PATROL CAB CHASSIS

Polar White ST Coil with optional bull bar, snorkel and aluminium tray.

The Nissan Patrol Cab Chassis is a tough, powerful workhorse that'll help you get the job done. It also works just as hard at making your life easier by including plenty of useful features and comforts. The Nissan Patrol Cab Chassis will shift what needs shifting; it will shift the way you work; it will **shift the way you move.**

POWERFUL DIESEL ENGINE

The Nissan Patrol Cab Chassis range is powered by a 3.0 litre turbo-diesel engine with intercooler and an impressive 118kW at 3,400rpm meaning the Nissan Patrol Cab Chassis has plenty of grunt in any situation. There's plenty of low down torque too – 380Nm at a range of 2,000 to 2,400rpm.

TRANSMISSION

5-speed manual transmission with double cone synchromesh on the 1st, 2nd and 3rd gears and a chain driven transfer case, ensures the Nissan Patrol Cab Chassis is always ready for work.

Desert Gold DX Leaf with optional snorkel, bull bar, winch and aluminium tray.

TOWING

The Nissan Patrol Cab Chassis offers a massive 3,200kg braked towing capacity making sure you'll always be able to shift any load whether it's for work during the week or towing on the weekends.

LIMITED SLIP DIFFERENTIAL (LSD)

The Nissan Patrol Cab Chassis range comes standard with LSD meaning power from the engine is distributed evenly to improve traction. Leaf spring suspension in the rear on DX Leaf models, and double wishbone suspension with stabiliser bar at the front, means you'll always ride in comfort.

SUSPENSION

The Nissan Patrol Cab Chassis offers plenty of choice with either leaf or coil suspension. The all terrain suspension on coil models incorporates an advanced heavy-duty coil spring suspension, with three links in the front and five links in the rear, as well as telescopic shock absorbers for a smoother ride. While the leaf spring model offers the ride comfort of coil springs at the front with the load carrying capacity of leaf springs at the rear.

RUGGED EXTERIOR

The Nissan Patrol Cab Chassis includes stylish features such as a chrome grille surround and on the ST coil model, over-fender flares and side steps.

STRENGTH

The immensely strong steel body of the Nissan Patrol Cab Chassis has been built on a separate ladder chassis, designed with rungs for added rigidity and strength. And it can keep moving no matter what the terrain with excellent ground clearance and a 700mm wading depth.

FUEL TANK

All Nissan Patrol Cab Chassis models come with a 95 litre main tank and an 80 litre sub tank as standard equipment. That means fewer trips to fill up and more time to get the job done.

Black Obsidian DX Leaf with optional bull bar, winch, snorkel and aluminium tray.

STORAGE

The Nissan Patrol Cab Chassis includes a number of practical and versatile storage compartments. Large pockets in the doors can carry plenty, and the ST model has an overhead holder for sunglasses.

COMFORT

Wide doors make entry and exit easy. The spacious interior gives you exceptional head, shoulder and legroom. All models feature bucket seats with durable cloth, plus head restraints designed to reduce fatigue. And with power steering, an adjustable steering column, power windows and central locking the Nissan Patrol Cab Chassis range has all the feature's you'd expect in a powerful workhorse.

AUDIO SYSTEM

All models feature an AM/FM radio, CD player, an auxiliary MP3 player input jack and USB Port for iPod* connectivity.

BLUETOOTH® HANDSFREE PHONE SYSTEM

Link your compatible mobile phone to make and receive calls safely.

SAFETY

The Nissan Patrol Cab Chassis comes equipped with plenty of safety features including dual front airbags as standard, extended and reinforced crumple zones, a collapsible steering column and steel anti-intrusion bars ensuring it's a safe place to be.

Black Obsidian DX Leaf with optional bull bar, winch, snorkel and aluminium tray.

PATROL DX LEAF

- 3.0 litre common rail turbo-diesel engine with intercooler
- 5-speed manual transmission
- Limited Slip Differential (LSD)

LEAF SPRING TOWBALL DOWNLOAD:

Towball Download must not exceed 250kg at GVM.[†] To increase the towball download above 250kg, the vehicle mass needs to be decreased as per the following table.

| Towball download | Vehicle Mass |
|-------------------------|--|
| 250kg | GVM [†] (All Variants) |
| 300kg | Reduce loaded vehicle mass below GVM [†] by 85kg |
| 320kg | Reduce loaded vehicle mass below GVM [†] by 120kg |

COIL SPRING TOWBALL DOWNLOAD:

Towball Download must not exceed 100kg at GVM.[†] To increase the towball download above 100kg, the vehicle mass needs to be decreased as per the following table.

| Towball download | Vehicle Mass |
|-------------------------|--|
| 100kg | GVM [†] (All Variants) |
| 150kg | Reduce loaded vehicle mass below GVM [†] by 115kg |
| 200kg | Reduce loaded vehicle mass below GVM [†] by 200kg |
| 250kg | Reduce loaded vehicle mass below GVM [†] by 290kg |
| 300kg | Reduce loaded vehicle mass below GVM [†] by 365kg |
| 320kg | Reduce loaded vehicle mass below GVM [†] by 400kg |

*Indicates a metallic colour which is available at extra cost

^{††}GVM = Gross Vehicle Mass. GVM includes the driver, passengers, full fuel tank and luggage.

*Tare mass = unladen mass of vehicle with 10 litres of fuel, excludes tray.

[†]Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behavior, the condition of your vehicle and the accessories fitted.

[^]With optional wheels and tyres.

[†]Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non Nissan Genuine towbar is fitted.
