Design

Powerful and alluring. Ready, poised in anticipation of the drive ahead. Range Rover Sport is assertive, with a unique identity and a low-to-the-road, contemporary appearance. With its muscular, sharp attitude it looks like it's moving, even when it's standing still.

Stylish, bold and contemporary. Range Rover Sport features Range Rover signature 'concentric circle' headlamps and a 'twin stripe' design on grilles, vents and lights for charisma and a truly purposeful line. Plus co-ordinated finishes on the exterior grille, vents and door handles. This is the latest Range Rover Sport.

For even more assertive, more individual exterior styling, Autobiography Sport offers a unique interpretation of Range Rover Sport design with exclusive details, including a grille and side vents.

Interior

Supreme wellbeing. As the definitive luxury sports tourer, Range Rover Sport is the place to be for both driver and passengers alike.

Range Rover Sport's seats create a sporty experience and luxurious, long-range comfort. They are available in an exciting variety of colours and in two grades of leather. Contrast stitching is available with premium Oxford leather. An Extended Leather Pack is specified on Luxury variants and above to make the interior environment even more elegant.

Autobiography Sport offers even more individual style through exclusive interior colour choices in the finest materials.

The dynamic cockpit interior is designed to cosset and cocoon all occupants, while the legendary command driving position offers a clear view of the surrounding environment and helps to put the driver in complete control. This superb interior provides premium levels of craftsmanship and comfort with tactile materials creating a superior ambience of quality and prestige. There is even interior mood lighting.

Luxurious. Step inside Range Rover Sport and step up a class. The unique cockpit driving position puts the centre console and controls all within easy reach. Range Rover Sport allows easy connection of external devices. Hard Disk Navigation is standard on all models, WhiteFire® wireless technology and a **harman/kardon®** high-performance sound system are available as optional features.

Easy-to-use Human-Machine-Interface (HMI) Touch Screen with entertainment, information, navigation and communication functionality.

The refinement of Noble-plated finish and wood veneer trim for a luxury ambience.

Instrument panel with five inch Thin Film Transistor (TFT)-LCD technology and leather surround from the Extended Leather Pack*.

Steering wheel with two separate five-way navigation toggle switches to maximise control and ease-of-use of the Infotainment system and functions on the five inch TFT-LCD screen.

harman/kardon® is a registered trademark of Harman International Industries, Incorporated.
WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under license.
*Extended Leather Pack is specified on Luxury derivatives and upwards.

Intuitive, easy-to-use access to Infotainment. Providing a hub for all audio, communication and navigation, as well as being the focal point of the centre console, is a full-colour Touch Screen available with optional Dual View technology, which allows driver and front seat passenger to watch separate images simultaneously.

A range of superb **harman/kardon**® In-Car Entertainment options are available depending on your choice of vehicle. Every system features a minimum of 11 speakers and a power output of 380W. The premium system has 17 speakers with the power output of 825W.

A Rear Seat Entertainment system is available with eight inch screens in the back of the front headrests.

The Portable Audio Interface allows the connection to the In-Car Entertainment system of an iPod® with full track and search integration. An MP3 player or a mass storage device can also be connected via the USB port.

Control. All key controls are close to hand and information is easy to read thanks to the centrepiece of driver information, the instrument panel with its five inch Thin Film Transistor (TFT)-LCD technology. It shows key vehicle information and can be controlled by the five-way navigation toggle switches on the steering wheel.

The multifunction steering wheel gives fingertip control of key functions.

A paddle-operated gearshift* is available on Range Rover Sport.

Keyless entry* gives driver access without the necessity of using the smart key's unlock command. The vehicle is automatically unlocked and the immobiliser deactivated when the smart key comes within close proximity.

Push button Start/Stop. The vehicle is started with a dash-mounted push button without the requirement of smart key docking.

*Standard features on Luxury derivatives and upwards.

Performance

Power. Performance. Three utterly refined engines to suit personal preferences and requirements – LR-V8 Supercharged and LR-V8 both with the latest generation 6-speed automatic transmissions with CommandShift®. And LR-SDV6 Advanced Sequential Turbo Diesel in 180kW form with 6-speed automatic transmission with CommandShift®.

Choice. The right engines for a diverse variety of driving styles and performance requirements. Each one offers unparalleled levels of refinement, progressive power on demand and torque.

LR-V8 Supercharged Petrol

375kW and 625Nm of torque enables longer gearing for improved fuel economy and CO₂ emissions. Fuel consumption 14.9L/100km* on EU combined cycle. Highly efficient, spray-guided direct injection. Conforms to EU5 emissions regulations. Lightweight construction uses recycled materials. 24,000 kilometre service intervals.

LR-V8 Petrol

276kW and 510Nm of torque with cutting-edge powertrain technologies for an outstanding blend of power and efficiency. Fuel consumption 13.9L/100km* with CO₂ emissions of 327g/km* on EU combined cycle. Highly efficient, spray-guided direct injection. Conforms to EU5 emissions regulations. Lightweight construction uses recycled materials. 24,000 kilometre service intervals.

LR-SDV6 Diesel

180kW and 600Nm of torque for refinement and efficiency. Fuel consumption 9.2L/100km with CO₂ emissions of 243g/km on EU combined cycle. Unique, parallel sequential turbocharger system. Third generation common rail fuel system. Conforms to EU4 emissions regulations. 24,000 kilometre service intervals.

e_TERRAIN TECHNOLOGIES is a unique engineering philosophy and commitment to sustainable initiatives which uses the latest creative and innovative technology to make continual and significant improvements to the environmental performance of all Range Rover vehicles.

*Manufacturer's data

All Conditions

Advanced. Range Rover Sport has many advanced dynamic technologies that combine to deliver exhilarating on-road performance. This can be enhanced even further with the Dynamic Pack.

The Dynamic Pack consists of Adaptive Dynamics and Dynamic Response. Adaptive Dynamics works by predicting the response to driver input, allowing the system to mitigate any excessive movement. Dynamic Response senses cornering forces and compensates for them automatically.

Adaptive Dynamics includes the Dynamic Program setting which is selected via the Terrain Response® system to give an even more engaging drive. On LR-V8 Supercharged models the system can provide more performance-orientated responses to driver input by remapping steering, throttle and gearbox settings. The Dynamic Pack is standard on LR-V8 Supercharged and is available as an option on diesel vehicles.

Thanks to the comprehensive range of technologies in the Dynamic Pack, Range Rover Sport offers even better on-road performance than its predecessors. It is the best ever Range Rover for driver-focused dynamics and performance. From the smoothest roads, to more extreme rough surfaces and poor weather conditions, the vehicle delivers a sense of confidence and security.

More experience. The Terrain Response® system gives access to over 60 years of Land Rover four-wheel drive expertise and state-of-the-art dynamic technology. Terrain Response® is your own driving expert with you in the vehicle at all times. Simply set the conveniently positioned control to the appropriate icon and Range Rover Sport's engine, transmission, suspension and traction settings reconfigure for optimum driveability in all conditions.

The Terrain Response® system includes a sixth setting, Dynamic Program (standard on Supercharged vehicles). This increases body control and gives a more driver-focused orientation to the vehicle's settings by adjusting the Adaptive Dynamics.

Dynamic Program

General Driving

Grass, Gravel, Snow

Mud & Ruts

Sand

Rock Crawl

The Terrain Response® system includes Dynamic Program, which gives a sportier, more engaging drive in all conditions.

The Terrain Response® system includes Sand Launch Control. Sand Launch Control helps prevent the wheels spinning when moving off from a standstill and the vehicle 'grounding out'. Once the vehicle reaches the appropriate speed the slip thresholds are increased to maintain progress. This technology takes yet another step forward with Gradient Acceleration Control and Hill Start Assist. Gradient Acceleration Control is designed to prevent situations where the vehicle might 'run away' on a steep gradient (and Hill Descent Control has not been selected), allowing the driver time to regain control. Hill Start Assist automatically releases brake pressure progressively on a steep gradient and helps prevent the vehicle from inadvertently rolling backwards.

Another cutting-edge feature is Trailer Stability Assist (TSA). Using onboard sensors that detect the presence of a trailer, TSA identifies trailer sway to trigger active braking, cut engine output and stabilise the trailer.

Technologies

Adaptive Cruise Control (ACC)* with Advanced Emergency Brake Assist uses radar to automatically match the pace of the vehicle ahead, maintaining a constant speed with gap distances set by the driver.

Forward alert gives an audio and visual alarm when the distance to the vehicle in front decreases. Advanced Emergency Brake Assist is designed to detect a possible collision and prepares the brake system, then assists the driver as he or she brakes by applying full-force braking even if pedal pressure is light.

Adaptive Xenon Headlamps* with LED technology and Range Rover signature 'concentric circle' design give Range Rover Sport a striking headlamp identity. Automatic Headlamps with High Beam Assist detect vehicle headlamps/tail lamps and dip the high beam.

Range Rover Sport brakes are engineered for maximum stopping power. Supercharged models have 20 inch high-performance brakes developed in association with Brembo™ and now feature red brake calipers as standard.

Surround Camera System* technology utilises five discreetly placed digital cameras to relay an almost 360 degree view around the vehicle to the Touch Screen display on the fascia. The system provides a number of driver-assist features, for instance zoom and pan, which can be invaluable in situations such as towing or hitching a trailer.

Rear Parking Aid (Rear View Camera) displays a rearward view from the vehicle on the Infotainment screen. To aid manoeuvrability lines representing the vehicle's outer are superimposed on the rearward image.

Five digital cameras are housed around the vehicle – two on either side of the front bumper, one in each of the door mirror casings and one in the rear spoiler.

The Hard Disk Drive (HDD) Premium Navigation system allows features to be accessed more quickly – for instance, route finder and route recalculation times are significantly reduced – helping minimise delays in determining directions for the driver. The system also allows the latest mapping information to be uploaded via your Land Rover Dealer.

Range Rover Sport's highly rigid body, with its low centre of gravity and energy-absorbing crumple zones offer impressive levels of safety and occupant protection. Dynamic Stability Control (DSC) monitors wheel speed and steering angle to help make cornering safer and more stable. DSC applies ABS braking to individual wheels to support and maintain control.

Further improvements to the stability control systems include Roll Stability Control – which operates progressively to help reduce the likelihood of the onset of a rollover situation – and Enhanced Understeer Control – which helps the driver recover control by mitigating understeer. Range Rover Sport displays real strength in impact tests, thanks to its hydroformed frame design and advanced engineering. For added peace of mind the vehicle is equipped with front and side curtain airbags that are fitted to protect both front and rear passengers.

Autobiography SPORT

Make it more exclusive, make it more personal. Range Rover Sport is defined by exceptional on-road dynamics, class-leading comfort and outstanding breadth of capability. It is the definitive luxury sports tourer. Autobiography Sport is the ultimate expression of sporting luxury, individual style and is the pinnacle of the Range Rover Sport model line-up. It offers an impressive selection of exclusive interior colour choices in the finest materials. With its sophisticated exterior design styling options, Autobiography Sport gives you the satisfaction of knowing that you've really made the vehicle yours.

Autobiography Sport is available with two luxury orientated interior themes – **Cannes** and **Valencia**; and five interior themes that offer varying degrees of sportiness – **Estoril**, **Hockenheim**, **Le Mans**, **Monaco** and **Monza**. All include the following styling features as standard: unique Atlas Autobiography Grille, Atlas Side Vent, Autobiography Sport 20 inch Alloy Wheels, Stainless Steel Door Tread Plates.

■ Standard □ Optional – Not available

Fuel consumption figures: The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitable differences between individual vehicles of the same model. The vehicle may also incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. Low fuel warning at 9 litres approximately.

The power tailgate* adds practicality and makes life with your Range Rover Sport even easier. Opened at the touch of a button on either the fascia or key fob, the opening height is programmable to suit personal preferences and accommodate more confined loading areas. The tailgate is closed via a button on the inside of the boot lid.

There are three ways to operate the power tailgate:
The fascia. The key fob. The tailgate.

*Power tailgate is optional on SDV6 and standard on all other models.

Accessories

Add personalisation with attitude to really stand out from the crowd. Add even greater luxury and exclusivity to the interior atmosphere. Or add even greater capability to suit an individual lifestyle. And remember, accessories can be added at any stage during the vehicle's life. Not just when it's new.

Land Rover Approved Accessories are designed and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Visit www.landrover.com.au for more information.

Daytime Running Lamps*
Standard Front Bumper
VPLSV0064

Exterior Design Pack Bumper (not shown)
VPLSV0065

Two arrays of LED lamps, four either side, are integrated into the front bumper profile to increase the vehicle's visibility for other road users and pedestrians.

2010 Model Year vehicles onwards.

*The Daytime Running Lamps are not illuminated when either the vehicle headlamps or side lamps are switched on.

Vehicle shown right is accessorised with 20 inch Stormer Alloy Wheels – Sparkle Silver Finish, Range Rover Tyre Valve Caps, Fixed Side Steps, Roof Rails and Crossbars, Silver Noble Mirror Caps, Front Grille and Fender Vent Kit (Gloss Black Finish), Sports Exhaust Tailpipes.

Fixed Side Steps
VPLSP0040

Front Lamp Guards
VPLSP0010
2010 Model Year vehicles onwards

Rear Lamp Guards
VPLTP0064
2010 Model Year vehicles onwards

Bumper Styling Cover
VPLSB0043
Compatible with Front Park Distance Control
and Adaptive Cruise Control (ACC) System.
2010 Model Year vehicles onwards

Front Grille and Fender Vent (Pair) Kit
Gloss Black Finish
Petrol Models VPLSB0061
Diesel Models VPLSB0060

Body Side Moulding
DGJ500020PCL

Bright Finish Mirror Caps
VPLMB0041 – (Upper)
2010 Model Year vehicles onwards

Silver Noble Mirror Caps (not shown)
VPLSB0086
2010 Model Year vehicles onwards

Front Mudflaps
CAS500070PCL

Rear Mudflaps
VPLSP0016
Compatible with standard bumper.

VPLSP0015 – (not shown)
Compatible with 2010-2013 Model Year Exterior Design Pack.

Sports Exhaust Tailpipes
VPLSB0087 – 5.0L V8 N/A Petrol Models
VPLSB0089 – 3.0L 180kW Diesel Models

Snow Traction System
LR005737
For front 18 inch, 19 inch and 20 inch wheels only.

The alloy wheels shown on pages 44-45 may also be available as an accessory fitment. Please see your Land Rover Dealer for further details.

Range Rover Tyre Valve Caps
(set of 4)
LR027663
Enhance your alloy wheels.

Roof Rails and Crossbars*

VUB502130

Crossbars easily removed when not in use. Vehicle height when fitted 1,873mm at normal ride height. Maximum payload 71.8kg†.

Luggage Box*

VPLVR0062

Gloss Black finish. Opens from both sides. Lockable for security. External dimensions: 1,750mm long, 820mm wide, 450mm high. Volume 440 litres. Maximum payload 57kg†.

Sports Box*

VPLVR0061

Gloss Black finish. Can be mounted on either side of the vehicle for kerbside opening in any country. Internal retention system for skis or other long loads. Lockable for security. External dimensions: 2,060mm long, 840mm wide, 340mm high. Volume 420 litres. Maximum payload 56kg†.

Ski and Snowboard Carrier*

LR006849

Carries four pairs of skis or two snowboards. Incorporates slider rails for easy loading. Lockable for security. Maximum payload 36kg†.

Aqua Sports Carrier*

LR006846

Carries one surfboard, kiteboard or sailboard and mast. Maximum payload 45kg†.

Luggage Carrier*

LR006848

Maximum payload 62.6kg†.

*Roof Rails and Crossbars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted.

†Maximum payload equals the load capacity of the roof mounted accessory.

Expedition Roof Rack*

CAB500130PMA

For vehicles with Roof Rails, Fitting Kit (VUB504230) is required.
Maximum payload 54.3kgT.

Tow Hitch-52mm ball**

RAA560

Lashing Eye Kit*

VUB503160

Six additional tie-down points for use with Crossbar T-slots.
Maximum payload 71.8kgT.

Ratchet Strap

CAR500010 - (not shown)

Tie strap for securing items to the Luggage Carrier or Expedition Roof Rack.
5 metres long, 20mm wide. Supplied individually.

7 Pin Type Towing Electrics**

VPLST0070

Provides all trailer rear lighting and interior equipment power, where required. Supplied as a combined kit. 2010 Model Year vehicles onwards.

**Please note: These accessories are not suitable for Caravans, Trailers or Lighting Boards fitted with rear mounted LED Lamps.

Dog Guard*
 VUB502080
 Easily removed, incorporates useful integral ski hatch.

Dog Divider*
 EOH500140PMA
 Separates pets from cargo. Must be fitted with Dog Guard.

Loadspace Luggage Rails
 VPLSS0138

Load Retention System
 VPLVS0125
 To secure luggage within the loadspace. Flexible and rigid luggage retainers with four D-ring fasteners included. Requires Loadspace Luggage Rails – VPLSS0138.

Stainless Steel Sill Tread Plates
 LR006788 – Four piece kit
 Stylish protection for both front and rear outer door sills.

Illuminated Tread Plates
Ebony – VPLSS0140PVJ
Nutmeg – VPLSS0140SVB
Ocean – VPLSS0140HFX

Aperture Retention Net
 VPLSS0139

Loadspace Rubber Mat
VPLSS0043
Waterproof with retaining lip and non-slip surface.

Rigid Loadspace Protector
EBF500020
Non-slip surface. Not compatible with Dog Guard or Dog Divider.

Flexible Loadspace Protector
VPLSS0016
Heavy duty fabric protects loadspace up to window height. Covers full loadspace even with rear seats folded. Includes protective gloves.

Stainless Steel Rear Bumper Tread Plate
LR007321
Provides protection to the upper surface of the rear bumper. Compatible with all models except vehicles fitted with Stormer Pack, 2005-2009 Model Year.

LR007322 – (not shown)
Compatible with Stormer Pack 2005-2009 Model Year only.

Rubber Mat Set
VPLSS0018

Premium Carpet Mat Set
Deep pile carpet mats with waterproof backing.
Ebony (shown above)
VPLSS0024PVJ

Nutmeg (shown top)
VPLSS0024SVB
Ocean (shown bottom)
VPLSS0024HFX

TOURING ACCESSORIES

Load Retention Net

VUB503130 – (not shown)

Utilises loadspace tie-down points. Includes floor net and two ratchet straps. Strap length approximately 2 metres.

Double Ski Bag

VPLGS0166 – (not shown)

Nylon bag for transporting two sets of skis.

Front Screen Shade

VPLFY0069 – (not shown)

Reflects the sun's rays and helps to keep the interior of your vehicle cool.

Detachable Towing Mirror

VPLVT0080 – (not shown)

Removable extended mirror suitable for use when towing.

Bulb Kit

VPLSV0017 – (not shown)

A selection of essential bulbs are a legal requirement in certain countries.

Warning Triangle

KCC500021 – (not shown)

Vital in emergencies and a legal requirement in certain countries.

First Aid Kit

STC7642 – (not shown)

Tow Strap

STC8919AA – (not shown)

Includes storage bag that can be attached as a warning flag to the strap. 3,000kg maximum load capacity.

Alloy Wheel Cleaner – 500ml Dispenser

VPLSW0066 – (not shown)

Designed specifically for Land Rover vehicles to remove brake dust deposits without damaging the surrounding brake or wheel components.

Electric Cool Bag

VUP100140L

Powered by the 12 volt auxiliary socket. Thermostatically controlled temperature. Easy clean interior surfaces. Height 380mm, length 380mm, width 220mm. Volume 14 litres.

IN SUPPORT OF

International Federation of Red Cross and Red Crescent Societies

At Land Rover we do this by investing in four key areas:

e_TERRAIN TECHNOLOGIES. EFFICIENT POWER SYSTEMS, LIGHTWEIGHT STRUCTURES, REDUCED EMISSIONS.

Land Rover is part of a joint £1.5 billion investment on product creation and research & development, over the next 5 years, to include new technologies designed to reduce tailpipe CO₂ emissions and improve fuel consumption. We have introduced a Life Cycle Assessment process to measure the environmental footprint of our vehicles, beginning with the new Range Rover Evoque, our smallest Range Rover to date. We are targeting a 25 percent reduction in our joint European fleet average tailpipe CO₂ emissions by 2015. From an intelligent Stop/Start system on diesel manual derivatives and Intelligent Power System Management (IPSM) with Smart regenerative charging on all Land Rover products, to planned 2WD technology with a potential 130g/km CO₂ emissions, e_TERRAIN TECHNOLOGIES form a fundamental part of our carbon management plan. What's more, Range Rover's Adaptive Dynamics System constantly monitors vehicle performance, to enhance driving and emissions efficiencies, whilst our participation in trials of a potential lower carbon vehicle with Range_e, reflects our commitment to the development of sustainable automotive technology in the industry.

FACT

We will use Life Cycle Assessment to understand the environmental impact of our vehicles, including the use of e_TERRAIN TECHNOLOGIES, beginning with Range Rover Evoque.

SUSTAINABLE MANUFACTURING. USING FEWER RESOURCES AND CREATING LESS WASTE.

Advanced manufacturing facilities, certified to ISO14001 since 1998. As a company we are targeting a 25 percent reduction in operating CO₂ emissions by 2012, 25 percent in waste to landfill and 10 percent in water consumption, based on 2007 levels. Our activities include factory energy efficiencies, cutting transport miles and the carbon offset of all CO₂ emissions from manufacturing assembly. But it doesn't stop there. Every new vehicle is designed to be 95 percent recoverable and reusable – with 85 percent that's recyclable and a further 10 percent specifically for energy recovery. We are increasing our use of renewable energy and turning waste food into energy in a trial at our facilities at Gaydon, diverting 43 tonnes of waste from landfill and saving 3.7 tonnes of CO₂ emissions to date.

FACT

The installation of 1.1MWh of solar panels on our engineering centre at Whitley is one of the largest roof installations in the UK to date and reduces our dependence on fossil fuels.

CO₂ OFFSETTING. INVESTING IN RENEWABLE ENERGY, TECHNOLOGY CHANGE AND ENERGY EFFICIENCY PROJECTS.

For every tonne of CO₂ emitted during the manufacturing assembly of all our vehicles, Land Rover invests in carbon reduction projects that reduce an equivalent tonne of CO₂ elsewhere. In addition, we enable our customers to offset their first 45,000 miles/72,000 km of driving in their new vehicles. We do this in the UK as well as countries in Europe, the Middle East and Asia. Independently administered by ClimateCare and Forum for the Future, CO₂ offsetting has allowed us to take action, to reduce our impact on the environment and deliver the social, health and economic benefits essential for sustainable development – all as part of our integrated carbon management plan.

FACT

We plan to offset approximately 4,500,000 tonnes of CO₂ emissions by 2012, from 50 projects around the world.

CONSERVATION AND HUMANITARIAN PARTNERSHIPS. WORKING PARTNERSHIPS FOR CONSERVATION AND SOCIETY'S GAIN.

Our vehicles are designed for purpose, so are used by conservation and humanitarian organisations worldwide. Working with our five Global Conservation partners and the International Federation of Red Cross and Red Crescent Societies (IFRC), Land Rover is proud to support the important work of the Royal Geographical Society (with IBG), The Born Free Foundation, Earthwatch Institute, Biosphere Expeditions and the China Exploration and Research Society.

FACT

In 2010 Land Rover launched a three-year global initiative with the IFRC entitled 'Reaching Vulnerable People Around the World'. Land Rover has supported the IFRC's life saving work since 2007 and has provided over £4.5m in vital funding and vehicle support to help vulnerable people around the world.

www.landrover.com.au

WARRANTY. A comprehensive manufacturer's warranty is a feature of every Land Rover vehicle and extends to any genuine Land Rover accessories fitted by a Land Rover Dealer. The warranty period for the vehicle is three years/100,000 kilometres. In addition, the paint surface is also covered for three years/100,000 kilometres and the body work covered for corrosion for six years.

LAND ROVER ROADSIDE ASSISTANCE. All Land Rover vehicles purchased in Australia benefit from complimentary Land Rover Roadside Assistance service for the length of the new car warranty. This covers you Australia-wide 24 hours per day every day. And because it is Land Rover Assistance, help will also be provided if you become bogged or disabled on roads that only four-wheel drives can travel.

CUSTOMER CARE. Land Rover Australia has a dedicated Customer Care Centre to assist owners who may have a general query. Owners seeking this level of assistance are invited to phone our Customer Care Centre on the toll-free number 1800-625-642 or email enquiries@landrovercustomers.com.au Land Rover ownership includes a package of benefits designed to provide high standards of after sales care and support.

LAND ROVER FINANCIAL SERVICES. Just as Land Rover lets you tailor a vehicle to your specific requirements, we offer you the same service when it comes to finance. You can arrange to purchase and finance your Land Rover from the people who know it best – your Land Rover Dealer. Your Land Rover Business Manager can explain the full range of finance options available from Land Rover Financial Services and provide expert advice to help tailor a finance package to best suit your needs. To discover more about Land Rover Financial Services visit your nearest Land Rover Dealer, call 1800 037 711 or visit www.landroverfinancialservices.com.au for more information.

IMPORTANT NOTICE: This publication is intended for international usage and whilst Land Rover take the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles are shown with accessories or optional equipment fitted.

All Land Rover Approved Accessories fitted by a Land Rover Dealer within one month or 1,600 kilometres (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Dealer who will be pleased to advise you on current specifications and any query you may have. Distributors and Dealers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Dealer. Distributors and Dealers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.
