AWAKEN YOUR ADRENALINE

There's something new at Lexus. Something designed from the bitumen up. It's sexy, sophisticated and soul stirring - it's the Lexus RC. Here is a Sports Coupe that performs brilliantly and looks sensational. Its design is head turning, while its aerodynamics deliver road hugging handling at speed. Just as well, given the performance of the RC 200t's 2.0L turbocharged engine, the RC 350's 3.5L V6 engine and the RC F's 5.0L V8 engine, both all of which are coupled to a silky smooth 8-speed transmission. If you love to drive, you'll love the Lexus RC.

BUILT ON A BIG IDEA

When the RC designers set to work, they did so with no preconceived ideas, just a brief to deliver exhilaration. Their creation, we think, is stunning and meticulous. Its exterior reveals surefootedness and speed thanks to a low, wide stance, prominent flared wheel arches, low set bumper and aggressive spindle grille. The design is as practical as it is attractive. Take the subtle shape of the rear bumper corners. Not only are they pleasing to the eye, but they also enhance the RC's aerodynamics by funnelling airflow to the back of the vehicle.

IMMERSE YOURSELF

The interior is based on a simple Lexus philosophy - anticipate human needs, then match them with intuitive technology. So, for example, the high resolution 7-inch display screen is situated in such a way that it minimises your need to change your line of sight. And while the design of the instrument panel gives a sense of openness, the interior simultaneously feels snug and sporty thanks to the console's upward sweep and large kneepads. As for the front seats, they exude luxury while holding you firmly at speed.

PURSuing A NEW DEFINITION OF LUXURY

In the mid 1980s, a team of passionate designers embarked on a remarkable journey. They travelled to America to immerse themselves in an exclusive neighbourhood in order to better understand the lifestyles of the privileged. They visited upscale boutiques and exclusive country clubs to discover the essence of western style and learn what motivated luxury vehicle buyers.

Their studies revealed a new luxury permeating American society. Younger, affluent professionals were turning their backs on conventional luxury vehicles in search of a more rewarding driving experience, just as they were reshaping fashion, design and architecture.

Following this mission, Lexus set in motion one of the most extensive development programs ever undertaken by a motor vehicle company. The end result was the Lexus LS 400, a vehicle that ultimately redirected the course of luxury vehicle design, elegance and performance.

Decades later, Lexus' commitment to ground-breaking design continues to forge new territory with the unveiling of the LF-CC coupe concept at the 2012 Paris Motor Show. This vehicle serves as a glimpse into the Lexus of tomorrow, while its new generation hybrid power plant sets new benchmarks for high performance and reduced emissions.

Today, however, belongs to the Lexus RC. Here is a vehicle that is the very embodiment of Lexus' 30-year-old insight. This is no mere facelift or extension to an existing range - this is new in every definition of the word. From the RC 200t Luxury through to the RC F, this is a vehicle that once again redefines the balance between luxury and performance.

TAKE YOUR HIGH PERFORMANCE PICK

INTRODUCING THE RC

The RC is an individual's coupe that's not afraid to differentiate itself from the pack. Models start with an exhilarating 2.0 litre 4-cylinder turbo engine generating 180kW of power at 5,800rpm and 350Nm of torque at 1,650-4,400rpm in the RC 200t. Or there is a 3.5L V6 engine in the RC 350, producing 233kW at 6,400rpm and 378Nm of torque at 4,800rpm.

Figures rise noticeably with the RC F. Its 5.0L V8 engine develops 351kW at 7,100rpm and 530Nm of torque at 4,800 to 5,600rpm.

RC engines are teamed with an 8-speed Sport Direct Shift (SPDS) that provides the best of both worlds. In automatic mode it's silky smooth, but switch to the 8-speed manual mode and it's all about sports shifting. Given how rapidly an RC can propel itself, it comes as no surprise that its brake system is also superb. F Sport models, for example, stop almost as quickly as they accelerate, thanks to large 357mm two-piece rotors on the front.

As for corners, they're also catered for in F Sport and Sports Luxury models featuring Adaptive Variable Suspension (AVS). This system helps keep the suspension operating at its peak by controlling the dampening force of the shock absorbers. For example, when cornering, the dampening forces are increased in order to aid steering stability.

Meanwhile, all RC models feature Radar Active Cruise Control⁽¹⁾ that allows you to maintain a preset distance from the vehicle you are following. The RC moves seamlessly from command of the road to command of information thanks to its Enform⁽²⁾ system that makes accessing information straightforward. Weather, Fuel Finder, Local Search and more can all be accessed from one central screen.

A stunning 10-speaker Pioneer[®] 256W Audio system⁽³⁾ is standard on RC 200t Luxury and RC 350 Luxury models. RC F and RC 350 Sports Luxury and F Sport models boast a 17-speaker Mark Levinson[®] Audio system⁽³⁾ - a brand globally synonymous with audio purity. Despite its compact size, the system achieves a massive 835W of power and crystal clear reproduction of what the artist intended.

ONE EYE FOR DETAIL, THE OTHER FOR STYLE

STYLE AND DESIGN

Like every Lexus, the RC features an assertive spindle grille. It's the source from which the vehicle's lines originate, as they define the RC's surefooted masculine stance. Wide wheel arches further enhance the coupe's sporting appearance.

The RC 200t and RC 350 Luxury lines are fitted with 5-spoke machine-finished 18" wheels, while RC 350 F Sport models feature 19" Dark Metallic twin 10-spoke F Sport alloys. The Sports Luxury line, features twin 5-spoke 19" alloy wheels. As for the RC F, it's available with 19" Spartan-style 10-spoke wheels with a choice of two 19" 20-spoke

forged alloy wheel options. For both safety's sake and enhanced style, the RC features a unique lighting system. The outer mirrors incorporate LED side-turn lamps to provide greater visibility for fellow drivers and pedestrians. They also feature LED headlamps and LED daytime driving lights in the distinctive L'finesse signature 'L' design. When the turn signal is activated, it causes the lamp to illuminate in a striking horizontal line.

EYES ON THE ROAD, DETAILS AT YOUR FINGERTIPS

INTERIOR TECHNOLOGY

The RC's interior is as intuitive as it is attractive. An ultrasonic sensor detects movement within the cabin to provide excellent security. The Lexus Remote Touch (LRT) helps you control systems such as audio, climate and satellite navigation⁽⁴⁾ from one source rather than having to reach around the dashboard for individual switches.

A Blind Spot Monitor (BSM)⁽⁵⁾ and Rear Cross Traffic Alert (RCTA)⁽⁶⁾ are standard on the RC F and both RC 200t and RC 350 F Sport and Sports Luxury models.

The BSM uses quasi-millimetre wave radar to detect vehicles in blind spots and alerts the driver. If, for example, a vehicle is detected in an adjacent lane, even up to 60 metres away, the system informs the driver through a display on the outer mirrors. Should you indicate, the warning light on the relevant mirror will also flash to warn you.

A next generation rear camera⁽⁵⁾ provides exceptionally clear images when reversing, while a Parallel Parking Mode⁽⁶⁾ is also standard across the range. This system provides guidance on steering operation timing given through guidelines.

All RC and RC F variants are fitted as standard with a Smart Key, whilst F Sport Enhancement Pack 2, Sports Luxury and RC F variants also feature a Smart Key Card as standard. So you can lock, unlock, or start your RC with your key still in your pocket or your key card in your wallet.

A DIFFERENT MODE FOR EVERY MOOD

TECHNOLOGY

Every RC is fitted with Drive Mode Select. In the case of the RC 200t and RC 350 Luxury lines, it provides three modes, while all other models feature four. Normal mode delivers a balanced drive suitable for suburban and freeway driving that delivers a true sense of acceleration and smoothness. Select ECO and engine output, throttle opening and air conditioning are automatically controlled for fuel-efficient⁽⁷⁾ driving.

As the name suggests, the Sport mode featured on all models extracts the sports performance potential of the RC.

Performance is further enhanced on Sports Luxury, F Sport and RC F models with the introduction of Sport S+, which provides a more aggressive driving experience in response to the driver's operations.

When you're behind the wheel of an RC 350 Sports Luxury, F Sport with Enhancement Pack 2 or RC F model, Automatic High Beam (AHB)⁽⁸⁾ detects other vehicles and dims the high beam before reactivating once the vehicle has passed.

Drive Mode Select

RC F Carbon model shown

RC 350 F Sport model with Enhancement Pack 1 shown

ENJOY THE DRIVE, APPRECIATE THE SAFETY

SAFETY

Your RC comes with eight airbags as standard, including SRS front driver and passenger Airbags, front passenger and driver Side Airbags, driver and passenger Knee Airbags and Front and Rear Curtain Shield Airbags. A Pre-Collision Safety System (PCS)[®] also comes standard on all RC 200t, RC 350 and RC F models. Its sensors detect vehicles or obstructions in front of your vehicle, then alert you with a warning beep. Should you begin to brake, Brake Assist will increase the braking pressure as required or, if a collision seems inevitable, the system automatically activates the brakes to mitigate the impact.

On the F Sport with Enhancement Pack 2, Sports Luxury and RC F variants you'll also find Lane Departure Warning (LDW)[™] as standard. This system senses whether the vehicle is departing from its lane, then sounds a buzzer and illuminates an indicator on the Multi-Information Display to warn the driver.

Vehicle Dynamics Integrated Management System supports stable braking during straight-line braking through ABS, Electronic Brake Force Distribution (EBD), and Brake Assist. When cornering, ABS, EBD, and VSC control braking force on all four wheels independently to make the vehicle's attitude stable. In the case of an unforeseen skid during cornering, the system VSC controls engine output and braking on each wheel.

THE BEST OF BOTH WORLDS

The RC's 8-speed SPDS (Sport Direct Shift) Transmission shows two faces. One is a silky smooth straight automatic and the other a sportier ride courtesy of its 8-speed manual mode. Either way, the key aim of the transmission is to provide impressive acceleration, while delivering excellent fuel economy.

Normal mode delivers changes so smooth they are barely noticeable, and in M mode, full lock-up is performed from 2nd to 8th gears for a true sense of gear change.

G-AI Shift Control comes into operation when the vehicle is in Sport S or Sport S+ mode. This system monitors the vehicle's status, then selects the suitable gear for a sporting drive. Shifting is biased towards lower gears and switching engine torque in order to maximise performance.

To ensure excellent performance and handling, the body is made of high tensile steel sheets and lightweight aluminium. Even the glue used to adhere the glass to the car is manufactured for extra rigidity in order to help minimise body movement.

OWNERSHIP SOLUTIONS

OWNERSHIP SOLUTIONS ALLOWS YOU TO DETERMINE YOUR FINANCE COSTS AND KNOW THE GUARANTEED FUTURE VALUE (GFV)⁺ OF YOUR VEHICLE FROM THE OUTSET. IT OFFERS YOU CHOICE, CONTROL AND CERTAINTY. IN SHORT, EVERYTHING YOU'D EXPECT FROM LEXUS.

How does Ownership Solutions work?

- You choose the deposit that best fits your needs.
- You choose your term.⁺⁺
- We agree on the estimated kilometres you think the vehicle will have travelled at the end of the term (the End Odometer). The End Odometer will also include any kilometres already on the vehicle.
- Lexus Financial Services (LFS) then determines the GFV of your vehicle. The GFV is the minimum value of your Lexus at the end of your finance contract. Your monthly repayments are then calculated based on the above information with a final payment equal to your GFV. Then, if you return your Lexus at the end of the term and satisfy the agreed terms and conditions, LFS will pay you the GFV which will be put against the final payment.

The end of the term? Simply replace, retain or return.

At the end of your term you can choose to:

- Replace or sell your Lexus using the trade-in value or sale price to pay the remaining balance of your account.
- Retain your Lexus and simply pay the remaining balance of your account (including final payment).
- Alternatively, return your Lexus and, subject to fair wear and tear conditions and the agreed kilometres being met, we'll put the GFV towards the final payment on your account.

Choosing your deposit – what is best for you?

With the flexibility of Ownership Solutions, you can choose the deposit that best fits your current needs.

- If, for example, you have funds tied up in other investments, you can choose to finance your new Lexus with a zero deposit.⁺⁺
- Alternatively, by using a larger deposit you can lower your monthly repayments.
- Better still, compared to other finance options over a similar term, Ownership Solutions can provide more affordable monthly repayments.⁺⁺⁺

Want more certainty?

With Ownership Solutions, you've got the reassurance that at the end of the term (subject to fair wear and tear and agreed kilometres being met) you'll never owe more than your vehicle's worth to LFS. In other words, you don't have to worry about what your vehicle will be worth in the future because you know its minimum value from the outset.

What happens in the case of the unexpected?

If your vehicle incurs damage and does not meet the Fair Wear and Tear guidelines, LFS will give you the opportunity to have your vehicle repaired. Otherwise, LFS can organise the repairs and deduct the cost from your GFV. This adjusted GFV will then be the price that LFS will offer you if you return the vehicle at the end of your term. Of course, if you retain the vehicle, the condition doesn't matter, however, if you replace it or sell it privately, the condition will obviously impact your sale price.

So what does your accountant think?

Naturally, we think Ownership Solutions is an excellent, innovative way to put you in control of buying a new Lexus. That said, we suggest you seek independent advice to ensure Ownership Solutions is right for you.

Wouldn't it be great if Ownership Solutions was just the beginning?

Lexus' innovations and commitment to customer service extend well beyond Ownership Solutions. Once you purchase a new Lexus, you'll become a member of the Lexus Encore Privileges Programme and enjoy a host of exclusive benefits.[†]

For further details, simply visit your nearest Lexus dealer or see lexus.com.au/services/benefits/

⁺ Guaranteed Future Value (GFV) is the minimum value of your new or approved demonstrator Lexus at the end of your finance contract, as determined by Lexus Financial Services (LFS). If you decide to return your car to Lexus at the end of your term, (LFS) will pay you the agreed GFV amount which will be put against your final payment, subject to fair wear and tear conditions and agreed kilometres being met. The information provided is general in nature. You should seek your own financial advice to determine whether Lexus Ownership Solutions is appropriate for your individual circumstances. Terms and conditions, fees and charges apply. Lexus Ownership Solutions GFV products are available to approved customers of Lexus Financial Services, a division of Toyota Finance Australia Limited ABN 48 002 435 181, Australian Credit Licence 392536.

⁺⁺ Up to four years.

⁺⁺⁺ Lower monthly repayments compared to similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.

THE BENEFITS OF ENCORE

THE BENEFITS OF BEING A LEXUS OWNER GO FAR BEYOND THE INTRINSIC PLEASURE OF DRIVING THE VEHICLE. FROM THE MOMENT YOU'RE HANDED THE KEYS, YOU'LL ALSO BE WELCOMED TO THE LEXUS ENCORE PRIVILEGES PROGRAMME† - OFFERING A RANGE OF EXCLUSIVE INITIATIVES THAT REAFFIRM OUR ONGOING PURSUIT OF PERFECTION.

It all means you'll enter a world of benefits that extends to every corner of life. A world where everything's just that much easier and works that much more seamlessly. And a world where, should trouble ever find you, you can always find a helping hand.

Take our After Sales Service as an example. Both our technology and our technicians are at the forefront of automotive innovation. And our profound understanding of every single component of your Lexus means we can do more to ensure it's a pleasure to drive today, and in the long run. It's a world you've always belonged in. A privilege unique to Lexus drivers.

Silver service

Every aspect of your Lexus is built around your comfort and convenience, so it's fitting that when it's ready for a service, we'll come and pick it up from you and provide you with a complimentary loan car while we're inspecting. Plus, when we return your Lexus, it will have received a complimentary wash and interior vacuum.

Experience Lexus outside your vehicle

We're constantly striving to enhance the Lexus ownership experience. It's what we're known for. Our luxury events will be the perfect way to experience the Lexus lifestyle and network with other owners. Tickets may be limited, so be quick to secure your place.

Peace of mind

Wherever you are and whatever you're doing, you can relax, because with our Encore Privileges Programme, you have the 24-hour support of Lexus DriveCare.* We'll look after your car and, just as importantly, we'll look after you and your passengers.

Well read

You can stay abreast of all things Lexus from the comfort of your own home, with our Lexus Magazine delivered right to your door. It'll keep you updated on all aspects of luxury living and covers everything you need to know about the cars that are leading the world.

See lexus.com.au/services/benefits for details.

† Terms and Conditions apply.

* Full DriveCare details and conditions are available in your Lexus DriveCare wallet or you can phone 1800 253 987. Lexus Australia reserves the right to change, without notice, any benefits specified. Benefits should be confirmed at the time of ordering with your authorised Lexus dealer. To the extent permitted by law, Lexus Australia will not be liable for any damage, loss or expense incurred in relation to the benefits specified above (whether by way of negligence or otherwise). Lexus Australia, a division of Toyota Motor Corporation Australia Limited ABN 64 009 686 097, 155 Bertie St, Port Melbourne Vic 3207.

New Vehicle Warranty expires four years from date of first delivery or 100,000kms, whichever occurs first. Refer to the Warranty conditions. The New Vehicle Warranty does not limit and may not necessarily exceed your rights under the Competition and Consumer Act 2010.

- (1) Radar Active Cruise Control (ACC) is a driver assist technology and should not be used as a substitute for safe driving practices. Driver should continue to monitor the road.
- (2) Lexus Enform is free for the duration of your new car warranty. Contact your Lexus dealer for details. Visit lexus.com.au/enform for more information. Enform services rely on data from the driver's compatible mobile phone and information provided by third parties. Availability is dependent on a number of factors, including the availability of third-party information, mobile service, sufficient mobile data allowance and GPS satellite signal reception. Mobile usage is at the user's cost.
- (3) Digital radio station coverage dependent on vehicle location.
- (4) Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage in regional areas.
- (5) Blind Spot Monitor with Rear Cross Traffic Alert system is a driver assist device only and should not be used as a substitute for safe driving practices. The area into which the vehicle is driven must be visually monitored by the driver.
- (6) Rear View Camera and Parking Sensors Rear are driver assist devices only and should not be used as a substitute for safe driving practices. The area into which the vehicle is driven must be visually monitored by the driver.
- (7) Emissions vary depending on driving conditions/style, vehicle conditions and options/accessories.
- (8) Automatic High Beam is a driver assist device only and should not be used as a substitute for safe driving practices.
- (9) Pre-Collision Safety System (PCS) and Radar Active Cruise Control (ACC) are a driver assist technology and should not be used as a substitute for safe driving practices. Driver should continue to monitor the road.
- (10) Vehicle Stability Control (VSC) and Traction Control (TRC) are driver assist devices only and should not be used as a substitute for safe driving practices. The area into which the vehicle is driven must be visually monitored by the driver.
- (11) Lane Departure Warning (LDW) is a driver assist device only and should not be used as a substitute for safe driving practices. The area in which the vehicle is driven must be visually monitored by the driver.
- (12) Kerb, tare and payload weights are nominal and will vary depending on options and accessories.
- (13) Gross Vehicle Mass (GVM) is the total permissible combined weight of the vehicle, including occupants, fuel and cargo.
- (14) Some vehicle dimension figures are approximate and vary due to options and accessory fitment.
- (15) Fuel consumption varies depending on driving conditions/style, vehicle conditions and options/accessories. Source of fuel consumption data: [ADR81/02 combined (L/100km) for auto models].
- (16) Not all devices will be compatible. Functionality varies depending on device.

IMPORTANT NOTICE – please read: Lexus Australia uses its best endeavours to ensure this material is correct when published. You must check with your authorised Lexus dealer when ordering to ensure the vehicle with your chosen specifications, equipment and colour is available and that the vehicle can be delivered within the timeframe suitable to you. When ordering accessories, you must check with your authorised Lexus dealer to ensure the accessory's design, features and colours are available and will fit your vehicle. Please also consider the mass of your load to ensure you will not exceed the maximum allowable individual axle capacity, Gross Vehicle Mass and/or Gross Combined Mass of the vehicle. Refer to lexus.com.au for further details. Colours displayed here are a guide only and may vary from actual colours due to printing/display processes. Certain accessories when fitted will require the removal of standard equipment. Standard equipment may be retained by Lexus Australia. Lexus Australia reserves the right to change, without notice, at any time, prices, colours, materials, equipment, specifications and discontinue colours/models. To the extent permitted by law, Lexus Australia will not be liable for any damage, loss or expense incurred as a result of reliance on this material in any way. Distributed nationally by Lexus Australia ABN 64 009 686 097, 155 Bertie St, Port Melbourne Vic 3207. LEX0329.

THIS BOOK IS PRINTED ON GREEN PAPER

The Lexus book you are reading has been produced using HannoArt Satin. A premium coated paper representing a level of craftsmanship that is without peer. This environmentally responsible paper is manufactured using low environmental impact FSC® certified pulp and is certified carbon neutral by The Carbon Reduction Institute. ^ Sappi, the manufacturers of HannoArt, place high importance on delivering an environmental and sustainable operation. They operate under world's best practice ISO 14001 EMS and EMAS certification and eliminate harmful by-products by using Totally Chlorine Free (TCF) pulp. HannoArt is archival, so like our vehicles it's made to stand the test of time.

As a company that strives to lessen its impact on the environment in every way possible, Lexus believes that choosing our paper wisely is one more step we can take in preserving our planet.

^Calculations encompass carbon emissions from seedling to printer. For full details please visit kwdoggett.com.au
