

SIMPLY CLEVER

ŠKODA

# The New ŠKODA Octavia

## European Value without the European Price Tag

The **new ŠKODA Octavia** is more spacious and luxurious than ever. Sharing the very latest in Volkswagen Group's technological advancements and ingenuity, the new Octavia assures quality, reliability and value.

The new design is both elegant and modern, showcasing ŠKODA's new innovative design language. And, from an environmental point of view, it has less impact than ever, being lighter than its predecessor.

With a whole new range of Driver Assist Technologies, the new Octavia makes driving more comfortable, enjoyable and, most importantly, safer.

## INTERIOR

- High Quality Premium Seats
- Innovative Storage
- Multifunctional Steering Wheel

Octavia's **high quality interior** and ergonomic design will let you focus on the drive and enjoy the journey.

Depending on trim, your Octavia will either be equipped with air-conditioning or dual-zone air conditioning with humidity control. Dual-zone allows the driver and front seat passenger to set different temperatures for optimal comfort while the humidity sensor directs air flow as required, to keep the windscreen fog free.

The car stereo, **Columbus Navigation System** and trip computer are housed in one system that gives the driver access to the vehicle setup, Driver Assist Systems and comfort functions through a single device. The proximity sensor recognises when a hand is moving towards the touchscreen and brings up the function buttons ready to be used, while intuitive swiping and pinching movements allow the user to scroll menus and zoom into maps easily.

Elegance Trim Shown

## SPACE

- More Leg Room
- Exceptional Luggage Space
- Clever Storage Solutions
- Longer Wheelbase

As ŠKODA drivers have come to expect, Octavia is full of **"Simply Clever"** storage areas and designs to offer solutions that fit your lifestyle.

With a longer wheelbase than the previous generation, rear passenger space has been further maximised, ensuring three adults can sit comfortably in the rear - a perfect environment for growing families. All rear passenger seats are fitted with ISOFIX fixtures as standard on all models.

A 1.5L bottle holder and a removable rubbish bin are "Simply Clever" features located on the door panel.

The tinted **Panoramic Sunroof\*** allows for greater freedom and space.

\*Optional on all models

The **multimedia holder** located in the centre console is not only a practical accessory but also a safe place for storing your iPod and mobile phone.

International model shown; Elegance Wagon

Hidden within Octavia's sleek design is exceptional **luggage space**. The sedan boasts **568 litres** of space, all easily accessible through the large sedan boot opening. This phenomenal space becomes cavernous with the rear seats folded down, expanding to **1558 litres**. The wagon offers **588 litres** of space with seats up and **1718 litres** with seats down.

Further Simply Clever features on the wagon version include the automatic boot\*. For convenience, the boot can be controlled from four separate locations:

- via remote control
- from the centre console
- with an internal button on the boot
- and via an external soft-touch boot button.

\*Optional Extra on wagon.

## EXTERIOR

- Bi-Xenon Headlights
- Adaptive Front Light System
- Cornering Fog Lights
- Precise And Elegant

Elegance model with optional Tech Pack shown

With strong lines and sharp angles, the new Octavia's design promises to remain timeless and elegant in years to come. Whilst the broad fascia brings a strong road presence, the streamlined side profile hides the cavernous space within.

Proudly wearing ŠKODA's new black and chrome logo, the interplay of light and darkness continues throughout the exterior of the car. The strong, dynamic shoulder line is complimented by the unique flourish at the base of the window line; creating the shape of an aeroplane tail fin on the sedan hinting towards the advanced technology found inside.

The new Octavia utilises the very latest in Volkswagen Group shared technology - the Modular Transverse Matrix (MQB). This initiative allows cars to be designed with a high degree of freedom, by using various structural modules not limited by class or body type.

The **Integrated headlight washers\*** ensure headlights are clean so visibility is maximised.

\*Available in the Tech Pack for Ambition Plus and Elegance

Activated upon unlocking and opening the door, the **Environment lights\*** illuminate to help you see surroundings more clearly such as puddles.

Clear halogen Lights and broad fog lights can be upgraded to **Bi-Xenon Lights** with **AFS\* (Adaptive Front Light System and Cornering Fog Lights)**.

\*Available in the Tech Pack for Ambition Plus and Elegance

# ENGINES

- 103TSI Petrol Engine
- 110TDI Diesel Engine
- 132TSI Petrol Engine

The new Octavia presents a variety of new engine platforms that are lighter, cleaner and more fuel-efficient than previous models. The Ambition, Ambition Plus and Elegance are all available with Volkswagen Group's new turbocharged **1.4 litre 103TSI engine**; delivering an impressive 250Nm of torque and a combined fuel economy of **5.2L/100km\***. (7Sp DSG Sedan)

Along with the 103TSI, an additional petrol option and a new diesel platform are on offer for the Elegance trim - the 132TSI and 110TDI. **The turbo-diesel 110TDI** offers a strong 320Nm from a 2.0 litre engine, while remaining fuel efficient at a combined **4.9L/100km\***. (6Sp DSG Sedan).

A new standard feature under the diesel platform is **Green Tech** - an initiative allowing for further improvement in fuel economy and reduction of CO2 emissions through the "Start Stop" and Brake Energy Recuperation features. "Start Stop" allows the engine to automatically switch off when idle and immediately switch back on as soon as the accelerator is pressed. "Stop Start" can be deactivated when required. In addition, Brake Energy Recuperation enables the use of kinetic energy to charge the car battery when the brakes are applied.

\*Figures according to the ADR 81/02 (l/100km).

# INFOTAINMENT

- Bluetooth® With Voice Recognition
- Sound Systems
- Columbus Navigation System
- USB Connection
- Proximity Sensor
- Trip Computers

The all-new infotainment systems on the Octavia are a significant step forward in the field of multimedia systems. All Octavias come with a USB, SD card and aux-in socket as standard so you can play music from your mp3 player through the car's speakers. The USB will allow you to control the device through the car's touchscreen system, as well as, charge your device simultaneously.

Swing Radio

Touch screen 5.8" Bolero Radio

Touch screen 8" Columbus Satellite Navigation

For those who love their music, the 8-speaker sound system on the Ambition Plus and Elegance can be upgraded to a premium, German **10-speaker Canton Sound System\***. Canton also adds a digital equaliser; sound level controls allowing optimisation for all or individual occupants; vehicle noise cancellation and, when added in combination with a Columbus satellite navigation, the ability to play Dolby 5.1 surround sound.

\*Available in Tech Pack for Elegance and Ambition Plus.

# DRIVER ASSIST SYSTEMS

• Driving Mode Selection

• Advanced Keyless Entry Including Smart Start (KESSY)

• Automatic Parking Assist

**Driving Mode Selection**<sup>^</sup> allows the driver to adapt the car's behaviour to their preference or needs. Four driving modes are available: Normal, Sport, Eco and Individual (Individual allowing the driver to configure their own settings). The car will then adapt the engine torque, accelerator sensitivity, power steering, headlight control (where AFS is fitted), DSG transmission, and air conditioning to suit the profile selected.

**Advanced Keyless Entry Including Smart Start**<sup>^</sup> can be added to allow the driver to lock and unlock the car and start and stop the engine without having to insert or even handle the key. As long as the key is within 1.5m of the sensor, the system will work, and a number of simply clever features ensure you can check the lock, preventing you from locking the key inside and preventing unwanted access.

For those wishing to make both parallel parking and bay parking easier than ever, an **Automatic Parking Assist**<sup>^</sup> can be added. With a press of a button, the system will begin searching for a parking space in a line of cars or other obstacles. When a suitable space is found (the car's length + 60cm is all the space needed), the car will steer itself into the space whilst the driver controls the pedals. This system will now also steer the car out of a line of cars from its parking space and with two presses of the same button, the car will search for and manoeuvre into a bay parking space.

<sup>^</sup> Available in Tech Pack for Ambition Plus and Elegance.

## SAFETY

- Passenger Protect Assist
- ESC
- Prefilled Braking System
- Up to Nine Airbags
- Driver Alert System
- Front Assist

The Ambition Octavia features **seven airbags** as standard, located at the front, front side, curtain and driver's knee area. With the inclusion of rear side airbags, the Ambition Plus and Elegance models boast nine airbags as standard.

**ESC (Electronic Stability Control) with Multi-Collision Braking** is standard on all models and delivers a number of systems to help maintain the car's stability in braking and emergency situations.

Another simply clever element of the ESC system is **Prefill**. Your Octavia will recognise when your foot has been abruptly lifted off the accelerator and anticipates that this may be followed by a sharp depression of the brake pedal. To prepare for this braking, the car automatically increases pressure in the brake system by "prefilling" the brake hydraulics with fluid. It also brings the brake pads closer to the discs. This speeds up the braking effect for optimal stopping.

**Driver Alert System (Fatigue Detection)**<sup>^</sup> monitors the movement of the driver through the steering wheel and if the driver begins to display signs of fatigue, the car will audibly alert the driver with a tone and show a break recommendation alert on the Maxi DOT.

**The Front Assist (Adaptive Cruise Control)**<sup>\*</sup> safety system works using a radar sensor located in the lower front grille. It monitors the area in front of car and evaluates the distance, direction and speed of all nearby objects. Using predefined algorithms, it decides whether these objects pose a potential risk of collision and alerts the driver if the distance to object is insufficient - initially with a tone and an alert on the Maxi DOT display; followed by a warning jolt of the brakes. If the driver doesn't respond, the car will brake itself - all the way to a standstill if needed, helping to avoid a collision or reduce the severity of the accident. It can be turned off by the driver via the touchscreen.

**Passenger Protect Assist**<sup>^</sup> uses information from the car's braking and electronic systems to recognise when there is a high chance of collision. If this is detected, the front seat belts will tighten and the sunroof (if equipped) and windows will close to help keep the car's occupants in the optimum position for airbag deployment and reduce items flying into the car. Drivers who prefer to desensitise the Passenger Protect Assist can change these settings on their touchscreen display.

## ŠKODA Octavia Elegance

The **Elegance** version is offered with black/black leather appointed seat upholstery. Columbus Satellite Navigation and Dual-zone Climatronic Air-conditioning are standard features on the Elegance.

## ŠKODA Octavia Ambition Plus

The **Ambition Plus** version is offered with black/black fabric seat upholstery with matching coloured door panelling and dashboard. The interior is fitted with streamline grey finishes. The Bolero infotainment system is a standard feature on the Ambition Plus.

## ŠKODA Octavia Ambition

The **Ambition** version is offered with black/black fabric seat upholstery with matching coloured door panelling and dashboard. The interior is fitted with streamline grey finishes. The Swing infotainment system is a standard feature on the Ambition.

**ŠKODA Genuine Accessories** add style to your car while enhancing its utility. To get a full overview of our range of products, ask any authorised ŠKODA dealer for an accessories catalogue.

**Plastic boot dish**  
for Octavia and  
Octavia Wagon.

Alloy wheel 7.5J x 18"  
**Turini** for tyre 225/40 R18  
in matt black design

**Transverse roof racks** for  
Octavia Wagon

**Front and rear mud flaps** protect the car  
body against mud  
and debris.

# General information

## OWNING A ŠKODA

### ŠKODA New Vehicle Warranty

Every new ŠKODA passenger vehicle is covered by a three-year unlimited kilometre manufacturer's warranty, which includes ŠKODA Assist (24-hour roadside assistance). Every new ŠKODA vehicle is also covered by a three-year paintwork and 12-year anti-corrosion perforation warranty.

### ŠKODA Extended Warranty

To give you added peace of mind, you can now purchase an Extended Factory Warranty with your new Octavia. This warranty gives you an additional two years/unlimited kilometres of coverage, including roadside assistance. For further information regarding this Extended Warranty, including pricing and terms and conditions, please consult your local ŠKODA dealer or visit [www.skoda.com.au](http://www.skoda.com.au)

### ŠKODA Assist - 24-Hour Roadside Assistance

As a valued customer, you can be assured that wherever you travel within Australia, you will have access to roadside assistance, 24 hours a day, 365 days a year. This is complimentary for the duration of the vehicle's original ŠKODA warranty period. You will receive help in the event of a breakdown or accident and, if required, your vehicle will be mobilised or transported to an Authorised ŠKODA Workshop. As a ŠKODA owner you will also have access to the additional benefits of accommodation and car rental if your vehicle cannot be mobilised within 24 hours, when you are over 100km away from home.

### ŠKODA Genuine Parts®

ŠKODA Genuine Parts® are designed for your vehicle and approved by ŠKODA, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, ŠKODA recommends the use of ŠKODA Genuine Parts®. ŠKODA Authorised Dealers offer a two-year unlimited kilometre warranty on Genuine Parts from the date of purchase.

### ŠKODA Finance\*

Buying, borrowing or leasing, ŠKODA Finance will certainly make you think differently about financing and insuring your new ŠKODA. Committed to meeting the needs of ŠKODA drivers across Australia, we offer a range of leasing, financing and insurance products, each with distinct advantages depending on your specific circumstances. Our packages are personalised to suit your individual requirements. You design your plan so that it meets your budgeting needs and rest assured that there will be no surprises along the way. Speak to your local participating Authorised ŠKODA Dealer today to put together a financial solution that best suits your lifestyle.

### Capped Price Servicing

The Octavia comes with peace of mind included, with Capped Price Servicing# now available at participating ŠKODA dealers. Authorised ŠKODA Service Centres have factory trained technicians equipped with the very latest diagnostic equipment, specialist tooling and ŠKODA Genuine Parts. They also undertake work in accordance to factory specified guidelines and maintenance schedules, so you can be confident that your Octavia will be well taken care of.

# Capped price servicing is available at participating ŠKODA dealers on New Octavia MY14 manual and DSG models first sold by an authorised ŠKODA dealer on or after 1st November 2013. Capped price servicing applies to the first 6 standard scheduled services of your vehicle which are scheduled to occur at every 15,00km/12 month interval (whichever occurs first). Exclusions and conditions apply. For details on pricing, items not included in the capped price and for full terms and conditions please see [skoda.com.au](http://skoda.com.au). ŠKODA Australia reserves the right to at any time modify or discontinue the Capped Price Servicing program.

# Glossary

## **Anti-lock Braking System (ABS)**

When braking, sensors in each wheel measure the road speed. If one or more wheels start to lock, the ABS reduces brake pressure to those wheels. This prevents the wheels from locking during heavy or emergency braking and allows you to continue to steer the vehicle.

## **Anti-Slip Regulation (ASR)**

ASR is a switchable traction control system that prevents the front wheels from spinning under acceleration. When a difference in driving wheel speed is detected (e.g. due to differences in road surfaces), the system automatically reduces engine torque accordingly.

## **Electronic Brake-pressure Distribution (EBD)**

This sophisticated system provides an electronic means of regulating the ratio of front to rear brake pressure. The system automatically varies the settings according to driving and load conditions to ensure each wheel is braked to the optimum extent.

## **Electronic Stability Control (ESC)**

The ESC is made up of the ABS and ASR traction control systems. Simply put, it helps ensure that the vehicle goes where you steer it – even in extreme driving conditions. By constantly comparing the actual movement of the vehicle with pre-determined values, ESC will apply the brakes to individual wheels and automatically adjust the engine's power output to correct a problem the very moment it arises.

## **Brake Assist**

Brake Assist aids the driver during emergency braking by automatically increasing the brake pressure to a level exceeding the locking limit. Then, the ABS is quickly brought into the operating range, thereby enabling maximum vehicle deceleration.

## **Multi-collision Brake**

The multi-collision brake has been designed to provide effective assistance for the driver in the moments after an accident. Multi-collision brake triggers automatic controlled braking once an initial collision has been detected so as to reduce the intensity of further accidents after a collision and can help prevent follow-on collisions with oncoming traffic.

The triggering of the multi-collision brake is based on a collision being detected by the airbag sensors. The ESP control unit limits the deceleration of the vehicle by the multi-collision brake to a defined value and vehicle speed. The vehicle can still be controlled by the driver, even when automatic braking is taking place. The driver can interrupt the multi-collision braking at any time by accelerating or braking even more strongly.

## **Electronic Differential Lock (EDL)**

EDL improves driving and steering characteristics when accelerating on road surfaces where each wheel has a different degree of traction. The system operates automatically and is combined with the ABS system. Using the ABS wheel sensors, EDL monitors the speed of the individual driving wheels. When a difference in driving wheel speed is detected (i.e. when one wheel starts to spin due to differences in road surfaces, e.g. due to water or dirt) the system brakes the spinning wheel, transferring engine power to the wheel with the best traction.

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature. 

ŠKODA is distributed by Volkswagen Group Australia Pty Limited trading as ŠKODA Australia, 24 Muir Road, Chullora NSW 2190. ABN 14 093 117 876. Specifications are as planned at November 2013, for Model Year 2014 and are subject to change without notice or obligation. Cars and accessories shown may not depict Australian specifications. Fuel consumption figures according to Australian Design Rules (ADR) 81/02. All ŠKODA approved parts and accessories are warranted for 2 years/unlimited kilometres. All information in this brochure is correct at the time of publication, however variations may occur from time to time and ŠKODA, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this brochure. The colours shown in this brochure are indicative only and may vary from actual items owing to the printing process. Authorised ŠKODA Dealers will provide up-to-date information on model application, design feature, prices and availability on request.

Insurance products are provided by Allianz Australia Insurance Limited (Allianz), AFS Licence No. 234708, ABN 15 000 122 580. In arranging this insurance Volkswagen Financial Services Australia Limited, ABN 20 097 071 460 and the authorised dealers act as agents of Allianz and not as your agent. ŠKODA Finance is a trading name of ŠKODA Financial Services Australia Limited. Locked Bag 6252, Regents Park NSW 2143. Tel: 02 9695 6311.
