

CITROËN C3

NEW CITROËN C3, NEW DESIGN

Discover the new C3 for the first time and immediately sense a new approach to design. The pure silhouette, taut lines and smooth curves of the new C3 demonstrate an avant-garde style. The unconventional blend of athletic lines and friendly curves mix the styling traits of a premium vehicle with those of a city car. The strength of personality is emphasised by the clean silhouette and boomerang rear lights for a distinguished look. The new C3 brilliantly balances the fine line between elegant aesthetics and non-conformist personality, a triumph for the innovative design and creative characteristics of Citroën.

A JOURNEY FOR YOUR SENSES!

Saloon-like comfort blends with the clever compactness of a city car, while intuitive technology and high levels of tactile quality create an inspiring mix of refinement and poise. Innovative and individual as only a Citroën can be, the new Citroën C3 will stir your senses on every trip.

Bearing Citroën's new, larger chevrons, the new C3 sports an air intake that looks ready to gobble up the road. Together with boomerang-shaped lights and well balanced curves and flowing lines, the new C3 is forceful in its low slung stance.

A SPECTACULAR PANORAMA

While the exterior of the new C3 may be compact, the interior offers a unique panorama, a feeling of freedom and space, especially with the Zenith windscreen available on the new C3 Exclusive models. Sitting aboard the new C3 is a unique experience. The panoramic Zenith windscreen rises high above your head for a feeling of openness and airiness. The Zenith windscreen has been very carefully designed

to ensure that this open feel is not compromised by the glare of the sun. The latest in glazing technology means the upper section is well tinted from sunlight. Should you wish, of course, the new C3 is equipped with a large sliding sunblind and sunvisors, should you require them. With Zenith, the road ahead and world around become features of the interior.

STYLING ELEGANCE

Refined curves, taut lines, the style of the new C3 exudes confidence. The design is elegant, foregoing the need for superfluous styling additions. The large clear lens headlamps curve high up onto the front wings for an assertive, avant-grade look. The pronounced wheel arches and neat styling curves of the body offer a contemporary look and hint at the dynamic character of the car. From front to rear, the new C3 is the car that projects style and inspires glances at every turn.

AVANT-GARDE STYLE

Open the door and a stylish interior awaits you. A cabin dedicated to elegance and comfort. The unique shape of the steering wheel surprises and entices, expressing a promise of the dynamic driving experiences that await you. The upmarket look of the dashboard is enhanced by the generous dimensions and quality materials used. The smooth lines stretch and curve around the interior to reveal the large air-vents, central display screen and instrument dials. Subtle trim additions are revealed at every glance, dashes of chrome, gloss lacquer, soft touch materials, all reinforcing the feeling of refinement and harmony inviting you to step aboard and enjoy.

REFINEMENT AND INNOVATION

Take your place behind the wheel of the new C3. Cast your eyes downwards to the steering wheel, the shape is new with a flattened bottom, suggesting a car that will prove enjoyable to drive. The invitation to drive is reinforced by the conical instrument dials, both stylish and easy to read and featuring all of the information you could require. The central dashboard controls fall easily to hand and are logically laid out for instant familiarity, leaving you free to drive and concentrate on the road ahead. The materials are of the finest quality, their touch and feel is right. The driving position is perfect, the visibility unparalleled, you are in total control, just turn the key and drive.

TECHNOLOGY SERVING YOUR COMFORT

The dashboard and instruments of the new C3 are simple and intuitive to use. The design is pure and finished in the highest quality materials symbolising the Créative Technologie of Citroën. The new C3 VT and VTR+ models feature air conditioning with the new C3 Exclusive adding automatic digital air conditioning. The controls are

grouped into three circles with logical easy to see and use buttons. The audio system combines a stereo radio and single CD player with MP3 capabilities. An auxiliary socket is on hand to allow playback of your MP3 player. Bluetooth® and USB connectivity features as standard equipment on the top of the range new C3 Exclusive models.

A PLEASURE FOR THE SENSES

Crafted from quality materials, finished with fine stitching and designed to offer the best possible comfort and support, the seats reveal their true strengths after a long journey. The interior is perfectly designed to facilitate everything you require with numerous thoughtfully designed storage spaces for all your personal belongings. The auxiliary device port on the central console allows you to connect your MP3

player or USB key to play your favourite music in addition to the CD Radio for the highest quality sound. The design approach applies to more than the senses of touch, sight and sound. An integrated cabin air freshener on the dashboard allows you to personalise the new C3 with your own choice of scent. The new Citroën C3, a car that appeals to all the senses.

SPACE AND MODULARITY

The new Citroën C3 strikes the ideal balance between form and function, the compact exterior style opens to reveal a car with ample space for five people. As your life can often mean your car must suit many different requirements, the interior is also completely modular, meaning it is totally adaptable to these changing needs. The boot offers a spacious 300 litre capacity while the

rear bench splits 2/3 – 1/3 meaning more space is available as you need it, revealing a load length of up to 1.19 metres.

The space on offer is a real surprise given the neat and compact exterior. The modularity and thoughtful design means that this space can be fully utilised in all situations.

PRIORITISING SAFETY

Safety and security have been priorities in the development of the new Citroën C3. In the event of an impact, the body structure is designed to absorb and redistribute the force of the impact throughout the body shell and away from occupants. Four airbags on the new C3 VT and six airbags on the new C3 VTR+ and Exclusive models are

available as part of the list of passive safety features: two frontal airbags are matched to two lateral airbags in the front seats on all models with two full-length curtain airbags in the roof included on the new C3 VTR+ and Exclusive models. Visible seatbelt reminders coupled with an audible warning remind front seat passengers to fasten their seatbelts.

Active safety has also been of significant importance in the development of the new C3. Excellent road-holding and secure handling form the solid foundations of driving safety and these are supplemented by a host of useful driving aids to ensure total safety. All models feature ABS Anti-lock Braking System with the addition

of EBA Emergency Brake Assist and EBD Electronic Brakeforce Distribution. ESP Electronic Stability Program is also available across the range. This system constantly monitors each of the wheels and the steering input to automatically correct over-steer, under-steer or wheel-spin for sure-footed, secure driving at all times. Optional rear

parking sensors aid safety while reversing by alerting you to obstacles behind the vehicle – a safety aid that also makes life easier when driving in town. The new C3 is filled with additional features which remind you that safety has always been a core element of the design. The speed limiter allows you to set a maximum

speed for the car which can only be exceeded on the driver's command. The child lock controls allow the driver to deactivate rear door locks (and windows on the Exclusive models) for added safety. In the new C3, safety is always our priority.

UNCOMPROMISING ON ECONOMY

The new Citroën C3 is equipped with a range of green fuel-efficient engines which represent the very latest in technology. While economy and ecology have been priorities in the development of the new C3's engines, Citroën's advanced engines mean that while the engines are green, driving is always a pleasure and strong performance is assured. Both Petrol and Diesel engines already conform to upcoming Euro 5 emission legislation guaranteeing state of the art emission standards.

There are two fuel efficient petrol engines for the new C3. The new C3 VT version comes equipped with the 1.4L Petrol engine coupled to Citroën's five speed manual transmission. The new C3 VTR+ features Citroën's VTi 120 88 kilowatt engine mated to a smooth

automatic transmission. VTi or "Variable valve lift and Timing Injection" boosts engine efficiency, increasing the responsiveness of the new C3 while offering excellent fuel consumption.

The diesel engine range includes the 1.6L HDi engine with common-rail high pressure direct injection turbo and benefits from Citroën's "Airdream*" environmental signature, signaling low CO₂ emissions of 104g/km. Thanks to the ultra efficient 15" Michelin Energy Saving tyres and aerodynamic "whaletail" wheel trims, this model produces just 104g/km of CO₂.

To keep consumption and emissions as low as possible, the new C3 with manual transmission is even equipped with a gearshift indicator on the instrument

dials telling you the optimal time to change gear to conserve fuel.

While economical and respectful of the environment, the new Citroën C3 also pays attention to dynamic, enjoyable driving. Generous wheels and tyres as well as a wide track make the most of the inherently strong road-holding characteristics of the new C3. A car you will want to drive, time and again, inviting you to explore the world, but careful to limit the impact it has on it.

In the new C3, no matter what engine you choose, you are guaranteed low CO₂ levels and fuel consumption matched to driving pleasure and comfort.

*Airdream relates not only to the vehicle's emission levels but also the factory where the vehicle is produced and how easily it can be reused at the end of life for a whole life rating on the vehicle's green credentials.

WHEELS, COLOURS AND UPHOLSTERIES

Asterodea 15" Wheel Trim

Whaletail 15" Wheel Trim

Nuclear 16" Wheel Trim
