TIIDA

SHIFT the way you move

Ti Hatch interior.

The Nissan Tiida is an inspired choice for today's driver. All the benefits of a small car, like manoeuvrability and excellent fuel economy, with a level of appointment and spaciousness you would expect to find only in a much larger vehicle. The Nissan Tiida will shift your expectations; it will shift your possibilities; it will **shift the way you move.**

Introducing the Nissan Tiida Sedan and Hatch.

The latest model has received a significant upgrade with an enhanced appearance and additional standard features. While the sweeping lines of the car make for a stylish appearance on the road, they have practical benefits as well. The extensive use of glass adds to the feeling of spaciousness when inside and improves visibility, making the Tiida a breeze to park. You can enjoy even more of the outdoors if you choose the Ti Hatch; it comes with a sunroof as standard. The Nissan Tiida truly offers big car space for a small car price.

Champagne ST Sedan.

A detailed view of the interior of a Nissan Tiida Hatchback. The image shows the driver's side, including the steering wheel with the Nissan logo, the instrument cluster with three gauges, the center console with a radio and climate controls, and the dashboard. The car is parked on a road next to a green field with a fence and trees in the background.

When you get into the Nissan Tiida you will immediately feel the spaciousness. There is plenty of headroom, shoulder room and legroom. Unlike some cars, it is true in the back seat as well; the Tiida will seat five adults with ease. On top of that, the Tiida offers a long list of impressive features. Steering wheel audio controls allow you to control the CD or radio easily while driving. Optional Bluetooth® means simple handsfree mobile phone connectivity. Of course, the Tiida offers all the little creature comforts you would expect like power windows and remote keyless entry.

If you choose the Ti model, you will really be pampered with climate control air-conditioning, leather seat trim and a 6 CD player. When it comes to luggage, the Tiida Hatch is very versatile, with a **60/40 split fold rear seat** and a sliding rear seat in the Ti Hatch, which can be adjusted to give you extra passenger room or more luggage space. The Sedan offers a spacious boot while the Hatch's boot cover hides items from prying eyes.

There is another reason you will be comfortable in the Nissan Tiida – the knowledge that you are protected by a host of safety features. A safe environment is created by the dual front and curtain airbags and safety zone body construction. At the same time, front seatbelt pretensioners with load limiters work to minimise any injuries in the event of a collision. The **Anti-lock Braking System** (ABS) and Brake Assist (BA) are designed to help you control the vehicle in emergency situations, while the powerful headlights keep you fully aware of what is ahead of you at night.

The Nissan Tiida comes with a fuel efficient 1.8 litre 4 cylinder engine. This powerful but very economical engine offers excellent responsiveness while ensuring you will go a long way between trips to the bowser. It also boasts **impressive fuel economy** 7.6 litres/100km^Δ (manual models) and 7.8 litres/100km^Δ (automatic models). The Tiida is the perfect small car for today, with the small car reliability that Nissan is famous for.

^Δ Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behavior, the condition of your vehicle and the accessories fitted.
