PATROL

For over half a century, the Nissan Patrol has proved it has the power, ruggedness and 4x4 ability to cope with some of the most inhospitable parts of the planet. In fact, in 1962 the Patrol created history as the first vehicle to successfully cross the gruelling Simpson Desert. Today, the Patrol maintains the 4x4 legend and offers a level of comfort and features to tackle any journey. The Nissan Patrol will shift your expectations. It will shift your possibilities. It will **shift the way you move.**

ST in Platinum.

ENGINE

Every Nissan Patrol is powered by a 3.0 litre common rail intercooled turbo-diesel engine. This gutsy 118kW powerplant delivers a high level of torque that is accessible across the rev range.

TOWING CAPACITY

Manual models deliver a very impressive 3,200kg braked towing capacity, so you can take just about anything on your adventures.

4WD ABILITY

Turn off the beaten track and you can shift directly from 2WD to 4WD on the move. The locking front hubs on the ST and Ti models engage automatically.

DUAL-RANGE TRANSFER GEARBOX

You can easily choose either high or low range ratios. The low ratio is designed to cope with more demanding terrain and keep you in control.

REAR DIFFERENTIAL LOCK

An inside cabin switch allows you to easily engage the rear differential lock when facing different wheel traction in 4WD situations. By locking the rear differential it forces both wheels to turn in unison, providing a significant traction advantage to keep you moving.

HANDLING

Front and rear telescopic shock absorbers along with a stabiliser bar ensure smooth cornering.

LADDER CHASSIS

The all steel body, built on a separate ladder chassis, helps keep occupants comfortable as well as safe.

ALL-TERRAIN SUSPENSION

The heavy-duty coil springs provide superior durability and ride comfort on any surface.

ST in Platinum. Hard wheel cover optional.

AIRBAGS

All variants have front driver and passenger SRS airbags, while the Ti model adds driver and front passenger side-impact SRS airbags.

SAFETY CONSTRUCTION

High strength reinforcement in the cabin structure is complemented by an energy absorbing side structure to provide protection in the event of a collision.

VEHICLE DYNAMIC CONTROL (VDC)

VDC, also known as Electronic Stability Control, is a safety system to help keep you on your intended path. If VDC senses that your vehicle is starting to oversteer or understeer, the engine power is reduced or braking power applied to specific wheels to help you maintain control.

ANTI-LOCK BRAKING SYSTEM (ABS)

In an emergency situation ABS moderates the brakes to prevent wheel lock up and help the driver maintain stability and steering control. The system comes with a gravel sensor that actually detects the type of surface the vehicle is travelling on and automatically adjusts itself to best handle the situation.

ACTIVE BRAKE LIMITED SLIP DIFFERENTIAL (ABLS)

Designed to help you in slippery conditions, ABLS applies individual braking force to the wheel losing traction to help slow it down. Power is then redirected to the wheels with greater traction.

BLUETOOTH® HANDSFREE PHONE SYSTEM

Link your compatible mobile phone to make and receive calls safely.

AUDIO SYSTEM

All models feature an AM/FM radio, CD player and iPod® connectivity through USB. The ST offers a 6 stack in-dash CD player, while the Ti includes an integrated colour display, MP3 compatibility and 6 speakers.

LEATHER TRIM

All models have a leather trimmed 4-spoke steering wheel, the ST and Ti add a leather trimmed shift lever while the Ti offers the luxury of leather trimmed seats.

ELECTRIC FRONT SEATS*

Achieve your perfect driving position at the touch of a button.

SATELLITE NAVIGATION*

Get where you're going quickly and easily. The HDD satellite navigation system with 3D mapping and SUNA GPS Traffic updates appears on the 7" integrated colour display with touch screen.

CLIMATE CONTROL*

No matter what it's like outside, the automatic climate control air-conditioning will keep everyone comfortable.

REAR-REVERSING CAMERA*

The rear camera makes parking easy by ensuring you avoid obstacles when reversing.

DVD PLAYER*

Even in the middle of nowhere, you can enjoy some entertainment on the front colour display.

7 SEATS

Both the ST and Ti Nissan models offer plenty of passenger and storage possibilities with 7 seats. The split-folding middle row seating and side-folding third row seating make it easy to fit in just about anything.

STORAGE OPTIONS

Plenty of clever storage compartments give you a place to put everything you'll need on your journey.

Opt Optional Not available Standard

Towball download	Vehicle Mass
200kgs	GVM (all models)
250kgs	Reduce loaded vehicle mass below GVM** by 150kgs
300kgs	Reduce loaded vehicle mass below GVM** by 220kgs
350kgs	Reduce loaded vehicle mass below GVM** by 290kgs

If the loaded vehicle mass is reduced as shown in the table, the towball download can be increased correspondingly. Accordingly, if the laden mass is 290kgs less than the GVM, a towball download of 350kgs is approved. Different trailer types and different trailer manufacturers have varying towball downloads. The customer will need to contact the trailer manufacturer for information as to the download. Nissan is not able to make any recommendation on the use or suitability of load-levelling or weight distribution devices to be fitted to the vehicle. Customers should contact the manufacturers of these devices for further information.

* Figures have been calculated in accordance with ADR81/02. Actual fuel consumption will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.

** GVM = Gross Vehicle Mass. GVM includes the driver, passengers, full fuel tank and luggage.

† Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non genuine Nissan towbar is fitted. The permitted download is directly related to the laden mass of vehicle. At the maximum laden mass of the vehicle (Gross Vehicle Mass - GVM**) the maximum towball download is 200kgs.

‡ Indicates a metallic paint, which is available at extra cost.
