A close-up photograph of a car's interior air vent. The vent is a silver, metallic-looking plastic with five horizontal slats. The background is a dark brown, leather-textured surface with a visible stitching pattern around the edges. The lighting is dramatic, highlighting the metallic sheen of the vent and the texture of the leather.

CHRYSLER

GRAND
VOYAGER

chrysler.com.au

grand voyager

Sometimes the greatest journeys do not occur between two points. Sometimes the most memorable trips happen while standing still, taking you from the typical to the magical in moments, with the closest of friends and family. Grand Voyager was born for such journeys. Loaded with innovations that accommodate commutes and adventure with equal ease, it embraces, like no other vehicle, voyages and those who take them. It shortens the longest of trips with brilliant entertainment. It absorbs the most varied of cargo with inventive storage. It bridges distant points with features that seem to pull them closer. In the end, Grand Voyager doesn't merely transport you between two points – it connects you to that which you love to do and those whom you choose to share your journeys with.

COMPLETE versatility

Stow 'n Go® is part of Grand Voyager's best-in-class storage system. With interior touches, such as leather-trimmed seating, woodgrain and chrome accents, and power conveniences, it is no surprise Grand Voyager Limited is the most luxurious minivan.

Grand Voyager once again revolutionised interior design with the available Swivel 'n Go™⁽¹⁾ seating and storage system. The system combines the adaptability of upright seating with outright sociability, using a removable and stowable table⁽²⁾ and second-row seats that rotate 180 degrees and are also removable.

Interior conversation mirror. A standard convex mirror in the overhead console expands your view of rear-seat passengers.

Fold-in-floor second and third-row seats. The beauty of Stow 'n Go seating and storage system is the ability to create a flat cargo floor without ever having to remove a seat. You simply fold the second-row seats forward and down into the in-floor storage bins. The third-row bench seat folds backwards into its own in-floor storage bin in the rear. Plus, the seat stow areas make for great additional storage when the seats are in use.

Power liftgate and dual sliding side doors. Loading and unloading has never been easier - whether for people or cargo. The available power liftgate and power-sliding doors can be opened at the press of a button - either from the key fob or at useful locations around the vehicle, which can only be operated when the transmission is in Park. Both are also equipped with an Obstacle Detection System⁽³⁾ that will detect most obstacles in the path and will automatically reverse the powerclosing operation.

Trailer Towing. Take all your trailerable toys away from home easily with Grand Voyager's 1,600 kg towing capacity. Engine oil cooling, heavy-duty transmission cooling, heavy-duty engine cooling and heavy-duty radiator are all standard. Load-levelling suspension is standard on all models. (Towbar kit available from Mopar®.)

(1) Seat must be locked in forward or rearward mode while vehicle is in motion. Child restraints must only be used when seats are in forward-facing mode. Children 12 and under should always be seated in the rear seats properly restrained in a child seat or the vehicle seat belt. (2) Tabletop must be installed in base at all times when in use. When not in use, table and base must be properly stowed. Never drive with table installed without properly using your seat belts. (3) Detects most obstacles. As with all electronically controlled systems, care is advised.

FLEXIBLE interior

Tray tables. Standard seatback tray tables make convenient mobile work areas.

Removable and stowable table.⁽¹⁾ After use as a game table, worktable and dining table the handy activity table can be easily stored in covered second-row floor bins.

Stain Repel.⁽²⁾ This standard stain-resistant, odour-resistant, antistatic seat fabric employs a dual-action technology that is woven into the fabric itself to help repel and release stains without solvents.

Power sunroof.⁽³⁾ The available power sunroof can let in plenty of fresh air and sunshine. Standard on Grand Voyager Limited, this popular feature offers a power one-touch express open-and-close function. It supersedes the standard overhead console with dual rear mini overhead consoles with two convenient storage bins.

Split-folding rear bench seats. Every Grand Voyager includes a third-row 60/40 splitfolding rear bench seat with tailgate feature⁽⁴⁾ standard. Make this remarkable feature even more remarkable with Limited's power third-row 60/40 split-folding rear bench seat with one-touch control and power recline feature.

One-touch push-button control panel. Included as part of the available power-reclining third-row 60/40 split-folding bench feature, this handy mini-control centre provides for effortless seat positioning at the touch of a button.

Tailgate seating. While parked, tumble the third-row seat backward to take full advantage of Grand Voyager's cleverly comfortable third-row tailgate seating feature.

Retractable shades. Standard second and third-row retractable shades on Limited increase security and can help keep out the brightest sunshine. The shades can even remain in use when the available second-row power windows are in down positions.

Second-row power windows. Chrysler offers dual power-sliding side doors with standard side-door power windows. Handy controls on the driver's side-door armrest keep the driver in control, or second-row passengers can enjoy using this feature on their own with conveniently located controls.

(1) Included with Swivel 'n Go seating option only. Tabletop must be installed in base at all times when in use. When not in use, table and base must be properly stowed. Never drive with table installed without properly using your seat belts. (2) Not compatible with aftermarket fabric-protecting coatings. (3) Not available with Swivel 'n Go seating. (4) Only use rear-facing tailgate feature when vehicle is parked.

EXPERIENCE technology

Uconnect™ The Uconnect™ Media Centre 135 CD/DVD/MP3 radio is standard on LX, with convenient functionality including an audio jack for MP3 players. Step up to Limited and enjoy the Uconnect Media Centre 731N CD/DVD/HDD/NAV radio which provides entertainment, information and communication with built in navigation. The 30GB hard drive also lets you store photos, playlists and songs, as well as rip, stash, organise and shuffle up to 4,200 digital music files from your CDs or via the integrated USB port. The 16.5 cm touch-screen allows you to easily change radio stations and play digital audio files.

Go high-tech with the latest in vehicle safety and convenience. Included on Limited is the ParkView™ reversing camera⁽¹⁾ and Uconnect Phone⁽²⁾, an in-vehicle, voice-activated communication system that allows you to talk on your Bluetooth® compatible phone virtually hands-free.

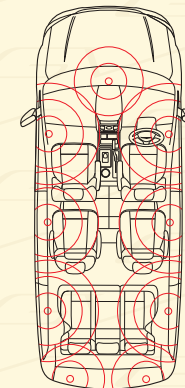

Electronic Vehicle Information Centre (EVIC). Important stats such as distance to empty, temperature reading, compass and maintenance intervals are digitally displayed on Limited's EVIC. Grand Voyager LX models include a Tyre Pressure Monitoring Warning Lamp, whilst Limited models include a Tyre Pressure Monitoring Display, which provides pressure information on individual tyres through the EVIC display.

Power everything. Open and close Grand Voyager's power liftgate and dual power-sliding side doors with the remote keyless entry system with illuminated entry function. You can also operate the dual power-sliding side doors using their handle activation feature Standard on Limited.

∞Infinity® Audio System. This sonically enhanced system sends 506-watts through nine amplified speakers plus a subwoofer. Who would hear of anything less for Grand Voyager Limited.

Auxiliary outlets. Technology is most advanced when it is easy to use. Third-row passengers will especially appreciate the available 12V outlet and auxiliary jacks located in the rear quarter trim panel.

Dual 9-inch DVD screens. New larger size DVD screens are standard on Grand Voyager Limited models. They can be configured to play one DVD source in unison on both screens, or to play two separate video sources independently with each source viewable on its own screen. It is also possible to plug in external sources, like a video camera or gaming console for the ultimate in entertainment flexibility.

(1) Always check entire surroundings before reversing.
(2) Requires Bluetooth® enabled phone. See your dealer for a current list of compatible mobile phones and any limitations your phone may have.

SURROUNDED BY safety & security

Air bags⁽¹⁾. Grand Voyager's standard advanced multi-stage driver and front-passenger air bags provide nearly instantaneous front-seat occupant impact protection by matching air bag output to crash severity. Standard supplemental side-curtain air bags with roll-sensing technology deploy from the headliner to provide three rows of side-impact protection to all outboard passengers.

Thorax front-seat air bag. Standard supplemental front-seat side thorax air bags provide increased front-seat impact protection.

Standard power folding mirrors. Adjust your exterior mirrors from inside your vehicle with push-button control. They also include a fold-away mechanism for use in tight parking spaces or to protect them when not in use in high-traffic areas.

Standard ParkSense® Rear Park Assist System. Audio and visual warnings identify most large stationary objects behind your vehicle when you are in reverse.

Tyre Pressure Monitoring System. This standard feature continuously checks air pressure in the tyres and sends a warning when appropriate.

ParkView™ Reversing Camera⁽²⁾. The rearview camera system (standard on Limited) displays an accurate visual reference of what is behind your vehicle when you are driving in reverse.

Rechargeable LED Torch. A dual-purpose LED light in the rear cargo area is easily removable, easily portable and automatically recharged when stored in the cargo area receptacle.

Rearview Conversation Mirror. Keep your eye on rear-seat passengers with the standard rearview conversation mirror.

Electronic Stability Control (ESC)⁽³⁾. Designed to assist drivers in maintaining control of their vehicle at all times, ESC uses the collective technologies of Brake Assist, All-speed Traction Control (ASTC) and anti-lock brakes (ABS) to constantly monitor the driver's input against the vehicle's actual course. If needed, ESC will attempt to correct the vehicle's course by automatically applying the brake and/or reducing engine torque.

Sentry Key® Theft-Deterrent System. This standard system helps to deter vehicle theft by making it virtually impossible to start the engine without possession of a properly encoded key.

Sliding Door Alert System. Standard on sliding doors, this system warns other drivers by flashing Grand Voyager's exterior lights when passengers are entering or exiting the vehicle.

(1) Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight. (2) Always check entire surroundings before reversing. (3) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning light in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear seat belts.

trim levels

LX. Start with the legendary Stow `n Go® seating and storage system as standard. Add in your choice of the 3.8-litre V6 petrol engine or optional 2.8-litre CRD turbo diesel engine, both mated to a six-speed automatic transmission.

Safety is paramount thanks to front and side air bags⁽¹⁾ for all three rows, Electronic Stability Control (ESC)⁽²⁾ and anti-lock brake system (ABS). Convenience abounds through features such as power front and second-row windows, remote keyless entry, Uconnect™ Media Centre 135 CD/DVD/MP3 radio, ParkSense™ rear park assist⁽³⁾, 16-inch alloy wheels and air conditioning with tri-zone automatic temperature control (ATC). All standard. All Grand Voyager.

Limited. Command of the road has never been sweeter thanks to the suite of luxury features that make the experience truly First Class. Heated leather-trimmed seating with suede microfibre accents, plus power driver seat with memory system for two drivers. Power sliding side doors and power liftgate, plus power-folding third row seat and sunroof. Multimedia navigation with 16.5 cm touch-screen, dual screen DVD rear seat entertainment and Infinity® 9-speaker premium audio system. ParkView™ rear reversing camera⁽³⁾. Grand Voyager Limited lacks for nothing. Indulge yourself.

seating selections

Stow `n Go® Interior. The Stow `n Go system gives near endless flexibility from the ability to fold the second and third-row seats into the floor, which gives you a flat cargo floor area with 3,296 litres of room to load as you please. When the seats are upright, the storage bins below accommodate travel gear, hobby equipment, children's toys and just about anything in between. Perhaps best of all, you get all this flexibility without ever having to remove a seat.

Swivel `n Go™ Interior. Arguably the ultimate in seating versatility, the available Swivel `n Go seating and storage system⁽⁴⁾, offers second and third-row in-floor storage bins, removable and stowable table⁽⁵⁾ and removable second-row seats. The second-row captain's chairs turn outward and also rotate 180 degrees and lock for enhanced face-to-face gaming and dining activities.

(1) Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or with the seat belt positioned correctly for the child's age and weight. (2) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning light in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (3) Always check entire surroundings before reversing. (4) Seat must be locked in forward or rearward mode while vehicle is in motion. Child restraints must only be used when seats are in forward-facing mode. Children 12 and under should always be seated in the rear seats properly restrained in a child seat or the vehicle seat belt. (5) Included with Swivel `n Go seating option only. Tabletop must be installed in base at all times when in use. When not in use, table and base must be properly stowed. Never drive with table installed without properly using your seat belts.

engine & wheels

While your engine choices vary, they are united in one resounding point: each of these engines is perfectly suited to Grand Voyager. Whether it is the smooth power of the 3.8-litre V6 petrol engine, offering 142 kW and 305 N.m of torque, or the unrivalled efficiency of the 2.8-litre CRD turbo diesel, with 120 kW and 360 N.m of torque on tap, each of these impressive Chrysler engines represent a dedication to engineering prowess. Mated to the responsive six-speed automatic transmission, Chrysler engines are as empowering as they are powerful.

(1) Not compatible with aftermarket fabric-protecting coatings. (2) Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. See your dealer for details. (3) Requires Uconnect Phone. (4) Must use Bluetooth® compatible phone. See your dealer for a current list of compatible mobile phones and any limitations your phone may have. (5) Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and weight. (6) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (7) Always check entire surroundings before reversing. (8) A range of kerb weights for each engine is provided. Actual kerb weights depend upon the vehicle's equipment.

ACCESSORIES BY MOPAR

THIRD-ROW CARGO BIN AND TABLE.

This modular system fills the bin behind the third row. The table is vinyl-covered and serves as a lid when legs are folded, and as a separate table when removed and legs are extended.

REAR HATCH TENT.

Tent attaches to the rear of your vehicle for maximum storage and sleeping space or stands alone, if desired.

ROOF-MOUNT WATER SPORTS CARRIER.

When used with Sport Utility Bars, this carrier transports most kayaks, sailboards or surfboards with flat or curved hulls. The latching, push-button nylon strap attachment holds watercraft securely in place.

MOULDED SPLASH GUARDS.

Protect your Grand Voyager's rear fascia from damage caused by gravel, salt and road spray with these guards.
