

PEUGEOT 4008

PEUGEOT

ESCAPE IN STYLE

With its elegant lines and strength of character, the 4008 makes a dynamic statement of intent in both town and country. Equally at home tackling challenging rural conditions and the demands of the inner city, this tough, sporty yet beautiful SUV blends agile performance with compact convenience.

The 4008 rewrites the rules of all-terrain driving. Prepare yourself for the adventure ahead.

AN ALL-TERRAIN VEHICLE WITH REAL FLAIR

In true Peugeot tradition, the new 4008 combines remarkable comfort with the ability to handle a variety of road surfaces with ease. Whether you choose the sure-footed 2WD or the versatile and rugged on-demand 4WD, you will enjoy a high degree of driving enjoyment in all conditions as well as a tangible sense of security and safety.

The 4WD version offers the choice of three different transmission modes. On normal sealed roads in dry conditions, the 2WD mode optimises the 4008's excellent fuel efficiency. Navigating dirt roads or driving in heavy rain? Switch to the automatic 4WD mode and the system will distribute torque between the front and rear axles to maximise traction. Driving in snow, heading off-road into sand dunes or muddy fields? Select the 4WD Lock mode and you'll be in permanent all-wheel drive with 50/50 front to rear torque distribution.

ADVENTURES IN STYLE

The 4008 exudes personality. Its true off-road character and energy are tempered by subtle expressions of fine design.

Features include a floating front grille, feline-inspired headlamps, three red claws which shape the rear lights, and an elegant line of LED daytime running lights. All of which are practical fittings, yet finished with head-turning style.

Uncompromising in its robustness, the 4008 also features generous ground clearance, a protective under body, muscular wheel arches and a sculpted bonnet.

BEAUTIFUL SURROUNDINGS

A luxurious interior complements the rugged good looks of the 4008. Chrome highlights contrast elegantly with piano black lacquer, setting off the high quality of both cabin fittings and seat fabrics.

A RICH EXPERIENCE

With the 4008, advanced entertainment and communication technology comes as standard to enrich your driving experience. Listen to radio, CD or MP3 and if you choose, audio streaming via the hands free Bluetooth connectivity. You can also connect

digital devices via the handy USB port beneath your armrest to enjoy both music and smartphone connection, controllable from the 4008's steering wheel and with station, track and call information displayed on-screen.

EASY NAVIGATION

Navigate around town and in the country with ease, with optional integrated GPS. The 4008 can be equipped with satellite navigation displaying crystal clear route graphics on its 7" colour screen.

Then to assist safe parking, the same screen displays the image from the 4008's rear view camera when reverse gear is selected.

A photograph taken from the driver's perspective inside a car at night. The dashboard and steering wheel are visible in the foreground. The car is parked or moving slowly, looking out at a city skyline with several brightly lit skyscrapers. The interior of the car is dark, with some ambient lighting from the dashboard and the city lights outside. The text 'COMFORT AT THE CORE' is overlaid on the right side of the image.

COMFORT AT THE CORE

Your passengers will love the generous leg room and spacious interior of the 4008. Exhibiting comfort and convenience more generally associated with a high specification sedan, this versatile SUV features multiple storage compartments, climate control air conditioning, a chilled glove box, two handy 12 volt sockets, adjustable seats and power windows front and back.

SPACE AND VERSATILITY

With complete flexibility, the 4008 adapts to every adventure.

The front seats are fully adjustable and the rear seats can be folded for maximum carrying capacity. A simple push is all it takes to 'split' the rear seats 60/40 or adjust them to accommodate specific needs.

Boot volume ranges from 384 litres* to a generous 1193 litres depending on seat configuration.

*In a seat-up configuration

ENGINE AND TRANSMISSIONS

Powered by a willing and efficient 2.0 litre engine, the 4008 tackles both the urban jungle and the great outdoors with equal agility.

Choose between a 5-speed manual and a continuously variable automatic transmission.

CONSUMPTION AND EMISSIONS

Petrol engine		Gearbox	City (l / 100km)	Highway (l / 100km)	Combined (l / 100km)	CO ₂ (g/km)
2.0 litre 110kW	2WD	5 speed manual	10.1	6.3	7.7	181
	4WD		10.3	6.5	7.9	186
	2WD	6 speed CVT auto	10.2	6.5	7.9	185
	4WD		10.5	6.8	8.1	192

DIMENSIONS

ENHANCED SAFETY

MULTIPLE AIRBAGS

In the event of a collision, seven airbags can deploy to protect the driver and passengers of the 4008.

- Two front driver and passenger airbags deploy according to the intensity of the collision
- One knee airbag helps protect the driver
- Two side airbags, positioned within the seats, are designed to protect the thorax, abdomen and waist of the front passenger and driver
- Two additional airbags are designed to protect the head and thorax of the driver, front passenger and side rear passengers.

ESP

As with all Peugeot passenger vehicles, the 4008 comes with Electronic Stability Program (ESP) as standard. ESP comprises:

- Anti-lock brakes (ABS) prevent braking wheels from locking up in an emergency stop, thereby enabling the driver to maintain steering control.
- Traction control (ASR) activates the braking and engine management system to prevent the driven wheels from spinning in slippery conditions.
- Dynamic Stability Control (DSC) continuously monitors and compares data from the steering wheel sensor and the yaw sensor to detect any under or oversteer, then uses the braking and engine management systems to keep you on course.

ASSISTED PARKING

Parking the 4008 is simple, assisted by both visual and audio devices.

A camera activates automatically when reverse gear is selected, and the view behind appears on the rear view mirror (or on the 7" dashboard display if the GPS option has been chosen).

Then at the same time, integrated rear sensors detect obstacles and alert the driver with an audible signal.

LIGHTING AND VISIBILITY

The 4008 is equipped with automatic lights that activate according to conditions, fog lights integrated into the front bumper, Xenon headlamps* with washers and automatic height adjustment that reduces glare for fellow drivers.

*Depending on the version.

PEUGEOT AND YOU

When it comes to peace-of-mind servicing for your new Peugeot there is no substitute for certainty. Therefore every new Peugeot comes with Assured Capped Price Servicing for 5 years or 75,000km (whichever comes first), which sets a maximum price for each of the first five scheduled service operations. Actual prices may vary from dealer to dealer, but you will not have to pay more than the applicable capped price. Ask your Peugeot Dealer for terms and conditions.

DRIVING DOWN THE COSTS OF SERVICING

Peugeot petrol and diesel engine cars need servicing every 15,000kms or every 12 months, whichever comes first. Technical improvements in Peugeot engine design and lubrication have been passed on, resulting in less time spent in the maintenance bay and fewer service visits. While Peugeot can predict the maintenance needs of engine and other major components, the wearing of certain components such as tyres and brake pads is less predictable and is affected by driving style and conditions. Terms and conditions apply.

3-YEAR /100,000 KM WARRANTY

Should any part of the vehicle require repair or replacement as a result of a manufacturing or material defect within the warranty period, the part will be repaired or replaced completely free of charge by your authorised Peugeot Dealer, regardless of any change of ownership during the period covered. The warranty does not cover items replaced during normal service and maintenance operations, which are subject to wear and tear. During the period you will also automatically receive Peugeot Assistance cover for complete peace-of-mind (subject to the conditions outlined in the Service and Information Booklet).

12-YEAR ANTI-CORROSION WARRANTY

Peugeot vehicles are renowned for their durability and longevity. This is due in part to the sophisticated measures taken during the production process to optimise long-term protection from the elements. Peugeot backs this advanced technology with a 12-year warranty against corrosion-perforation of your car's bodywork (subject to the conditions outlined in the Service and Information Booklet). This is one of the longest body warranties available in the world today.

PEUGEOT ASSISTANCE

Whatever it takes to get you going again, in the unlikely event of a breakdown or emergency, assistance is only a single free phone call away. Peugeot Assistance is free for Peugeot new car owners. The programme includes 24-hour roadside assistance, vehicle recovery, technical advice, message service, home assistance and accident or theft co-ordination. Your Peugeot Dealer has full details of all terms and conditions.

PEUGEOT GENUINE PARTS PROMISE

If your car is in for a service or repair, the parts required to keep your car on the road are Peugeot genuine parts. Using specifically

designed and manufactured parts ensures your Peugeot can operate at peak performance at all times.

IMPORTANT NOTICE

This is a manufacturer's advertisement. Peugeot Automobiles Australia offers this brochure as a general guide to product specifications. Photographs and illustrations in this brochure are for illustrative purposes only. The only difference between the models shown and the models available are that images shown are of left-hand drive vehicles.
