GTS

The car your mother always warned you about.

The Cayman GTS concept.

The unadulterated driving experience. The direct transition between road and driving pleasure. Sports car sensations that feel more puristic than ever. Do such things exist? They do now.

The Cayman concept. A sports car that seeks out the curve like no other and then takes full advantage. A concept so intimate with the road that it can hardly be improved. But it can be intensified thanks to three letters: GTS. Three letters that we adopted for the first time in 1963 with the 904 GTS, a sports car equipped with

a mid-mounted engine. Three letters that have since caused a stir among motor-sport enthusiasts both on and off the track.

Today, they stand for even greater power and an even sportier specification. Revisited and intensified, from the styling to the flat engine.

Purism without sacrifice: the new Cayman GTS.

Design

Greater sharpness. Greater precision. Pure inspiration. That, in essence, is what the new Cayman GTS is all about. And it displays these attributes in every twist and turn – without compromise.

GTS

**If shapes could speak,
there would be nothing left to say.**

Exterior.

The conviction to follow its own direction characterises the Cayman in every fibre of its being. So it's only logical that we should break new ground along the way.

The new Cayman GTS stands for pure sportiness. It all begins with the newly defined GTS front end with its enduring contouring and large-size air intakes. The effect is strengthened by the GTS specific smoked daytime running lights and position lights built on LED technology.

Bi-Xenon headlights including the Porsche Dynamic Light System (PDLS) are fitted as standard. The black inner trims lend further prominence to the vertical arrangement of the headlights. Another facet of its personality is the Carmine Red special colour. Now available for the Cayman GTS for the first time, it nicely accentuates the exterior parts finished in black.

Those who display so much character should never lose their grip. That's why the new Cayman GTS is equipped as standard with 20-inch Carrera S wheels with a dynamic 10-spoke design. A black painted finish is available on request. Another way to underline this car's steadfast resilience would be the optional 20-inch 911 Turbo wheels with rim well painted in titanium colour and centre spokes in polished aluminium.

Precise edges run backwards from the front wings along the roof all the way to the rear, passing the black (high-gloss) trim strips of the side windows on their

way. This is where the contrasts of the new Cayman GTS are continued. The LED taillights have smoked lens covers. The black 'Cayman GTS' logo emphasises what is by now utterly unmistakable: sharply refined sportiness.

The restyled rear apron lends the new Cayman GTS an even more imposing appearance and honed physique. From the black tailpipes of the sports exhaust system, integrated as standard, the unadulterated Porsche sound blasts out on a mission to pound the eardrums. Pure Porsche. Acoustic and visual.

¹⁾ Available from 06/2014 at the earliest.

20-inch Carrera S wheels painted in high-gloss black (partially)

20-inch Carrera S wheels painted in satin black (complete)¹⁾

20-inch 911 Turbo wheel

We don't always have to express our inner selves with poetry.

Interior.

The sharpened design of the new Cayman GTS is continued on the inside. Every fibre strives to reach one goal: the pure driving experience.

The 'Cayman GTS' logo on the door sill guards is just the beginning. The interior integrates the driver perfectly into the vehicle. The ascending centre console positions the gear lever/selector close to the SportDesign steering wheel, which is fitted as standard – the pure sports car. In conjunction with the standard black

leather interior, Alcantara lines the lower section of the dashboard, the doors, the lid of the centre console storage compartment, the steering wheel and the gear lever/selector. Alcantara can also be found on the seat centres of the Sports seats Plus. Fitted as standard, their prominent seat side bolsters and sporty firm padding provide even better lateral support. The headrests are embroidered with 'GTS' logos. Even the roof lining and A-pillars are lined with Alcantara.

GTS interior package.

Purism can be enhanced. So can that sports car feel. Even clearer, even more direct – with the optional GTS interior package.

The exterior theme of contrasts is continued in the interior. The standard black interior of the Cayman GTS is supplemented by sporty accents in Carmine Red or Rhodium Silver. The 'GTS' logos embroidered on the headrests in

the contrasting colour make a statement of their own. The contrasting colour is also picked out on the dial face of the rev counter, in selected decorative seams, the 'PORSCHE' logo on the floor mats and the edges of the seat belts. The sporty, progressive impression is purposefully reinforced by the material carbon, which is used for the decorative trims of the dashboard and doors as well as for the centre console, resulting in intensified sportiness for enhanced driving pleasure.

Performance

Performance is another area where we kept compressing and driving forth the GTS concept until it eventually ignited: purism as the sum of its parts, with one result – the pure driving experience.

GTS

**There's a storm brewing.
And you've got a blazing tailwind.**

Drive.

Engine.

The uprated 3.4-litre flat-six engine with direct fuel injection (DFI) and VarioCam Plus delivers 250 kW (340 hp). That's 11 kW (15 hp) more than that of the Cayman S. Purposeful lightweight construction has achieved a weight-to-power ratio of just 5.4 kg/kW (4.0 kg/hp). With the 6-speed manual gearbox and the Sport Chrono Package integrated as standard, the new Cayman GTS sprints from 0 to 100 km in only 4.9 seconds. It reaches a top speed of 285 km/h. This sporty performance is beaten only with the optional Porsche Doppelkupplung (PDK), which makes it possible to complete the 0 to 100 km/h sprint in just 4.6 seconds.

Sports exhaust system.

The sound of the new Cayman GTS is particularly resonant, thanks to the selectable sports exhaust system featuring a distinctive two-tract sports tailpipe in black. It produces an even more intense sports car sound at the push of a button. A chrome-plated sports tailpipe is available as an option.

6-speed manual gearbox.

Fitted as standard, the smooth and precise 6-speed manual gearbox is optimally adapted to the high power output of the engine. Shift throws are short and the gear lever is easy to

operate. The upshift indicator located in the central round instrument helps you to maximise fuel efficiency.

Porsche Doppelkupplung (PDK).

7-speed Porsche Doppelkupplung (PDK), which features a manual and an automatic mode, is available as an option. Gearshifts take place in milliseconds with no interruption in the flow of power. Not only does it help to deliver even faster acceleration than the manual gearbox, it improves comfort and even reduces fuel consumption.

For fuel consumption, CO₂ emissions and efficiency class, please refer to page 39.

More than a flirtation with the road – pure passion.

Chassis.

The lightweight adaptive chassis of the new Cayman GTS operates with precision to deliver impressive driving dynamics with practically zero pitch and roll. In short, it offers increased levels of comfort and safety.

Porsche Active Suspension Management (PASM).

PASM is an electronic damping control system and is fitted as standard. It regulates the damping force based on current road conditions and driving style.

Two modes are available: 'Normal', which is a blend of performance and comfort, and 'Sport', where the setup is much firmer. In addition, the body is 10 mm lower than that of the Cayman S.

Sport Chrono Package including dynamic gearbox mounts.

Integrated as standard, the Sport Chrono Package not only features a digital and an analogue stopwatch for recording lap times, it offers a firmer setup for the engine, chassis and gearbox. The SPORT

PLUS button gives the option of a harder damper setting and a more direct steering response. In short, it delivers a particularly pure driving feel.

The Sport Chrono Package also includes dynamic gearbox mounts. Selectable by the SPORT or SPORT PLUS button, they reduce the perceptible oscillations and vibrations of the drivetrain and the engine. The result is sporty performance in the corners – and even greater comfort.

Porsche Torque Vectoring (PTV).

Optional PTV with rear differential lock is designed to further improve the dynamic performance. To be more specific, when the car is driven assertively into a corner, moderate brake pressure is applied to the inside rear wheel. For further angular momentum in the steering action. Under acceleration out of the corner, the rear differential lock provides increased traction.

For fuel consumption, CO₂ emissions and efficiency class, please refer to page 39.

We've sharpened all its senses.

Safety.

Now you can submit yourself entirely to driving pleasure. Concentrated safety for concentrated power.

Occupant protection is provided by the bodywork design, which has been optimised for stiffness, and by dual roll-over protection, two full-size airbags fitted as standard and the Porsche Side Impact Protection System (POSIP) featuring two side airbags and steel side impact protection elements, respectively. To match the high engine power of the Cayman GTS, the front and rear axles are equipped with four-piston aluminium

monobloc fixed brake calipers. Other control systems, including Porsche Stability Management (PSM) and Porsche Active Suspension Management (PASM), offer additional reinforcement to the customary Porsche safety concept.

Bi-Xenon headlights including Porsche Dynamic Light System (PDLS).

Integrated as standard, PDLS comprises Bi-Xenon main headlights with halogen auxiliary main-beam headlights, headlight cleaning system and automatic dynamic range control. Dynamic cornering lights provide even better visibility.

Porsche Dynamic Light System Plus (PDLS+).

The optional Porsche Dynamic Light System Plus offers an additional function: the dynamic main-beam feature detects vehicles driving in front as well as oncoming traffic and adapts the range of the light cone automatically to the prevailing situation. This provides a stepless transition between dipped and main beam.

Speed limit display.

The optional speed limit display informs the driver about speed restrictions and

the start and end of no overtaking zones. The information is recorded by a camera near the rear-view mirror and is shown on the screen in the instrument cluster or on the screen of the optional Porsche Communication Management (PCM). If a traffic sign is missed – for example due to heavy rain or darkness – the speed limit stored in the navigation module is automatically displayed. The benefit of this function is that it allows you to concentrate fully on the road ahead.

Comfort

The goal is the pure sports car feel. On every straight, in every curve, in every moment. What does it require? A clear concept, and tone-setting technologies.

GTS

It knows what a good tune sounds like.

CDR audio system.

Fitted as standard, the CDR audio system with 7-inch touchscreen is intuitive to control. It features a CD radio with FM twin tuner with RDS, 30 memory presets, dynamic autostore and speed-sensitive volume control. The AUX interface in the glove compartment enables you to connect external sources such as a compatible MP3 player.

Porsche Communication Management (PCM).

Optional PCM is your control centre for audio, communication and navigation functions. Thanks to a high-resolution 7-inch touchscreen, it is intuitive to use and includes a navigation module with fast hard drive. The CD/DVD drive is

MP3-compatible. An AUX interface and a USB port for connecting suitable external devices are provided in the glove compartment.

Sound systems.

Available as an option, the BOSE® Surround Sound System produces an impressive listening experience. The only way you can make it even more intense is with the optional Burmester® High-End Surround Sound System.

Reversing camera.

Comfort, even in reverse. The image from the optional reversing camera is superimposed with dynamic guidelines to facilitate precise parking and manoeuvring.

Summary.

It may have extra horsepower and more features, but it's still closer to what really matters: unadulterated driving pleasure, the endorphin rush in every corner and revolutionary adrenaline levels.

So close to the origins of the sports car, with everything that it entails.

The new Cayman GTS. Purist.

Technical data.

	Cayman GTS
Engine	
Cylinders	6
Displacement	3,436 cm ³
Max. power (DIN) at rpm	250 kW (340 hp) 7,400

Standard tyres	Front: 235/35 ZR 20, Rear: 265/35 ZR 20

¹⁾ Sport Chrono Package with SPORT PLUS button selected.

²⁾ Weight is calculated in accordance with the relevant EC Directives and is valid for vehicles with standard specification only. Optional equipment increases this figure. The figure given includes 68 kg for the driver and 7 kg for luggage.

³⁾ Data determined in the NEDC (New European Driving Cycle) in accordance with the Euro 6 (715/2007/EC, 195/2013/EC and ECE-R 101.01) measurement method. The figures do not refer to an individual vehicle nor do they constitute part of the offer.

They are intended solely as a means of comparing different types of vehicle. Fuel consumption calculated for vehicles with standard specification only. Actual consumption and performance may vary with items of optional equipment. A vehicle's fuel consumption and CO₂ emissions depend not only on its efficient use of fuel but also on driving style and other non-technical factors. The latest Porsche models with petrol engine are designed to operate on fuels with an ethanol content of up to 10%.

You can obtain further information about individual vehicles from your Porsche Centre.
