RC - A SPORT COUPE WITH A SLEEK, AERODYNAMIC BUILD

When creative expression is given free rein, it produces cars of extraordinary aesthetics. The Lexus RC was created as a coupe from the ground up with sleek, alluring aerodynamics and an almost obsessive attention to detail - inside and out. Its low, wide stance hugs the road and sculptured contours flow in continuous lines from its head-turning spindle grille through to its rear combination lamps featuring the distinctive Lexus L-shape design. While inside, a sports-inspired focus is evident through the horizontal lines of its instrument panel and upward slope of the centre console. Sporty and sophisticated, the contemporary styling of the cabin is a fusion of dynamic driving pleasure with the refined elegance of a premium coupe, pampering both driver and passengers in enduring comfort.

**A PASSION FOR
SPORTS PERFORMANCE**

Form and function merge in a fusion of performance styling in the Lexus RC F. Race car-inspired engineering delivers pulse-quickenning performance, in the most powerful statement of what Lexus can be.

RC F - THE RAW FUNCTIONAL BEAUTY OF 'F' SPORT PERFORMANCE

As an engineering masterpiece built for uncompromising performance, the Lexus RC F is born from a pure passion for driving. Its 5.0 litre V8 engine delivers an enthralling race-bred experience through track-honed technology developed for the LFA. Combined with the immediate response and intuitive handling of VDIM with Sport Mode and immersive feeling of control in the cockpit, the RC F is a high-performance coupe that sets a new benchmark for its category. Step into its cockpit and you're immediately drawn to the carefully crafted environment that cocoons the driver in a sports-driving experience crafted with the same intense focus on functionality as its exterior. The RC F expands the horizons of what a Lexus 'F' can be and feeds a passion for sports driving.
