

VOLKSWAGEN TIGUAN Features and specifications	118TSI	132TSI	130TDI	155TSI R-Line
<b>SAFETY AND SECURITY</b>				
S = Standard O = Optional Extra A = Volkswagen Genuine Accessory (Dealer fitted) – Not Available				
<b>Airbags</b>				
Driver and front passenger airbags	S	S	S	S
Driver and front passenger side airbags	S	S	S	S
Curtain airbags, front and rear	S	S	S	S
<b>Anti-theft</b>				
Electronic engine immobiliser	S	S	S	S
<b>Body</b>				
Fully galvanised with 12 year anti-corrosion perforation warranty	S	S	S	S
Door side impact protection	S	S	S	S
Rigid safety cell with front and rear crumple zones	S	S	S	S
<b>Brakes</b>				
Automatic flashing brake lights activated in emergency braking situation	S	S	S	S
Anti-lock Braking System (ABS)	S	S	S	S
Auto Hold function	S	S	S	S
Brake Assist	S	S	S	S
Electronic Brake-pressure Distribution (EBD)	S	S	S	S
Electro-mechanical parking brake	S	S	S	S
<b>Child restraints</b>				
Child seat top tether anchorage points, mounted on rear seat back (3)	S	S	S	S
ISOFIX child seat anchorage points, outer rear seats	S	S	S	S
<b>First aid kit</b>				
	A	A	A	A
<b>Head restraints</b>				
Front safety optimised head restraints, height adjustable	S	S	S	S
Longitudinal adjustable head restraints~	–	O	O	S
Rear head restraints height adjustable and removable (3)	S	S	S	S
~Available as part of the Leather upholstery package as an option				
<b>Lighting</b>				
Daytime driving lights	S	S	S	S
Front fog lights with static cornering lights, mounted in lower bumper	–	S	S	S
Rear fog lamp	S	S	S	S
<b>Locking</b>				
Remote central locking	S	S	S	S
2 stage unlocking (programmable)	S	S	S	S
Automatic locking after takeoff (programmable)	S	S	S	S
One touch lock / unlock for driver	S	S	S	S
Child safety locks on rear doors	S	S	S	S
<b>Seat belts</b>				
Front height adjustable with pre-tensioners and belt force limiters	S	S	S	S
Visual and acoustic warning for driver and front seat passenger seat belts not fastened	S	S	S	S
3 point seat belts for all passengers	S	S	S	S

<b>VOLKSWAGEN TIGUAN Features and specifications</b>	<b>118TSI</b>	<b>132TSI</b>	<b>130TDI</b>	<b>155TSI R-Line</b>
<b>SAFETY AND SECURITY CONT'D</b>				
S = Standard O = Optional Extra A = Volkswagen Genuine Accessory (Dealer fitted) – Not Available				
<b>Traction Control</b>				
Anti-Slip Regulation (ASR)	S	S	S	S
Electronic Differential Lock (EDL)	S	S	S	S
Electronic Stabilisation Program (ESP) with active rollover protection function	S	S	S	S
Extended Electronic Differential Lock (XDL)	S	S	S	S
Engine Braking Control (EBC)	S	S	S	S
4MOTION all wheel drive	–	S	S	S
<b>EXTERIOR EQUIPMENT / STYLING</b>				
<b>Body enhancements</b>				
Body coloured bumper bars, door handles and exterior mirrors	S	S	S	S
Black grain effect protective trim on lower front and rear bumpers, side sills and wheel arches	S	S	S	S
Chrome lower tailgate trim	A	A	A	A
Chrome lower body side mouldings	–	S	S	S
Chrome radiator grille	S	S	S	S
Chrome trim around window frames	–	S	S	S
Lower air intake with chrome highlight	–	S	S	S
R-Line exterior body styling, front and rear bumpers, side sills and rear roof spoiler <sup>~</sup>	–	O	O	S
R-Line exterior badging on front grille <sup>~</sup>	–	O	O	S
Widened side sill extensions <sup>~</sup>	–	O	O	S
<sup>~</sup> Available as part of the R-Line package as an option				
Door handle covers in polished stainless steel, set of 4	A	A	A	A
Side steps	A	A	A	–
<b>Protection</b>				
Bonnet protector	A	A	A	A
Headlight protectors	A	A	A	A
Mudflaps, front and rear	A	A	A	–
Slimline weather shields, set of four	A	A	A	A
<b>Roof</b>				
Roof rails, Black	S	–	–	–
Roof rails, Chrome	–	S	S	S
Roof cross bars	A	A	A	A
Bicycle, ski, surfboard, snowboard and kayak holders	A	A	A	A
Ski and luggage box (310, 340 and 460 litre capacities)	A	A	A	A
<b>Tow bar</b>				
Tow bar, vertical hitch with removable tongue, ball and wiring with 7 pin flat trailer connector	A	A	A	–
<b>Turn indicators integrated in exterior mirrors with LED technology</b>				
	S	S	S	S
<b>Window glass</b>				
Heat insulating tinted glass	S	S	S	S
Dark tinted rear side windows and rear window, 65% light absorbing	–	S	S	S
Sunblind for rear side windows	A	A	A	A
Sunblind for rear window	A	A	A	A
<b>Wheels</b>				
Alloy wheels (Portland) 16 x 6 1/2" with 215/65 R16 tyres	S	–	–	–
Alloy wheels (Philadelphia) 17 x 7" with 235/55 R17 tyres	–	S	S	–
Alloy wheels (Mallory) 18 x 8" with 235/50 R18 tyres (4) <sup>~</sup>	–	O	O	S
<sup>~</sup> Available as part of the R-Line package as an option				
Alloy wheels (various designs) 16" and 18"	A	A	A	–
Please consult your Volkswagen Dealer for correct wheel and tyre fitment by model				
Anti-theft wheel bolts	S	S	S	S
Weight and space saving spare wheel	S	S	S	S
Low tyre pressure indicator	–	S	S	S

<b>VOLKSWAGEN TIGUAN Features and specifications</b>	<b>118TSI</b>	<b>132TSI</b>	<b>130TDI</b>	<b>155TSI R-Line</b>
<b>COMFORT AND CONVENIENCE</b>

Urban, L/100km	8.7	9.1	7.0	12.0	12.0
Extra Urban, L/100km	5.9	6.2	5.8	6.9	6.9
CO <sub>2</sub> emission g/km	162	170	164	205	205
Fuel tank capacity litres	64	64	64	64	64

<sup>^</sup> Emission level according to European Regulation (EC) No. 715/2007 and Regulation (EC) No. 692/2008.

\* The Start/Stop system is designed to reduce fuel consumption and CO<sub>2</sub> emissions. It achieves this by automatically switching off the engine while the vehicle is stationary and then starting it again automatically when the driver wants to drive off. There are certain operating conditions where the Start/Stop system is deactivated (e.g. during engine warm-up), please refer to the owner's manual for full operating information.

<sup>#</sup> Please note figures are sourced from overseas data where equipment levels by model variant may vary.

<sup>\*\*</sup> Fuel consumption figures according to Australian Design Rule (ADR) 81/02.

The driving style, road and traffic conditions, environmental influences, fitment of accessories and vehicle condition can in practice lead to consumption figures which may differ from those calculated with these standards.

<b>GLOSSARY</b>						
<b>4MOTION<sup>^</sup></b>						
An all-wheel-drive system that provides the best possible traction at all road speeds, in all weather and road conditions. An electronic Haldex clutch responds to traction losses at the front and rear axles and directs torque to the axle with the best traction.						
<b>Adaptive Chassis Control*</b>						
The electrically controlled dampers of adaptive chassis control constantly adjust to the road conditions, the driving situation and driver's requirements. Using a button located on the centre console, the driver selects between three damper settings – NORMAL, COMFORT and SPORT.						
Starting from the normal setting, the customer can change the basic character of the car towards sporty or more comfort-oriented driving. In SPORT and COMFORT settings, the corresponding name is illuminated in the button. In NORMAL setting, only the shock absorber symbol is illuminated. In all settings, the adaptive chassis control adjusts the damping to the particular driving situation (up till one thousand times per second) which means it offers an optimum level of driving comfort and enjoyment at all times. In addition, in the SPORT setting the steering feel is also adapted. Particularly on windy roads and poor surfaces, using adaptive chassis control offers sporty and yet comfortable driving.						
<b>Anti-lock Braking System (ABS)</b>						
When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the ABS system reduces brake pressure to that wheel. This prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable.						
<b>Anti-Slip Regulation (ASR)</b>						
ASR is a switchable traction control system that prevents the wheels from spinning under acceleration by reducing engine torque.						
<b>Auto Hold function</b>						
As soon as the vehicle comes to a complete stop, the ABS hydraulic unit stores the vehicles final braking pressure. So even when you take your foot off the brake pedal, all four wheels brakes remain applied, providing increased comfort in stationary traffic. This function is released automatically when you drive off again.						
<b>Brake Assist</b>						
During emergency braking, Brake Assist aids the driver by increasing the brake pressure automatically to a level exceeding the locking limit. The ABS is thus quickly brought into the operating range, which enables maximum vehicle deceleration to be achieved.						

## VOLKSWAGEN TIGUAN Features and specifications

### GLOSSARY CONT'D

#### Coasting Function<sup>^</sup>

While driving, as the driver's foot is taken off the accelerator pedal the engine is declutched, allowing the vehicle to coast and roll over a longer distance. The momentum of the vehicle is used to save fuel with a foresighted driving style. When the brake, accelerator pedal or the gear selector lever is operated, the clutch is re-engaged and engine braking / drive takes effect. Coasting Function can be selected or deselected via the multifunction display settings. The gear selector lever is required to be in the D position to be functional.

#### Direct Shift Gearbox (DSG)\*

DSG is a manual gearbox in which the gearshifts are controlled electronically. What makes the DSG unique is that it has 2 separate gear sets operated by 2 clutches. The benefit of 2 gear sets and 2 clutches is that one gear set and clutch is engaged driving the vehicle with the second disengaged clutch having already pre-selected the next gear awaiting for power to be transferred. As the next gear has already been pre-selected prior to power being applied, the gear change only takes 3-4 100ths of a second. There is virtually no interruption to power, traction or acceleration. The DSG also offers Tiptronic gear selection and sports mode.

\* Optional Equipment

<sup>^</sup> Only available on selected models

#### Driver Fatigue Detection System<sup>^</sup>

The Driver Fatigue Detection system automatically analyses the driving characteristics and if they indicate possible fatigue, recommends that the driver takes a break. The system continually evaluates steering wheel movements along with other signals in the vehicle on motorways and others roads at speeds in excess of 65 km/h, and calculates a fatigue estimate.

If fatigue is detected, the driver is warned by information in the Multi-function Display (MFD Plus) and an acoustic signal. The warning is repeated after 15 minutes if the driver has not taken a break.

Fatigue Detection cannot replace the driver's assertiveness. The driver is still legally responsible for the vehicle and therefore determining whether or not they are fit to drive. A driving time of 15 minutes is required in order to assess the driver correctly. The functionality of the system is restricted given a sporty driving style, winding roads and poor road surfaces.

#### Electronic Brake-pressure Distribution (EBD)

Electronic, more sophisticated means of regulating the ratio of front/rear brake pressure. Settings are varied according to driving and load conditions to ensure each wheel is braked to the optimum extent.

#### Electronic Differential Lock (EDL)

EDL improves driving and steering characteristics when accelerating on road surfaces where each wheel has a different degree of traction. The system operates automatically and is combined with the ABS system. Using the ABS wheel sensors, EDL monitors the speed of the individual driving wheels. When a difference in driving wheel speed is detected (i.e. when one wheel starts to spin due to differences in road surfaces, e.g. due to water or dirt) the system brakes the spinning wheel, transferring engine power to the wheel with the best traction.

#### Electronic Stabilisation Program (ESP)

ABS, EDL and ASR traction control systems are integrated into the Electronic Stabilisation Program (ESP). In short, ESP helps ensure that the vehicle goes where you steer it even in extreme driving conditions. The ESP system constantly compares the actual movement of the vehicle with pre-determined values and should a situation arise where the vehicle starts to skid, ESP will apply the brakes to individual wheels and automatically adjust the engine's power output to correct the problem. ESP prevents the vehicle from losing control when trying to avoid an accident, for example. It also reduces the effects of understeer or oversteer.

#### Engine Braking Control (EBC)

Prevents the driven wheels from locking if the accelerator is lifted very suddenly or the vehicle is braked sharply because a low gear is engaged.

## VOLKSWAGEN TIGUAN Features and specifications

### GLOSSARY CONT'D

#### **Extended Electronic Differential Lock (XDL)**

XDL is an extension of the Electronic Differential Lock (EDL) function. When cornering, XDL responds to the load relief at the driven wheel/s on the inside of a corner. The ESP hydraulics are used for the XDL to apply pressure to the wheel on the inside of the corner in order to prevent wheel spin. This improves traction and reduces the tendency to understeer. As a direct result of the one-sided and precise braking pressure, cornering is sportier and more accurate.

\* Optional Equipment

^ Only available on selected models

Volkswagen is distributed by Volkswagen Group Australia Pty Ltd, 24 Muir Road, Chullora NSW 2190. ABN 14 093 117 876. Specifications are as planned at September 2014, for Model Year 2015 and are subject to change without notice or obligation. All information in this specification sheet is correct at the time of publication, however variations may occur from time to time and Volkswagen, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this specification sheet. Authorised Volkswagen dealers will provide up-to-date information on model application, design feature, prices and availability on request.
