SHIFT the way you move

X-TRAIL

The Nissan X-TRAIL is the compact SUV that's going places – to the beach, to the snow, to the bush or even just into the city. With the 2WD lining up with the ever impressive 4WD, there is an X-TRAIL ready for whatever adventure you have planned. With its stylish new exterior, the X-TRAIL will shift where you can go; it will shift what you can take with you; it will **shift the way you move.**

Tempest Blue ST-L 4WD

This country has a lot of places to visit and the Nissan X-TRAIL offers you three ways to get there. All X-TRAIL engines give you the power you need but, just as importantly, achieve great fuel economy.

The **2WD X-TRAIL** features a 2.0 litre 4 cylinder petrol engine, available with a 6-speed manual transmission on ST 2WD or an incredibly smooth automatic Xtronic Continuously Variable Transmission (CVT). The 2WD X-TRAIL gives you great efficiency for scenic getaway drives – just 8.5 litres per 100km* combined for the manual and 8.4 litres per 100km* combined for the CVT automatic.

The 2.5 litre 4 cylinder petrol engine on 4WD models delivers an impressive 125kW of power and 226Nm of torque thanks, in part to its Continuous Valve Timing Control System (CVTCS), which optimises performance. It also comes with either a 6-speed manual transmission on ST 4WD or a CVT automatic transmission with 6-speed M-Mode.

The 2.0 litre turbo-diesel engine is no slouch either and features a variable nozzle turbo charger that helps deliver more power and lower emissions, giving you 127kW of power and 360Nm of torque on the manual model. Your transmission choices are a 6-speed manual or 6-speed automatic with M-Mode. They both offer **excellent fuel economy** – 7.2 litres per 100km* combined for the manual and 7.4 litres per 100km* combined for the automatic, so you can spend more time seeing Australia and less time at the service station.

*Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.

Brilliant Silver ST 2WD

Although the Nissan X-TRAIL is all about getting out and about, we certainly haven't scrimped when providing interior features to make your adventures easier and more comfortable. All models feature a **Bluetooth® handsfree phone system** to help you answer calls safely. Plus there's the ability to play your iPod® through the vehicle's stereo system. You'll be able to find your perfect driving position by adjusting both the driver's seat and the new tilt and telescopic reach steering column.

All ST, ST-L and TS 4WD models offer a 6 CD in-dash auto-changer with AM/FM radio and MP3 compatibility. All models offer the convenience of steering wheel mounted audio and cruise controls. When you choose the top-of-the-line 4WD petrol Ti or diesel TL models, the level of technology is truly impressive. An integrated colour display with touch screen puts the following at your fingertips: **Satellite Navigation** with 3D mapping and SUNA GPS Traffic Updates*, Bluetooth® handsfree phone system, full iPod® connectivity via USB, reversing camera and DVD player. These models also feature the Intelligent Key keyless entry system, which allows the key to stay in your pocket or bag while you open the doors and start the engine. The automatic headlights and rain sensing wipers on Ti and TL 4WD models will take care of themselves, while the **Xenon headlights** with washers on these models help you see what's ahead of you, even in the middle of nowhere.

*iPod is a registered trade mark of Apple Inc.

Whether you're cruising along a highway or heading off the beaten track you'll really appreciate the Nissan X-TRAIL 4WD's **intelligent ALL MODE 4x4-i system**. The centre console rotary dial makes it easy to change between three driving modes while driving: 2WD for normal driving conditions, AUTO which continually monitors all four wheels and instantly distributes the ideal amount of torque between them and, for serious off-roading, LOCK which splits the front and rear wheel torque evenly for maximum stability and traction. Also standard on 4WD models is Hill Start Assist, where the brake remains engaged for a few seconds while you switch from the brake to the accelerator, thus helping to prevent any roll back. Naturally, if we're going to help you get up a hill more safely, we should help you get down too. So Hill Descent Control on 4WD models uses the Anti-lock Braking System (ABS) to keep your vehicle travelling at a controlled speed on the way down. It automatically reduces your speed to 7km/h on the manual models or lets you vary between 4km/h and 15 km/h, using brake and accelerator on the automatic and CVT models. Either way, it helps you maintain complete control.

T/TL 4WD interior

Diamond Black Ti 4WD, Precision Grey TL 4WD and Burning Red ST-L 2WD

Burning Red ST 2WD

Although there's plenty of luggage room inside the Nissan X-TRAIL, you might want to take some bigger toys with you, like a jet ski or the family boat. You'll find the X-TRAIL 4WD's **2,000kg braked towing capacity** on petrol and manual turbo-diesel models will cope easily with just about anything you want to hook on the back*. An added sporty touch is provided by 17" alloy wheels on the ST, ST-L and TS models, while the Ti and TL models feature stylish 18" alloy wheels.

*Towbar is an optional extra.

Nissan has an advanced, proactive approach to vehicle safety that operates on three tiers. Firstly, the X-TRAIL's design and ride height offer excellent visibility to help you identify and avoid potential hazards. In addition, the reversing camera (available in Ti and TL 4WD models) helps you see exactly what you're backing towards for greater safety. Secondly, a variety of systems aid you in maintaining control in emergency situations. The **Electronic Stability Program (ESP)**, also known as Vehicle Dynamic Control (VDC), compares the intention of the driver with the current behaviour of the vehicle and selectively brakes individual wheels and controls engine power to help keep the car on its intended path and prevent roll-over. While the Anti-lock Braking System (ABS), Brake Assist (BA) and Electronic Brakeforce Distribution (EBD) work together to help you retain control when braking in an emergency situation and optimise control by sensing the load condition of both passengers and luggage. Finally, in the event of a collision, the X-TRAIL has a high intensity cabin structure and a total of **six airbags**, including dual front, side and curtain, which are standard across the entire X-TRAIL range, and create a protective cocoon to keep you and your passengers safe.

Twilight TS 4WD

myNissan is a **complete ownership experience**, which helps you get the most out of your Nissan. As part of myNissan, you will receive a 3 year/100,000km warranty and have access to 24-Hour Roadside Assistance for 3 years. No matter what journey you're planning, you'll have the peace of mind in knowing that if you lock your keys in the car, have a flat tyre or battery, or run out of fuel, we'll help get you back on the road at no charge. You can also take the option to extend your warranty for up to 6 years.

We recognise that buying a car is a significant investment and the extensive network of Nissan Dealers will help you maintain and protect it. That's why, as part of myNissan, you're entitled to 6 years or 120,000kms* of **Capped Price Service**. This means you'll always know the maximum price you'll pay when you come in for your next Scheduled Service at any Nissan Dealer, Australia wide. What's more, Nissan technicians are factory-trained experts that utilise dedicated diagnostic equipment and genuine parts to keep your vehicle in top condition. Thereby giving you the peace of mind that your Nissan is in the safest of hands.

The myNissan **iPhone app** is the ideal companion to take on all your adventures. It lets you request roadside assistance and advise of your location using your phone's GPS, plan trips, search for locations, plus set registration, service and parking expiry reminders.

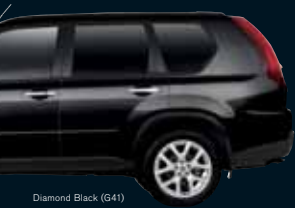

Nissan offers a variety of **Nissan Genuine Accessories** to protect, enhance and personalise your X-TRAIL. Roof rails and a towbar will increase your load carrying options, while bonnet and headlamp protectors will help keep your X-TRAIL shielded from potential damage during your adventures. Ask your Nissan Dealer about the entire list of X-TRAIL accessories. **Nissan Financial Services** has a range of finance options at very competitive rates and terms as well as various insurance solutions to protect you and your vehicle.

Nissan has introduced **Blue Citizenship**, a new way for us to look at our business, which reflects our desire to be a model corporate citizen and play a role in aiding the sustainability of our earth and its resources. Blue Citizenship involves contributing to communities, promoting diversity, delivering mobility to more people all over the world and helping to protect the environment. The design and development of the latest X-TRAIL demonstrates Nissan's commitment to producing a vehicle that is not only practical, but also features reduced emissions when compared to the previous model.
