Q30

**INFINITI**

EMPOWER THE DRIVE

INFINITI

# EMPOWER THE DRIVE

---

We are like you. We push ourselves beyond our comfort zone. While others might be content with making better machines, we are driven to go beyond—to design cars that push human potential. We build technology to enhance your senses, striking design that demands a response and performance that makes you feel more alive. Prepare to experience the road as it was intended.

## INFINITI Q30

Empower the drive with style. This is art in motion. Expression and purpose as one. A premium compact optimised for the urban landscape and those who define it. Utilising signature adaptive LED headlamps to own the night.<sup>1</sup> A dramatic stance to rule the streets. Q30. Dare to stand out.

Overseas model shown throughout

## EXTERIOR DESIGN

# YOU. OUT IN FRONT. DEFINING A NEW STYLE

The city is your stage. The Q30 puts you in the spotlight –with a stance that rises above the rest and with dramatic lines that are as expressive as you are.

**ELEVATED STANCE** A 5-door compact that is sleek and sporty with a seating position that gives you the height to stand out. The unique black lacquer trim around the wheels and lower side sills emphasise its unique stance. The ideal height provides a clearer view over traffic while making it easier to enter and exit the Q30.

**UNDENIABLY INFINITI** The top arc of the grille mirrors the arc of the bottom to form INFINITI's signature double-arch grille. The crescent-shaped C-Pillar arcs forward from the rear window as if in perpetual motion. The Q30 displays INFINITI's DNA in every curve, front to rear.

**19-INCH SPORT WHEELS** Specially designed to integrate with the athletic ride height of the Q30<sup>1</sup>, the dark finish shows off its aggressive styling. Lightweight to enhance performance.

**SIGNATURE LED LIGHTING** Inspired by the human eye, the trademark INFINITI light shape can be seen from both the front and the side. It is echoed in the taillamps for a definitive character from every angle.

**DYNAMIC LINES** A rising and dipping shoulder line runs the entire length of the Q30. The deep, sharp curves on the doors are so dramatic, engineers had to develop a new type of 3D manufacturing process to produce them. The Q30 looks like nothing else on the streets.

INTERIOR DESIGN

# THE NEW FEEL OF NONCONFORMITY

---

On every surface inside, you'll find high-quality softness from the same premium materials found on your favorite luxury goods.

LEATHER ACCENTED<sup>20</sup> is selected for its exceptional, clothing-quality softness. And we use it beyond the seating surfaces, such as the dash.<sup>1</sup>

# THE NEW SHAPE OF INDIVIDUALITY

---

Shapes that flow naturally in beautiful asymmetry create an inviting interior that's fresh and unique. This is design with a new view.

**FIRST IMPRESSIONS** From the driver's seat, the intersecting curves of the interior are refreshingly dynamic, but our designers know that your first view happens before you even sit down. So they designed The INFINITI Q30 to be breathtaking the moment you open the door, from the side view, as well as head on.

## CONNECTIVITY

# IN TOUCH WITH YOUR CONNECTED WORLD

INFINITI InTouch™ makes your world flow. Your life is always moving, and INFINITI InTouch™<sup>2</sup> seamlessly brings your world into your car. Stay ahead and in contact with your voice, text, navigation and music.

**A PREMIUM CONNECTION** Every time you get into your Q30, connect with technology that responds like the technology you hold in your hand. After you connect your smartphone, INFINITI InTouch™ brings your world into your car, allowing you to text, listen to your playlist, navigate unfamiliar streets or call your friends.<sup>2</sup>

**ADJUSTS TO YOU** INFINITI InTouch™ delivers an intuitive experience right from your driver's seat in the manner that best suits you. Once your smartphone is connected, you can interact with the state-of-the-art system however you find easiest—through the 7-inch colour touchscreen, INFINITI Controller or voice command.<sup>2</sup>

**PLUG-IN CONVENIENCE** Two USB ports give you twice the opportunities. Get instant access to your music library. Charge your smartphone. Listen to tunes on a USB stick or drive.<sup>3</sup> An optional 10-speaker Bose® audio system will transform your Q30 into a mobile sound studio.

**BLUETOOTH® STREAMING AUDIO** Turn your Bluetooth®-enabled smartphone into a source of music, and listen to your top playlists over the Q30's audio system.<sup>4</sup>

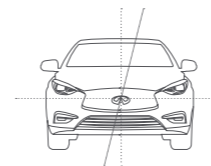

**HANDS-FREE VERSATILITY** With the INFINITI Bluetooth® Hands-free Phone System,<sup>4</sup> you can make and receive wireless calls using voice recognition. No fumbling. No need for a headset. Just press a button on the steering wheel.

## HANDLING

# QUICK RESPONSES FOR THE URBAN STREETS

Obstacles and opportunities come up fast in the city. The Q30 empowers you to respond with finely tuned handling that's as agile as it is smooth.

STABLE CORNERING

**SHARPNESS WITH SMOOTHNESS** Sporty yet forgiving, you can feel the attention paid to tuning the Q30 shock absorbers. They hold the Q30 tight and stable as you take turns while softening rough pavement and cobblestone, for a rare balance of responsive handling with a smooth ride. Engineers even reduced suspension noise so it sounds smooth.

**FINE-TUNED STEERING** The Q30 was made to thrive in the fast-paced thrust and parry of urban driving. A little turn of the wheel results in a big response with little effort, so it's always easy.

**SPORT SUSPENSION** In the INFINITI Q30 reflexes are sharpened and the look is more aggressive, thanks to a lower and firmer suspension. It is paired with cross-drilled front discs that help with air ventilation for impressive stopping performance.<sup>1</sup>

**SEAT DESIGN** You connect to your Q30 through the steering wheel and your seat. The driver seat's design is based on zero gravity research to provide maximum spinal support and reduce the pressure on muscles, so it supports you where you need it while also reducing fatigue on long drives.

ENGINEERING

# EVERY SENSE IS HEIGHTENED AND QUICKENED

From the feel of acceleration to the song of the engine, we've amplified the experience of power and sound motion in the Q30.

**DUAL CLUTCH TRANSMISSION** Shift delays are now an artifact of history. With one clutch for even gears and another for odd, the next gear is already pre-selected. The result is smooth gear changes you'll interpret as pure, clean power.<sup>1</sup>

**SHARP SHIFTING** Paddle shifters on the steering wheel give you fingertip control over gear selection. The speedy shifting of the Dual Clutch Transmission feels even faster when you never take your hands from the wheel to change gears.<sup>1</sup>

**A CONTINUOUS RUSH** Acceleration Swell is our vision of power. By precisely tuning the engine to unleash torque over a broader rev range, the force you feel seems to increase the faster you go, making Swell feel like a limitless rush.

**DRIVE MODE SELECTOR** Adjust your driving experience to fit the moment. Whether you want efficiency, smoothness or sportiness, select Manual, ECO or Sport mode to fine-tune your performance to your needs.<sup>1</sup>

2.0L  
TURBO  
PETROL

CONVENIENCE

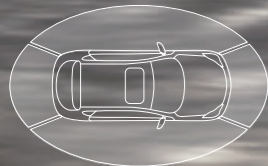

# EASY TO PARK FROM ANY ANGLE

No other vehicle offers its combination of awareness innovations and parking assistance technologies. It's engineering that intuitively extends your ability to maneuver in and around tight spaces.

**SEE EVERY SIDE** Gain a new perspective on what's around you. With the Around View® Monitor with Moving Object Detection and Front and Rear Sonar System,<sup>1,5,6</sup> four cameras and one virtual 360° view from above make it easy to see and maneuver in even the tightest spaces.

**MOVING OBJECT DETECTION<sup>1,7</sup>** The four cameras not only give you an unprecedented view, they keep watch as well. An audible alert is given when a stationary or moving object is detected behind you or close by, and the appropriate camera is highlighted to show you which side.

**INTELLIGENT PARK ASSIST<sup>1,8</sup>** Using a combination of 12 sensors, this system will determine if the parking area is large enough. Simply engage the gear shift, press a button to confirm, and operate the accelerator and brake pedal. The Q30 will park itself safely—in parallel or reversing—in parking spots.

12  
SENSORS

360°  
VIEW

4  
CAMERAS

# MASTER THE WAY YOU MOVE THROUGH TRAFFIC

Whether the roads are clear, chaotic or constantly changing, intelligent technologies help guide you through the action.

## KNOW YOUR WAY

Find your way through busy streets and unfamiliar territory. INFINITI InTouch™ with Navigation<sup>1,2</sup> lets you choose a view that's most intuitive to you—a 2D overhead view or a 3D Birdview perspective. You can even search for a destination without knowing the specific name or category, then save it to start your journey.

## MANAGE YOUR PACE

Set your desired speed and distance and Intelligent Cruise Control (Full-Speed Range) can automatically adjust your speed in slowing traffic. When traffic speeds resume, Intelligent Cruise Control can bring you back up to your preset speed and distance.<sup>1,11</sup>

## MAINTAIN YOUR LANE

The Lane Departure Warning<sup>1,10</sup> monitors lane markings and will warn you visually, audibly and physically—as a vibration through the steering wheel—so you can correct your line before you leave your lane.

## SEE THE SIGNS

The Traffic Sign Recognition<sup>19</sup> uses a camera to watch for posted speed limits and give you a reminder in the instrument panel. When you're aware, you're in command.<sup>1</sup>

## SAFETY

# INNOVATIVE TECHNOLOGY HELPS YOU SEE AND AVOID

---

A unique combination of active and passive safety innovations enhance your ability to respond instinctively.

**DANGER** Forward Collision Warning<sup>12</sup> looks ahead for the vehicle in front. If you're closing in too quickly, the system will warn you visually and audibly.

**ASSISTED BRAKING** Adds another dimension of security. It detects vehicles in the lane ahead of you. If you need to brake, it will push up the accelerator pedal and apply the brakes to help minimise or even prevent a collision.

**HELPING STAY IN CONTROL** Vehicle Dynamic Control (VDC)<sup>14</sup> compares actual vehicle cornering to the driver's input. If the system senses oversteer or understeer, VDC adjusts engine power and applies appropriate braking to individual wheels to help correct the problem and keep the Q30 on the intended path.

**BETTER DIRECTIONAL STABILITY WHILE STOPPING** Electronic Brake force Distribution adjusts the amount of pressure applied to the front and rear wheels to improve braking performance and reduce front-end dive.

**SENSES WHERE YOU CAN'T SEE** The Blind Spot Warning System<sup>15</sup> uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane and helps you avoid it. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds.

**STRONGER AND LIGHTER** High- and ultra high-strength steel is used in critical areas, such as the roof pillars, floor and roof crossmembers, door beams and various reinforcements to enhance your safety in case of a collision.

**REDUCING FORCE** In the event of a collision, advanced front and rear crumple zones deform gradually to help absorb the energy of the impact before it reaches the passenger cabin.

**1** Available on select models. **2** Driving is serious business. Only use INFINITI InTouch™ when safe to do so. Subscription Agreement required. Compatible smartphone required. May require retailer service visit or software upgrade to activate. Like any computer, processing speed may vary and system response delay or system reset may occur intermittently. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. **3** Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. iPod is a registered trademark of Apple Inc. All rights reserved. iPod not included. **4** Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by INFINITI is under license. See <http://www.INFINITLusa.com/bluetooth> for details. **5** AVM with MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 km/h. Always check surroundings and turn to look behind you before moving vehicle. **6** The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object. **7** MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 km/h. Always check surroundings and turn to look behind you before moving vehicle. **8** Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. **9** Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. **10** The Lane Departure Warning/Lane Departure Prevention Systems operate only when the lane markings are clearly visible on the road. Speed limitations apply. See your Owner's Manual for more details. **11** Intelligent Cruise Control is not a collision avoidance or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. **12** FCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. See Owner's Manual for details. **13** FEB cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. **14** VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. **15** Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. **16** Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details. **17** ESP, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness or dangerous driving techniques. Always drive safely. **18** Intelligent Brake Assist is only an aid to assist the driver and is not collision warning or avoidance device. It is the driver's responsibility to stay alert, drive safely and be in control of the vehicle. **19** Traffic Sign Recognition operates only as a guide and may not display all traffic signs in all conditions. The driver remains exclusively responsible for observing all traffic laws and signs on or near the road, including speed limit related signs. **20** Leather accented features and upholstery may contain synthetic materials. iPad and iPod are registered trademarks of Apple Inc. Bose is a registered trademark of the Bose Corporation. Dinamica is a registered trademark of Miko S.r.l. Alcantara is a registered trademark of Alcantara S.p.A.
