MAXIMA

MAXIMA

SHIFT the way you move

The Nissan Maxima provides a refuge from the madness of everyday life. Its design and technology deliver a driving experience that is seemingly effortless. Full of clever innovations to enhance the enjoyment of both driver and passengers, the Nissan Maxima will shift your senses. It will shift your emotions. It will **shift the way you move.**

CHOICE OF ENGINES

The 2.5 litre engine offers the energetic responsiveness of a V6 with the fuel economy of a 4 cylinder. While the 3.5 litre is the latest generation of Nissan's legendary VQ engine series; the most awarded V6 engine series in history.

CONTINUOUSLY VARIABLE TRANSMISSION (CVT)

Forget 5, 6 or 7 gears, CVT offers a virtually infinite number of ratios. So instead of feeling gear changes, you will experience smooth acceleration as you reach your desired speed. If you want to take control, you can use Manual Mode to shift through the preset ratios yourself.

SPEED-SENSING STEERING

The hydraulic power steering changes the feeling of the steering dependent on your speed. The result is a more direct, confident experience when travelling at high speed, and a lighter touch for easy parking and slow speed manoeuvring.

RIDE COMFORT

The Nissan Maxima's platform design offers excellent handling, low noise vibration and impressive safety. The multi-link rear suspension contributes to a ride experience that is sleek, fluid and seemingly effortless.

INTELLIGENT KEY AND PUSH BUTTON IGNITION

No more fumbling for keys. The Intelligent Key stays in your pocket or bag while you open the door by pushing a button. Once inside, there is no need to put the key in the ignition, as a button on the dash will start the engine.

Side Visual Parking Assist System integrated into the passenger side mirror. 350 Ti Model shown.

The image shows the interior of a Nissan 350 Ti. The dashboard is dark with a central infotainment screen displaying a navigation map. The steering wheel is black with the Nissan logo and has multiple control buttons. The instrument cluster behind the steering wheel shows a speedometer and tachometer. The center console has a gear shifter and handbrake. The overall lighting is warm, suggesting a sunset or sunrise view through the windshield.

AUDIO SYSTEM

The 250 ST-L features a 6 CD auto-changer with MP3/WMA capability so you can listen to all your favourite music. The 6 speakers will deliver the sound to enhance your driving experience.

BOSE® AUDIO SYSTEM

Enjoy rich, clear sound from an extraordinary audio system. Controlled by a touchscreen, the system includes a hard disk drive that you can load up with your music library. (2GB on the 350 ST-S and 9.3GB on the 350 Ti.) Both models offer iPod[®] connectivity and a total of 11 speakers (including 2 subwoofers).

BLUETOOTH® HANDSFREE PHONE SYSTEM

Make and receive calls safely and legally using the steering wheel-mounted controls.

SATELLITE NAVIGATION

Get where you are going quickly and easily.*

REAR-REVERSING CAMERA

When used in conjunction with your mirrors the rear camera with Predictive Path Technology makes parking easy by ensuring you avoid obstacles when reversing.*

SIDE VISUAL PARKING ASSIST SYSTEM (SVPAS)

Remove the worry of not being able to see the front left side of the vehicle when parking and reduce the risk of hitting the kerb. This camera, mounted on the passenger mirror, will make parking easier either during the day or night.*

MEMORY DRIVER'S SEAT

Enjoy programmable settings for you and a second driver, so your favourite seating, mirror and steering wheel position are remembered at the touch of a button.*

6 AIRBAGS

Dual front, dual side and dual curtain SRS airbags will protect the occupants in the case of an impact.

VEHICLE DYNAMIC CONTROL (VDC)

A safety system to help keep you on your intended path, VDC senses if your vehicle starts to lose grip on the road. To help you maintain control, engine power is reduced or braking power applied to specific wheels.

TRACTION CONTROL SYSTEM (TCS)

Sensing when a front wheel is spinning, TCS responds by reducing throttle or applying brake pressure to help improve traction.

BRAKE ASSIST (BA) & ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

More than "just stopping", Brake Assist senses emergency braking and automatically helps to apply maximum braking pressure if needed. Then, Electronic Brakeforce Distribution sends extra force to the rear brakes when it senses additional weight in the back.

ANTI-LOCK BRAKING SYSTEM (ABS)

In an event of an emergency situation, ABS will moderate the brakes to help the driver maintain stability and steering control as well as preventing the brakes from locking.

EMERGENCY LOCKING RETRACTOR (ELR)

After you've buckled your seat belt, it will allow you free movement but instantly lock in an emergency to keep you safe.

AUTOMATIC LOCKING RETRACTOR (ALR)

You can lock the rear seat belt to the length required to firmly secure child seats, when used in combination with the child seat anchorage points.

The image shows the interior of a car, focusing on the front and rear seats. The seats are upholstered in black leather with double stitching. The dashboard and center console are also visible, featuring a steering wheel with a logo, a gear shift, and various controls. The overall aesthetic is sleek and modern.

LEATHER INTERIOR

Enjoy the luxury of double stitched leather trim seats, leather bound steering wheel and a leather shift lever.*

8-WAY POWER DRIVER'S SEAT

At the touch of a finger you'll achieve the absolutely perfect driving position.

HEATED SEATS

On a bitterly cold morning, in the front seats you will really appreciate the snug sense of warmth provided by two heat settings.*

*350 ST-S and 350 Ti models only. †350 Ti model only.

CLIMATE CONTROL

Create an environment that suits you with the dual zone automatic climate control air conditioning.

REAR SUNSHADE

On those hot days an 'intelligent' rear sunshade can be raised at the flick of a switch to protect rear seat passengers. It will also retract automatically when the reverse gear is selected, giving you better visibility.†

350 Ti interior shown.

XENON HEADLIGHTS WITH WASHERS

Keep the road ahead fully illuminated, even in the most extreme conditions.

ADAPTIVE FRONT LIGHTING SYSTEM (AFS)

This lighting system will automatically turn on the low beams, according to your driving speed and steering, to provide better visibility. When driving on winding roads at night, AFS will change the lighting pattern to compensate for the curve of the road as well as illuminating your chosen direction when at crossroads.*

FRONT AND REAR FOG LAMPS

Help increase your visibility when needed.

17" ALLOY WHEELS

These stylish wheels add a sporty edge.

POWER FOLDING MIRRORS

Parking somewhere tight? Simply fold the mirrors out of the way.

SUNROOF

An electric, glass, slide and tilt sunroof comes standard on the Ti model.

REAR SPOILER

The rear spoiler adds an extra style dimension.

*350 ST-S and 350 Ti models. ^350 Ti model only.

Royal Black 350 Ti shown.

MYNISSAN

A complete ownership experience to help you get the most out of your Nissan. It includes the following:
