar is fitted. The permitted download is directly related to the laden mass of vehicle. At the maximum laden mass of the vehicle (Gross Vehicle Mass - GVM**) the maximum towball download is 200kgs.
^a iPod is a registered trade mark of Apple Inc.
[~]Leather accented feature and upholstery may contain synthetic material.
[™] Applies to the first 12x10,000kms scheduled service intervals for up to 6 years/120,000kms (whichever occurs first). Some exclusions apply. Ask your Nissan Dealer or visit nissan.com.au/cpstes for full terms and conditions.
