

RENAULT MEGANE

DRIVE THE CHANGE

RENAULT MEGANE
ATTRACTIVE, SAFE
AND AFFORDABLE...
CULTIVATE YOUR STYLE.

Behind the wheel, pleasure is always in proportion to the feeling of control. With the New Mégane, a medley of emotions awaits. Sweep out of town with its accurate steering. Glide down the road as if you were redrawing it - its new chassis gives you control. The New Mégane's extraordinary road-holding releases your escapist desires. Efficient and economical, its low-consuming engines are also environmentally-friendly. Vitality tailored to your needs.

The New Mégane's lively design makes the car feel agile and responsive, exuding vitality, charm and sturdiness. Charismatic impressions borne of its sleek look, sharpened lines and harmonious proportions. For the great outdoors or city streets, cultivate your style. The New Mégane brings it to the fore.

QUALITY OF INTERIOR

DYNAMIQUE
Class and sportiness.

PRIVILEGE
Style and elegance.

TECHNOLOGY

1

1. HANDS-FREE RENAULT CARD

Just keep the card on you. The car unlocks and starts automatically, with no need to insert the hands-free card.

2. INTEGRATED SAT NAV*

Mégane offers an integrated satellite navigation system with calculation of the best route. All information is attractively displayed on the large colour screen. Its remote control provides intuitive, safe access to the various functions.

2

3

3. REAR PARKING SENSORS*

To facilitate parking manoeuvres, the parking assistance system alerts you to any obstacles behind the car with a series of increasingly rapid beeps.

4

4. PLUG & PLAY

Hook up your digital, personal music player using the USB and iPod® outlets and manage the system through steering wheel controls.

5

5. CRUISE CONTROL / SPEED LIMITER

The cruise control-speed limiter lets you set a cruising speed or a maximum speed. A steering wheel-mounted control allows you to adjust the speed.

SAFETY

1. FRONT ANTI-WHIPLASH HEADRESTS

These can be adjusted both in height and inclination to prevent risk of whiplash injury.

1

2. ABS ANTI-LOCK BRAKING SYSTEM

ABS combined with EBD and EBA help reduce stopping distances by automatically applying the car's full braking power in an emergency situation.

2

3. SEATBELTS

To reduce forces in the event of an impact and to ensure your body is held in the correct position, the system is fitted with a pretensioner in the front seats and a load limiter in the rear seats.

4. ELECTRONIC STABILITY PROGRAMME (ESP)

ESP along with ASR traction control and understeer control ensure the vehicle remains stable even in difficult road conditions.

3

4

5

5. BI-XENON HEADLIGHTS (OPTIONAL ON PRIVILEGE)

These provide strong, near-daylight lighting, thus maximising anticipation and control.

*Depending on version.

COMFORT

1. REGULATED DUAL-ZONE AIR-CONDITIONING*

Offers customised climate comfort to enable each front-seat passenger to choose the temperature they prefer. The 3 available modes (Soft - Auto - Fast) adapt to the needs of passengers. For maximum comfort and a temperature balanced between the front and rear of the vehicle, rear passengers also have an adjustable air vent.

2. REAR COMFORT

Rear seats can be folded 60:40 giving passengers greater choice on load capacity.

3. ELECTRIC GLASS SUNROOF*

The glass tilt and slide sunroof lets more light into the passenger compartment.

4. AUTO LIGHTS AND WIPERS

A light sensor turns the lights on automatically when night falls or when you enter a tunnel. The front windscreen wipers, with automatic intermittent function, start and adapt their speed according to the intensity of the rain.

STORAGE

1. BOOT

It has a maximum storage volume of 360dm³.

2. DOORS

(2 in the front and 2 in the rear) can hold things like CDs, maps, or even a bottle in the front.

3. SUNGLASSES CASE

4. MAP POCKETS

Placed behind the front seats, these can be used to store documents, books and magazines.

5. REAR CENTRAL ARMREST

Rear passengers have an armrest with cup holders.

6. CENTRE CONSOLE STORAGE AREA

Practical and easy to access for the front passengers.

*Depending on version.
