THE REVOLUTION OF THE SPECIES

FORD PERFORMANCE VEHICLES

FPV GT315

Meet the new Boss. The new GT is here and so is an all new attitude to high performance motoring. More power with 315kW, more torque with 551Nm[^] and a whole lot more down low. So hold on as this machine gives more in every way.

Experience instant power from sharper throttle response thanks to twin throttle blades, and revel in the sharper handling and better turn in through the new suspension settings. It's all about performance and the new GT delivers much more than ever.

The new GT-P represents the ultimate in high performance motoring, propelled by the most powerful V8 FPV have ever built. This is one serious performer with more torque for get up and go and more power to keep you moving at the top end.

The new mono tube spring and damper settings guarantee that the power is turned into sharper handling. The Brembo brakes front and rear ensure the control is at both ends of the performance spectrum. With the new FPV GT-P nothing is left wanting, this is the epitome of what we call 'Performance Inc.'
