

# RANGE ROVER VOGUE

2010/1

The Range Rover Vogue stands alone, above all others as the flagship, as the ultimate, as the supreme luxury four-wheel drive vehicle. It stands enhanced, through the evolution of its exterior design; further extends its leadership with the world's finest interior and increases its capability and performance yet again. It is peerless. The most advanced, most powerful, most complete luxury four-wheel drive vehicle is the new 2010 Range Rover Vogue.

## Introduction

### **The new 2010 Range Rover Vogue**

The ultimate in luxury, capability and performance. The ultimate in refinement and performance. The ultimate four-wheel drive vehicle

PAGES  
2-7

### **New LR-V8 Supercharged and new LR-V8 engines**

More power, improved economy. Two superb new engines join the acclaimed LR-TDV8 Diesel. The new all-V8 Range Rover Vogue line-up

PAGES  
8-9

### **On-road and off-road**

Effortless on-road, legendary off-road. Technology, the command driving position. Confidence, capability and security

PAGES  
10-23

### **Interiors**

Masterful interior design and craftsmanship. The finest quality leather and real wood veneers

PAGES  
24-29

### **First-class Entertainment**

World-class audio now with 19 speakers and significantly enhanced performance

PAGES  
30-31

### **Autobiography**

The ultimate expression of personal luxury, style and individuality

PAGES  
32-33

### **Specifications and choices**

Models, engines, wheels, exterior and interior colours and materials. Accessories

PAGES  
34-53

### **Sustainability**

PAGES  
54-55

A new larger grille provides an even more commanding on-road presence.

Unique new 2010 Range Rover Vogue front lamps make optimum use of Bi-Xenon™ and LED technology offering 'automatic on' functionality and directional lighting.

Automatic High Beam Assist for the new headlights detects oncoming or followed vehicles to switch between high and dipped beam.

The new 2010 Range Rover Vogue. The iconic Range Rover Vogue design in its most modern, most contemporary form. Iconic design expressed through new exterior styling. A new front grille and new front headlamps featuring the Range Rover Vogue signature 'concentric circle' design. A new three-stripped LED theme on indicators and all-LED rear lamps, continuing with side vents on Autobiography models. A purer design for the front bumpers creating a wider, more assured stance. Complemented with a Titan silver finish to the front grille and fender vents as well as a unique Noble-plated finish on Autobiography derivatives. More gracious. More elegant than ever before. The new 2010 Range Rover Vogue.

Bi-Xenon™ trademark is the property of Hella KGaA Hueck & Co., Germany.

More power, new refinement and better fuel economy for the most accomplished, most capable, luxury four-wheel drive vehicle in the world. The new 2010 Range Rover Vogue LR-V8 Petrol Engine. In two distinct forms. LR-V8 Supercharged, the supreme expression of the Range Rover Vogue, reaches unsurpassed levels of performance with a power output of 375kW. LR-V8 Supercharged, the most powerful engine ever fitted to the Range Rover Vogue. And LR-V8, which combines all the performance feedback of the previous Range Rover Vogue Supercharged and 14 percent improved fuel economy. Both new engines feature an improved six-speed automatic transmission that is tuned to maximise the new 2010 Range Rover Vogue's performance and capability in all conditions.

The new LR-V8 petrol engines complement the economy and refinement of the acclaimed LR-TDV8 Diesel and have been developed as part of the Land Rover e\_Terrain Technologies engineering philosophy which commits to sustainable initiatives. The LR-TDV8 Diesel, the Range Rover Vogue's most powerful diesel engine ever, is specifically designed for refinement and to operate at the extreme angles required for outstanding off-road capability. It is equally well-suited to the on-road performance needs of motorway driving. The new 2010 all-V8 Range Rover Vogue line-up.

New LR-V8 Petrol Engines feature 'drive by wire' throttle control and camshaft profile switching to increase torque, improve performance and reduce emissions.

An industry first for new LR-V8 Petrol Engines is the Dual Independent Variable Camshaft Timing system (DIVCT) which provides increased torque at low speeds and greater power at high speeds.

Direct injection on new LR-V8 engines increases performance and optimises fuel efficiency.

The latest-generation supercharger on the LR-V8 Supercharged Engines improves airflow for low-speed torque and high-speed power.

Upgraded six-speed transmission with COMMANDSHIFT® for better response and smoother, more efficient gear changes.

CANCEL

Steering wheel controls on the right side, including a circular 'OK' button with directional arrows.

The command driving position. The confidence and the security to take advantage of the new 2010 Range Rover Vogue's capability on-road and off-road because the driver is perfectly placed to interact with the vehicle and the surrounding environment in a wide range of conditions. The command driving position brings a sense of control. It reduces stress and fatigue. It offers all-round visibility and a familiar sense of wellbeing, security and composure with intuitive control of all key vehicle functions. One glance at the new virtual instrument panel reveals the very latest Thin Film Transistor (TFT)-LCD technology providing a revolution in the clarity of driver information. There is the subtlest mood lighting to enhance the interior ambience at night. And new steering wheel controls, as well as new clock graphics.

New 12 inch TFT-LCD virtual instrument panel uses the same technology found in high-quality computer laptops and can be both personalised and adapted to suit the driving conditions.

New steering wheel controls and switches, including two new five-way toggle switches controlling the In-Car Entertainment system, the TFT-LCD virtual instrument panel and numerous other vehicle feature settings.

High grade leather for the steering wheel and addition of a Noble finish to the steering wheel spokes for extra refinement.

Upgraded Voice Recognition system with simplified commands.

RANGE ROVER

LAND ROVER

The new 2010 Range Rover Vogue. The finest, most capable, luxury four-wheel drive vehicle on-road in the world. It offers sublime handling and comfort courtesy of both air suspension and a new enhanced version of Land Rover's unique Terrain Response® system. The acclaimed interlinked electronic air suspension is standard across the range and copes effortlessly with a wide variety of vehicle loads and works alongside Adaptive Dynamics. Additionally Dynamic Stability Control (DSC) provides enhanced handling when accelerating or cornering and includes compensation for the towing of trailers. It constantly monitors key indicators and applies the Anti-lock Brakes (ABS) selectively to individual wheels, helping to correct deviations from the driver's chosen line. 21st Century technology that gives extra peace of mind.

Enhanced Understeer Control uses the new 2010 Range Rover Vogue's technologies to increase stability and help improve safety. The system recognises when the vehicle is travelling too fast to smoothly negotiate a corner, by reducing engine torque and, if necessary, applying the brakes to the appropriate wheel.

Hydraulic Rear Brake Boost works when the rear axle is heavily loaded and the ABS is triggered on the front brakes only. It increases rear brake line pressure until the ABS activates. This ensures grip is maintained regardless of vehicle loading.

Trailer Stability Assist compensates for trailer oscillations employing engine torque reduction and/or braking to help re-establish control.

The new Sand Launch Control system minimises wheel spin when moving off from a standstill and helps to prevent the vehicle from 'grounding out'. Once the vehicle reaches the appropriate speed slip thresholds are increased to maintain progress.

Hill Descent Control with Gradient Release Control (GRC) is designed to apply varied brake and accelerator pressure to help achieve acceleration gradually and more smoothly.

The new 2010 Range Rover Vogue. The finest, most capable, luxury four-wheel drive vehicle off-road in the world. With an unrivalled heritage, it is packed with 21st Century technology that delivers the most outstanding all-round performance and incorporates more than 60 years' Land Rover expertise. Terrain Response® remains the benchmark for off-road vehicle systems. The new 2010 Range Rover Vogue takes this technology a further step forward and includes sand launch control, traction control while braking, enhanced traction during rock crawl and Hill Descent Control with Gradient Release Control (GRC).

ENTER

The new 2010 Range Rover Vogue. Unsurpassed control and driveability. Terrain Response® has been enhanced and works alongside Adaptive Dynamics. Adaptive Dynamics not only provides the best ever Range Rover Vogue experience over rough roads by fully utilising the vehicle's long suspension travel to absorb potholes or ruts, it also provides enhanced control at higher speeds while cornering or braking. Adaptive Dynamics takes the Range Rover Vogue's ride and handling to a new level. It works by predicting the response to driver input, allowing the system to help mitigate any excessive movement, rather than a conventional system which reacts after the vehicle has already moved. From the extremely rough surface to the smoothest road, this delivers significant off-road and on-road benefits.

Terrain Response® uses a fingertip control on the centre console (and grouped in a convenient cluster with the air suspension height control, Hill Descent Control with Gradient Release Control (GRC) and the high/low gear ratio selector) to choose settings for different driving environments.

Adaptive Dynamics predicts the response to the driver's actions and helps ensure that all occupants are transported in the greatest possible comfort and security regardless of the road surface and variations in conditions\*.

\*Standard on Autobiography models.

The new 2010 Range Rover Vogue combines craftsmanship and luxurious internal dimensions that are complemented with an array of advanced technology features. For the first time Touch-screen dual view technology is available. This allows different images to be viewed simultaneously by driver and passenger. For instance, the passenger may watch a DVD while the driver maintains normal vehicle navigation information. The Touch-screen dual view technology is accommodated in a centre control panel with an improved design of strong horizontal and vertical lines.

Breakthrough technology appears in form of the advanced Surround Camera System, which gives the driver five different views from points around the exterior of the vehicle.

Satellite Navigation is now based on a Hard Disc system that facilitates more prompt retrieval of information as well as increasing reliability and accuracy and offering data upgrades from a Land Rover Dealer. Graphics and information are now displayed more clearly along with fewer, more intuitive menus.

The Touch-screen with dual view technology uses 1,280 x 480 resolution, patented Parallax Barrier technology to display alternative columns of pixels to left and right-hand views, allowing driver and passenger to see different images\*.

Another cutting edge development is the introduction of Tow Assist, a next-generation reversing aid designed to predict the rearward trajectory of both vehicle and trailer.

\*Standard on Autobiography models.

Blind Spot Monitoring uses side-mounted radar to warn of vehicles in the driver's blind spot. A bright amber warning icon is illuminated in the appropriate door mirror when a hazard is identified\*.

The new 2010 Range Rover Vogue has one of the most sophisticated arrays of safety aids ever built into a vehicle. Its monocoque body and integrated chassis gives, thanks to the high-strength steel construction, class-leading torsional rigidity. There are nine airbags. For side impact protection there is one of the largest curtain airbags ever fitted to a passenger vehicle. There is permanent four-wheel drive with Dynamic Stability Control. There is Hill Descent Control with Gradient Release Control (GRC), which gives even greater control and confidence in demanding off-road conditions. And there is Blind Spot Monitoring. This system, available in certain markets only, utilises side-mounted radar to detect other vehicles that may be obscured in the driver's blind spot. More technology. More safety systems. The new 2010 Range Rover Vogue.

\*Standard on Autobiography models.

Effortless driving in demanding conditions. The Adaptive Cruise Control (ACC) system uses 12 beams to scan the road ahead ten times every second. This third-generation ACC provides earlier identification of vehicles moving into the path of the new 2010 Range Rover Vogue. One of the most advanced systems on the market, it offers more progressive deceleration and resets more accurately. It is also better able to identify smaller road users, such as motorcycles, against larger vehicles and trucks. Forward Alert and Emergency Brake Assist (EBA) complement ACC and work together to help, in the first instance, avoid a collision by giving audible and visual alerts and then, should an impact become inevitable, triggering EBA, priming the vehicle braking system.

The optional Adaptive Cruise Control System can be programmed to one of four settings of between a 1.0 second and 2.2 seconds interval from the vehicle in front in normal driving conditions or when Grass, Gravel, Snow is selected on the Terrain Response® dial.

RANGE ROVER

Design that is truly masterful. Renowned for the world's finest luxury interior, the new 2010 Range Rover Vogue reaches even higher levels of luxury and elegance. The finest combination of real wood veneers and leather.

The softest leathers from only the very highest quality hides. Hides that retain the leather's natural grain. Hides designed to improve with use and age.

As many as ten of the finest leather hides cocoon all occupants in the new 2010 Range Rover Vogue. A full leather headlining and a full leather covering for the fascia, as well as glove box lids, door casings, centre vents and the driver's knee airbag panel are all standard equipment on Autobiography models.

Reclining rear seats with four-way lumbar control, heated/cooled functionality, head restraints with lateral support\*.

\*Available October. Production 2009.

In the new 2010 Range Rover Vogue rear accommodation has been improved with enhanced noise insulation and complements the recent redesign to rear seating, which increased comfort and ease of entry and exit. The option of electronically controlled reclining rear seats, offering up to eight degrees of recline, is available on certain models. This is the perfect place to travel in chauffeur-driven style, comfort and luxury, whether travelling for business or pleasure.

Five additional new integrated speakers. Four in the doors. One centrally-mounted in the fascia.

Portable Audio Interface includes a 3.5mm auxiliary socket, USB port and dedicated iPod® connection.

First-class entertainment. Now even more powerful. Now with a maximum output of 1,200W\*. Now with five additional integrated speakers. The new 2010 Range Rover Vogue houses a superb 19 speaker LOGIC7® **harman/kardon**® sound system with Portable Audio Interface that allows files from a wide range of sources to be played and controlled through the Touch-screen with dual view technology if fitted which may simultaneously allow a passenger to watch visual entertainment. This world-class system uses the latest digital technology to deliver effortless performance.

harman/kardon® and LOGIC7® are registered trademarks of Harman International Industries, Incorporated.  
\*1,200W Audio System is optional and available from October production 2009.

harman/kardon  
LOGIC7HD

Autobiography is the ultimate expression of craftsmanship and exclusiveness for the interior of the new 2010 Range Rover Vogue. Enveloping and cocooning driver and passengers in the finest leather, it is the definitive demonstration of the Range Rover Vogue's unique luxury.

Bespoke. The word's origins are in London's Savile Row, where cloth put aside on behalf of clients was said to 'be spoken for'.

Complementing the semi-aniline leather seats is full leather covering for the facia, glove box lids, around the centre vents, door casings and behind the steering wheel. Even the driver's knee airbag panel is full leather.

Premium carpet mats with 2,050 gr/ms twist pile, leather bound with aluminium corner protectors.

A full leather headlining swathes occupants in unparalleled opulence.

Autobiography leather is examined by hand. Fitted by hand. It's the personal touch.

The new 2010 Range Rover Vogue offers a unique range of accessories that can add both a degree of personalisation and individual style as well as further practicality and capability. A small selection of accessories is illustrated here.

From exterior styling, interior protection and lifestyle accessories, The Range Rover Vogue can be equipped to make the most of any journey.

Many specialised items cannot be featured in this brochure. The comprehensive accessories brochure, which contains the full range, is available on request.

The new 2010 Range Rover Vogue's alloy wheels are manufactured from extremely resilient material. They are designed to enhance looks and improve handling by reducing unsprung weight, allowing the suspension to react more quickly. Not only has each one been through a series of formidable tests, to simulate on and off-road stresses, every individual wheel is also x-ray checked before delivery.

Please note: When choosing vehicles fitted with specific wheel and tyre combinations or optional wheels and tyres, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tyres may offer certain styling or driving benefits, but may be more vulnerable to damage, please discuss your requirements with a Retailer when selecting your vehicle and specification.

Height 1,002mm Width 1,124mm  
Loadspace volume 2,099 litres  
Loadspace width between arches 1,040mm Length at floor 1,529mm  
Maximum box size (length x width x height) 1,265 x 1,024 x 815mm

### Headroom

Maximum front headroom 997mm (identical for sunroof or non-sunroof vehicles)  
Rear headroom 974mm

### Wading Depth

Maximum wading depth 700mm

## PERFORMANCE AND WEIGHTS

WEIGHTS (kg)	TDV8	V8	V8 SUPERCHARGED
Total (EEC kerb)	2,744	2,615	2,710
Gross vehicle weight	3,200	3,200	3,200
Maximum payload	456	585	490
Maximum roof rack (including roof rack)	100	100	100

### TOWING (kg) (towing pack optional)

Unbraked trailer	750	750	750
Trailer with over-run brakes	3,500	3,500	3,500

### FUEL ECONOMY\* & PERFORMANCE

Urban L/100km	14.5	20.8	22.6
Extra urban L/100km	9.2	10.0	10.4
Combined L/100km	11.1	14.0	14.9
CO <sub>2</sub> emissions (g/km)	294	326	348
Maximum speed kph	200	210	225
0-100kph	9.2	7.6	6.2

\*Manufacturer's data according to new government test regulations.

Fuel consumption figures: The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitable differences between individual vehicles of the same model. The vehicle may also incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. Usable fuel tank capacity of 104.5 litres. Low fuel warning at 8 litres approximately.

### Dimensions and Capability

Thanks to its innovative cross-linked air suspension, The Range Rover Vogue can maintain a level ride height even over undulating terrain and be set to lower gently to ensure easy entry and exit when parked. Despite its impressive power and peerless capabilities, front and rear Park Distance Control and speed sensitive power-assisted rack and pinion steering ensure that manoeuvring in tight spots is always a simple, trouble-free operation. With up to 2,099 litres of cargo space The Range Rover Vogue again demonstrates its breadth of capability.

### Performance and Weights

The TDV8 fuel range (based on usable fuel tank capacity and the combined economy) exceeds 941km and the Supercharged has an impressive 0-100kph time of 6.2 seconds. Both the fuel economy and the performance are aided by the extensive use of aluminium components that include the bonnet assembly, outer door skins and inner door construction, wheels, transmission housing and front wings.

## TECHNICAL SPECIFICATION

## STANDARD FEATURES

### Engine and Transmission

- Permanent four-wheel drive
- Hill Descent Control with Gradient Release Control (GRC)
- CommandShift® six-speed adaptive automatic gearbox
- Four-wheel Electronic Traction Control (ETC)
- Centre electronic differential with low range transfer box
- Cruise control
- Diesel Mis-Fuelling Protection Device.

### Suspension and Steering

- Power assisted, speed proportional steering (PAS)
- Electronic cross linked air suspension with automatic load leveling and multiple modes, access, normal, off-road, extended height
- Front: MacPherson struts with double lower control arms of vertical travel
- Rear: Double wishbone of vertical travel
- Terrain Response®.

### Safety and Security

- Electronic Parking Brake (EPB), Slip Control System includes: Electronic Brake-force Distribution (EBD), All-terrain Anti-Lock Braking System (ABS), Engine drag torque reduction, Traction control, Dynamic Stability Control (DSC), Cornering Brake Control (CBC), Electronic differential control, Emergency Brake Assist (EBA), Understeer control logic, Hydraulic rear brake boost, Electronic brake pre-fill, Roll Stability Control (RSC), Trailer stability assist
- Full length curtain side air bags, driver and passenger airbag, driver knee airbag, front seat pelvic and thorax airbags
- Perimeter alarm with engine immobilisation.

### Exterior

- 19 inch/20 inch alloy wheels (model dependant)
- Full size spare wheel
- Headlamps – automatic and rain sensors
- Acoustic windscreen and laminated row one side glass
- Heated windscreen
- Electric sunroof – tilt/slide glass
- Front and rear park sensors and rear camera
- Power fold and heated exterior mirrors with memory
- Door puddle lamps and footwell lamps.

### Interior

- Hard drive navigation system with 7 inch high resolution Touch-screen
- Climate control – automatic with air filtration
- Leather covered steering wheel and gear knob, fascia topper, seat facings, armrests and cubby box lid
- Powered, heated front seats with driver memory and easy entry/exit function (lowers and moves back)
- **harman/kardon**® audio system, CD changer, digital/analogue TV (market dependent)
- Audio upload unit with USB, iPod and jack plug interface
- Bluetooth® telephone connectivity and integration
- 12.3 inch TFT-LCD Virtual Instrument Panel
- Real wood veneer finishers
- Electric windows with one touch open/close
- Automatic dimming interior mirror
- Rear view camera.

**harman kardon**® and LOGIC7® are registered trademarks of Harman International Industries, Incorporated.  
iPod is a trademark of Apple Inc., registered in the U.S. and other countries.  
The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under license.

# landrover.com.au/ourplanet

Our commitment is to a sustainable future. Everything from the design of our vehicles and the way we build them, to how and where we use them and, at the end of their life, to how they can be safely disposed of, Land Rover is committed to a sustainable future. We're committed to reducing our impact on the environment and are working in four key areas.

## Land\_e TERRAIN TECHNOLOGIES.

In 2007 we announced a joint investment into new technologies to improve the environmental performance of our vehicles. This joint investment now stands at £800m. Building on the innovation of the Land\_e concept, the first of these technologies is the Stop/Start engine in our diesel manual Freelander 2. In 2008 we revealed our new concept vehicle, the LRX; a Land Rover in body and spirit but conceived as a hybrid 2.0 litre diesel with potential CO<sub>2</sub> emissions of 120g/km.

## SUSTAINABLE MANUFACTURING.

World class manufacturing facilities. Certified to ISO14001 since 1998. Our manufacturing facilities at Solihull and Halewood have reduced emissions by around 4 percent year on year, over the last 5 years. Our TDV6 and TDV8 engines are assembled in the Dagenham Diesel Centre which is powered by wind turbines. Total energy used in manufacturing each vehicle has been reduced by 19 percent since 2002. While water use per vehicle has been cut by 14 percent in the same period. We're also offsetting all CO<sub>2</sub> emissions by the manufacturing assembly of Land Rover vehicles at both plants. Partnered with specialist organisation Climate Care, our offset projects include a wind farm in China and hydro electric generators in Tajikistan. In addition, Land Rover vehicles are now designed to be 85 percent recyclable with all current models meeting the European End of Life Vehicles Directive. Sustainable and recyclable materials play an important role too: Freelander 2 contains 10 percent recycled and 10 percent renewable materials.

**CO<sub>2</sub> OFFSETTING** in 2006, in the UK, we launched a pioneering programme for customers, independently administered by Climate Care, to offset CO<sub>2</sub> emissions for the first 45,000 miles (72,000 km) of all new Land Rovers. This programme is being rolled out progressively to other countries around the world. We're also the first automotive company to offset 100 percent of our manufacturing assembly CO<sub>2</sub> emissions.

**GLOBAL CONSERVATION AND HUMANITARIAN PROJECTS.**

Land Rover vehicles are used by conservation and humanitarian organisations worldwide and are often first choice for difficult tasks. Organisations include the Born Free Foundation, Biosphere Expeditions, Royal Geographical Society (with IBG), China Exploration and Research Society and Earthwatch Institute. Our projects are diverse, ranging from an initiative to help with the protection of rare wolves in Ethiopia, to a project funded by our CO<sub>2</sub> offset programme which provides efficient cooking stoves to rural parts of Uganda.

Our planet. We take our responsibility to our planet very seriously. Our vehicles are designed for purpose. As part of our Fragile Earth policy Land Rover has actively promoted responsible off-road driving since 1990. Our Experience Centres teach drivers to understand the full potential and unique breadth of capability of their vehicles while reducing impact on nature and the environment, in a wide range of activities.

**WARRANTY.** A comprehensive manufacturer's warranty is a feature of every Land Rover vehicle and extends to any genuine Land Rover accessories fitted by a Land Rover Retailer. The warranty period for the vehicle is three years/100,000 kilometres. In addition, the paint surface is also covered for three years/100,000 kilometres and the body work covered for corrosion for six years.

**LAND ROVER ROADSIDE ASSISTANCE.** All Land Rover vehicles purchased in Australia benefit from complimentary Land Rover Roadside Assistance service for the length of the new car warranty. This covers you Australia-wide 24 hours per day every day. And because it is Land Rover Assistance, help will also be provided if you become bogged or disabled on roads that only four-wheel drives can travel.

**CUSTOMER CARE.** Land Rover Australia has a dedicated Customer Care Centre to assist owners who may have a general query. Owners seeking this level of assistance are invited to phone our Customer Care Centre on the toll-free number 1800-625-642. Land Rover ownership includes a package of benefits designed to provide high standards of after sales care and support.

**LAND ROVER FINANCIAL SERVICES.** Just as Land Rover lets you tailor a vehicle to your specific requirements, we offer you the same service when it comes to finance. You can arrange to purchase and finance your Land Rover from the people who know it best – your Land Rover Retailer. Your Land Rover Business Manager can explain the full range of finance options available from Land Rover Financial Services and provide expert advice to help tailor a finance package to best suit your needs. To discover more about Land Rover Financial Services visit your nearest Land Rover Retailer or visit [www.landroverfinancialservices.com.au](http://www.landroverfinancialservices.com.au) or the link at [www.landrover.com.au](http://www.landrover.com.au)

**IMPORTANT NOTICE:** This brochure, produced by Land Rover Australia, offers a general guide to Range Rover Vogue product specifications. All details are believed to be correct as of July 2009. However, we are constantly striving for improvement and therefore reserve the right to alter specifications without notice. Accordingly this brochure should not be regarded as an infallible guide to the correct specifications, nor does it constitute an offer or sale of any particular vehicle. The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Distributors and retailers are not agents of Land Rover Australia and have no authority to bind Land Rover Australia to any expressed or implied undertaking or representation. Please drive responsibly off-road.

**PLEASE NOTE:** The vehicle pictured throughout this brochure is a Range Rover Vogue Supercharged Autobiography with no cost option 20 inch 'Style 11' alloy wheel.
