

THIS IS TOTAL PERFORMANCE

Mark Winterbottom - FPR V8 Supercar driver & FPV ambassador.

'Total Performance' was originally the name of the worldwide sales strategy adopted by Ford in the 1960s. Then it was simply 'Win on Sunday, sell on Monday'. 'Total Performance' at Ford Performance Vehicles in the 21st century is not an advertising or promotional theme but a commitment to engineering high-performance vehicles that deliver high performance in every area. Our vehicles are designed to fulfil the expectations of sporting drivers everywhere they drive. Total Performance is all about how the vehicle works in the real world, not the racetrack. FPV seeks to set and exceed new benchmarks in Australian high-performance motoring. Our outstanding facilities, innovative and dedicated workforce and race-bred technology commit us to continually build on our engineering integrity and design innovation to produce the ultimate Australian high-performance vehicle. Welcome to our world!

GT

A BLAST FROM THE FUTURE

The iconic GT, for years the standard for Australian muscle cars, has charged ahead taking performance to a whole new level. Powered by the awesome, all-aluminium, 5.0 litre, double overhead camshaft Boss V8, FPV has supercharged and modified it to deliver a combined level of torque (570Nm) and power (335kW) that has to be experienced to be believed. The bi-modal quad exhaust system barks, growls, pops and burbles to let the world know you're coming. Choose the slick-shifting, 6-speed Tremec manual gearbox or the superb ZF 6-speed auto with Sequential Sports Shift to transmit all the power and torque safely to the road. Legendary factory GT racer Allan Moffat worked with FPV engineers and chassis specialists to help optimise the ride, handling and braking dynamics of the Boss 335 GT. You'll revel in the communicative steering, the bite of the 4-piston Brembo brakes, the immediacy of the throttle response and the pin-sharp handling of the finely tuned chassis. Just buzz down the driver's window and enjoy what surely must be the best sounding engine this side of Bathurst!

Inside the ergonomically designed cockpit, drivers will experience a whole new level of Human Machine Interface (HMI) design. A high-tech, user-friendly Interior Command Centre (ICC) with 8" colour touch screen puts smart technology and all the main in-car functions at the driver's fingertips. And when reverse gear is selected, the screen also displays vision from the GT's standard reverse camera. As you would expect, Bluetooth[®]*, iPod[^] and USB connectivity are also standard in the mighty Boss 335 GT.

- a. Sports steering wheel and instrumentation
- b. Striking Boss 335 stripe package
- c. Bi-modal twin-pipe quad-outlet active exhaust system
- d. Optional FPV leather insert sports seats

GT-P ÜBER HOT

It's the ultimate performance expression of the Boss 335 package. Behind the GT-P's unique 19" machine-faced, 5-spoke alloys is the incredible stopping power of cross-drilled and ventilated front and rear rotors with Brembo 6-piston calipers up front and 4-piston Brembos on the rear. They're just what the doctor ordered along with specially bolstered seats when the muscular, supercharged and hand-built 335kW V8 in the GT-P responds instantly to the throttle in any gear. At your command is a quantum of performance that breaks new ground in an Australian-built powertrain. Indeed, the new Boss 335 GT-P sets an entirely new standard for Australian performance cars in the same way the first GT did over 40 years ago. The new GT-P is a car that melds traditional muscle car values with cutting-edge technology to produce a current and future classic!

GT-P shown in Winter White with Matte Black stripe package (no cost option).

Inside, a high-tech, user-friendly Interior Command Centre (ICC) with 8" colour touch screen puts smart technology and all the main in-car functions at the driver's fingertips. The interface also delivers a fully integrated satellite navigation system with features like: 'Green Routing' that calculates the most economical, fastest and shortest routes available, a choice of 2D or 3D map modes, over-speed and speed camera warnings, 'Where am I?' feature to show points of interest, street house numbers left and right displayed, advanced lane guidance and signpost information, 'Junction View' graphic road representation and Suna Traffic Message Channel¹. When reverse is selected, the screen also displays vision from the GT-P's standard reverse camera. Bluetooth^{®*}, iPod[^] and USB connectivity are also standard equipment on the GT-P.

- a. Brembo 6-piston brake calipers (front) with Brembo 4-piston brake calipers (rear)
- b. Striking Boss 335 stripe package
- c. Performance leather insert sports seats with suede bolsters and GT-P logo embroidery

SUPERCHARGED PERFORMANCE STARTS HERE

The FPV GS carries on a Ford tradition started in 1969 when the first GS model was introduced – a full-on performance car designed to deliver incredible value. And today it's supercharged! Under the distinctive bonnet bulge is a 5.0 litre, double overhead camshaft, all-aluminium V8, supercharged to deliver 315kW of power and a massive 545Nm of torque. Available transmissions are a slick-shifting, 6-speed Tremec TR6060 manual gearbox or the superb ZF 6-speed auto with Sequential Sports Shift as a 'no cost' option. Quad bi-modal exhausts, 19" silver 5-spoke alloy wheels and unique GS stripe package tell the world this is an Aussie muscle car to be reckoned with.

A high-tech, user-friendly Interior Command Centre (ICC) with 8" colour touch screen, iPod[®] and Bluetooth[®]** integration and USB connectivity puts smart technology and all the main in-car functions at the driver's fingertips. Safety is at a premium with driver and front passenger airbags, curtain airbags and front seat side thorax airbags. As you would expect, dynamic stability control, traction control, electronic brake-force distribution, electronic brake assist and a 4-channel anti-lock braking system are also standard. For those wanting to begin their FPV journey – your GS awaits you.

- a. 8" colour touch screen, reverse camera and reverse sensing system
- b. Striking GS stripe package
- c. Bi-modal twin-pipe quad-outlet exhaust system
- d. Performance 5-spoke 19" alloy wheels in Alpine Silver

AUSTRALIA'S SUPERCHARGED WORKER

There's nothing like the GS Ute for making a statement in the workplace and nothing packs a supercharged punch like it. The state-of-the-art, supercharged, 5.0 litre Boss V8 delivers 315kW and says 'you've got the power', but it's the 545Nm of pulling power that makes this ute the real boss of the worksite. If you enjoy a little manual labour you'll find the Tremec TR6060, 6-speed shift really suits your style but say the word and the super-smooth ZF 6-speed auto with Sequential Sports Shift is yours as a 'no cost' option. The GS Ute now features a specifically designed sports bar for greater functionality.

FPV.COM.AU

GS Ute Shown in Vixen with Silver Metallic stripe package.

And this is a work environment you'll instantly fall in love with – a Prestige audio system with 8" colour display, iPod[®] and Bluetooth^{®*} integration and USB connectivity plus a 4-way power sports driver's seat will make your day! To deliver the grip, handling and stopping power that enthusiastic drivers demand, the GS Ute also features an FPV sports tuned suspension, sports brakes and 19", 5-spoke alloy wheels with premium Dunlop Sport Maxx tyres. Right down to its iconic stripe package, the GS Ute shouts 'supercharged muscle' from every angle. At every Australian work site, it's absolutely The Boss!

- a. 8" colour touch screen with optional premium audio
- b. FPV soft tonneau cover with logo
- c. High-flow dual-outlet exhaust system
- d. Performance 5-spoke 19" alloy wheels in Alpine Silver

F6 310 AUSTRALIA'S ULTIMATE BIG SIX

For some years now the turbocharged FPV F6 has set new performance standards with its DOHC, 24-valve, in-line six, delivering 310kW and 565Nm of torque. FPV's bespoke, performance-engineered suspension, a 6-speed Tremec manual gearbox or a superb ZF 6-speed automatic with Sequential Sports Shift (a no-cost option), brilliant 19" alloys and 4-piston Brembo brakes make the F6 a driver's car par excellence – the ultimate expression of Australia's love affair with big sixes! Powerful and imposing, the F6 has graphite accents, a titanium-look mesh grille and subtle, exclusive F6 310 badging. For power, road holding, driveability and sheer driving enjoyment, the F6 310 is in a class of its own.

The interior of the F6 also features the new high-tech, user-friendly Interior Command Centre (ICC) with 8" colour touch screen. The ICC puts smart technology and all the main in-car functions at the driver's fingertips. When reverse gear is selected, the screen also displays vision from the F6's standard rear view camera. As you would expect, Bluetooth[®]*, iPod[^] & USB connectivity are also standard. Safety features on the F6 include Dynamic Stability Control (DSC), side curtain airbags, Electronic Brakeforce Distribution (EBD), a 4-channel Anti-lock Braking System (ABS), driver and front passenger airbags plus front seat side thorax airbags, Beltminder technology and a reverse sensing system.

- a. 8" colour touch screen with reverse camera and reverse sensing system
- b. Optional leather insert sports seats
- c. F6 front grille with sports projector headlamps
- d. Premium 5-spoke 19" alloy wheels
