

NEW CITROËN GRAND C4 PICASSO

CRÉATIVE TECHNOLOGIE

Discover an amazing combination of technology and space. Discover the all New CITROËN Grand C4 Picasso. The new standard for moving your family in comfort and style and further reason why we use the term "Créative Technologie".

The all New CITROËN Grand C4 Picasso has new features such as 360° Vision. A feature that uses four cameras placed around the vehicle to give the driver a bird's eye view of the vehicle's immediate environment. The intuitive Park Assist system is an active parking aid that detects a suitable parking space, whether parallel parking or reversing straight back and guides the vehicle in.

The optional Drive Assist Pack includes Active Cruise Control which senses when the car in front slows down and automatically adjusts road speed accordingly. The system regulates acceleration and deceleration within a 25km speed band. With a miniature camera mounted in the base of the rear view mirror the Lane Departure Warning System senses when white lines are crossed accidentally and warns the driver with vibrations through the seat belt. The Drive Assist pack also includes a Smart Beam Function which automatically activates and deactivates the high beam lights depending on lighting and traffic conditions.

For the latest CITROËN Grand C4 Picasso specifications please visit www.citroen.com.au or contact your local CITROËN dealer. *Images used for illustrative purposes only
