Design

ŠKODA's design philosophy is to balance form with function, creating elegant vehicles that are resolutely European. The unique character of the Rapid Spaceback is underpinned by its both distinctive and highly functional design.

The panoramic glass roof, made entirely of tinted glass, will give all passengers a feeling of space, as well as a great view of the sky.

The Style Pack includes the panoramic glass roof, extended tailgate glass, black side mirrors, darkened tail lights, black-frosted front fog lights with cornering function, black rear spoiler and 17" black alloy wheels as standard.

The design outside turns heads. The panoramic glass roof inside lifts them.

EXTERIOR

> Extended Tailgate Glass

> Panoramic Glass Roof

> Front Fog Lights

The **front design** of the Rapid Spaceback introduces a new design language of the ŠKODA brand, defining the shape and composition of the individual exterior elements. The headlights smoothly flow from the distinctive **front grille**. The **ŠKODA logo** stands out perfectly against the rounded edge of the bonnet above the chrome frame of the grille.

The sharp edges of the **headlights and fog lights** are a unique feature synonymous to the ŠKODA design language. In regards to functionality, the **xenon headlights and fog lights with cornering function** increase visibility at low speeds by illuminating the area the car is about to turn into.

The **rear lights** wrap around to the sides and are shaped in the distinct SKODA "C" shape design. As part of the style pack, the rear lights have a darkened black finish.

While the clean, sharp side lines suggest dynamism and spaciousness, the rear displays balanced proportions and functional details such as the **roof spoiler** to ensure the car is still sleek and compact. **Privacy glass** is also standard on Elegance and in the Style Pack.
