

THE ALL NEW NISSAN PULSAR

AFTER 7 YEARS AWAY, IT'S CHANGED A LOT. The all-new Nissan Pulsar returns to Australia with an unprecedented combination of next-generation technology and bold, sophisticated style. From its cutting-edge responsiveness and standout fuel economy to its striking, modern exterior and internal spaciousness, the all-new Nissan Pulsar is uncompromised sophistication at an affordable price. In every way possible, it defies convention; offering technology, features and passenger comfort you'd expect from a larger, much more expensive vehicle.

PULSAR

A STANDOUT ON THE STREET

Sporting a striking new character line across its profile that highlights the vehicle's chrome window surrounds, door handles and side mirrors with razor indicator lights, the all-new Nissan Pulsar is the definition of bold, modern design. The ST and ST-L feature 16" alloy wheels, whilst the Ti is equipped with 17" alloys, rear privacy glass, distinctive LED-bordered Xenon headlights and a statement rear spoiler (also standard on ST-L model), the Nissan Pulsar's imposing exterior almost surpasses its powerful capabilities. However, all this style only serves to highlight the Nissan Pulsar's functionality, with the vehicle's sleek new contours dramatically reducing drag to ensure quiet and efficient running. Xenon Headlights automatically turn on for dusk/night time driving or while driving through tunnels (Ti model only).

GOOD LOOKING OUTSIDE, EXCELLENT VIEWING INSIDE Settle into the sumptuous, ergonomically designed driver's seat and take in the view. Driver visibility is expansive thanks to the large windows and the unique design of the all-new Nissan Pulsar. Now look a little closer to home, and you'll see everything you need is right at hand. Steering wheel audio controls, air conditioning, cruise control, speed sensing wipers, even cupholders and a sunglasses holder. Plus, if you'd like to let even more of the outside in, an

Ti interior shown.

optional sunroof (Ti only) is available.

A BOOT THAT'S READY FOR WHATEVER YOU THROW INTO IT

When it comes to boot space, no one ever complains about having too much. With 510 litres, the allnew Nissan Pulsar exceeds that of almost any competitor. Even those of much larger vehicles. A massive shopping trip, a sporting team's worth of equipment or a big family holiday; the Nissan Pulsar's boot will eat it up and be ready for more.

PULSAR

NEW TRANSMISSION, SMOOTH RIDE

In many ways, the all-new Nissan Pulsar offers the very latest in automotive technology. The New Xtronic Continuously Variable Transmission (CVT)* with Auxiliary gearbox is a prime example. Its compact and lightweight design with an expanded gear ratio range allows for powerful acceleration and effortless cruising with great fuel efficiency.

Forget five, six or seven gears, this unique stepless transmission delivers an almost infinite number of gear ratios. In doing so it eliminates the shift shock between gear changes traditionally associated with automatic transmissions. The result is extraordinarily smooth acceleration that has to be felt to be believed.

*CVI is standard for 1 models, optional for S1 and S1-L

PLENTY OF POWER, FEWER TRIPS TO THE BOWSER

For the first time, the all-new Nissan Pulsar introduces an impressive, new 1.8 litre 4-cylinder engine featuring Twin Continuously Variable Timing Control (C-VTC), beehive valve springs, powervalve and high tumble intake ports. This new engine is all about effectiveness and efficiency. Complementing the engine is Nissan's next-generation Xtronic Continuously produce seamless, responsive acceleration and standout fuel economy. A very impressive 6.7 litres per 100km, which could give you up to 770km on a single tank." The all-new Nissan Pulsar is the perfect balance between performance and efficiency.

*CVT ST model. Figures have been calculated in accordance with ADR81/02.

**Actual fuel consumption will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.

Ti interior shown.

WELCOME TO YOUR NEW WORLD

The all-new Nissan Pulsar's stylish instrument cluster and sophisticated Multi-Function Drive Computer places all key information comfortably at your fingertips. All it takes is one quick glance at the fine vision meter and you'll know your fuel consumption, driving range and outside temperature.

BLUETOOTH® HANDSFREE PHONE SYSTEM

Offering hands-free connectivity, the all-new Nissan Pulsar features a Bluetooth® system that enables you to link your compatible mobile phone to make and receive all calls safely.

INTELLIGENT KEY AND PUSH BUTTON START/STOP

In the Nissan Pulsar Ti, you no longer have to fish around in your bag or pocket for your keys. The Intelligent Key stays in your pocket or bag and automatically unlocks the vehicle with the push of a button on the door handle. Once inside, simply push the start/stop button on the dash to have the engine purring immediately.

INTEGRATED SATELLITE NAVIGATION

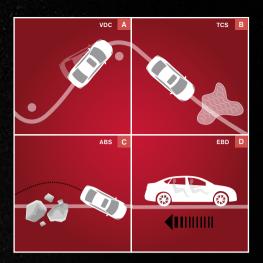

An integrated next generation satellite navigation system delivers 3D bird's-eye view graphics through a 5.8" colour touch screen and comes with an Eco Route function that identifies the most fuel-efficient route to your destination (Ti model only).

REAR-REVERSING CAMERA

You will be able to reverse more safely in your all-new Nissan Pulsar Ti thanks to a rear-reversing camera that features distance guidelines, providing an impressive 130 degree side-to-side view and 92 degree top-to-bottom view (Ti model only).

SAFETY X 2 PREVENTION AND PROTECTION

The all-new Nissan Pulsar's safety technologies are designed to assist in the prevention of collisions and to protect you and your passengers should an accident occur.

6 AIRBAGS

Dual front, dual side and dual curtain SRS airbags will protect the driver and passengers in the case of a front or side impact.

VEHICLE DYNAMIC CONTROL (VDC)

VDC compares the actions of the driver with the current vehicle behaviour and selectively brakes individual wheels, and controls engine power, to help keep the car on its intended path.

TRACTION CONTROL SYSTEM (TCS)

Sensing when a front wheel is spinning, TCS responds by reducing throttle or applying brake pressure to help improve traction.

ANTI-LOCK BRAKING SYSTEM (ABS)

In the event of an emergency situation, ABS modulates the brakes to help the driver maintain stability and steering control as well as preventing the brakes from locking.

BRAKE ASSIST & ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

Brake Assist senses emergency braking and automatically helps to apply maximum braking pressure if needed. Meanwhile, Electronic Brakeforce Distribution sends extra force to the rear brakes when it senses additional weight in the back.

my nissan

A complete ownership experience to help you get the most out of your Nissan. It includes the following:

3 YEAR /100,000KM WARRANTY.

Receive assurance with a 3 year/100,000km warranty with the option of extending it further for up to 6 years.

24-HOUR ROADSIDE ASSISTANCE FOR 3 YEARS.

No matter where you're planning to journey, you'll have the peace of mind of knowing that if you lock your keys in the car, have a flat tyre or battery, or run out of fuel, we'll help get you back on the road at no charge.

NISSAN GENUINE ACCESSORIES.

THE NEW PULSAR HATCH IS COMING FAST

Also soon to arrive in Australia is the sporty, all-new Nissan Pulsar hatch. Loaded with the same next-generation technology as the all-new Nissan Pulsar sedan, the hatch will seduce you with its fusion of athletic styling, high performance and fuel efficiency. Also available in a Direct Injection Gasoline (DIG) Turbo engine model, which will reintroduce the SSS model back into Australia, the Nissan Pulsar hatch will set the new benchmark for active, exciting and economic comfort.
