NISSAN MICRA

FABULOUS FUEL EFFICIENT FUN

Sleek, stylish and downright good fun to drive, the zippy pocket rocket that is the latest Nissan Micra also delivers serious bang for your buck. Wheels Magazine agrees, awarding it the 2012 Gold Star Value Award for Best Light Car. This savvy little number gives you a host of features you don't expect in a small car, including 5 doors, exceptional space, responsive power and all the smart features you need. Plus, the ST-L and Ti models come with a 'look at me' rear spoiler, fog lights and super flash 15" alloy wheels. What a little show off.

10/10. PRACTICAL, STYLISH AND SPACIOUS.

Talk about the complete package - Nissan Micra is as practical as it is stylish. Not to mention surprisingly spacious. A generous, three-tiered glovebox storage system gives you somewhere to stash all your 21st century necessities, without getting in a tangle. There's also a passenger seat handbag holder on the ST-L and Ti models, so your contents don't end up all over the floor when you corner. You can keep your driving arm comfy with a driver's armrest, and enjoy a surprising amount of headroom that's generous enough to accommodate a beehive comeback.

A photograph of a car's trunk, viewed from the side. The trunk is open, revealing a black suitcase with a textured surface and a small logo on the front. Next to the suitcase are three shopping bags: one red, one blue, and one white with red stripes. The trunk floor is covered in grey carpeting. The car's interior, including the rear seats and door panels, is visible in the background.

BOXING CLEVER STORAGE TO BOOT

For such a compact car, you get an incredibly spacious boot, that becomes even more accommodating when you configure the 60/40 split fold rear seats to your needs: whether it's stacking flat packs for your latest lounge room makeover or packing up to head out of town for the weekend.

CLEVER CREATURE COMFORTS

The Nissan Micra Ti is bursting with clever features. Reverse parking sensors guide you into tricky spots. An Intelligent Key and push button start lets you open the car at the touch of button, and once you're inside, just push the ignition on the dash and you're away. Exterior power folding mirrors automatically retreat once you've exited and locked the car, and automatic headlights turn on when they sense low ambient light. All models have a super smart drive computer that allows you to check your fuel consumption, and even enables you to program in important dates like birthdays and anniversaries, so it can remind you (or your significant other, who's always forgetting). Enjoy the added visibility of fog lights with the Ti and ST-L models, and a Bluetooth® hands free phone system as standard across the range, so you can link your compatible mobile to talk safely. Too easy.

PUSH BUTTON START/STOP. Simply push the button to start the Nissan Micra and away you go (Ti model only).

CLIMATE CONTROL. The Nissan Micra Ti model brings comforts to the world of the small sized sedan with climate control air-conditioning designed to keep you comfortable, rain, hail or shine.

AUDIO. The single in-dash CD player with MP3 capability, AM/FM radio and 4 speakers, sounds nothing short of fantastic.

POWERFULLY ZIPPY

Across the Nissan Micra range you'll enjoy the responsive power of a small, but gutsy 1.2 litre engine, delivering 56 kW of power and 100 Nm of torque, for feisty performance whether you're zipping around town or heading out to the country. The automatic Ti model makes driving a breeze, and it's your choice of either manual or automatic transmission across the rest of the range. If you're dashing about town, you'll love Nissan Micra's ability to negotiate tight city lanes and tricky corners; it has a miniscule turning circle of just 9 meters; one of the smallest in its class. And naturally, when it comes to fuel efficiency, the Nissan Micra will leave a smile on your dial.

ALWAYS ON THE SAFE SIDE

The Nissan Micra is your very own safety capsule. Equipped with 6 airbags, all occupants are protected by dual front, dual side and dual curtain SRS airbags in the event of a collision. It also features Vehicle Dynamic Control (VDC), which senses both under and over steer, and will either reduce engine power or increase brake power, to help you stay on course. As well as Brake Assist (BA), there's an Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD), which work to prevent wheel lock up and adjust brake force, ultimately helping you to maintain stability and control. Combined, these features deliver the stopping power you need if things get out of hand. Seatbelts are fitted with Emergency Locking Retractors (ELR), which give you plenty of movement once you've buckled up, but will instantly lock in an emergency to keep you safe. After all, feeling safe is... a great feeling.

my nissan

A complete ownership experience to help you get the most out of your Nissan. It includes the following:

3 YEAR/100,000KM WARRANTY.

Receive assurance with a 3 year/100,000kms warranty with the option of extending further for up to 6 years.
