

RX Line

 LEXUS

INSPIRED BY PASSION.
FOCUSED
ON PERFECTION.

You feel it as you run your fingers across finely stitched leather accents. You sense it as your foot nudges the throttle and instantly the vehicle responds.

Passion is an emotion that inspires an unmatched team of designers and engineers at Lexus. To this handpicked group of individuals, creating unique vehicles isn't simply their day job, it's a lifelong obsession.

As we look into the minds of these individuals, the passionate soul of Lexus is revealed. Until now, little has been said of the designers and engineers who seek out the exhilaration of the perilously fast Nürburgring raceway, or the joys of the free-flowing highways that intertwine the countryside of Hokkaido.

At the same time, Lexus embraces its Japanese heritage; here is a nation which is repeatedly resetting standards

in fields as diverse as computer systems, photography, entertainment consoles, even fashion and architecture. Innovation in modern Japanese industry is typically accompanied by utmost reliability, a rare feat in a world where experimentation frequently raises doubts as much as it raises standards.

Yet amid this high technology you'll discover the unmistakable influences of ancient Japanese traditions in today's Lexus vehicles. The artistry that for centuries has created intricate origami and soft watercolour paintings, extends today into finely stitched leather accents.

As you look beneath the gloss and glamour, you'll discover engineering that reflects an overriding quest for precision and perfection.

Such precision emanates from the guiding hands of an elite group of individuals known as 'Takumi', the Japanese word for 'master craftsman', whose finely honed skills have been handed down from one generation to the next.

Lexus has appointed ten of these elite individuals to oversee specific engineering disciplines. Each is supported by 40 Assistant Masters empowered with

ensuring the highest production standards are maintained. Through practices like these, impeccable standards of precision and craftsmanship are firmly entrenched in the Lexus DNA.

While Lexus has repeatedly surpassed technical standards, now it is raising heart rates as well. For as much as Lexus engineers seek to explore the upper limits of engineering innovation, the drivers of such vehicles revel in the pleasures of performance driving around twisty coastal highways in utmost style, comfort and luxury.

The future direction of Lexus has arrived.

LOOKS TO STIR EXCITEMENT
PERFORMANCE TO STIR YOUR SOUL.

PREPARE TO BE MOVED.

Overseas RX 350 Sports Luxury model shown

When the first RX slipped elegantly onto the global scene in 1998, a unique journey was about to unfold.

Equally capable of taking you to high trails as well as the high street, the Lexus RX presented a tantalising prospect of redefining the perception of SUV luxury. Once redefined in the mind, it was time to redefine it in the heart and soul.

It's taken an unwavering passion to evolve the RX into the luxury SUV we present to you today. Encompassing ideas to make life easier, encased in a bold design, eclipsing the quantum leaps taken by previous RX models. However, this RX wasn't designed to simply look good. Below its exterior, the beauty continues.

A mecca of technology and innovation is designed to breathe life into the RX and to take your breath away.

The original RX 300 put luxury into a new package and took it places it had seldom ventured. With all wheel drive coupled with refined ride dynamics, RX offered one of the most extraordinary gifts of all; the ability to explore a life more carefree and fulfilling.

It promptly garnered industry accolades as readily as admiration from those who mattered most; a new generation of individuals intent on extracting the

most out of life while unobtrusively accommodating life's necessities.

As each ensuing RX model attained more capabilities and charisma than the last, further honours quickly followed. 'Australia's Best Cars' awards for 3 years running were just some of them. Performance capabilities increased as willingly as luxury levels and the RX excelled in the complex lifestyles of more discerning individuals.

Convention made way for innovation as a spirited hybrid powerplant entered the fray, combining vigorous

yet velvety-smooth acceleration with ultimate efficiency. It delivered what the rational purists wanted, yet was actually more intent on liberating the driver by delivering elevated levels of refinement and performance.

As willingly as we come to expect more out of our lives than ever before, now RX has emphatically evolved.

A reinvention encompassing ideas that make our lives easier encased in bold exterior design, eclipsing the quantum leaps taken by previous RX models. The latest expression of RX has arrived.

DARING

L-FINESSE DESIGN.

This is not a discreet, mild mannered luxury SUV. This time, passionate Lexus designers, using the philosophy of L-finesse, sought to make a bold statement (L-finesse being engineering brilliance combined with the elegance of contour and colour). In this case, it was to astound and amaze. This RX has arrived in a shape that cannot be ignored.

Your first impression of the RX is the striking spindle-shaped grille which slices through the frontal persona. This is L-finesse on steroids; a reinvention of the innately Lexus design language that is reshaping today's Lexus vehicles.

An explosion of confident, robust curves inflicts strong geometric contours to the body design. The grille flows seamlessly into large headlamp units punctuated by integrated LED Daytime Running Lights (DRL). The RX 450h Sports Luxury looks further into the future as two LED beams replace conventional headlamps.

Fashion meets function as the Lexus badge in the grille also serves as part of the radar sensor integral in the safety technologies inherent in certain models. While such a demeanour captures attention, it caresses the wind with a sleek 0.32 coefficient of drag.

Dramatic contours are also displayed in the rear, leading to a sleek tail-lamp design. Then as you step inside, L-finesse design seeks to inspire the mind and comfort the body. As you take hold of the woodgrain-look steering wheel in Sports Luxury models, the RX's interior design assumes a new direction. Muscular contours shape the door trims while Luxury models display a unique persona embellished with Abyss black.

Should you choose the F Sport, the front bumper displays a more vigorous personality complemented by mesh grilles. Multi-spoke 19" alloy wheels with a dark chrome finish reveal a dark side to the RX's personality. Inside, sports pedals, an F Sport steering wheel and paddle shifters (RX 350 model only) mesh design passion with driving performance.

Best of all, this is an instance of automotive artistry that will rekindle your passion for driving.

AT EASE.

Imagine a vehicle that feels a natural extension of your body. For your every action, the vehicle responds with the perfect reaction. This RX has been designed to achieve precisely that. What your heart desires, the RX delivers.

Sports Luxury model shown

RX 350 Sports Luxury model shown

Overseas RX 350 Sports Luxury model shown

RX 350 Sports Luxury model shown

Slip your fingers onto the power adjustment buttons and the front seats adjust themselves to suit your individual torso. Three Position** memory settings ensure each minute adjustment is remembered for your next journey (except lumbar), together with your mirror and steering wheel settings.

You're pampered with the comfort of soft leather accented seating in Luxury models complemented by Abyss Black. The supple opulence of semi-aniline leather accented interior with an elegant diamond perforation

distinguishes the Sports Luxury interior design treatment. Your ears are seduced by a 12-speaker audio system with the audio precision of a 'Class D' digital amplifier. Play MP3s or DVDs, or connect your iPod[®](4) for an expansive music library and view album artwork on the Electro Multi-Vision (EMV) display. Thanks to the Digital Radio (DAB+)⁽⁷⁾ your favourite radio station will sound like never before. Look, no antenna. Actually, it has been discreetly integrated into the rear spoiler for superior reception without compromising the RX's striking design.

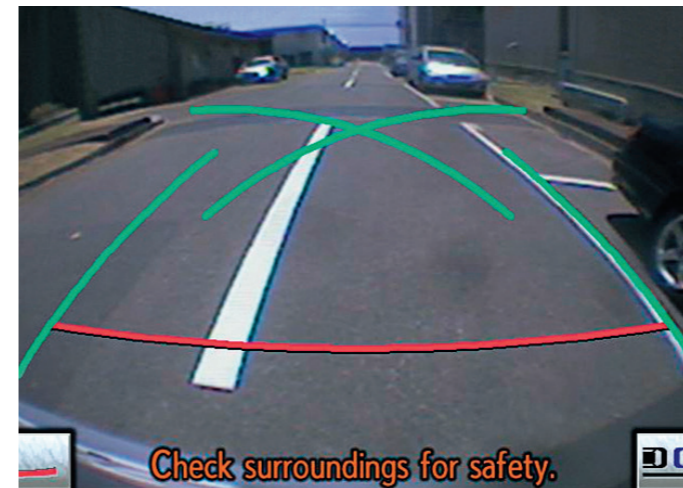

In Sports Luxury models, an audiophile system incorporating 15 speakers is the creation of a free thinker named Mark Levinson. Music lovers wouldn't have anything less than the purity enhancing technologies making a drive to the supermarket feel like a night at the opera.

As you warm to the new technologies, an intelligent dual climate control system helps cool you down again, while keeping fan noise breathlessly subdued. So as your senses are indulged, your mind is free to pursue routes more stimulating.

FEEL COOL, CALM AND CONNECTED.

A reassuring sense of being in touch and in control is simply a click away via the Lexus Remote Touch Controller (LRT) at your side. As intuitive as a computer mouse it puts a range of controls, from fine tuning audio levels to finding your destination, right in the palm of your hands.

First, plot your route on the Electro Multi-Vision (EMV) display and listen to spoken directions. Maps may even be copied and taken to another vehicle or PC by USB™(1) flash drive. Concise information is placed right in your line of vision by the Head-Up Display (HUD) available in Sports Luxury models and F Sport Enhancement Pack.

You can view your speed, gear selection, shift mode and more without ever taking your eyes of the road.

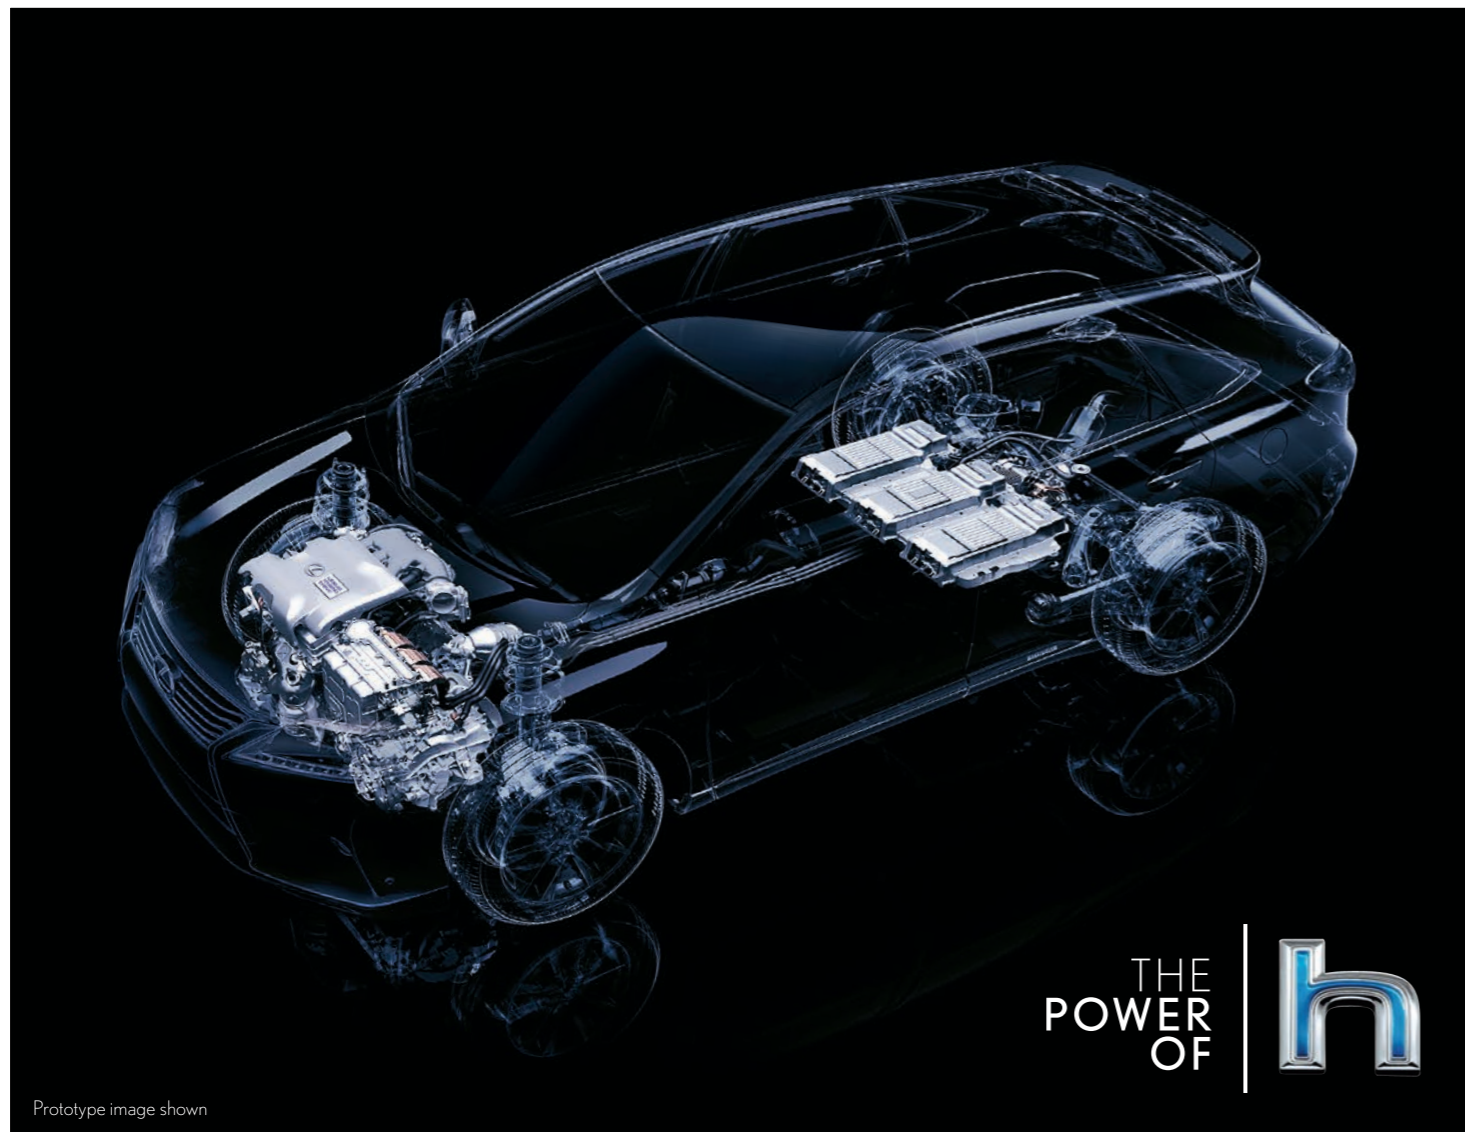

Touch a switch on the steering wheel and the audio system responds to your spoken commands whilst your iPod® is connected via USB(1). Your RX can even stream audio from your Bluetooth™(2) connected phone.

When you want your voice to travel further, in-built Bluetooth™(2) helps you answer the call, offering hands free communication with utmost clarity.

RX 450h - THREE HEARTS BEAT AS ONE.

In life and in love, we aspire to acting and thinking as one. A sensation that can now be enjoyed in the RX 450h hybrid - a perfect marriage of three hearts: petrol, electric, and (most importantly) yours.

Since your body will barely detect whether petrol or electric power (or both) are driving you, allow us to explain. From standstill, electric energy moves you forward. As speed picks up, petrol energy kicks in. At highway speeds mainly petrol engine is doing the work, then as you slow down, the braking energy helps recharge the battery.

You'll not only feel the energy but see it as well on the Electro Multi-Vision (EMV) display. There's also a Hybrid System Indicator on the instrument panel to inform you when you're driving with greatest efficiency, power, even when the battery is being recharged.

Imagine being able to change the personality of your vehicle depending on your mood. During relaxed driving, the needle on the Hybrid System Indicator points to 'CHARGE' or 'ECO' indicating you are driving in an Eco-friendly manner, while the instrumentation assumes a soothing blue ambience.

Select 'SPORT' mode and the instrument display changes to a dynamic red colour, the steering and throttle response changes and your driving experience takes on a sportier dimension.

How does it feel? You'll feel the acceleration but you'll barely hear it. Nor will you feel the gearshifts, the Continuously Variable Transmission (CVT) eloquently dispenses with such necessities for uninterrupted driving pleasure.

There's little you really need to understand about the RX 450h but there's so much for you to experience. Consider it one of those rare opportunities when you can enjoy exhilarating performance with a clear conscience.

F SPORT - TAKING ACCELERATION TO EXHILARATION.

RX 350 F Sport model shown

There's nothing quite like moving in a way you never expected to be moved. The RX has been tuned to do exactly this: to seamlessly propel your body to speed, and send your heart racing. Time to feel alive.

Supple four wheel independent suspension has the innate ability to respond willingly to the meandering contours of the road ahead. Refined yet responsive, annoying vibrations are eloquently quelled while limpet-like grip offers reassuring sense of stability.

Such a sensation is heightened in the RX F Sport. Perhaps you've noticed that certain vehicles may lose composure during hard braking or cornering? So F Sport models offer the precise control and

comfort of performance dampers mounted horizontally front and rear to counteract even minute vibrations and help maintain your composure. Which is very comforting, in more ways than one.

The RX 350 F Sport puts performance driving right at your fingertips, with paddle shifters positioned just behind the F Sport steering wheel. Enjoy the crisp shifting of a manual even in D-range, or leave it to the intelligent automatic shifting for effortless acceleration.

In the RX 450h, a Continuously Variable Transmission (CVT) offers truly seamless shifting without the interruption of conventional gear shifts. Or select 'S' mode for the sporty driving sensation of sequential shifting, just like a conventional manual transmission.

While RX F Sport offers you the option of two energetic engines, which ever you choose a richly rewarding driving experience comes standard.

RX 270 & RX 350 – STYLE WITH SUBSTANCE.

Left: RX 270 model shown
Right: RX 350 F Sport model shown

Passion transforms momentum in the stylish RX 270 and the luxurious RX 350.

There's nothing middle of the road about the ultra refined RX 270. Its sleek, contemporary lines and polished interiors translate to an abundance of head-turning moments as you take to the streets.

Feel content behind the wheel of the RX 270 and its uncompromising relationship to style and efficiency. Honouring the lean frame is a consideration to luxury and space, while the powerful 2.7 litre 4-cylinder engine still delivers good fuel efficiency.

Driving alongside this stylish debut is the luxurious RX 350. Putting control and function back in the hands of the driver thanks to lightening quick gear changes. The RX 350 also speaks to your powerful side with its high performance Dual VVT-i, Double Overhead Cam (DOHC) V6 engine and 1.5 tonne towing capacity.

Now is the time to truly commit to your passion of handling the road. Focus reigns supreme in the RX 350 Sports Luxury thanks to the sophisticated Head-Up Display (HUD), which projects all the information you need onto the lower portion of the windscreen.

And with a smooth transition between the gears, it's eyes ahead. Control also comes in the form of the Lexus Remote Touch Controller (LRT) – an intuitive interface that lets you seamlessly set the scene for the way you like to drive.

With precision and perfection taken care of, turn your focus to clarity of sound with our integrated digital radio (DAB+)^(*) Create the perfect soundtrack as you negotiate busy city streets or enjoy long stretches of highway.

The RX 270 and RX 350. Two distinct models with a singular purpose; to rekindle your passion for stylish, sophisticated motoring.

THE SOOTHING EMBRACE OF SAFETY.

When you feel protected you feel empowered. In RX, such a sense of comfort comes from knowing smart technologies lie in wait, ready to deal with a plethora of situations.

Take the package of 10 Supplemental Restraint System (SRS) Airbags. As comprehensive as it appears, the real beauty is the manner in which each airbag responds. For instance, dual stage front airbags react according to the level of impact to better cushion the impact. The front passenger's twin chamber acts like two cushions side by side which spread the collision force. Rear impacts are dealt with by forward thinking as active headrests actually move forward and upward to help reduce the risk of whiplash injuries.

Since the more stimulating journeys are often travelled on twisty rural roads, Vehicle Dynamics Integrated Management (VDIM) can anticipate a slide and take corrective action. The Anti-skid Braking System (ABS), Electronic Brake-force Distribution (EBD) and Traction Control (TRC) work in harmony for optimum control when cornering and stopping. The beauty of such sophistication is that you're often blissfully unaware as each system is working on your behalf.

You'll feel more relaxed on the highway as Radar Active Cruise Control (ACC)⁽⁵⁾ in selected models watches ahead and slows you down should another vehicle cross your path. In more dire situations, a Pre-Collision safety System (PCS)⁽³⁾ can anticipate a collision then take pre-emptive action in selected models.

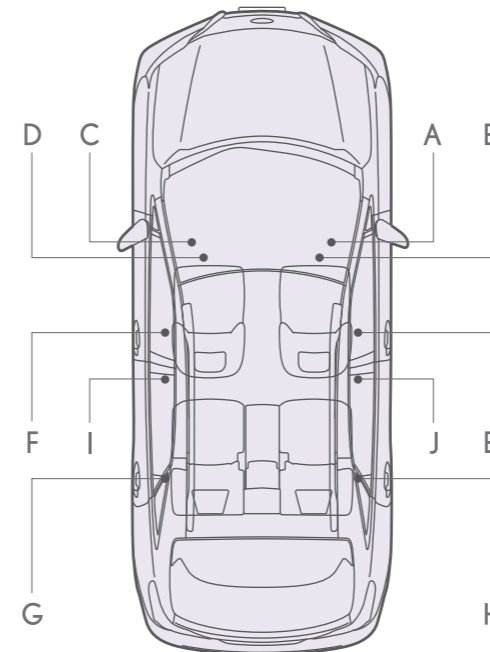

Firstly, the vehicle can warn a driver of a possible collision via a visible and audible alert. If the driver does not take action, the system activates Pre-Collision Brake Assist (PCS) to supplement braking effort. If the Pre-Collision safety System determines the collision is unavoidable, your RX will automatically apply the Pre-Crash Brakes in correlation with the activation of the Pre-Crash Seatbelts.

Emergency braking can not only be felt but seen, as pulsing rear brake LEDs alert following motorists to your sudden hard braking.

After dark, high technology shines. An Active Front-lighting System (AFS) in selected models virtually redirects the headlamps around corners for safety levels that turn heads. At all times, LED Daytime Running Lights (DRL) make you more visible to other motorists.

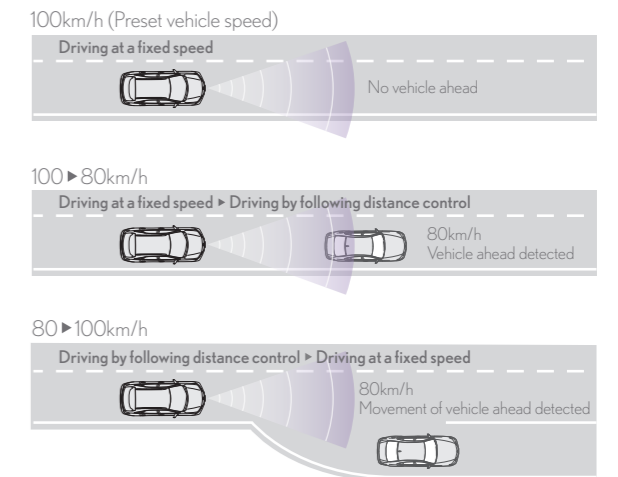

This is merely a glimpse into the safety systems employed. After all, isn't preserving life the most precious consideration of all?

10 SRS AIRBAGS

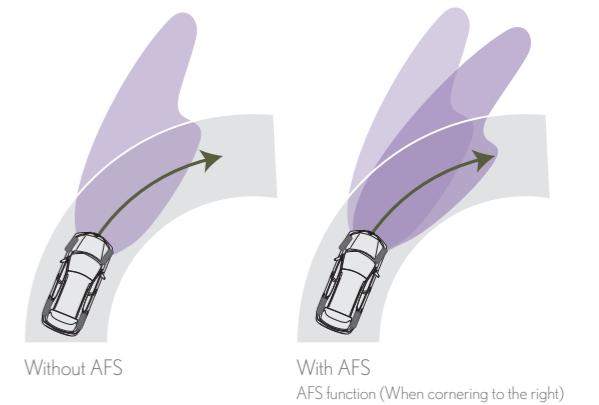

- A Dual-stage SRS airbag (Driver's seat)
- B SRS knee airbag (Driver's seat)
- C Dual-stage SRS airbag (Front passenger's seat. Twin-chamber type)
- D SRS knee airbag (Front passenger's seat)
- E SRS side airbag (Driver's seat)
- F SRS side airbag (Front passenger's seat)
- G SRS side airbag (Left-hand rear seat)
- H SRS side airbag (Right-hand rear seat)
- I SRS curtain shield airbag (Left-hand front and rear door windows)
- J SRS curtain shield airbag (Right-hand front and rear door windows)

COLOUR REDEFINES DESIGN.

077 White Pearl*

083 White Nova (F Sport only)

1H9 Mercury Grey*

1J4 Premium Silver*

212 Onyx

350 Garnet*

217 Starlight Black*

4U7 Metallic Silk*

4V3 Volcanic Bronze*

8V3 Lapis Lazuli*

Colour has the ability to accentuate a vehicle's shape and excite the emotions.

Lexus designers have chosen a palette of ten colours which add an extra dimension to L-finesse design. It is more than a mere selection of hues, but a range of advanced paint finishes*, each with unique and quite remarkable capabilities.

You'll see it in the way colours like Mercury Grey accentuate the sweeping curves and deep contours, with a finish reminiscent of flowing mercury. Or the manner in which tiny particles in Garnet capture light and transform it into highlights.

*Premium Paint featured is an optional extra at additional cost.

KEEP WITHIN YOUR COMFORT ZONE.

Wherever you journey, you'll feel cocooned in comfort yet energised every step of the way.

OWNERSHIP SOLUTIONS.

Ownership Solutions* allows you to determine your finance costs and know the Guaranteed Future Value (GFV) of your vehicle from the outset. It offers you choice, control and certainty. In short, everything you'd expect from Lexus.

How does Ownership Solutions work?

- You choose the deposit that best fits your needs**
- You choose your term***
- We agree the estimated kilometres you think you'll travel.
- Lexus Financial Services (LFS) then determines the GFV of your vehicle. The GFV is the agreed minimum value of your Lexus at the end of your finance contract. Your monthly repayments are then calculated based on the above information with a final payment equal to your GFV. Then, if you return your Lexus at the end of the term and satisfy the agreed terms and conditions, LFS will pay you the GFV which will be put against the final payment.

The end of the term? Simply replace, retain or return.

At the end of your term you can choose to:

- Replace or sell your Lexus using the trade-in value or sale price to pay the remaining balance of your account.
- Retain your Lexus and simply pay the remaining balance of your account (including final payment).
- Alternatively, return your Lexus and, subject to fair wear and tear conditions and the agreed kilometres being met, we'll put the GFV towards the final payment on your account (conditions apply).

Choosing your deposit – what is best for you?

With the flexibility of Ownership Solutions, you can choose the deposit that best fits your current needs.†

- If, for example, you have funds tied up in other investments, you can choose to finance your new Lexus with a zero deposit†
- Alternatively, by using a larger deposit you can lower your monthly repayments***
- Better still, compared to other finance options over a similar term, Ownership Solutions can provide more affordable monthly repayments***

Want more certainty?

With Ownership Solutions you're guaranteed that at the end of the term (subject to fair wear and tear and kilometre usage) you'll never owe more than your vehicle's worth to LFS. In other words, you don't have to worry about what your vehicle will be worth in the future because you know its minimum value from the outset.

What happens in the case of the unexpected?

If your vehicle incurs damage and does not meet the Fair Wear and Tear guidelines, LFS will give you the opportunity to have your vehicle repaired. Otherwise, LFS can organise the repairs and deduct the cost from your GFV. This adjusted GFV will then be the price that LFS will offer you if you return the vehicle at the end of your term. Of course, if you retain the vehicle, the condition doesn't matter, however, if you replace it or sell it privately the condition will obviously impact your sale price.

So what does your accountant think?

Naturally, we think Ownership Solutions is an excellent, innovative way to put you in control of buying a new Lexus. That said, we suggest you seek independent advice to ensure Ownership Solutions is right for you.

Wouldn't it be great if Ownership Solutions was just the beginning?

Lexus' innovations and commitment to customer service extend well beyond Ownership Solutions. Once you purchase a new Lexus, you'll become a member of the Lexus Encore Privileges programme and enjoy a host of exclusive benefits!

For further details simply visit your nearest Lexus dealer or see lexus.com.au/services/benefits/ for details

* Guaranteed Future Value (GFV) is the minimum value of your new Lexus at the end of your finance contract, as determined by Lexus Financial Services. If you decide to return your car to Lexus at the end of your term, Lexus Financial Services will pay you the agreed GFV amount which will be put against your final payment, subject to fair wear and tear conditions and agreed kilometres being met. The information provided is general in nature. You should seek your own financial advice to determine whether Lexus Ownership Solutions is appropriate for your individual circumstances. Terms and conditions, fees and charges apply. Lexus Ownership Solutions Guaranteed Future Value (GFV) products are available to approved customers of Lexus Financial Services, a division of Toyota Finance Australia Limited ABN 48 002 435 181, Australian Credit Licence 392536.

** Up to four years.

*** Lower monthly repayments compared to similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.

THE BENEFITS OF ENCORE.

The benefits of being a Lexus owner go far beyond the intrinsic pleasure of driving the vehicle. From the moment you're handed the keys, you'll also be welcomed to the Lexus Encore Privileges programme[†] - a range of exclusive initiatives that reaffirm our ongoing pursuit of perfection.

It all means you'll enter a world of benefits that extends to every corner of life. A world where everything's just that much easier, and works that much more seamlessly. And a world where, should trouble ever find you, you can always find a helping hand.

Take our After Sales Service as an example. Both our technology and our technicians are at the forefront of automotive innovation. And our profound understanding of every single component of your Lexus means we can do more to ensure it's a pleasure to drive today, and in the long run.

It's a world you've always belonged in. A privilege unique to Lexus drivers.

Silver service

Every aspect of your Lexus is built around your comfort and convenience, so it's fitting that when it's ready for a service, we'll come and pick it up from you, and provide you with a complimentary loan car while we're inspecting. Plus, when we return your Lexus, it will have received a complimentary wash and interior vacuum.

Experience Lexus outside your vehicle

We're constantly striving to enhance the Lexus ownership experience. It's what we're known for. Our luxury events will be the perfect way to experience the Lexus lifestyle and network with other owners. Tickets may be limited, so be quick to secure your place.

Peace of mind

Wherever you are and whatever you're doing, you can relax. Because with our Encore Privileges programme, you have the 24-hour support of Lexus Drive Care. We'll look after your car and, just as importantly, we'll look after you and your passengers.

Well read

You can stay abreast of all things Lexus from the comfort of your own home, with our Lexus Magazine delivered right to your door. It'll keep you updated on all aspects of luxury living. And covers everything you need to know about the cars that are leading the world.

New Vehicle Warranty expires four years from date of first delivery or 100,000kms, whichever occurs first. Refer to the warranty conditions. The New Vehicle Warranty does not limit and may not necessarily exceed your rights under the Competition and Consumer Act 2010.

The HV (Hybrid) Battery Warranty expires eight years from date of first delivery or 160,000kms, whichever occurs first. The warranty is comprised of the three year Lexus New Vehicle Warranty and an additional five year Lexus Australia Hybrid (HV) battery warranty. Refer to the warranty conditions. The Warranty does not limit and may not necessarily exceed your rights under the Competition and Consumer Act 2010.

THIS BOOK IS PRINTED ON GREEN PAPER.

The Lexus book you are reading has been produced using HannoArt Satin. A premium coated paper representing a level of craftsmanship that is without peer. This environmentally responsible paper is manufactured using low environmental impact FSC® certified pulp and is certified carbon neutral by The Carbon Reduction Institute.^ Sappi, the manufacturers of HannoArt, place high importance on delivering an environmental and sustainable operation. They operate under world's best practice ISO 14001 EMS and EMAS certification and eliminate harmful by-products by using Totally Chlorine Free (TCF) pulp. HannoArt is archival, so like our vehicles it's made to stand the test of time.

As a company that strives to lessen its impact on the environment in every way possible, Lexus believes that choosing our paper wisely is one more step we can take in preserving our planet.
