DRIVE THE CHANGE

FORMULA ONE – A SCHOOL OF EXCELLENCE

Renault's history is steeped in competition. Ever since Louis Renault pitted his first automobile model against the world's best – and won – racing has always had a place in Renault's heart.

Today, the new Renault Sport Formula One division supplies engines to a quarter of the Formula One grid. And the attention to performance and safety that the winner's podium demands of us, we put into building every single Renault car. Exclusive to Australia, and limited to only 30 units, the new Clio R.S. 200 Australian Grand Prix Limited Edition is an engineering masterpiece. Its sporty credentials are visible both outside and inside the car through its unique two-tone design and F1-inspired front grill combined with race bred RECARO front seats and the R.S. Monitor display. Designed for the motorsport enthusiast, this technology takes its inspiration from the world of motor sport, with a central dashboard display that provides information about, among other things, real-time engine performance, gearchange warning, and 0-60 acceleration.
