What if the CR-V came with more than you could imagine?

The trick to remaining versatile is to keep adapting. So with the CR-V Limited Edition, we've moved the benchmark further away and driven towards it. And what makes this a Limited Edition?

Enviably features like 17" alloys, rear park assist, a Bluetooth® phone system* and deluxe tailored floor mats all punctuated by a Limited Edition badge. But you can't make something this special without a solid foundation. We started with finely-tuned suspension, a Real Time 4WD system and a 2.4 litre DOHC i-VTEC engine with 125kW of power and 218Nm of torque.

And what do all these numbers mean? A fuel efficient machine with a lot of get-up-and-go that you can count on when the going gets tough. Plus the interior includes air-conditioning, power windows, cruise control, an MP3-ready CD player with steering-wheel-mounted audio controls and reclining and sliding rear seats that can fit all kinds of things.

A vehicle with such substance deserves a unique style. That's where its bold bodylines, headlights, bumpers and front grille come in.

With all the twists and turns, ups and downs and lefts and rights you take, it's safe to assume life could get a bit unpredictable. Happily with Honda, it's safety first. That's why the CR-V Limited Edition comes with all of our best preventative measures. Things like Advanced Compatibility Engineering (ACE) body structure and Vehicle Stability Assist (VSA) with Traction Control.

You'll also have the security of an Anti-lock Braking System (ABS), Electronic Brakeforce Distribution (EBD), three-point seatbelts, front seatbelt pre-tensioners with load limiters, active front head restraints, dual front and side SRS airbags plus full-length curtain airbags.

So, what's next? How about a test drive?

1. Alloy wheels

These 17" alloys enhance the CR-V's athletic profile.

2. Rear park assist

Reverse parking is simple with sensors that beep when you're too close to objects.

3. Bluetooth® phone system*

As long as your mobile is in the car, this clever system lets you take calls while keeping your eyes on the road.

4. Deluxe tailored floor mats

A sharp way to protect the carpeting from the wear and tear of everyday driving.

Things just keep getting better
