Towball download	Vehicle Mass
200kgs	GVM (all models)
250kgs	Reduce loaded vehicle mass below GVM** by 150kgs
300kgs	Reduce loaded vehicle mass below GVM** by 220kgs
350kgs	Reduce loaded vehicle mass below GVM** by 290kgs

**GVM = Gross Vehicle Mass

If the loaded vehicle mass is reduced as shown in the table, the towball download can be increased correspondingly. Accordingly, if the laden mass is 290kgs less than the GVM, a towball download of 350kgs is approved. Different trailer types and different trailer manufacturers have varying towball downloads. The customer will need to contact the trailer manufacturer for information as to the download. Nissan is not able to make any recommendation on the use or suitability of load-levelling or weight distribution devices to be fitted to the vehicle. Customers should contact the manufacturers of these devices for further information. **GVM includes the driver, 6 passengers ST and Ti models, 4 passengers DX model, full fuel tanks and luggage.

PATROL

SHIFT the way you move

If there's dust flying, a river flooding or mud from here to the horizon, you're probably going to find a legendary Nissan Patrol in the middle of it. The Patrol has all the power, toughness and 4x4 ability to get you anywhere you need to go. Plus a level of comfort and technology to make the journey as comfortable as possible. The Patrol will shift your expectations; it will shift your possibilities; It will **shift the way you move.**

You live in one of the biggest countries in the world. There are more than seven and a half million square kilometres to explore. From scorching deserts to freezing mountain tops, it fights occupation at every turn. No wonder then, that the Nissan Patrol has reached legendary status. For nearly half a century, it has proved time and time again that it has the toughness, **integrity and reliability** to survive in this inhospitable environment. In 1962, the Patrol performed its first legendary act as the first vehicle to successfully cross the grueling Simpson Desert. Today, the Patrol maintains the legend and has the capability to shift you and your gear from one corner of the country to the other.

The Nissan Patrol is all about taking the rough with the smooth. Turn off the beaten track and you can shift directly from 2WD to 4WD on the move. The locking front hubs (ST & Ti models only) engage automatically. In addition, a dual-range transfer gearbox gives the driver the further option of easily selected high or low range ratios. Low ratio is designed to cope with more demanding terrain and keeps you in control of your Patrol. A big contributor to the handling of the Patrol is the heavy duty coil **all-terrain suspension** springs, which provides superior durability and ride comfort on any surface. There are telescopic shock absorbers front and rear, as well as a stabiliser bar for improved cornering. ST and Ti models come with a gravel sensor **Anti-lock Braking System** (ABS) that actually detects what sort of surface the Patrol is travelling on and automatically adjusts itself to best handle the situation. This feature comes standard on the ST and Ti models. What's more, the construction of the Patrol greatly influences the enjoyment of the ride. The all-steel body on a strong separate ladder chassis helps keep occupants very comfortable as well as safe.

Tough, rugged and powerful. These are the hallmarks of the Nissan Patrol. And they can be delivered through a choice of high performance petrol or common-rail intercooled turbo diesel engine models. The 4.8 litre petrol engine gives you all the power you're ever likely to need and offers a massive **3,500kg braked towing capacity**. The standard 5-speed automatic transmission with manual shift mode gives you effortless high speed cruising in automatic mode while travelling the highways. Or take full advantage of the engine's power with the manual mode when you're off-road or towing.

The Patrol is also available with the gutsy 3.0 litre common-rail intercooled turbo diesel engine. This powerful engine offers great torque which will give you an impressive 3,200kg braked towing capacity on manual models. Patrol's **common-rail** fuel delivery system offers a number of benefits. It significantly reduces noise and vibration to offer you a quieter, more comfortable driving experience. Power and torque are accessible across the entire rev range – making it a highly responsive engine no matter where your adventure takes you. When using the manual transmission, you'll also find high power and torque is achieved low in the rev range providing excellent performance. Whether you choose petrol or diesel, you're certain to have all the power you need to see any part of this country you want.

The latest Nissan Patrol range offers numerous creature comforts. Climb inside and the first thing you will notice is the huge amount of **space and purposeful design** of the interior. The Patrol comes with a range of fabrics depending on the model; and there is luxurious jet black leather seat trim on the Ti model as seen here. Patrol ST and Ti models come equipped with seven seats, front and rear air-conditioning, numerous clever storage compartments, and a driver's seat with adjustable height and lumbar supports. With split-folding middle row seating and side-folding third row seating, the Patrol ST and Ti offer an enormous amount of versatility for carrying passengers and cargo.

Ti Petrol interior shown.

If you choose a Ti, you will get some fantastic features, such as climate control, and the 7" colour display with touch screen functionality. This puts the following at your command: Satellite Navigation with 3D mapping and SUNA GPS Traffic Updates™*, **Bluetooth® handsfree phone system** (with compatible phone models), iPod connectivity via USB, reversing camera, Bluetooth® audio connectivity, DVD player, single CD player with MP3 compatibility and AM/FM radio. No matter which model you choose, you'll find the interior of your Patrol is a lot more hospitable than our rugged country.

*SUNA GPS Traffic Updates™ is available when navigating roads in most metropolitan cities.

DX Diesel in Desert Gold.

DX

- 3.0 litre intercooled common-rail turbo diesel engine.
- 5-speed manual transmission or 4-speed automatic transmission
- Single CD player with AM/FM radio
- Bluetooth® handsfree phone system
- Cruise control
- Front air-conditioning
- Limited Slip Differential
- Dual front impact SRS airbags
- Cloth interior trim
- Central locking
- Engine immobiliser
- Chrome power mirrors
- Manual free wheeling hubs
- Main and sub fuel tank
- 5 seat capacity

ST

All the features of the DX model plus/or:

- Choice of 4.8 litre petrol engine or 3.0 litre intercooled common-rail turbo diesel engine.
- 5-speed manual transmission or 4-speed automatic transmission (3.0 litre model only)
- 5-speed automatic transmission with M-Mode (4.8 litre model only)
- 7 seat versatility
- Moquette interior trim
- 6 stack CD player with AM/FM radio
- Bluetooth® handsfree phone system
- Limited Slip Differential
- Front and rear air-conditioning
- 17" alloy wheels
- Auto locking free wheeling hubs
- Anti-lock Braking System (ABS) with gravel sensor
- Remote central locking
- Chrome power mirrors
- Driver's seat height and lumbar adjustment
- Split-folding middle row bench seat
- Side-folding third row bench seats
- Side steps

Ti

All the features of the ST plus/or:

- Driver and front passenger side impact SRS airbags
- Automatic climate control
- Leather seat trim
- Satellite Navigation with 3D mapping and 7" integrated colour display with touch screen and SUNA GPS Traffic Updates™
- Woodgrain finish
- Power operated front seats
- Single CD player with AM/FM radio and 6 speakers
- Electric glass tilt and slide sunroof
- Rear view reversing camera
- Outside temperature gauge/compass (Petrol model only)
