

OUTLANDER

LOVE THAT CAR

The new Outlander delivers outstanding comfort, space, versatility and the safety you need to get you through an active day.

Aspire model shown

New Outlander is available in several models:

- 2WD ES and LS with 2.0L MIVEC petrol engine
- 4WD ES, LS, Aspire with 2.4L MIVEC petrol engine
- 4WD LS, Aspire with 2.2L intercooled turbo diesel engine.

Mitsubishi's Innovative Valve Timing Electronic Control (MIVEC) petrol engine has unprecedented fuel economy with low emissions. The ECO Drive Support System encourages economic driving through driver interaction. Using ECO Score, ECO Drive Assist Display and the driver selectable ECO Mode it provides energy saving control for the engine, air conditioning and 4 wheel drive system.

Outlander offers drivers so much technology at your fingertips, with standard features including cruise control, climate control air conditioning and Bluetooth® hands-free with voice command all on your steering wheel controls.

Smart Key gives you complete keyless operation. Outlander Aspire recognises the key within a 70cm radius, so you can lock and unlock the doors, open the tailgate and even start the engine with the touch of a button, all with the smart key safely tucked in your pocket or bag.

Outlander LS and Aspire feature rain-sensing wipers that automatically detect moisture on the windscreen and activate the wipers at a speed appropriate to the amount of rain falling. Other sensors automatically

switch on the headlights when it gets dark or when travelling through a tunnel – fewer things to distract you from the road ahead.

Electronic Control 4-Wheel Drive.

In order to heighten the connection with the vehicle body and other systems, the 4WD system of the new Outlander uses a variety of sensors, maximising your control. The system has evolved so that the driver's intention is conveyed through all four wheels. Three driving modes are available to balance fuel economy and driving performance.

4WD ECO – Fuel efficient mode

Normally, driving is performed using 2WD, which allocates torque to the front wheels.

The car quickly detects when road conditions are slippery and contributes to stable driving by implementing 4WD, allowing torque to the rear wheels as well.

4WD AUTO – Normal mode

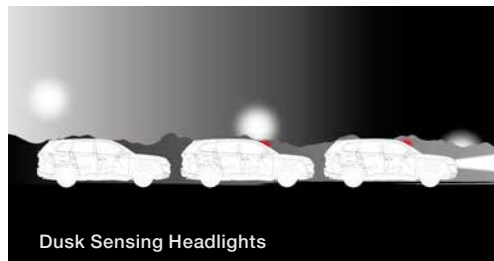

This realises appropriate 4WD capability for various road conditions such as dry asphalt roads, wet roads and snowy roads. In addition to heightened drive power in slippery conditions, the system makes turning easier.

4WD LOCK – High ground covering ability

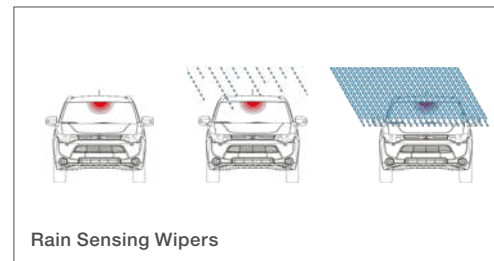

This mode excels when driving on bad roads and even escaping when the vehicle is stuck. Even on normal roads, this mode provides traction driving of all 4-wheels from low speeds to high speeds.

One Touch Start System

Dusk Sensing Headlights

Rain Sensing Wipers

4WD Button

As soon as you sit in the new Mitsubishi Outlander you can see and feel the outstanding quality and comfort. But this SUV has also been designed to offer exceptional practical functionality. To maximise potential cargo space, both the second row seats and third row seats (in 7 seat models) can be flexibly arranged. In the 4WD LS and Aspire models, the second row seats can be easily moved forward for access to third row seating. Owners of the Aspire can also open and close the tailgate from the driver's seat simply by using a switch.

The new Outlander is equipped with a myriad of safety features to protect both the driver and passengers in a collision including seven airbags as standard:

- side airbags to protect occupants against thorax injuries
- curtain airbags for protection from side collision
- driver and front passenger SRS airbags and a driver knee airbag for protection in the event of head on collision.

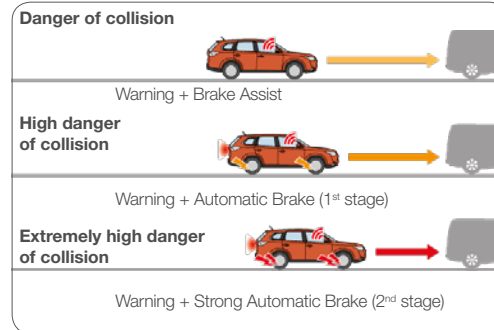

Furthermore, Outlander's protection of occupants has been dramatically heightened thanks to Forward Collision Mitigation (FCM), a technology that detects potential accidents and activates mitigation measures and Adaptive Cruise Control (ACC) which works to maintain specified speed and distance between you and the vehicle ahead. Available in Aspire.

RISE Body

Mitsubishi's Reinforced Impact Safety Evolution (RISE) is a combination of a front body that absorbs impact and a high-rigidity cabin structure. In addition to increasing the amount of energy absorbed by the engine room at the time of frontal impact, a stringer has been added to the front floor in order to prevent changes in the shape of the cabin due to impact.

Forward Collision Mitigation (FCM)

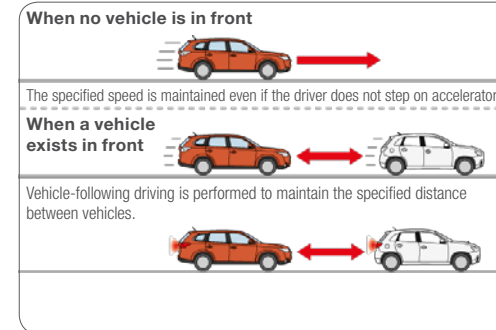

– available on Aspire

This super strength cabin cocoons you and your passengers with outstanding protection in the event of an accident.

Adaptive Cruise Control (ACC)

– available on Aspire

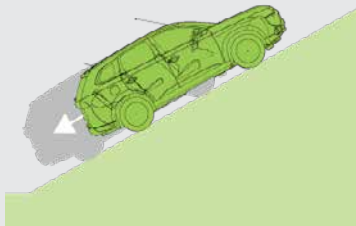

ECO Drive Support System

- ECO Mode Control**
ECO mode activates energy saving control for the engine, air conditioning and 4WD.
- ECO Drive Assist**
Displays the ECO drive level in real time.
- ECO Score**
The ECO driving score is displayed for a prescribed time period. (LS and Aspire only.)

For more information on the Outlander range scan the QR code or visit mitsubishi-motors.com.au

HSC

Hill Start Control (HSC)

This technology makes it easier to start off up steep city streets by preventing the vehicle from rolling backwards. It maintains the braking force for two seconds giving you time to move your foot from the brake to the accelerator.

ASC

Active Stability Control (ASC)

ASC maintains stability and control when cornering by automatically recognising under-steer and over-steer. It applies brakes to the appropriate wheels to keep you online through corners.

ATC

Active Traction Control (ATC)

ATC helps maintain traction on slippery surfaces. When sensing loss of traction in an independent wheel, ATC applies braking force to that wheel and sends extra power and torque to other wheels that have traction to keep you moving and in control.

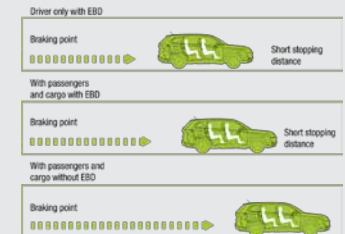

ABS

Anti Lock Braking System (ABS)

Outlander is ready to perform if you're faced with the unexpected. ABS helps the driver maintain steering control and avoid hazards by adjusting the braking pressure to prevent the wheels from locking up under hard braking or during an emergency stop.

EBD

Electronic Brakeforce Distribution (EBD)

This technology reduces stopping distances by detecting passengers or heavier loads and then automatically increasing the rear-braking force to deliver predictable and consistent stopping performance.

2WD ES (KEY FEATURES)

Mechanical

2.0L 4cyl SOHC 16 valve MIVEC engine
5 speed manual transmission
Continuously Variable Transmission (CVT) with INVECS III Smart Logic (optional)
Electric Power steering

Exterior

18" Alloy Wheels
Full size spare wheel
Body colour door mirrors
Body colour door handles
High mount stop lamp
Chrome grille
Two tone colour bumper
Black door sash
Halogen headlamps
Roof rails (black)

Interior

Leather bound steering wheel
Leather bound gearshift
Inner scuff plates
Textured silver accent panel
Door trim cloth inserts
Chrome Accented HVAC Control Switches

Comfort

Climate control air conditioning
Rear seat heater ducts
Pollen filter
Side and rear window demisters
Driver and passenger assist grip

Convenience

Cruise control with steering wheel controls
Central door locking with keyless entry
Power door mirrors
Variable intermittent windscreen wipers
Intermittent rear wiper and washer
Steering wheel audio and phone controls
Accessory power socket
Room lamp, front map lamps, cargo area lamp
Interior lamp with time delay
Ignition key cylinder illumination
Welcome/coming home light
Door courtesy light
Driver and passenger sunvisor with illuminated vanity mirror
Trip meter
Headlamps on warning, door ajar low fuel warning
ECO Drive Support System
ECO Mode Control
ECO Drive Assist Indicator
Remote fuel filler release
Power windows front and rear (driver auto up & down)
Synchronised windscreen washers
Steering wheel cruise control switches
Coat hook
Day/night rear view mirror

Storage

Floor console with storage box and lid
Door pockets – front and rear
Cup holders
Bottle holders
Seat back pocket – passenger

Fully trimmed cargo area
Cargo room hook

Seating

Cloth seat trim
Front seats
- Bucket seats
- Slide and recline adjustment
- Driver height adjustment
- Height adjustable headrests
Second row seats
- Recline and tumble fold up function
- Centre armrest with cup holders
- Height adjustable headrests x 3

Audio & Media

Touchscreen audio system with AM/FM radio and CD/MP3 player
6 speakers (includes 2 tweeters)
USB input
Multi information display – includes trip computer, outside temperature, average fuel consumption
Bluetooth® 2.0 phone connectivity, audio streaming and voice control

Safety

Reverse camera
Reverse park assist sensors
Driver and front passenger SRS airbags
Driver and front passenger side SRS airbags
Curtain SRS airbags
Driver knee airbag
Anti-lock Braking System (ABS)
Electronic Brakeforce Distribution (EBD)
Emergency brake assist system
Active Stability Control (ASC)
Active Traction Control (ATC)
Hill Start Control (HSC)
Reinforced Impact Safety Evolution (RISE) body
Intrusion minimising brake pedal
3 point Emergency Locking Retractors (ELR) seatbelts (all seating positions)
Auto Locking Retractor (ALR) seatbelts on outbound 2nd row seats
Front seatbelt pretensioners and force limiters
Front seatbelt height adjustable shoulder anchorages
Seatbelt warning lamp – driver and front passenger
Child proof rear door locks
Child restraint anchorage points
ISO-Fix child seat mountings
Shift lock with key interlock (CVT)
Start interlock (manual)

Security

Anti-theft encrypted engine immobiliser
Theft protection alarm
Diamond Advantage Roadside Assist

4WD ES (FEATURES ADDITIONAL TO 2WD ES)

Mechanical

2.4L 4cyl SOHC 16 valve MIVEC engine
Continuously Variable Transmission (CVT) with INVECS III Smart Logic
All Wheel Control 4WD (AWC)

2WD LS (KEY FEATURES ADDITIONAL TO 2WD ES)

Mechanical

Continuously Variable Transmission (CVT) with INVECS III Smart Logic
Paddle shift (CVT)

Exterior

Door mirrors with integrated turn indicator
Front fog lamps
Privacy glass

Comfort

Dual zone climate control air conditioning

Audio & Media

Mitsubishi Multi Communication System featuring 7" WVGA touch screen display with 3D navigation mapping and SD Card input

Convenience

High contrast instrument meter with colour LCD display and ECO Score indicator
Automatic rain sensing wipers
Automatic dusk sensing headlamps

Security

Cargo blind

4WD LS (KEY FEATURES ADDITIONAL TO 2WD LS)

Mechanical

2.4L 4cyl SOHC 16 valve MIVEC petrol engine
or
2.2L 4cyl DOHC 16 valve intercooled turbo common rail direct injection diesel engine with 6 speed automatic transmission with INVECS II
All Wheel Control (AWC)

Interior Styling

Chrome Accented All Wheel Control Switch

Seating

Second row seats
– 60: 40 split with slide, recline & tumble up function adjustment
Third row seats
– 50: 50 split with recline adjustment

4WD ASPIRE (KEY FEATURES ADDITIONAL TO 4WD LS)

Exterior

Chrome door handles
Chrome side window garnish
High Intensity Discharge (HID) headlamps
Headlamp washers

Interior

Woodprint accent panel
Chrome interior door handles
Door trim leather look insert
Decorative outer scuff plates

Convenience

Smart Key with One Touch Start
Electric sunroof with slide and tilt

Storage

Seat back pocket – driver and passenger
Power tailgate

Seating

Leather seat facings
Power driver seat
Front heated seats

Safety

Forward Collision Mitigation
Adaptive Cruise Control
