PATROL

THE ALL-NEW NISSAN PATROL

THE NEXT GREAT ADVANCE IN 4X4 HISTORY IS HERE.

For decade upon decade the Nissan Patrol has etched its way into the Australian psyche, through incredible versatility, capability, performance and an iconic ruggedness that to this day remains unparalleled. With such a strong foundation to build upon, the all-new Nissan Patrol brings this off-roading juggernaut into the modern day and beyond, carrying with it not only a reputation but a refinement that has to be experienced to be understood, let alone believed. Make no mistake; the all-new Nissan Patrol is the most powerful and most technologically advanced 4x4 in its class. With modern lines, innovative safety features, ground breaking technologies, unimaginable comforts and more, the all-new Nissan Patrol brings sophistication and capability to a whole new level. Ladies and gentlemen, the bar has been raised.

Ti-L model in Black Obsidian.

BEYOND POWER

A new VK56VD 5.6 litre V8 Direct Injection Gasoline (DIG) engine gives the all-new Nissan Patrol, the power to overcome, damn near anything. The engine features Variable Valve Event and Lift (VVEL) technology and is capable of delivering 298kW of power and a beyond exceptional 560Nm of torque. 90% of that torque is delivered at 1,600 rpm courtesy of exceptional low-end torque. 3,500kg of braked towing capacity delivers unrivalled practicality to the driver. A seven-speed automatic transmission ensures that the raw power of this incredible engine is put to good use. This new engine, while the most powerful in its class, is also remarkably fuel-efficient compared to its predecessors, proving this 4x4 not only works harder but smarter.

Ti-L model in Titanium.

OFF-ROAD CAPABILITY

The all-new Nissan Patrol brings with it the technology, design and forethought needed to tackle almost any terrain. For instance the All MODE 4x4 technology allows the driver to switch between a range of different modes, including sand, on-road, rock and snow with the push of a button. Hill Start Assist and Hill Descent Control systems give the driver the utmost confidence to take the road less travelled. When that road gets that much tougher, the driver can engage the rear differential lock with the push of a button. When it comes to the all-new Nissan Patrol, capability is everything.

ON ROAD. Get the most out of your on road experience.

SAND. Tackle sandy conditions with ease and confidence.

SNOW. Snow is no match for the all-new Patrol.

ROCK. Adjust throttle characteristics to crawl over rocks with ease.

HILL DESCENT CONTROL. Ensure you command the downhill rather than the other way around with the advanced Hill Descent Control and do it all with the simple push of a button.

REAR DIFFERENTIAL LOCK. The rear diff lock allows you to gain traction in even the toughest conditions with the simple push of a button.

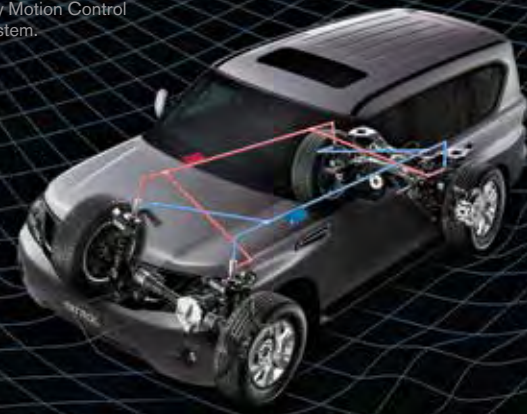

4H. Stay on track despite the best efforts of slippery surfaces.

4L. Soft surfaces, mud, steep inclines, the all-new Patrol can do it all.

Hydraulic Body Motion Control suspension system.

HYDRAULIC BODY MOTION CONTROL MAKES ALL THE DIFFERENCE

A new Hydraulic Body Motion Control (HBMC) suspension system (Ti & Ti-L models only) has been implemented to ensure remarkably low body roll when powering through corners and provides better traction through rough terrain. HBMC plays both the role of shock absorbers and stabiliser bars and allows for full wheel travel, meaning your wheels will stay firmly on the ground when you're off the beaten track. The HBMC system provides this balance and superior cornering by monitoring force and then distributing pressure to either the outer or inner double wishbone suspension system. This HBMC system delivers a smoother ride, safer cornering and overall enhanced stability.

Ti model in Desert Dune.

REFINING SAFETY ACROSS THE RANGE

The all-new Nissan Patrol range takes safety to a whole new level. By no mistake the Nissan Patrol is a large and robust vehicle. To ensure you are able to get out and about without any doubt, front and rear parking sensors with rear camera will get you out of tight spots and back on the road in no time whilst also keeping everyone around you safe and out of harms way. In addition to this, Vehicle Dynamic Control (VDC) and Anti-lock Braking System (ABS) will keep you in control of the vehicle at all times. When engaged, VDC will ensure you maintain your intended path during emergency situations by applying individual braking pressure to each wheel in conjunction with the engine's ability to automatically reduce power. For maximum safety the Nissan Patrol, across the range, employs driver and front passenger front and side SRS airbags as well as curtain air bags.

NEXT LEVEL SAFETY IN THE NISSAN PATROL

A huge array of groundbreaking technologies have led to the Nissan Patrol being amongst the safest vehicles in its class. Technologies within the top of the line Ti-L model includes Intelligent Cruise Control, Tyre Pressure Monitoring System, Forward Collision Warning, Lane Departure Warning and Prevention and more.

Around View Monitor.

The Around View Monitor[^] in the Nissan Patrol Ti-L model allows drivers to get in and out of tight spots with ease by providing a simulated bird's eye view directly on screen.

Forward Collision Warning system.

Also found within the Nissan Patrol Ti-L model is the Forward Collision Warning system (FCW). Using a front distance sensor, FCW will detect the risk of a forward collision and inform the driver with an alarm and an indicator to brake. When the system judges that a collision cannot be prevented, Intelligent Brake Assist (IBA) is activated to assist the driver reduce the rear-end collision speed by applying the brakes.

An incredibly innovative Blind Spot Warning and Intervention system detects vehicles in your blind spot and alerts you via an audible alarm. If for instance you continue to change lanes and the car in your blind spot also continues to proceed, the system will initiate, gently braking one side of the vehicle, bringing your vehicle back to your original lane position, well out of harms way.

Blind Spot Warning and Intervention system.

[^]AVM is a driver's aid only. It cannot completely cover blind spots, and may not detect moving objects. Always check surroundings before moving vehicle.

Ti-L model centre cool box.

REIMAGINING THE LOOK AND FEEL OF THE PATROL

To release a vehicle as advanced as the all-new Nissan Patrol without reimagining the aesthetic and design would be almost unforgivable. To bring the Nissan Patrol into the future, modern, sophisticated, refined and as some may put it, luxurious stylings play a major part in the grand design. From modern lines, chrome door handles, black leather accented trim (Ti and Ti-L models only), sleek polished metal fittings and the ability to seat 7 in the Ti-L model, up to 8 in the ST-L and Ti models through a range of various configurations, the all-new Nissan Patrol plays a dual role as both the beauty and the beast.

Ti-L model 8" integrated colour display with touch screen.

18" alloy wheels.

Ti-L model in Brilliant Silver.

INNOVATION AT EVERY TURN

Innovative technologies launch the all-new Nissan Patrol firmly into the new age. Technologies that include the practical, the useful and the almost indulgent. Technologies such as the Satellite Navigation System (Ti-L model only), Bluetooth® connectivity, 7-inch multi-format screens in the second row (Ti-L model only), front DVD player, front 8-inch screen (Ti-L model only), push button start, climate control, music hard drive, Intelligent Key keyless entry system and more.

8 INCH SCREEN. See it all with the 8" centre display in the Ti-L model Nissan Patrol.

SAT NAV. Stay on track even when you're off the beaten path.

DVD PLAYER. A multi format DVD player will ensure you're entertained whenever and wherever you go.

SECOND ROW DVD SCREENS. A 7" Multi Screen entertainment system will keep all second row passengers firmly glued to their seats in the Ti-L model.

BLUETOOTH®. Stay connected with the Bluetooth® capabilities in the all-new Nissan Patrol.

INSTRUMENT PANEL. The fine vision instrument display provides all of the driver's information needs in a stylish way.

my nissan

A complete ownership experience to help you get the most out of your Nissan. It includes the following:

3 YEAR/100,000KM WARRANTY.

Receive assurance with a 3 year/100,000km warranty with the option of extending it further for up to 6 years.

24-HOUR ROADSIDE ASSISTANCE FOR 3 YEARS.

No matter where you're planning to journey, you'll have the peace of mind of knowing that if you lock your keys in the car, have a flat tyre or battery, or run out of fuel, we'll help get you back on the road at no charge.[^]

CAPPED PRICE SERVICE.

For 6 years or 120,000kms* you'll always know the maximum price you'll pay when you come in for your next Scheduled Service at any Nissan Dealer.

FACTORY-TRAINED TECHNICIANS.

Using dedicated diagnostic equipment and Nissan Genuine Parts they'll keep your vehicle in top condition.

NISSAN GENUINE ACCESSORIES.

Your Nissan Dealer can show you a variety of Nissan genuine Accessories to protect, enhance and personalise your Nissan Patrol.

FINANCIAL SERVICES.

Choose from a range of finance options at very competitive rates and terms, as well as various insurance solutions to protect you and your vehicle.

ST-L Features

- VK56VD 5.6 litre VVEL V8 petrol engine with 298kW and 560Nm
- 7 speed automatic transmission with Manual Mode and Adaptive Shift Control (ASC)
- All MODE 4x4 with electronic 4WD selection
- Rear differential lock and Limited Slip Differential (LSD)
- Hill Descent Control (HDC)
- Hill Start Assist (HSA)
- Front and rear ventilated disc brakes
- Driver and front passenger front and side airbags
- Curtain airbags all 3 rows
- Driver and front passenger 3 point ELR seatbelts with pretensioners, load limiters and height adjustment
- Second and third row 3 point ELR seatbelts
- Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD)
- Vehicle Dynamic Control (VDC)
- Front and rear parking sensors
- Reversing camera
- LED rear combination lamp
- 18" alloy wheels
- Electric folding, power operated and heated outside mirrors
- Front variable wiper with speed sensor
- Rear side and back privacy glass
- Cruise control
- Audio system with CD/DVD, AM/FM radio, MP3 and USB (iPod* connectivity with Bluetooth® audio streaming)
- 7" front display screen
- 2GB Music hard drive
- 6 speakers
- Bluetooth® phone system with steering wheel controls
- Tri-zone automatic climate control air conditioning
- Rear air-conditioning controls
- Intelligent Key keyless entry system
- 8 seat capacity
- Cloth seating trim
- 8-way power adjustable driver seat including height adjustment and lumbar support

Ti Features

All the features of the ST-L plus/or:

- Hydraulic Body Motion Control suspension (HBMC)
- Leather accented seat trim
- 6-way adjustable front passenger seat
- Automatic headlights
- Electric glass tilt and slide sunroof
- Front fog lamps
- Follow Me Home headlight function

Ti-L Features

All the features of the Ti plus/or:

- 7 seat capacity
- Driver's seat memory with two settings, including side mirrors and steering column position
- First row centre console cool box
- Satellite Navigation with 3D mapping and 8" integrated colour display with touch screen and steering wheel controls
- Bose® audio system with CD/DVD, AM/FM radio, MP3, USB (iPod* connectivity) linked with Intelligent Key memory
- Two rear 7" DVD entertainment screens
- Around View Monitor (AVM)^
- Intelligent Cruise Control (ICC)
- Forward Collision Warning (FCW)
- Distance Control Assist (DCA)
- Intelligent Brake Assist (IBA)
- Lane Departure Warning and Prevention (LDW & LDP)
- Blind Spot Warning and Intervention (BSW & BSI)
- Tyre Pressure Monitoring System (TPMS)
- Xenon headlights
- Automatic headlight leveller
- Headlight washers
- Puddle lamp
- Power operated tailgate
