PATROL CAB CHASSIS

The Nissan Patrol Cab Chassis is a tough, powerful workhorse that'll help you get the job done. It also works just as hard at making your life easier by including plenty of useful features and comforts. The Patrol Cab Chassis. It will shift what needs shifting; it will shift the way you work; it will **shift the way you move.**

Polar White ST Coil with optional bullbar, snorkel and steel tray.

So, what's under the hood?

The Nissan Patrol Cab Chassis is powered by a 3.0 litre common-rail turbo diesel engine with intercooler. The engine is highly responsive across the entire rev range, which makes it great for everything from towing to overtaking on the open road. Power is an impressive 118kW at 3,400rpm with plenty of low down grunt as well – 380Nm at a range of 2,000 to 2,400rpm. On top of that, the Patrol Cab Chassis has a 5-speed manual transmission with double cone synchromesh on the 1st, 2nd and 3rd gears and a chain driven transfer case. This truck's ready for work.

Desert Gold DX Leaf with optional snorkel, bullbar, winch and aluminium tray.

King of the load.

The Patrol Cab Chassis offers you a massive 3,200kg braked towing capacity. That should take care of pretty much anything you need to shift. You will also find that the Limited Slip Differential (LSD) maintains traction on even the slipperiest of surfaces. In addition, the Patrol Cab Chassis comes in a choice of leaf or coil suspension. The all terrain suspension on the coil model incorporates an advanced heavy duty coil spring suspension, with three links in the front and five links in the rear, as well as telescopic shock absorbers for a smoother ride. While the leaf spring model offers the ride comfort of coil springs at the front with the load carrying capacity of leaf springs at the rear.

A powerful appearance.

The Nissan Patrol Cab Chassis proves you can be rugged without looking it. Solidly handsome, it includes stylish features such as a chrome grille surround and on the ST coil model, fender flares and side steps. The immensely strong steel body of the Patrol Cab Chassis has been built on a separate ladder chassis, designed with rungs for added rigidity and strength. And it can keep moving no matter what the terrain with excellent ground clearance and a 700mm wading depth. All Patrol Cab Chassis models come with a 95 litre main tank and an 80 litre sub tank as standard equipment. That means fewer trips to fill up and more time to get the job done.

Black Obsidian DX Leaf with optional bullbar, winch, snorkel and aluminium tray.

Loads of storage.

The Nissan Patrol Cab Chassis includes a number of practical and versatile storage compartments. Large pockets in the doors can carry plenty, and the ST model has an overhead holder for sunglasses.

Loads of comfort.

Even before you get in, the Patrol Cab Chassis is making your job easier – wide doors make entry and exit a cinch. Once inside, the spacious interior gives you exceptional head, shoulder and leg room. All models feature bucket seats with durable cloth and head restraints that have been specifically designed to reduce fatigue and provide comfort and support. There's also power steering, an adjustable steering column and a driver's footrest. A single in-dash CD player with AM/FM radio plus an auxiliary MP3 player input jack lets you listen to your favorite songs, or step up to a 6 CD changer if you choose the ST model. All models also come standard with Bluetooth® handsfree phone system for easy communication on the road and iPod* connectivity via USB connection.

*iPod is a registered trade mark of Apple Inc.

Strong on safety.

The Patrol Cab Chassis comes equipped with plenty of safety features including dual front airbags as standard, extended and reinforced crumple zones, a collapsible steering column and steel anti-intrusion bars.

Patrol DX Leaf.

Black Obsidian DX Leaf with optional bullbar, winch, snorkel and aluminium tray.

- 3.0 litre common rail turbo-diesel engine with intercooler
- 5-speed manual transmission
- Limited Slip Differential (LSD)

myNissan is a **complete ownership experience**, which helps you get the most out of your Nissan. As part of myNissan, you will receive a 3 year/100,000kms warranty and have access to 24-Hour Roadside Assistance for 3 years. Just call us if you lock your keys in the car, have a flat tyre or battery, or have run out of fuel, and we'll help get you back on the road at no charge. You can also take the option to extend your warranty for up to 6 years.

We recognise that buying a car is a significant investment and the extensive network of Nissan Dealers will help you maintain and protect it. That's why, as part of myNissan, you're entitled to 6 years or 120,000kms* of **Capped Price Service**. This means you'll always know the maximum price you'll pay when you come in for your next Scheduled Service at any Nissan Dealer, Australia wide. What's more, Nissan technicians are factory-trained experts that utilise dedicated diagnostic equipment and genuine parts to keep your vehicle in top condition. Thereby giving you the peace of mind that your Nissan is in the safest of hands.

The myNissan **iPhone app** lets you request roadside assistance and advise of your location using your phone's GPS, plan trips, search for locations, plus set registration, service and parking expiry reminders. Nissan also offers a variety of **Nissan Genuine Accessories** to protect, enhance and personalise your Patrol Cab Chassis. A towbar will increase your load carrying options, while a snorkel, weathershields and headlamp protectors will help take it just about anywhere. Ask your Nissan Dealer about the entire list of Patrol Cab Chassis accessories.

Nissan Financial Services has a range of finance options at very competitive rates and terms as well as various insurance solutions to protect you and your vehicle.

Nissan has introduced **Blue Citizenship**, a new way for us to look at our business, which reflects our desire to be a model corporate citizen and play a role in aiding the sustainability of our earth and its resources. Blue Citizenship involves contributing to communities, promoting diversity, delivering mobility to more people all over the world and helping to protect the environment.

LEAF SPRING TOWBALL DOWNLOAD:

Towball Download must not exceed 250kg at GVM.** To increase the towball download above 250kg, the vehicle mass needs to be decreased as per the following table.

Towball download	Vehicle Mass
250kg	GVM** (All Variants)
300kg	Reduce loaded vehicle mass below GVM** by 85kg
320kg	Reduce loaded vehicle mass below GVM** by 120kg

COIL SPRING TOWBALL DOWNLOAD:

Towball Download must not exceed 100kg at GVM.** To increase the towball download above 100kg, the vehicle mass needs to be decreased as per the following table.

Towball download	Vehicle Mass
100kg	GVM** (All Variants)
150kg	Reduce loaded vehicle mass below GVM** by 115kg
200kg	Reduce loaded vehicle mass below GVM** by 200kg
250kg	Reduce loaded vehicle mass below GVM** by 290kg
300kg	Reduce loaded vehicle mass below GVM** by 365kg
320kg	Reduce loaded vehicle mass below GVM** by 400kg

* Indicates a metallic colour which is available at extra cost

** GVM = Gross Vehicle Mass. GVM includes the driver, passengers, full fuel tank and luggage.

* Tare mass = unladen mass of vehicle with 10 litres of fuel, excludes tray.

** Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behavior, the condition of your vehicle and the accessories fitted.

^ With optional wheels and tyres.

† Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non Nissan Genuine towbar is fitted.
