INFINITI

EMPOWER THE DRIVE

1. Intelligent Cruise Control (Full Speed Range) is not a collision avoidance or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident.
2. Intelligent Brake Assist is only an aid to assist the driver and is not collision warning or avoidance device. It is the driver's responsibility to stay alert, drive safely and be in control of the vehicle at all times.
3. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. Infiniti Navigation System may be inoperable in some areas.
4. Airbags are only a supplementary restraint system; always wear your seat belt. Even with the front passenger airbag switched off, it is recommended to not use rear-facing child restraints in the front passenger's seat. In addition, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents. See your owner's manual for more detail.
5. ESP, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness or dangerous driving techniques. Always drive safely.
6. The Lane Departure Warning system operates between approximately 60-200km/h and only when lane markings are clearly visible on the road. These system will not prevent loss of control. See your owner's manual for more details.
7. The Blind Spot Monitor system is not a substitute for proper lane change procedures, the system will not prevent contact with other vehicles or accidents due to careless or dangerous driving techniques or detect every vehicle or object around you.
8. FCW cannot prevent accidents due to carelessness or dangerous driving techniques. Always drive safely.
9. Driving is serious business and requires your full attention. Do not operate any devices connected to the USB port while driving.
10. Bose is a registered trademark of the Bose Corporation
