AUDIO CONNECTIVITY

There are multiple options for audio connectivity in the Renault Mégane Wagon. Bluetooth® hands-free with audio streaming can connect with your compatible smartphone and play your music wirelessly through the audio system. Other options include iPod® connectivity through the auxiliary jack or USB port, with audio controls on the steering wheel.

ALLOY WHEELS

They're the ultimate for sports-inspired style, which is why the Renault Mégane Wagon comes with alloy wheels standard across the range. The Dynamique variant features 16" Kaleido alloy wheels, the GT-Line sports sleek 17" Celsius alloys and the GT 220 ups the ante with stunning 18" Serdard gloss black alloy wheels.

ROOF RAILS

All Renault Mégane Wagon models come with roof rails built in. Extra optional accessories can be fitted allowing you to carry bikes, skis, storage pods and much more, freeing up valuable space inside the cabin.

INTEGRATED SATELLITE NAVIGATION

Find your way easily thanks to the integrated Satellite Navigation system, built-in to the Renault Mégane Wagon GT-Line, GT-Line Premium and GT 220 Premium models. Maps are available in 2D and 3D, displayed on the 7" colour screen with turn-by-turn guidance and easy SD updates.

Overseas model shown

ADJUSTABLE INTERIOR

The flat-folding split rear seats in the Mégane Wagon Dynamique enable an impressive 1600L of load space, allowing you to fit in anything from mountain bikes to muddy dogs. The front passenger seat can also be folded down for extra convenience when required.

RENAULT SMART KEY CARD

Enjoy the convenience of the Renault Smart Key Card. Simply carry the card on you and the car unlocks and the engine starts. The doors lock automatically as soon as you step away.

REVERSING CAMERA

The combination of reversing camera and parking sensors in the Renault Mégane Wagon GT-Line Premium and GT 220 Premium provides greater safety for all, both inside and outside your vehicle. The view behind your vehicle is displayed clearly on the 7" screen so you can reverse and park safely, knowing your path is clear of hazards.

DAYTIME RUNNING LIGHTS

Not only do they make an eye-catching statement, LED daytime running lights are a safety feature that helps protect you and your family by making your vehicle more visible to other road users at any time of the day. In fact, daytime running lights are now a legal requirement for all new passenger vehicles in Europe.

AUTOMATIC PARKING BRAKE WITH HILL START ASSIST

When stopped, the parking brake in the Renault Mégane Wagon engages automatically. On steep slopes, Hill Start Assist keeps the brakes on to prevent the vehicle from rolling back down the hill before acceleration kicks in.

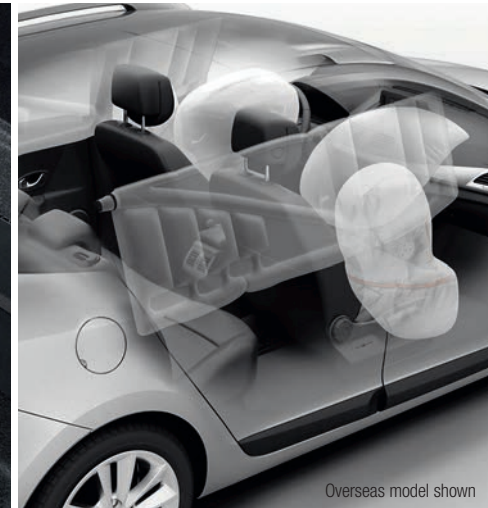

VISIO SYSTEM

The advanced safety system is available as part of the Premium variant on the GT-Line and GT 220 models. Lane Departure Warning senses when the vehicle drifts from its lane without indicating, alerting you to help prevent an accident. The vehicle also automatically switches between high and low beams when required.

BOOT COMPARTMENTS

The 524L boot lets you carry a lot, while helping you maintain order. The unique boot storage system lets you keep valuable objects hidden out of sight in the 33 litre storage compartment under the floor. Space dividers keep items separate and prevent them from shifting around on the move.
