A word about this catalogue. We have tried to make this catalogue as comprehensive and factual as possible. However, since the time of printing some of the information you'll find here may have been updated. Also, some of the equipment shown or described through this catalogue may have been changed and / or is available at extra cost. Further, GM Holden Ltd ABN 84 006 893 232, reserves the right to make changes at any time without notice, in prices, colours, materials, equipment and models. Your Holden Dealer has details, and before ordering, you should ask them to bring you up to date. No Holden Dealer or other person is authorised or permitted to give or make any statement, assertion or undertaking in relation to the quality, performance characteristics, descriptions or fitness for any purpose of any Holden product which is at variance with any written statement, assertion or undertaking on any of these subjects given or made by GM Holden Ltd in its published sales literature, and GM Holden Ltd does not accept any liability for any such unauthorised action. GM Holden Ltd has authorised Dealers in many parts of Australia for the sale of service parts and the provision of service to owners of Holden's products. Every endeavour is made to ensure that such Dealers carry adequate stocks of service parts, but GM Holden Ltd doesn't make any promise other than that contained in the New Vehicle Warranty given by GM Holden Ltd that such parts or service facilities will be available at any specific location or at any particular time. Express warranties offered for Holden products are subject to the conditions set out in all vehicle handbooks. Details also available from GM Holden Ltd on request. Two iconic names. Two world-class luxury vehicles. Two supreme driving experiences powered by two stunningly innovative new engine technologies.

Holden Statesman. The epitome of modern automotive refinement.

Holden Caprice. The embodiment of sports-inspired performance and sophistication at its breathtaking best.

The most difficult of choices.
The most rewarding of decisions.

World class luxury

Statesman Deeply individual

Your every need anticipated. Your every moment behind the wheel rewarded. Your every journey, an experience to savour.

This is the Holden Statesman.

Exquisitely proportioned with its fastback roofline, sloping stance and short front overhang, Statesman combines the poise of a classic luxury vehicle with the style of a traditional grand tourer. All re-interpreted into an elegant, and deeply individual, contemporary form.

The vehicle's true beauty lies not just in its sculpted body but also its groundbreaking dynamics. The handling is astonishingly responsive and precise, and the ride exceptionally composed. From tight, twisting roads to highway cruising, optimum road connection, comfort and compliance are your constant driving companions.

Powered by your choice of all-new SIDI Direct Injection V6 or Generation IV V8 with Active Fuel Management.

Protected by comprehensive state-of-the-art active and passive safety systems. The Statesman represents motoring sophistication driven to perfection through world-class automotive engineering and design.

Wherever your destination. Whatever route you have planned. When you drive the Holden Statesman, you go in luxury – all the way.

Sophisticated elegance

Inside, the Statesman's intention to delight is obvious.

The workmanship throughout is of a standard usually reserved for the flagship vehicles of Europe's most admired luxury marques. The woodgrain accents and satin chrome controls. The sophisticated colour palette. The complementary textures and finishes. The soft 'theatre' lighting. All combine to engender a modern air of tailored elegance.

Twin needle stitched, leather appointed seating embraces all occupants with the right balance of upholstered comfort and support. Head, leg and elbow room is generous, even with five adults on board.

In the front, 8-way driver's electric seat puts the driver in their comfort zones at the touch of a button. As does the dual-zone climate control. Armrests are large and perfectly positioned.

Thoughtful touches also abound for rear passengers, including slide out cup holders that remain hidden until required, and a fold down centre armrest that even houses a discreet storage unit.

If it's inner peace you crave, Statesman's whisper quiet ride will keep you alone with your thoughts. If not, the vehicle's 11 speaker, 230 watt, six-disc CD sound system will accompany your travels with a soundtrack of exquisite spatial richness and clarity.

Everything you could ask for – with the added luxury of surprising affordability – this is the Holden Statesman.

As exemplified by the Statesman's elegantly streamlined instrument cluster and driver controls, intelligent automotive design is about focus, not excess.

To minimise distraction, all essential real-time vehicle data is presented clearly and concisely, directly in front of the driver, across four analogue instruments and three multifunction displays.

Controls for the most frequently used vehicle functions are located on the leather grip steering wheel. The intuitive thumbwheels and illuminated switches allow you not only to operate the sound system, trip computer and optional satellite navigation, but also personalise the way each system's details are displayed. You can even receive phone calls hands-free on compatible Bluetooth® mobile phones. All without taking your hands from the wheel.

Secondary systems, such as the dual-zone climate control and six-disc CD player are located on the centre console. Clever use of tactile soft rubber ensures grip and immediate control identification, while the high-resolution colour display ensures immediate communication of settings and electronic parking assistance alerts.

Controls for the power windows and electric exterior mirrors are by your side, as is the ingeniously integrated handbrake, with map and interior lights switches overhead.

Put simply, everything is within easy reach. As is your destination, when you have the luxury of driving the Statesman.

Focus, not excess

Caprice

Driving as you always imagined it

Corners straighten. Distances shorten. Heads turn – and stay turned. This is driving as you always imagined it. As you always wanted it. As you always knew it would be.

Supreme power. Sublime handling. Superb luxury. Unified, distilled, unleashed. Holden Caprice fuses all-out performance with absolute luxury like no other.

Every angle is impressive. Every detail exacting. The sculpted front end. The sports-inspired 18-inch alloys. The sweeping chrome highlights and low slung dynamic proportions. The accelerating roofline, tapered boot and quad exhaust outlets*. Brooding. Awe-inspiring. Its on road presence is phenomenal.

The looks don't deceive.

Whether Holden's legendary Generation IV V8 with Active Fuel Management* is under the bonnet, or the all-new SIDI Direct Injection V6, Caprice delivers razor sharp sports dynamics coupled with a true five-star luxury ride and seemingly endless reserves of power and torque. The V6, in particular, delivering not just exceptional performance, but greatly improved fuel efficiency.

Either way, it is a driving experience as unforgettable as it is irresistible – and one overseen at every moment by a full complement of advanced onboard vehicle safety systems, including Electronic Stability Control.

In a class of its own – with a class all its own – Holden Caprice offers unsurpassed, all encompassing automotive refinement for a new generation of discerning drivers. The road beckons. The way forward is clear.

* Available on V8 only

A sleek, urbane aesthetic

The luxury treatment begins before you even set foot in the cabin.

One touch of your remote key and your individual preferences take immediate effect. From the side mirror positions to your powered seat settings. Radio station presets to your trip computer personalisation. And once your key is in the ignition, the tri-zone climate control activates to your personal preferences.

Inside, the vehicle's sports pedigree is obvious. The refinement and attention to detail, unmistakable. The lush, dark coloured ceiling and pillars. The bold aluminium accents. The exquisite 'soft-touch' tailored leather and suede in understated tones. Contrasted, they engender a sleek, urbane aesthetic with a distinct, performance-oriented edge.

For a vehicle of awesome power, there is an audio system to match. Bose®, of course. With a six-disc CD stacker and 10 speakers – including sub-woofers and roof-mounted centre speaker – it delivers 220 watts of incomparable surround sound.

And while you enjoy audiophile quality music, rear seat passengers can enjoy DVDs on screens incorporated into the back of each front seat headrest.

With so much quality entertainment going on, the Caprice's theatre lighting – which slowly dims interior lights to a soft, ambient glow – will come as no surprise. Nor the myriad of other thoughtful touches, such as a centre front armrest. Retractable rear seat cupholders. And a centre fold-down rear seat armrest, complete with storage tray.

The Caprice's driver-centric dashboard makes you master of all you survey – maximising your road view and placing all essential vehicle information in your immediate line of sight for optimal driving control.

The four analogue instruments and three multifunction displays in the primary cluster are supplemented by the high-resolution full colour LCD display in the centre instrument panel – a unit that shows individual climate control settings, the electronic parking sensor display and more, including DVDs, when the vehicle is stationary.

Commonly used functions, such as the integrated hands-free Bluetooth® mobile phone system for compatible mobile phones, can be operated via fingertip controls mounted either side of the leather grip steering wheel.

Other controls are placed intuitively and, through ergonomic use of satin chrome finishes and tactile rubber grips, operate intuitively. By your side – seat, window and mirror controls. Overhead – lighting, climate control and entertainment controls for rear seat passengers.

In the Caprice, it really is all systems go.

Optimal driving control

DVD player with dual LCD screens
The remote controlled DVD player shows
DVDs through LCD screens integrated into
the back of the front seat headrests, with
sound channelled through stereo headsets.

Fender Vent
Stylish and safety-oriented, the LED fender
vents provide highly visible side indication

Bose® premium audio system
The 220 watt Bose® surround sound
system employs 10 speakers – including
sub-woofers and roof-mounted centre
speaker – to surround you with audiophile
quality surround sound.

Performance

With your choice of Statesman or Caprice, goes the opportunity to select between two extraordinary high-performance engines from the Holden Ecoline range of innovative fuel and engine technologies.

For sheer road dominating power there is the iconic 6.0 litre Gen IV V8 with Active Fuel Management. Switching automatically from eight to four cylinder operation during certain driving conditions, you get full V8 performance when it's required, and improved fuel economy when it's not.

To that, Holden now adds one of the most technically advanced locally manufactured V6 engines – one no other local manufacturer can match for performance – the stunning 210kW* 3.6 litre SIDI Direct Injection V6.

Matched to an all-new six-speed automatic transmission with Active Select, the all-new SIDI V6 lets you enjoy the spaciousness and comfort of a large luxury vehicle while experiencing petrol bills typical of more modest vehicles.

3.6L SIDI V6

power#	210kW at 6400rpm
torque#	350Nm at 2900rpm

GEN IV V8

power#	260kW at 5700rpm
torque#	517Nm at 4400rpm

Generation IV alloy V8

Standard on the Caprice and optional on the Statesman, this engineering masterwork develops a staggering 260kW* of power and 517Nm* of torque, all of it at your disposal via a perfectly matched six-speed automatic transmission with Active Select.

With that legendary muscle now goes the intelligence of Active Fuel Management (AFM). An important new Holden technology, AFM temporarily de-activates four of the eight engine cylinders in light load driving conditions when less engine power is required.

You can look forward to gains of up to one litre per 100km and potentially more under certain circumstances. Cylinder de-activation and re-activation takes less than 20 milliseconds and is virtually unnoticeable.

Other key engine features include:

- Aluminium alloy construction, creating a lightweight engine for a smoother ride
- Less weight in the front end, allowing more precise steering response, which translates into more agile handling
- A one-piece induction system made from composite materials, for smooth airflow and superior breathing

Teamed with a 6-speed auto transmission with Active Select, the Gen IV delivers astonishing performance and exceptional towing capabilities.

SIDI technology injects fuel directly into the cylinder, increasing power while saving fuel

SIDI Direct Injection V6

The all-new 3.6 litre SIDI Direct Injection V6 is standard on the Statesman and optional on the Caprice. A quantum leap in engine design, its Spark Ignition Direct Injection technology delivers a wish list of performance breakthroughs.

Maximum power is 210kW* at 6400rpm. Maximum torque is 350Nm* at 2900rpm. Outputs not only beyond those of any Holden V6 engine before, but delivered more smoothly and over a broader rev range. Fuel economy is also greatly improved, while CO₂ emissions are reduced.

Traditional engines inject fuel into the inlet port where it mixes with air prior to entering the cylinder. But with Spark Ignition Direct Injection, fuel is injected under high pressure into the cylinder directly; the inlet port carries air only, and the two mix inside the cylinder. The impact is profound:

- Fuel delivery is more precisely controlled
- More air can be introduced into the cylinder
- Fuel evaporates faster and more uniformly, cooling the air and enabling the cylinder compression ratio to be increased

All of which converts fuel into higher engine outputs with far greater efficiency; and because less fuel is required, fewer CO₂ emissions are produced.

Other key SIDI engine features include:

- Aluminium engine block and cylinder heads
- Quad cam phasing with variable timing on both inlet and outlet valves, and
- Optimised exhaust manifolds with close-coupled catalytic converters

Transmissions

All-new 6-speed automatic with Active Select for SIDI V6

Six meticulously spaced gears allow this silky smooth all-new transmission to maintain optimum engine economy across a wide range of driving conditions. Standard on the Statesman and available on the Caprice when optioned with a V6 engine, it also offers Active Select for DIY shifting when the mood strikes.

6-Speed automatic with Active Select for Gen IV V8

Paired perfectly to the Gen IV Alloy V8 engine, the optional 6-speed automatic transmission has a truly world class shift feel, with the added advantage of one touch switching between automatic or manual gear shifting via Active Select. It's available on Caprice as standard, and the Statesman when optioned with a V8 engine.

Maximum figures as per ECE regulations

Safety

Protecting what you cannot afford to lose – what cannot be replaced – that is what vehicle safety is all about, and where the Holden Statesman and Caprice are simply unsurpassed.

Both have been independently assessed by the government-endorsed Australasian New Car Assessment Program (ANCAP). Both received a 5-star ANCAP safety rating – the absolute highest rating possible on Australian roads.

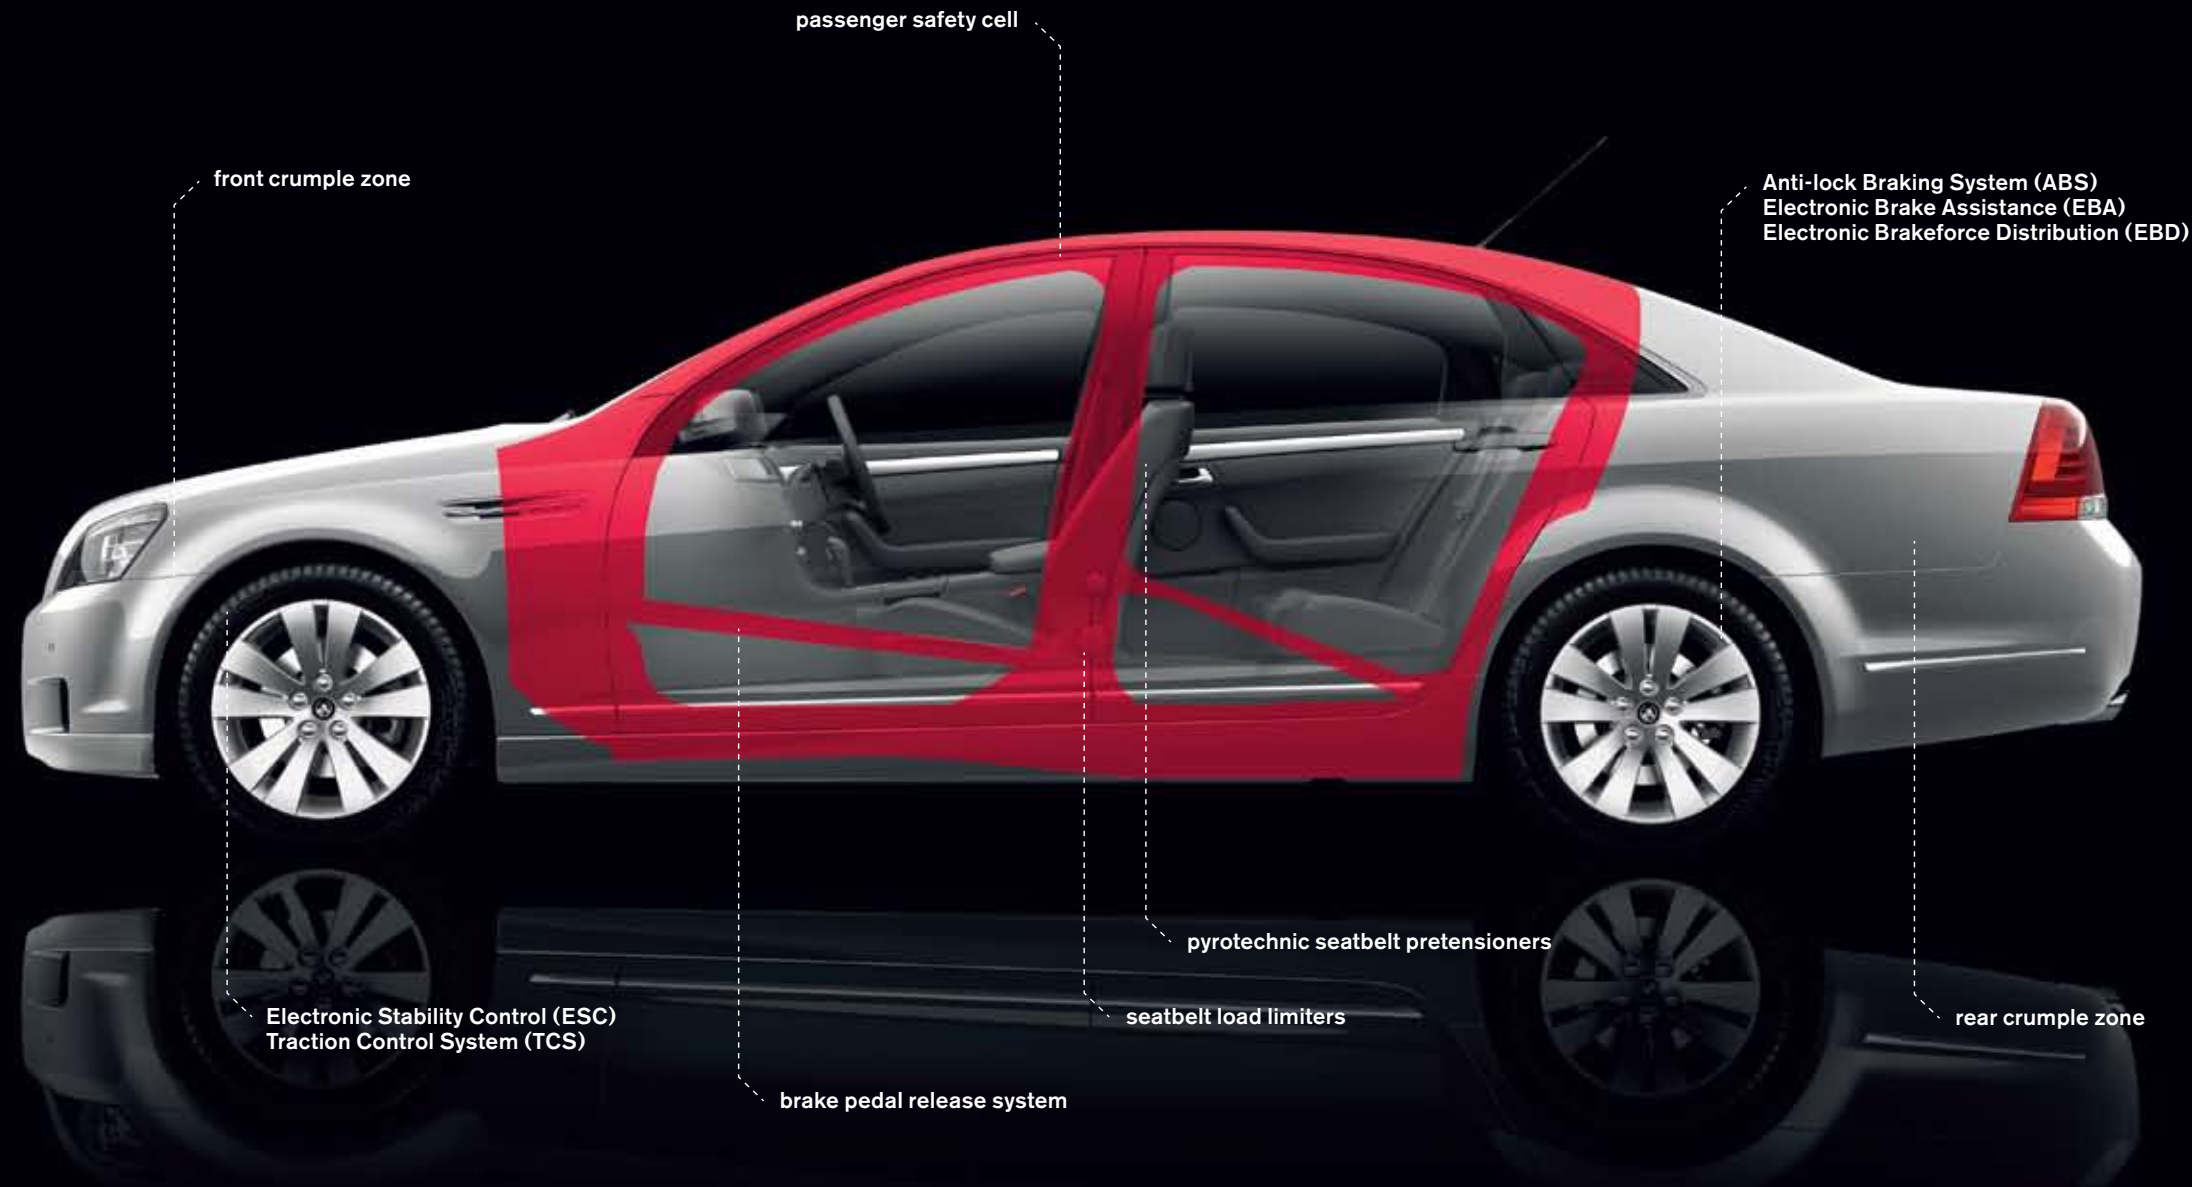

Every time you get behind the wheel, everywhere you drive, your Statesman or Caprice surrounds and safeguards you and your family with comprehensive state-of-the-art active and passive safety systems.

To help you avoid an accident, there is everything from Electronic Stability Control (ESC) and 4-wheel disc brakes with ABS Anti-lock braking, to Traction Control, Electronic Brake Assist and Electronic Brakeforce Distribution.

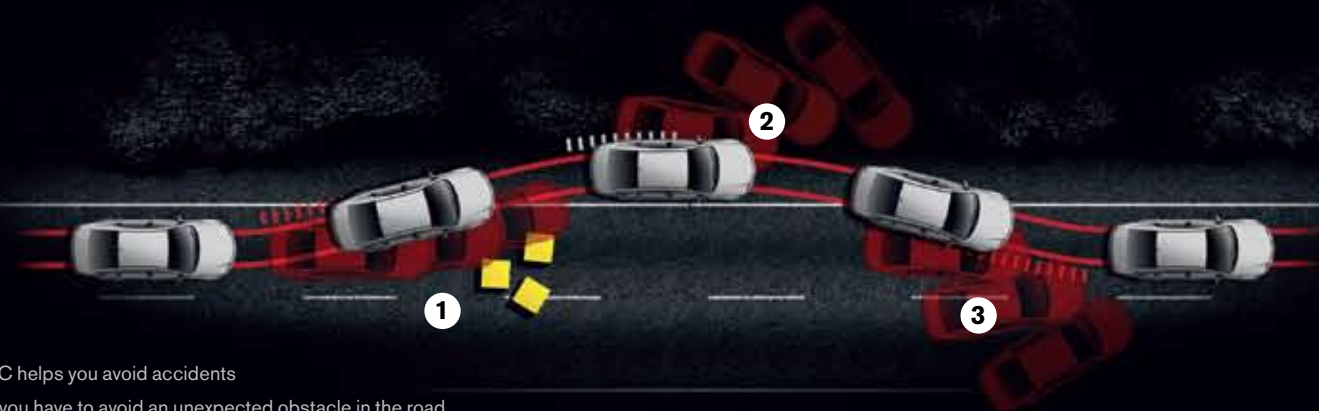

Should a collision occur, the vehicle instantly determines the severity and direction of impact and activates any required occupant protection systems, which includes seat belt pretensioners and six airbags – dual-stage for front driver and passenger, dual front side and side curtain.

Front and rear crumple zones further maximise your safety, as do the multiple chassis load paths that help channel impact energies, and the vehicle's safety cell, which is reinforced with ultra high strength steel.

Be it the elegant refinement of the Statesman that wins you over, or the performance-inspired sophistication of the Caprice, all of these safety measures come standard because your safety comes first.

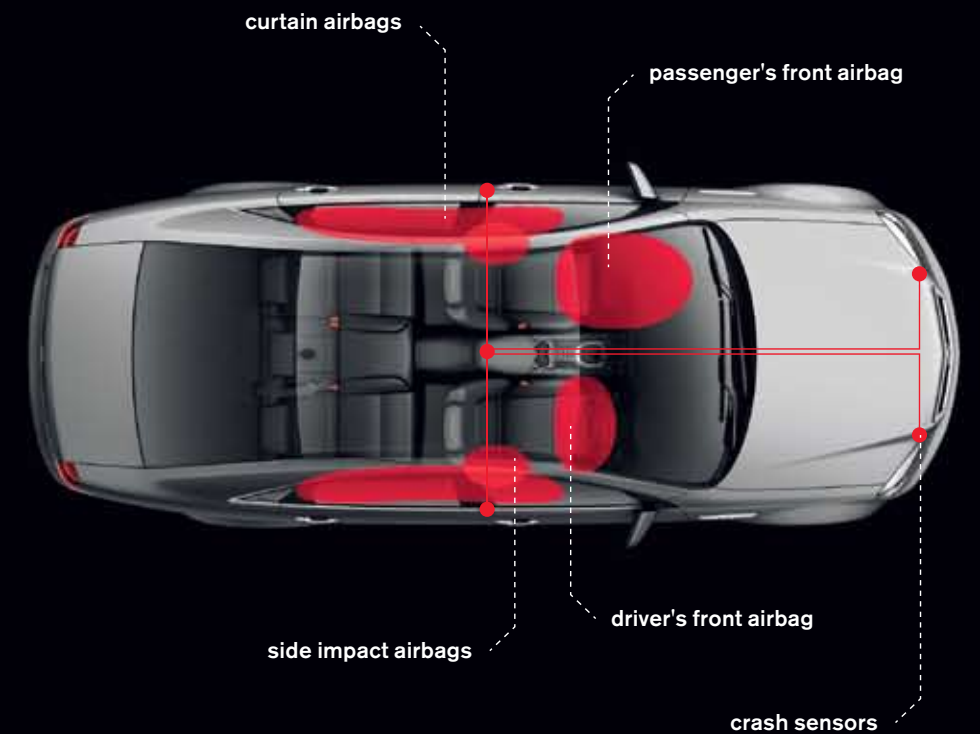

ANCAP
Rated ★★★★★

How ESC helps you avoid accidents

Imagine you have to avoid an unexpected obstacle in the road. You end up with two wheels on the gravel verge and need to brake suddenly...

- 1 ESC brakes the left rear wheel momentarily to avoid understeer.
- 2 TCS reduces torque to the left rear wheel to reduce slip.
- 3 ESC brakes the right front wheel momentarily and reduces engine power to correct oversteer.

Complementing the advanced safety systems and superior new engine technology of Statesman and Caprice, is a long list of driver-oriented innovations. Technology, not for technology's sake, but to create a driving experience richer and more rewarding than ever before.

Work. School. Holidays. Home. It matters not where your journey takes you, time behind the wheel of a Statesman or Caprice will always be time to savour courtesy of features such as these:

Priority key

Stores seating position, climate control settings and other personal preferences – including radio station presets and trip computer options – that take effect the moment you unlock your vehicle.

Rain sensing wipers

Automatically detect rain on the windscreen, monitor how heavily it's falling and adjust wiper speed accordingly.

Integrated Bluetooth® connectivity

Steering wheel mounted controls let you receive calls hands-free with compatible mobile phones.

Integrated DVD player

A tri-screen DVD system with integrated LCD displays on the rear of each front headrest is standard on Caprice.

A single-screen system with a fold down roof-mounted display is optional on Statesman. Both systems include headphones and remote control.

Satellite navigation

Provides full colour mapping on the centre console, plus audible instructions, all operated via steering wheel mounted controls*.

Trip computer

Displays any combination of the following depending on your preferences: trip distance, average speed, average fuel usage, distance to go, time to go and range, plus overspeed warnings, undspeed warnings and rest reminders every two hours of driving time.

Front and Rear Park Assist

Audible and visual warnings help simplify parking in tight spaces, with the visual warnings showing both the proximity and direction of potential obstacles.

MP3 player connectivity

The centre console mounted auxiliary input jack connects external music sources, such as your MP3 player, to the vehicle's audio system.

Location of features when fitted

- 1 Satellite navigation GPS transmitter
- 2 Steering wheel mounted scroll wheel and buttons for controlling satellite navigation, trip computer, audio system, personalising settings and hands-free phone calls using Bluetooth®
- 3 Centre driver display for messages such as satellite navigation directions, trip computer data and more
- 4 Centre console screen displays full audio system data and optional full-colour mapping when satellite navigation is fitted
- 5 Microphone for hands-free Bluetooth® mobile phone calls
- 6 Audio system auxiliary input jack for connecting MP3 players
- 7 Integrated DVD screens on Caprice
- 8 Integrated DVD screen on Statesman

customer care

easy purchase options

Insurance

Holden Insurance offers a range of competitively priced insurance products, providing tailor-made protection, at the level of cover you need. For more information, call the Holden Insurance hotline on 1300 784 026.¹

Holden Leasing

Businesses of all sizes are now accessing vehicle leasing options with Holden Leasing. We operate nationally through the Holden Dealer Network and our dedicated service and support team. Our people are responsive professionals who understand your business and what it means to deliver total fleet management solutions. To find out how Holden Leasing can help you, call us on 1800 022 077.

GM Holden Card

The GM Holden Card can assist you to get into a new Holden sooner. 10% of your credit card purchases go towards a Rebate of up to \$3,000 on your new Holden² (depending on model). That's up to \$1 saving on your new Holden for every \$10 spent. There are a range of extra features including up to 45 days interest free³ on credit card purchases and a competitive interest rate. Apply⁴ online at www.holden.com.au/mastercard, or call the GM Holden Card helpline on 131 200.

ownership benefits

Holden Service

With one of the largest Service Networks in the country, Holden Dealers can supply an enviable level of customer care. Only Holden Dealership technicians have access to regular Holden factory training and equipment.

The Holden Luxury Edge

One of the extras you get from owning a new Statesman or Caprice is extra peace of mind. With the Holden Luxury Edge, the first two handbook services are at no extra charge as long as they fall within the first 12 months from date of first registration. For complete terms and conditions, just ask your Dealer.

Holden New Vehicle Warranty

Every new Holden comes with a New Vehicle Warranty, covering your Holden for 3 years⁵ or 100,000 kilometres, whichever comes first. This factory backed warranty covers items including the engine, transmission, interior and exterior components. Refer to your Owner's handbook or see your Holden Dealer for full terms, conditions and exclusions.

Holden Extended Factory Warranty

Holden also offers Holden Extended Factory Warranty. Holden Extended Factory Warranty is a complete extension of your New Vehicle Warranty, giving you peace of mind because your car is factory backed for up to 3 additional years. The very same items covered under the New Vehicle Warranty will continue to be covered without exclusion. The Holden Extended Factory Warranty can be purchased through your local Holden Dealer at the same time as your Holden vehicle purchase. See your Holden Dealer or call 1300 632 407 for full terms and conditions.

24 Hour Roadside Assistance

Provided for the first year of your new Holden's life⁶. Holden Roadside Assistance is one of Australia's most comprehensive assistance packages with over 3,000 Roadside Assistance patrols nationwide⁶. There to help with even the smallest service, the toll-free Roadside Assistance hotline is always open, 1800 817 100.

For more information contact

Holden Customer Assistance on 1800 033 349 Monday to Friday 8am to 7pm or Saturday 9am to 1pm EST or visit www.holden.com.au

¹ Subject to approval. ² The maximum GM Holden Card 'Core Rebate' (plus additional 'Bonus Rebate' accumulated via participating Holden Dealers) applicable for each vehicle, accrued over a maximum of five years may be applied per eligible vehicle purchased. For the maximum Rebate applicable for each vehicle refer to the 'Maximum Rebate Levels' table at www.westpac.com.au/holden. Vehicle sales for which a fleet allowance is paid are not eligible for GM Holden Card Rebate. Earning and redemption of Rebate towards a new Holden is subject to the GM Holden Card Rebate Program Rules. ³ The interest-free period applies where the card account is fully paid by the due date each month. ⁴ GM Holden Card is approved by Westpac. Applications are subject to Westpac's normal lending criteria. ⁵ From date of first registration. ⁶ In remote or sparsely populated areas you may experience delay in obtaining Roadside Assistance. Refer to the Customer Care brochure in your glovebox for full terms and conditions of this service.
