NISSAN PATROL CAB CHASSIS

Polar White ST Coil with optional bull bar, snorkel and aluminium tray.

WORKS 365 DAYS A YEAR. THE NISSAN PATROL CAB CHASSIS

Life on the land is relentless and unforgiving. You need a workhorse that's just as tough. One that can handle a little punishment.

The Nissan Patrol Cab Chassis is the one. As resilient as they come, from its sturdy frame to its big, powerful heart, you can push it day in, day out, 365 days a year with a work ethic second to none. And despite its tough exterior, there's a little softness on the inside with the added extras you need to help you keep on keeping on through all of life's little challenges.

AN ENGINE THAT'S READY FOR ANYTHING

The Nissan Patrol Cab Chassis range gives you all the grunt you need. All models are powered by a 3.0 litre turbo-diesel engine with intercooler and an impressive 118kW at 3,400rpm; giving you raw power on hand whenever you need and plenty of low down torque with 380Nm at a range of 2,000 to 2,400rpm. And although it's packed with grunt, there's no grind when it comes to the 5-speed manual transmission. Double cone synchromesh on the 1st, 2nd and 3rd gears, complete with a chain driven transfer case, delivers smooth, responsive transmission whether you're heading up hill or down the back paddock.

21,333 TOMATOES

8 LARGE HAY BALES

4 VERY LARGE COWS

40,000 CARROTS

**WHAT DOES
3,200KG
LOOK LIKE?**

The Nissan Patrol Cab Chassis offers a massive 3,200kg braked towing capacity* making sure you'll always be able to shift any load whether it's for work during the week or towing on the weekends.

An inside cabin switch allows you to easily engage the rear differential lock when facing different wheel traction in 4WD situations. By locking the rear differential it forces both wheels to turn in unison, providing a significant traction advantage to keep you moving.

In suspension you have the choice of the DX model with leaf spring rear suspension (coil up the front), or the ST model with all round coil spring suspension. The all terrain suspension on the ST Coil gives you advanced heavy-duty coil spring suspension, with three links in the front and five links in the rear, as well as telescopic shock absorbers for a smoother ride. The DX Leaf spring gives you the ride comfort of coil springs at the front, with the load carrying capacity of leaf springs at the rear. Both variants have a three link solid beam axel front suspension with stabiliser bar.

The strength of the Nissan Patrol Cab Chassis is second to none, with a steel body built on a separate ladder chassis for increased strength. And you can put it through its paces on all terrain with a wading depth of 700mm and excellent ground clearance. The rugged exterior is enhanced with a chrome grille surround, over-fender flares and side steps. Every Nissan Patrol Cab Chassis model comes with a 95 litre main tank and an 80 litre sub tank as standard. All in all, this is one hard to beat mother.

*Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of any accessories or towing equipment limitations including the maximum towball download.

Black Obsidian DX Leaf with optional snorkel, bull bar, winch and aluminium tray.

IT'S WHAT'S INSIDE THAT COUNTS

When you spend so much time in your vehicle, you want to make sure it's damn comfy inside. All Nissan Patrol Cab Chassis models give you exceptional head, shoulder and legroom, with deep supportive bucket seats in a durable woven cloth, and head restraints designed to reduce fatigue. The adjustable steering column gives you even more room and extra wide doors get you in and out without knocking yourself for six. Plus there's a bunch of smart features to make life easier including; power windows and cruise control, as well as keyless entry system and key leave warning functions. All models feature an AM/FM radio, CD player, an auxiliary MP3 player input jack and a USB Port for iPod* connectivity, as well as a Bluetooth® handsfree phone system to link your compatible mobile phone. There's a heap of versatile storage compartments, including large door pockets, and the ST model comes with an overhead sunglasses holder. And last, but by no means least, the Nissan Patrol Cab Chassis ST model comes with dual front airbags as standard, extended and reinforced crumple zones, Anti-Lock Braking System (ABS), a collapsible steering column and steel anti-intrusion bars, all designed to keep you safe as houses.

LEAF SPRING TOWBALL DOWNLOAD:

Towball Download must not exceed 250kg at GVM.^{**}To increase the towball download above 250kg, the vehicle mass needs to be decreased as per the following table.

Towball download	Vehicle Mass
250kg	GVM ^{**} (All Variants)
300kg	Reduce loaded vehicle mass below GVM ^{**} by 85kg
320kg	Reduce loaded vehicle mass below GVM ^{**} by 120kg

The vehicle mass needs to be decreased as per the following table.

COIL SPRING TOWBALL DOWNLOAD:

Towball Download must not exceed 100kg at GVM.^{**}To increase the towball download above 100kg, the vehicle mass needs to be decreased as per the following table.

Towball download	Vehicle Mass
100kg	GVM ^{**} (All Variants)
150kg	Reduce loaded vehicle mass below GVM ^{**} by 115kg
200kg	Reduce loaded vehicle mass below GVM ^{**} by 200kg
250kg	Reduce loaded vehicle mass below GVM ^{**} by 290kg
300kg	Reduce loaded vehicle mass below GVM ^{**} by 365kg
320kg	Reduce loaded vehicle mass below GVM ^{**} by 400kg

The vehicle mass needs to be decreased as per the following table.

[[]* GVM = Gross Vehicle Mass. GVM includes the driver, passengers, full fuel tank and luggage.
[#] Tare mass = unladen mass of vehicle with 10 litres of fuel, excludes tray.
[[]** Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behavior, the condition of your vehicle and the accessories fitted.
[^] With optional wide wheels and tyres.
[†] Towing capacity is subject to towbar/towball capacity and is based on the fitment of a Genuine Nissan towbar. Towing capacity figure described is a maximum figure. Actual towing capacity depends on the laden mass of the vehicle, driving conditions, fitment of any accessories or towing equipment limitations including the maximum towball download.
[‡] iPod is a registered trade mark of Apple Inc.
[[]** Applies to the first 12x10,000kms scheduled service intervals for up to 6 years/120,000kms (whichever occurs first). Some exclusions apply. Ask your Nissan Dealer or visit nissan.com.au/cpstcs for full terms and conditions.

For more information please visit nissan.com.au/owners, ask your Nissan Dealer or phone 1800 035 035 during normal business hours.

The vehicle mass needs to be decreased as per the following table.
