## RALLY HERITAGE

**The triple-diamond emblem of Mitsubishi Motors is now familiar in every corner of the world and in nearly every form of motorsport. The Mitsubishi name is synonymous with success in rallying – the toughest of all forms of motorsport.**

Whether it's the powerful road machines blasting across the stages of the World Rally Championship, or hurtling through the deserts of Africa – the tougher the challenge, the better Mitsubishi vehicles get.

This is because only technology and systems capable of enduring the gruelling conditions of the world's toughest rally stages are deemed worthy for use in our production cars. Every Mitsubishi that is built embodies the same competitive passion, spirit, and style that has proved integral to Mitsubishi's dominance on the world stage.

The Lancer Evolution - which dominated the World Rally Championship for many years - has developed a fearsome reputation for power and performance. The latest Evolution benefits from an unwavering commitment to developing new technologies to provide greater power, better performance and precise control.

The Lancer Ralliart range continues this commitment. It has been created to share the thrill and exhilaration of rally with as many people as possible, and to develop a range of high performance vehicles that – like Lancer Evolution – have no rival.

# LANCER RALLIART HIGH PERFORMANCE RANGE

**Ralliart is a key division within Mitsubishi which aims to deliver rally car performance to every day road cars. The stripes of the Ralliart brand have to be earned, with vehicles needing to measure up to very strict criteria before they can be allowed to wear the badge. Ralliart vehicles must have significantly improved performance in a number of key areas such as engine output, braking, suspension and body dynamics, all combining to give a total driving experience.**

The Lancer Ralliart Sportback and sedan have earned the right to carry the Ralliart mark. Sharing the same performance and control technology, these 2 variants differ only in terms of body shape. Both vehicles benefit from their close relationship to Lancer Evolution, the pinnacle of Mitsubishi's engineering excellence, and deliver powerful performance with precise control.

Thrilling performance is delivered through a turbocharged MIVEC engine and the latest Twin Clutch Sport Shift Transmission (TC-SST) for split-second gear shifting. To reign in the power, the Lancer Ralliart vehicles feature the sophisticated All Wheel Control (AWC) system. Originally developed for Lancer Evolution, AWC is made up of 3 independent systems working together and operated via the vehicle's ECU. The systems are Active Centre Differential (ACD), Active Stability Control (ASC) and Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD).

Whichever vehicle you choose, you can be assured of an exhilarating drive that was once solely the domain of world rally drivers.

## LANCER RALLIART SEDAN

In terms of body styling, the Lancer Ralliart sedan is the closest relative of the Lancer Evolution. It carries on the traditional sports sedan concept and blends high performance with some of the more practical features of a sedan. There is plenty of room inside to comfortably seat 5 adults, and a generous rear boot space, with 60/40 split fold rear seats.

## LANCER RALLIART SPORTBACK

Sharing all of the high performance features and technology of the sedan, the Sportback offers a versatile alternative to those looking for a thoroughbred 'hot hatch'. The rear of the Sportback gives it a distinctive styling all of its own. In addition to the typical hatch flexibility, Sportback includes easy release 60/40 split fold rear seats increasing the available storage space.

## LANCER EVOLUTION

Today's Evolution, the 10th iteration of Mitsubishi's ultimate high performance machine, is the culmination of years of technological innovation. The latest ingenious technology combines to provide the perfect blend of brutal power and precise control. It features Mitsubishi's new TC-SST to deliver split second shifting and instant response, and includes the renowned Super All Wheel Control System (S-AWC) – 4 independent systems that work together to reign in the power, and provide handling that defies belief.

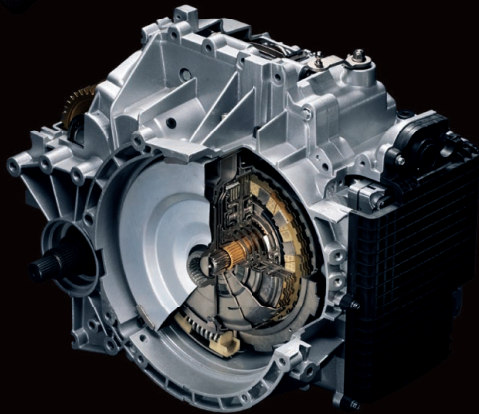

# PERFORMANCE TECHNOLOGY

## TWIN CLUTCH SPORT SHIFT TRANSMISSION (TC-SST)

The Lancer Ralliart range features Mitsubishi's new TC-SST technology, which provides split-second gear shifting and instant response. It uses 2 input gear shafts that house 1st, 3rd, 5th and Reverse on one shaft, and 2nd, 4th and 6th gears on another - each of which are connected to an electronically controlled clutch. This allows consecutive gears to be preloaded in advance to offer quicker shift times.

The TC-SST operates in 2 modes: Normal mode is the default at engine start and is generally used for day-to-day driving. Sport mode is the optimal choice for sporty driving. Gear changes and accelerator response are quicker than Normal mode.

## ALL WHEEL CONTROL SYSTEM (AWC)

Thanks to the sophisticated AWC system, the Lancer Ralliart range allows you to drive in ways you didn't think were physically possible. The AWC system is made up of 3 independent systems working together and operated via the vehicles ECU to give you handling that defies belief.

### Active Centre Differential (ACD)

The ACD determines the optimal torque split between the front and rear axles. It then distributes this through the hydraulic multi-plate clutch. The ACD works in three modes – tarmac, gravel and snow – to enable quicker control response for changes in road surfaces.

### Active Stability Control (ASC) and Active Traction Control (ATC)

To maintain stability and control when cornering, ASC automatically recognises understeer and oversteer. It applies brake pressure to the appropriate wheels to keep you on line and in control. In addition, ATC automatically controls and improves stability and acceleration by minimising wheel spin, maintaining traction at all times even in the most slippery conditions.

### Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD)

To give you further confidence while driving, ABS helps the driver maintain steering control and avoid hazards by adjusting braking pressure to prevent the wheels from locking up under hard braking or during an emergency stop. EBD helps you stay in control when carrying heavier loads, by distributing braking force between the front and rear wheels to ensure optimum braking and reduce stopping distance.

# ADVANCED TECHNOLOGY

Exhilaration behind the wheel; it's been the philosophy of every generation of Lancer. It all starts with a powerful and efficient engine. The new Lancer Ralliart range features the latest turbocharged version of the renowned MIVEC (Mitsubishi's Innovative Valve timing Electronic Control) engine.

## TURBOCHARGED MIVEC ENGINE

Cast from aluminium, the lightweight 2.0 litre turbocharged MIVEC Engine produces 177kW of power and 343Nm of torque. The turbocharger features a titanium turbine wheel to deliver quick response at low revs.

The internal components are reinforced to withstand the high levels of turbo boost created. The engine pistons are gravity castings made from high strength and lightweight aluminium, giving the motor exceptional durability.

The MIVEC system utilises a direct-acting valve-train for additional weight reduction and optimal power, and also operates on the exhaust valves as well as the intake valves. The benefit of this is an increase in fuel efficiency and lower emissions across the engine's operating range.

To output the emissions is a stainless steel exhaust manifold that's been rear mounted to decrease weight over the front wheels. In turn, this new mounting point removes the need for a 'saddle-shaped' front suspension cross member, with a flat cross member in its place. This design offers greater strength and functionality, giving the engine a lower mounting point, reducing the centre of gravity while improving stability.

**Power means nothing without control. Lancer Ralliart's advanced handling and stability should come as no surprise. Incorporating the lessons of the racetrack and rally stages, Lancer Ralliart fuses quick-responding suspension with a rigid body construction for confident high performance driving.**

## HIGH PERFORMANCE SUSPENSION

The high performance suspension in the Lancer Ralliart has been loaded with features resulting in reduced body roll, delivering outstanding handling through corners. It has been toughened up with stabiliser bars front and rear, stiffer springs for better spring rates and increased dampening.

The front and rear suspension is as effective as it is high tech – MacPherson struts up front and the rear multi-link independent system help keep you in control.

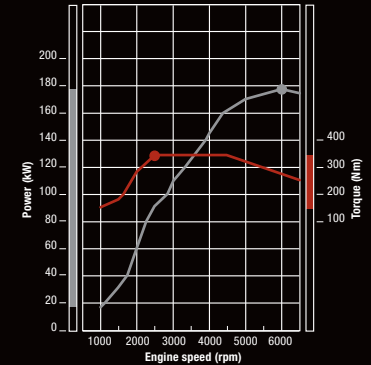

Both vehicles are equipped with large 2 piston front brake calipers providing controlled stopping power. The brake booster further increases stopping power, especially for emergency situations. All of this is matched with a muscular set of 18" 10-spoke alloy wheels and high performance tyres for improved grip, cornering and overall stability.

The suspension is made more rigid thanks to the incorporation of a front strut tower brace under the bonnet for more precise, directional handling and enhanced driving performance.

## RIGID BODY AND SUBFRAMES

The Lancer Ralliart body has been reinforced at key points to minimise bending and twisting, keeping everything smoothly on track through strength and stability. The flat front sub-frame helps resist flex-inducing forces, helping to keep all 4 wheels in constant contact with the road for impressive grip.

2.0L MIVEC DOHC Engine

# CLEVER TECHNOLOGY

Lancer Ralliart is packed with next-generation convenient technology to enhance your driving experience. This range of clever technologies does some of the thinking for you, allowing you to stay focussed on the exhilaration of the drive.

## MITSUBISHI MULTI COMMUNICATION SYSTEM (MMCS)

MMCS\* is an integrated communication and media system that provides satellite navigation, audio control, DVD function and a host of other features, controlled via the 7" full colour in-dash touch screen.

In addition to iPod connectivity, available with a dealer fitted accessory, and integration with the 9-speaker Rockford Fosgate® Premium Audio System, MMCS allows you to customise features such as dusk sensing headlamp sensitivity, wiper speed, and room lamp shutdown delay.

You can also access your mobile phone via the touch screen thanks to Bluetooth® mobile phone integration.

## ROCKFORD FOSGATE® PREMIUM AUDIO SYSTEM

Available as an option, the Rockford Fosgate® Premium Audio system is designed to provide crystal clear, low-distortion fidelity to make any type of music come to life. A 6 stacker CD player,\* with MP3 compatible auxiliary input and 9-surround sound speakers, including a 10-inch subwoofer, delivers impressive sound through a 650 watt system.

## AUTO RAIN SENSING WIPERS

A sensor automatically detects moisture on the windscreen, activating the front wipers, allowing you to keep your hands on the wheel and stay focussed on the road ahead. This feature is especially handy when it's raining intermittently.

## DUSK SENSING HEADLAMPS

Dusk sensing headlamps do the thinking for you. Your lights automatically come on when it gets dark outside or when you're travelling through a tunnel.

## SMART KEY

Smart Key is Mitsubishi's advanced security transmitter, giving you completely key-less operation. With Smart Key, Lancer Ralliart can recognise you within a 70cm radius of the front doors and boot lid. You can lock and unlock the doors, open the boot and even start the engine, all whilst the Smart Key is still tucked in your pocket or bag.

## PADDLE SHIFTERS

Take command of the driving experience in a whole new way with Lancer Ralliart's rally-inspired paddle shift system. Built directly into the steering wheel, they provide the thrill of total control of your TC-SST without taking your hands off the steering wheel.

## BLUETOOTH® PHONE CONNECTIVITY

Drive safely. Talk freely. Lancer Ralliart features the latest hands-free Bluetooth® technology allowing you to make and receive calls at the touch of a button, all integrated through the vehicle's audio system.

## CRUISE CONTROL AND STEERING WHEEL MOUNTED AUDIO

For your convenience, cruise and audio controls are built into the steering wheel. You can manage all cruise functions, along with audio volume, track selection and sound modes without the need to take your hands from the wheel.

## AUTOMATIC CLIMATE CONTROL

Thanks to this clever system you'll never feel too hot or too cold. Temperature, fan speed and air source are automatically adjusted to keep you comfortable at all times.

\* Available as an option with Electric Sunroof and Rockford Fosgate® Premium Audio. Bluetooth® voice command functions will be over-ridden by the satellite navigation command functions and 6 stacker CD not available when MMCS installed.

# DRIVER CONFIDENCE

**The safety of you and your family is paramount. That's why Lancer Ralliart is designed with the latest technology, offering some of the most comprehensive active and passive safety features available. You'll enjoy peace of mind on every journey taken, knowing that it's built with safety of its occupants as a top priority.**

## SUPPLEMENTARY RESTRAINT SYSTEM (SRS) AIRBAGS

To provide ultimate protection in the event of a collision, Lancer Ralliart is equipped with seven SRS airbags; driver and front passenger airbags, a driver knee airbag, and side and curtain airbags.

In some head-on accidents, the driver knee airbag stabilises the driver's legs and lower body. This allows the other airbags to do their job of protecting the upper body even more effectively.

## SEATBELT PRETENSIONERS AND FORCE LIMITERS

Designed to work in conjunction with the SRS airbags, the driver and front passenger seatbelts feature pretensioners and force limiters, which combine to help protect you in the event of an accident. The pretensioners instantly draw back the belt, maximising restraint, while force limiters help reduce the sudden impact on you and your passengers.

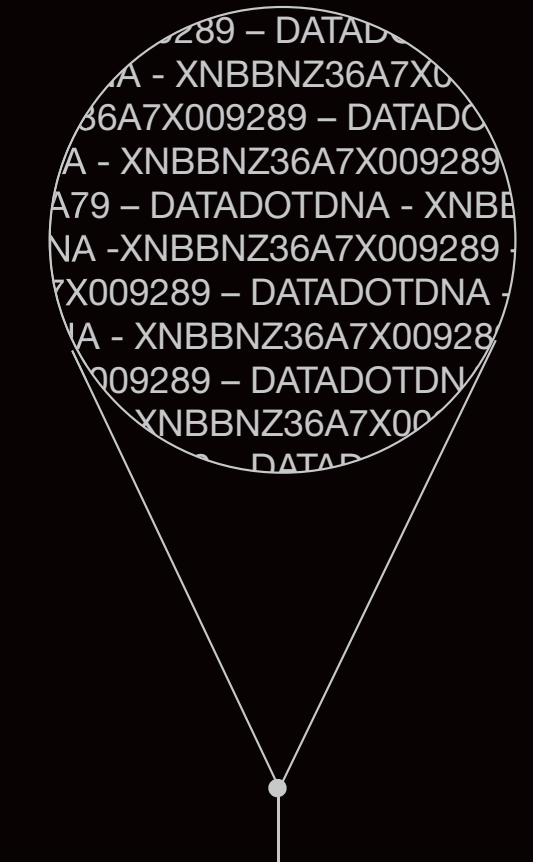

## ANTI-INTRUSION PEDAL SYSTEM

In the event of a front-on collision the brake pedal automatically moves away from the driver, protecting the legs and feet from injury.

## REINFORCED IMPACT SAFETY EVOLUTION (RISE) BODY

Mitsubishi's next-generation RISE body system combines an energy-absorbing front section with a strong, rigid occupant cell to provide outstanding protection in the event of an accident. Crushable zones teamed with a straight frame chassis and octagonal section frames are designed to absorb and dissipate energy from the passenger compartment. The body provides superior torsional rigidity and restricts bending.

In addition, curved floor panels reduce vibration and further add to body strength, keeping you and your passengers protected in the event of an accident.

## SECURITY

To ensure your vehicle's security, a comprehensive advanced security system has been fitted to each Ralliart model.

A multitude of motion sensors including tilt, shock and glass break sensors are linked to an alarm. In addition, Microscopic DataDots sprayed throughout your Ralliart make it virtually impossible to remove your vehicle's DNA and easy for authorities to identify your Ralliart.

Every possible precaution has been taken to make your Lancer Ralliart as safe and secure from theft and vandalism as possible.

# DESIGNED FOR LIFE

REAR SEATS UP

REAR SEATS - 60/40 SPLIT

REAR SEATS DOWN

Inside, Lancer Ralliart blends a sports performance feel with a cabin that is both spacious and flexible. There's plenty of load space in the rear, aided by 60/40 split folding rear seats, in addition to loads of clever compartments throughout the cabin to keep your valuables neatly hidden away. There's also plenty of space for friends and family, comfortably seating 5 adults.

## INTERIOR STYLE

The interior features a geometric check print across the instrument panel, door panel, shift panel, and console. It also includes Ralliart trimmed sports seats, alloy pedals, leather wrapped sports steering wheel, leather wrapped gearshift knob and paddle shifters.

## CLEVER STORAGE

Intelligent interior design means there's a place for everything in Lancer Ralliart. In fact, everywhere you look you'll discover a clever place for storing items. So it's easy to keep your car clutter free.

## HEIGHT ADJUSTABLE HEADRESTS

The perfect combination of form and function, these headrests not only look stylish but provide added head support for your passengers in the event of a rear-end collision.

ALLOY SPORTS PEDALS

**RALLIART  
SEDAN**  
EXHILARATING  
BOLD  
INNOVATIVE

The Lancer Ralliart sedan is the closest relative to the Lancer Evolution thanks to its body shape and bold, aggressive styling shared by all Lancers. It adopts the same menacing stance and displays a physical presence befitting of a powerful, high performance machine.

Behind the wheel, you'll experience the brilliant combination of power and precise control. The turbocharged MIVEC engine delivers 177kW of power and 343Nm of torque while the Twin Clutch Sport Shift Transmission and All Wheel Control combine to give you an unbelievable level of control.

RALLIART  
SPORTBACK  
STYLISH  
POWERFUL  
COMPACT

The Ralliart Sportback is truly unique, sharing the performance and technology of the sedan, whilst providing the benefits of a compact hatch. From the front, Sportback shares the same bold, aggressive stance of the Lancer Ralliart. The rear takes on a whole new form with a dynamic new look highlighted by the rear roof spoiler, which has the additional functional role of managing airflow.

Versatility is offered in addition to performance. 60/40 easy split fold rear seats that fold down at the flick of a lever and a large hatch opening make it easier to carry all sorts of cargo.

# DIAMOND ADVANTAGE

Mitsubishi's rally credentials are second to none. You don't win the world's most notorious rallies time after time without breakthrough, advanced engine technology and superior technological innovations.

Every Mitsubishi rally driver starts a stage knowing they have a support system to back them up through every torturous, testing kilometre. It's a level of commitment every Mitsubishi driver can expect, and it's why we've created a comprehensive, efficient and sophisticated support system.

## DIAMOND WARRANTY 5/10 YR ADVANTAGE

Mitsubishi Motors Australia Limited offers a 5 year/130,000km (whichever comes first) New Vehicle Warranty, a 10 year/160,000km (whichever comes first) non-transferable Powertrain Warranty and a 5 year Perforation Corrosion Warranty on all Mitsubishi cars and light commercial vehicles. Service conditions apply. See your dealer for details.

## DIAMOND GENUINE PARTS ADVANTAGE

Your Mitsubishi will be serviced regularly by skilled Mitsubishi-trained technicians. Only genuine Mitsubishi parts are fitted to your car during scheduled servicing – parts that have been fully tested and meet Mitsubishi's stringent quality control. All these parts carry the Mitsubishi Genuine Parts 12 months/20,000km guarantee (whichever comes first).

## DIAMOND FINANCE ADVANTAGE

Take the burden out of financing your new Mitsubishi vehicle with our competitive range of finance products, developed by Mitsubishi Motors Australia Limited and St. George Motor Finance Limited.

## DIAMOND GENUINE SERVICE ADVANTAGE

Diamond Advantage Genuine Service guarantees that your Mitsubishi is serviced as the maker intended. Mitsubishi Dealer Technicians are factory trained and have access to the latest technical information and service procedures relating to your vehicle and the tools and diagnostic equipment developed by the maker specifically for your vehicle. Enjoy peace of mind motoring by ensuring that your Mitsubishi gets the specialist care that only Diamond Advantage Genuine Service can deliver.

## DIAMOND INSURANCE ADVANTAGE

With the sound backing of Swann Insurance and Mitsubishi Motors Australia Limited, Mitsubishi owners can choose between vehicle and personal protection solutions including motor vehicle, gap cover and loan protection insurance as well as a range of tailored warranty policies.

## DIAMOND CUSTOMER ASSIST 24/7 ADVANTAGE

We're here to help, 24 hours a day, seven days a week. So just call the Ralliart Customer Assistance Centre on 1300 794 795 if you have any questions, or for the location of your nearest Mitsubishi Ralliart Dealer.

## DIAMOND 5 YR ROADSIDE ASSIST ADVANTAGE

Peace of mind is guaranteed anywhere in Australia with our free 5 year/130,000km (whichever comes first) Roadside Assist, 24 hours a day, 365 days a year. Our fast, comprehensive roadside service offers assistance, repairs, towing and storage. Our Premium Roadside Assist clients also enjoy the added benefits of accommodation, medical and transport facilities. Service conditions apply.

## DIAMOND 200+ DEALER NETWORK ADVANTAGE

With a network of more than 200 dealers, Mitsubishi is never too far away.

**DIAMOND

## SPECIFICATIONS

Engine	
Type	2.0L DOHC 16-valve turbocharged MIVEC engine
Bore and stroke (mm)	86.0 X 86.0
Capacity (cc)	1998
Compression ratio	9.0:1
Performance	
Power	177kW @ 6000rpm
Torque	343Nm @ 2500-4750rpm
Fuel System	
Fuel supply equipment	Electronically controlled multi-point injection
Fuel tank capacity (L)	55
Fuel type	Premium unleaded / RON98
Engine Electrical	
Battery	55D23L
Alternator	12-130
Starter	12-1.4

## FEATURES

### EXTERIOR STYLING

Colour coded door handles  
 Colour coded electric door mirrors  
 Black radiator grille  
 Chrome grille surround  
 Aluminium bonnet with air intake and black air outlets  
 Chrome belt line moulding  
 Headlamp halogen with auto off system  
 Front fog lamp reflector type  
 High mount stop lamp on boot lid  
 Rear combination lamp  
 Laminated windscreen  
 Side turn lamp  
 Rear mud guards  
 Front air dam extension  
 Side air dam  
 Rear sports spoiler  
 Dual chrome exhaust  
 18" alloy wheels

### SUPERIOR CONTROL

All Wheel Drive  
 All Wheel Control  
 - Active Centre Differential (ACD)  
 - Active Stability Control (ASC)  
 - Active Traction Control (ATC)  
 - Anti-lock Braking System (ABS)  
 - Electronic Brakeforce Distribution (EBD)  
 Front helical limited slip differential  
 Rear mechanical limited slip differential

Transmission	
Type	Twin Clutch Sport Shift Transmission with Sports Mode
Gear Ratios	
first	3.655
second	2.368
third	1.754
fourth	1.322
fifth	0.983
sixth	0.731
reverse	4.011
Final Gear Ratio	4.062
Fuel Consumption*	
ADR 81/01 (litres per 100kms)	10.2 (Sportback), 10.0 (Sedan)
Brakes	
Type	Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD) and Brake Assist (BA)
Front	2 piston ventilated disc
Rear	Solid disc

### SAFETY

Driver & front passenger SRS airbags (dual stage)  
 Side & curtain SRS airbags  
 Driver knee SRS airbag  
 Reinforced Impact Safety Evolution (RISE) body  
 Childproof rear door locks  
 Driver and front passenger seatbelts  
 - 3 point ELR  
 - Force limiters  
 - Pretensioners  
 - Adjustable shoulder anchor  
 Rear seat belts  
 - 3 point ELR X 3/ALR X 2  
 Child restraint anchor points x 3  
 Immobiliser  
 Alarm includes tilt, shock and glass break sensors  
 Datadot

### INTERIOR STYLING

 Chrome inside door handles  
 Instrument panel and door trim garnish - geometric check print  
 Chrome air outlet knob  
 Door trim cloth insert  
 Tonneau cover (Sportback only)  
 Room lamp with map lamp  
 Room lamp with microphone  
 Rear room lamp  
 Boot room lamp

Brake booster size	10" master vac
Wheels/Tyres	
Wheel type	Alloy
Wheel size	18" x 7.0JJ
Tyre size	215/45R18 89W
Spare wheel	Space saver - T125/90 D16
Full size spare	A
Suspension	
Type	High performance suspension with front strut tower bar
Front	Independent Macpherson strut with coil spring and stabiliser
Rear	Independent multi-link with coil spring and stabiliser
Steering	
Type	Power steering rack and pinion type with hydraulic power assist
Turning circle (m)	10
Maximum towing capacity	
Braked trailer	1000
Unbraked trailer	550

### CONVENIENCE

Cruise control with steering wheel remote controls  
 Audio steering wheel controls  
 Hands free Bluetooth® with voice recognition and steering wheel remote controls (If MMCS installed, the satellite navigation voice commands override the phone voice commands)  
 Tilt adjust steering column  
 Paddle shifters  
 Smart key - keyless operating system with 2 transmitters  
 Rear window demister  
 Digital clock  
 Accessory 12V socket on console  
 Accessory 12V socket in console box  
 Sports type meter illumination with rheostat  
 Tachometer  
 4WD indicator  
 Console mounted ACD switch  
 Fog lamp indicator  
 Multi information display  
 Twin trip meter with trip computer  
 Low fuel warning lamp  
 Seat belt warning lamp with buzzer - driver and front passenger  
 Door ajar warning buzzer  
 Assist grip with damper x 4  
 Coat hanger (rear drivers side)  
 Sunvisor with mirror, lid and ticket holder (driver & passenger)  
 Day/night rear vision mirror  
 Dual horn  
 Driver's foot rest  
 Dusk sensing headlamps  
 Rain sensing wipers  
 Windscreen wiper 2-speed with variable intermittent

Capacities	Sportback	Sedan
Kerb weight (kg)	1590	1555
Gross vehicle weight (kg)	2045	2025
Boot capacity (L)	288	400
Seating capacity	5	
Exterior Dimensions (mm)		
Overall length	4585	4570
Overall height	1515	1490

Track - front	1530	
Track - rear	1530	
Ground clearance	150	
Turning circle (m)	10	

\*These figures are obtained from controlled laboratory tests conducted by Mitsubishi Motors Australia Limited to Australian Standard ADR 81/01 and are provided to assist you in comparing the fuel consumption of Lancer Ralliart with other vehicles. The actual fuel consumption you achieve will depend, however, on many factors, including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use.

### AUDIO

6 disc CD with MP3 and AM/FM audio and auxiliary input  
 6 speakers (4 speakers + 2 tweeters)  
 Rockford Fosgate® Premium Audio includes 9 speakers (4 speakers + 4 tweeters + 1 subwoofer) - optional  
 Mitsubishi Multi Communication System (single CD player) - optional\*  
 Roof antenna

### SEATS

Front sports seats  
 Front and rear seats with Ralliart trim  
 Drivers seat slide, recline and height adjust  
 Front passenger seat slide and recline adjust  
 Front passenger seat back pocket  
 Rear seat low back 60/40 split type  
 One touch folding rear seats (Sportback)  
 Rear centre arm rest with cup holder x 2  
 Front height adjustable head-restraint  
 Rear height adjustable head-restraints x 3

### STORAGE

Glove box  
 Floor console standard type with lid  
 Floor console cup holder with lid for front seat  
 Upper console box with lid  
 Lower console box with lid  
 Door pocket for front and rear doors with bottle holders for front

### COMFORT

Automatic climate control  
 Power window front and rear with auto down for driver  
 Privacy glass  
 Pollen filter  
 Electric glass sunroof - optional\*\*
