

TRITON

love that car

A person in a black wetsuit stands on a rocky beach, looking out at the ocean. The foreground is filled with small, multi-colored pebbles. Large, smooth, tan-colored rocks are scattered across the beach. The ocean waves are visible in the background under a soft, overcast sky.

LOVE THAT CAR

HERE AT MITSUBISHI, WE LOVE OUR VEHICLES. WE LOVE THEIR SUPERIOR QUALITY,

**WHAT THEY STAND FOR,
AND WHAT THEY'RE CAPABLE OF.**

AND WE WANT YOU TO FEEL THE SAME WAY.

IT'S WHY WE STRIVE FOR THE HIGHEST STANDARDS IN EVERYTHING WE DO,
AND IT'S WHY WE BACK ALL OUR VEHICLES WITH OUR MITSUBISHI DIAMOND
ADVANTAGE, AUSTRALIA'S BEST NEW CAR WARRANTY AND CUSTOMER CARE.

OUR PROMISE

When you buy a Mitsubishi Triton, or any vehicle from our range, you're buying a vehicle that's backed by world-class research, technical innovation, and leading performance. In every area of our business, we're continually focussed on four key values. By following these values, we never fail to create superior vehicles that people love.

STREET PRESENCE

We design attention grabbing vehicles with real street presence. We're focussed on delivering vehicle design that not only defines the best in innovation but embodies the essence of genuine performance, handling dynamics and absolute driving pleasure.

ADVANCED TECHNOLOGY

We'll continue to develop ground-breaking technology that focuses on better control, performance and lifestyle. This includes innovations such as our Mitsubishi All Terrain Technology (MATT™), our intercooled-turbocharged diesel engine and our leading Mitsubishi Multi Communication System.

DRIVER CONFIDENCE

We're committed to raising the bar in terms of safety, which gives peace of mind to all occupants. Our Mitsubishi Reinforced Impact Safety Evolution (RISE) body design remains at the heart of our vehicle safety philosophy. Mitsubishi's application of leading active safety features like Active Stability Control, ABS and EBD puts Triton at the forefront of safety technology.

SUPERIOR VALUE

We'll constantly strive to deliver the ultimate customer experience at all times. This is reflected by the Mitsubishi Diamond Advantage, Australia's best new car warranty and customer care, by our feature-packed vehicles, and our ongoing commitment to making our vehicles more cost effective and fuel efficient.

FOR BOTH
ON AND OFF THE CLOCK,
THE MITSUBISHI TRITON HAS EVERYTHING YOU NEED
TO GET THE TOUGH JOBS DONE.

THE STURDY AUSSIE WORKHORSE.

The Mitsubishi Triton has everything you need to get the tough jobs done. This dependable, Aussie workhorse feels at home anywhere you are - on a building site, a farm, or even around town. With a range of models and bodystyles in both 2-wheel and 4-wheel drive including cab chassis and double cabs, you can choose the vehicle that best suits your needs. And when it comes to pure grunt and power, the Triton doesn't disappoint - with a choice of a fuel efficient four cylinder petrol engine, or a powerful common rail turbo-charged diesel engine.

And whether at work or around town, the new-look Triton is sure to turn heads. It has a vast, sweeping cabin which makes it easy to get in and out throughout the day - and also has a Long Bed providing all the space you need to carry big loads.

Whenever a job needs doing, you can count on the Mitsubishi Triton.

GLX-R

WITH A WHOLE RANGE
OF SMART AND
ROBUST FEATURES
THE TRITON IS DESIGNED FOR A
COMFORTABLE RIDE.

TAKE ON THE TOUGHEST JOBS IN COMFORT

With a whole range of smart, flexible features, the Triton is designed to make your day a breeze.

Even though it's tough on the outside, you don't have to rough it in the cabin. The inside boasts a range of luxurious features for a comfortable ride. The cabin is ergonomically designed which is important when you spend a lot of time behind the wheel. There's plenty of leg, shoulder and head room in the front and back of the double cab for transporting your family, mates or workmates with ease.

You can also set your own soundtrack to a hard day's work, or to fire up for the weekend – with the in-dash MP3 player compatible audio system, with iPod and USB connectivity.

Whether during work hours, or after hours, you'll also feel in constant control, with a multi-function display feeding you information about your driving environment, such as external temperature, average fuel consumption, and range to empty.

Plus, get the most out of your work day with Bluetooth®, it lets you make and receive phone calls on the go, so when it's time to knock off everything is sorted.

DISCOVER
THE **LATEST** IN ENGINE TECHNOLOGY

THERE'S AN IMPRESSIVE FUEL EFFICIENT PETROL AND TWO POWERFUL COMMON RAIL TURBO DIESEL ENGINES.
THEY ALL HAVE THE **POWER** AND **TORQUE** TO SUIT ALL YOUR TOWING AND CARRYING NEEDS.

2.4L 4 CYLINDER PETROL ENGINE

The 5-speed 2.4L four cylinder 16 valve petrol engine is ideal for jobs around town providing impressive fuel efficiency. Combined with its power and torque this engine is a proven performer that will never let you down.

- 94kW of power
- 194Nm of torque
- 5 speed manual

2.5L COMMON RAIL HI POWER TURBO DIESEL WITH VGT

Offering the latest in Common Rail turbo diesel technology, this addition to the Triton range features an enhanced variable geometry turbo charger (VGT). The VGT works to optimize the turbine flow rate in order to achieve high torque at low speeds and maximised power at high speeds. The result is excellent emission control, fuel efficiency and high engine power for a superior performance that you can't argue with.

- 131kW of power
- 400Nm of torque on 5 speed manual
- 350Nm of torque on 4 or 5 speed automatic

2.5L COMMON RAIL TURBO DIESEL ENGINE

Generating impressive power and torque for all of your towing and carrying needs the 2.5 litre diesel also offers exceptional fuel efficiency to take you further for less.

- 100kW of power
- 314Nm of torque
- 5 speed manual or 4 speed auto

SPORTS MODE AUTOMATIC TRANSMISSION

Sports Mode means you can switch between the ease of an automatic or enjoy the control of a manual without a clutch. The clutch free operation reduces the rev and torque loss usually associated with engaging gears, meaning you can maintain momentum in off-road situations.

COMPARISON OF SHIFT RESPONSE

INVECS II SMART LOGIC

The Smart Logic transmission system learns and adapts to each driver's preferences by recording engine and foot brake data. The control logic then adapts the gearshift timing to suit your driving style.

ADAPTIVE SHIFT CONTROL DURING ACCELERATION

ADAPTIVE SHIFT CONTROL GOING DOWNHILL

Mitsubishi brings you the latest safety systems and superior 4WD technology. Triton boasts rally proven MATT™ (Mitsubishi All Terrain Technology) for the ultimate in on and off road driver confidence. When it comes to giving you superior control we've left no stone unturned.

SUPER SELECT 4WD

The hard working Triton inherits all the 4WD-handling heritage from a long line of Mitsubishi rally champions. Superior to most 4WD systems the Triton's Super Select 4WD offers full time 4WD with the option of four driving modes as seen below. The Super Select 4WD system also offers the benefit of on-the-fly shifts from 2WD to 4WD high range at speeds of up to 100km/h.

2H (2WD High Range)

Whether you're cruising down the highway or just going across town, 2H mode shifts you into rear-wheel drive for smooth, quiet, fuel-efficient performance.

4H (Full-Time 4WD)

When the weather turns bad and the road gets rough, get added traction in 4H mode. This has the flexibility of a centre-differential with viscous coupling unit, providing excellent traction in unpredictable road conditions or on volatile surfaces.

4HLC (4WD High Range w/Locked Centre Differential)

Keeping you on track in rugged or slippery conditions, 4HLC distributes power equally to all four wheels to meet off-road challenges with a steady sense of control.

4LLC (4WD Low Range w/ Locked Centre Differential)

Switch to 4LLC when you need all the tractor-like crawling power your Mitsubishi 4WD is capable of. Maximised low-end torque pulls you through even the roughest terrain, stickiest mud and deepest snow.

EASY SELECT 4WD

Enabling smooth control from the driver's seat, the Easy Select 4WD system incorporates 2WD High Range, 4WD High Range and 4WD Low Range; three transfer modes to deliver high-speed driving comfort and superior traction for off-road situations. When added traction is required, the free-wheeling front differential enables you to shift on-the-fly (at speeds of up to 100km/h) from 2WD to 4WD high range mode, and when conquering the roughest terrain, Triton's Easy Select 4WD also offers a 4WD low range mode.

REAR DIFFERENTIAL LOCK

4WD models are available with an optional rear diff lock to provide superior traction for heavy duty four wheel driving. When locked, both wheels receive the same amount of driving force, regardless of surface - meaning maximum possible traction in difficult situations.

REAR LSD (LIMITED SLIP DIFFERENTIAL)

Triton is fitted with a Rear Limited Slip Differential to provide superior traction in slippery conditions through the transfer of driving torque from the slipping wheel to the wheel with traction. The hybrid type LSD gives excellent off-road response, combining the torque-sensing benefit of helical gears and a speed-sensing of a viscous coupling unit.

THE TRITON
FEATURES SEVERAL IMPORTANT
SAFETY INNOVATIONS
TO PROTECT
YOU AND YOUR PASSENGERS.

SRS AIRBAGS

To provide essential protection in the event of a frontal collision, every Triton is fitted with driver and front passenger SRS airbags. Side and curtain SRS airbags are also available on selected models for optimal protection of driver and passenger - front and rear - in the event of a side-on collision. The side airbags inflate from the side of the seat to protect the torso while curtain airbags activate from the roof to protect the head.

The front seatbelt systems also include pretensioners and force limiters that combine to minimise the potential for serious injury in the event of a collision.

RISE SAFETY

At the heart of any integrated safety system is outstanding design. The Mitsubishi Reinforced Impact Safety Evolution (RISE) design combines an energy absorbing front section with a strong, rigid occupant cell to provide outstanding passenger protection in the event of an accident. The RISE body is coupled with a rigid ladder frame, side impact bars, and collision absorbing joints. As evidence of the Mitsubishi commitment to safety in motoring, the Triton is well specified with a raft of active and passive safety features.

Triton is equipped with MATT™ (Mitsubishi All Terrain Technology). Specific features are model dependent.

ABS

Anti-Lock Braking System

Making driving on slippery roads safer, Triton's intelligent 4-channel, 4-sensor braking system monitors different wheel speeds and activates brakes to individual wheels when required to deliver superior control. This allows you to manoeuvre around objects under heavy braking conditions. 4x4 models feature Multi-Mode ABS which adapts braking forces to ideally suit each driving mode.

EBD

Driver only with EBD

Braking point

Short stopping distance

With passengers and cargo with EBD

Short stopping distance

With passengers and cargo without EBD

Electronic Brakeforce Distribution

This technology actively monitors different wheel speeds to detect vehicle loads and evenly distributes brake pressure across the front and rear wheels accordingly. Under heavier loads, EBD provides shorter braking distances while enhancing overall control.

LSPV

Stopping distance with LSPV

Stopping distance without LSPV

Load Sensing Proportioning Valve

LSPV modulates rear brake pressure depending on vehicle load. Under light or no load conditions, it applies reduced braking pressure to the rear to prevent rear wheel lock-up. Fitted to vehicles not equipped with ABS.

ASC

Active Stability Control

Maintains stability and prevents loss of control when cornering, automatically recognising under-steer and over-steer and applying braking force to the diagonal wheel to keep you online through corners.

ATC

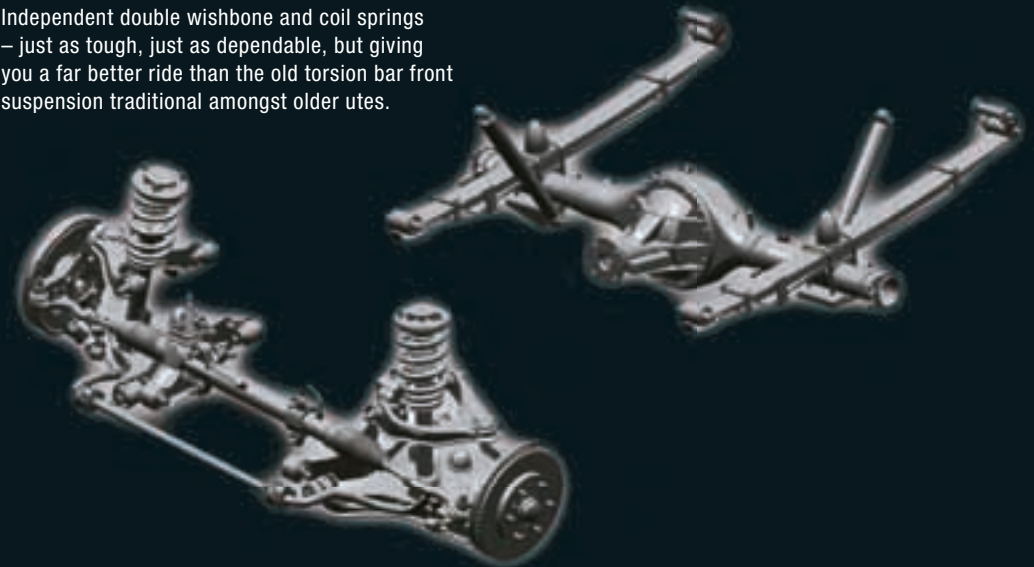

Active Traction Control

Helps you maintain traction on the most slippery or rugged of surfaces. This intelligent system automatically controls the engine output, so driving wheels are prevented from spinning. Sensing loss of traction in an independent wheel, it applies braking force to that wheel and sends extra power and torque to other wheels with traction to keep you moving.

SETTING THE STANDARDS IN SUSPENSION

Independent double wishbone and coil springs – just as tough, just as dependable, but giving you a far better ride than the old torsion bar front suspension traditional amongst older utes.

GETTING THE **HARD JOBS** DONE WITH **EASE**
FROM THE **COMFORT** OF A **QUALITY**
AND **ROOMY INTERIOR.**

POWER STEERING

Triton's power assisted rack and pinion steering set-up provides the terrific manoeuvrability of an 11.8m kerb-to-kerb turning circle.

So not only can you enjoy passenger car-like interior, you will also be able to steer around work sites and farms with greater ease.

POWER WINDOWS

Triton has got every detail covered to make even little tasks easier with features such as power windows and mirrors standard on every model so you can focus on the real job at hand.

LARGE AND QUIET CABIN

With an incredible amount of cabin space, Triton Double Cab easily carries five adults with plenty of leg, shoulder and headroom. Triton also boasts rear seat roominess and clever ergonomically designed wide rear door openings to get in and out with ease. Ride comfort is also smooth with superior cabin quietness and low vibration and interior noise levels.

CRUISE CONTROL

When it comes to travelling long distances – whether for a weekend getaway, to inspect a remote site, or transport goods and materials, it's important to be as comfortable as possible. Thanks to Triton's easy-to-use cruise control, you can stay relaxed on the open road, reduce your fuel consumption and avoid the risk of accidental speeding. Simply set your specific speed, sit back, and enjoy the drive.

CARGO BED TOUGHNESS

Roomy enough for recreational gear and tough enough for working materials, the cargo bed has double-walled support structures to ensure long-term performance. Whether for work or play, Triton's cargo bed hauls loads with ease. Inner hooks let you tie down your gear securely while the single handle in the rear gate gives you easier access when your hands are full.

MAKE LIGHT WORK OF HEAVY LOADS

The Triton Double Cab's Long Bed provides plenty of space for your carrying needs. The pick up models have a huge 1505mm in length and 460mm in height so you can load those bulky items in with no problems. Couple this with impressive power and torque and you can be confident that the Triton can move whatever you need it to with ease.

UP TO THREE TONNES TOWING

You'll find it tough to beat the powerful towing capacity of the Triton. The 4x4 diesel range can tow up to a huge three tonnes making it ideal for busy farms or worksites. Towing the farm equipment, dirt bikes, caravans or boats has never been easier.

TRITON HAS A RAFT OF NEXT GENERATION **TECHNOLOGY**
 TO MAKE **EVERY DRIVE**
EASIER AND **MORE ENJOYABLE.**

FROM HANDS FREE BLUETOOTH® MOBILE PHONE OPERATION, SO YOU CAN TALK WITHOUT HAVING TO PULL OVER, USB AND IPOD CONNECTIVITY SO YOU CAN LISTEN TO YOUR FAVOURITE TRACKS AND THE STATE OF THE ART MITSUBISHI MULTI COMMUNICATION SYSTEM (MMCS) THAT ALLOWS YOU TO STAY IN GREATER CONTROL OF YOUR DAY.

MITSUBISHI MULTI COMMUNICATION SYSTEM (MMCS)

Put control at your fingertips – with the Mitsubishi Multi Communication System (MMCS). With a 7-inch, colour screen, there's a whole range of information that can help you get to your next job or destination on time – including advanced satellite navigation functions and touch-screen functionality. There are also several information and operating tools that give you important information on your Triton's performance – including maintenance instructions, service reminders, and audio settings.

MAINTENANCE

CALENDAR

MULTI-FUNCTION CENTRE DISPLAY

The multi-function display provides endless information about your driving environment with clock and date, compass, barometer to help track weather conditions, altimeter to show how high you've travelled, range to empty reading, average fuel consumption and the temperature outside the car.

BLUETOOTH® PHONE CONNECTIVITY

Triton has the latest hands-free phone system technology, with Bluetooth® phone connectivity. This allows you to make and receive calls at the touch of a button. All this is integrated through the vehicle's audio system, so you can stay focused on the road.

USB CONNECTIVITY

Got your favourite music stored on a USB? Selected Triton models are USB compatible – so you can connect and play MP3s wherever you like.

CONNECT AND CHARGE YOUR IPOD

Incorporating the latest technology to make every drive a pleasure, the Premium Audio System on selected models is iPod compatible – which means you can charge and control your iPod.
