SUBARU DNA™

THE BEST AND NOTHING LESS IS WHAT YOU'VE COME TO EXPECT FROM SUBARU.

SYMMETRICAL ALL-WHEEL DRIVE

Subaru's renowned Symmetrical All-Wheel Drive (SAWD) and symmetrical drivetrain underpins the vehicle's superb balance and handling. By driving power simultaneously to all four wheels all of the time, SAWD delivers optimum grip, greater control and superior driving confidence.

BOXER ENGINE

At the heart of every Subaru lies the finely-tuned, high performance and legendary Boxer engine. The configuration and positioning of the horizontally-opposed Boxer engine results in a lower centre of gravity which delivers improved stability, cornering and traction with the road. This unique combination also creates a smoother power delivery, with less noise and vibration to the cabin and superior safety performance.

OWNER'S PROGRAM

It's reassuring to know that every Symmetrical All-Wheel Drive Subaru is backed by a 3 Year/Unlimited Kilometre Warranty, plus our 3 Year/75,000 Kilometre Capped Price Servicing Program¹, guaranteeing quality and affordable on-going maintenance. However, should anything go amiss, you can relax with 12 months of complimentary Subaru Roadside Assistance².

Your Subaru ownership experience is protected even further by the advanced DataDot Theft Deterrent System – DATADOT™.

ANCAP
Safety ★★★★★

SAFETY

Subaru's advanced safety technologies are built around three pillars, protective, preventative and predictive safety. Starting with a chassis and body frame reinforced to increase frontal, side and rear crash safety, Subaru's maximum five-star ANCAP crashworthiness rating is achieved through the inclusion of seven airbags, a reinforced passenger safety cell, energy absorbing crumple zones and pre-tensioner front seat belts. Subaru's SAWD coupled with Vehicle Dynamics Control incorporating advanced driving technologies such as Electronic Stability Control, Anti-lock Braking System and Brake Assist help prevent loss of control.

1. Available at participating Subaru Retailers only and does not apply to rental and some other classes of vehicle. For full Capped Price Servicing Program Terms and Conditions visit www.subaru.com.au/service/capped-price-servicing. To receive this benefit the customer must opt into the 12 Month Roadside Assistance Program at time of vehicle delivery. OPTIMISED

PERFORMANCE

THE SUBARU XV BOASTS THE TYPE OF PRECISION PERFORMANCE THAT HAS BEEN OVER 50 YEARS IN THE MAKING. IT IS THE CULMINATION OF EVERYTHING THAT SUBARU HAS LEARNT SINCE BUILDING ITS VERY FIRST VEHICLE. THE SUBARU XV COMBINES ALL THE BEST OF SUBARU'S LEGENDARY TECHNOLOGIES WITH AN IMPRESSIVE 220MM GROUND CLEARANCE TO CREATE A VEHICLE WITH SERIOUS SUV ABILITY.

Subaru XV's impressive and lively acceleration is delivered from a combination of Subaru's third generation Boxer engine and the compact and light weight Lineartronic™ CVT (Continuously Variable Transmission). This CVT has been optimised to couple with the Boxer engine and chassis to deliver highly responsive acceleration, improved drivability and higher fuel efficiency. The 6-speed manual Subaru XV transmission also delivers excellent fuel efficiency and smooth shift quality.

The Electronic Throttle Control (ETC) seamlessly translates commands from the driver's right foot to automatically select the optimum throttle position for an effortless performance. The ETC system also considers the environment, optimising exhaust gas emissions and fuel economy.

Subaru's fuel saving Auto Stop Start technology also contributes to efficiency by saving fuel normally consumed while the engine is idling, while stopped in heavy traffic or at traffic lights. The system works by automatically stopping the engine and then restarting it in a fraction of a second – with no driver intervention needed. The actual fuel savings delivered by this system is also monitored, with cumulative travel time and engine stop time also displayed.

THINK OUTSIDE

THE BOXER

LEGENDARY BOXER ENGINE

Subaru's unsurpassed horizontally-opposed Boxer engine is designed to sit lower and flatter in the engine bay than traditional engines. Due to this unique configuration the engine delivers less noise and vibration to the cabin, while the lowered centre of gravity improves stability, cornering and traction with the road. Coupled with the Boxer engine is Subaru's iconic Symmetrical All-Wheel Drive which simultaneously drives power to all four wheels for superior grip and traction. Also, due to its low height, the engine is driven downwards and under the floor of the cabin in the event of a severe frontal collision to help reduce the risk of injury to occupants.

PETROL ENGINE

The Subaru XV range utilises a 2.0-litre four cylinder petrol engine with a choice of either 6-speed manual transmission or Lineartronic™ Continuously Variable Transmission (CVT). Power is 110kW at 6200rpm whilst maintaining impressive fuel efficiency at 7.1-litre/100km¹ (manual transmission) and 6.8-litre/100km¹ (CVT).

THE DYNAMIC FULLY INDEPENDENT DOUBLE WISHBONE REAR SUSPENSION LETS YOU ENJOY SHARPER HANDLING, INSTINCTIVE RESPONSIVENESS, BETTER BALANCE AND A BETTER FEEL ON THE ROAD.

ALL WHEELS, ALL OF THE TIME

SUPERIOR VEHICLE CONTROL FROM THE GROUND UP.

The sign of a true performer is good balance. And when it comes to driving a Subaru, superior balance equals superior vehicle control. That's why Subaru has built its reputation on its Symmetrical All-Wheel Drive (SAWD) system and a symmetrical drivetrain that delivers an innate sense of balance from the ground up.

SAWD delivers engine power to all four wheels simultaneously. Having power distributed across all four wheels, rather than two on conventional vehicles, gives you twice the grip capacity. So under acceleration there's more grip for cornering and more capacity to keep on track through the corners. Ultimately, having the driving force spread across all four wheels means greater control and confidence.

For you, the driver, it all adds up to an agile and responsive vehicle with optimum balance, control and confidence in a variety of driving conditions.

SAFETY AS

ACTIVE AS YOU

THE 2015 SUBARU XV INCORPORATES
ADVANCED SAFETY TECHNOLOGIES.

Safety starts with a reinforced body frame to increase frontal, side and rear crash safety. Designated crumple zones direct impact energy away from the reinforced passenger safety cell, while seven airbags - including dual front, side, curtain and driver's knee airbags help protect occupants. Front seats have Emergency Locking Retractors (ELR) and pre-tensioners, and rear seats have Automatic Emergency Locking Retractors (A/ELR). The result is a maximum five-star ANCAP¹ crashworthiness rating.

Safety designed to help prevent loss of control is delivered via Vehicle Dynamics Control (VDC) which constantly monitors vehicle movement, engaging a range of technologies when required. With precision timing the VDC controls the Antilock Braking System (ABS), Traction Control System (TCS), Electronic Stability Control (ESC), TCS Limited Slip Device, Brake Override System (BOS), Electronic Brakeforce Distribution (EBD) and Hydraulic Brake Assist (HBA).

Active safety features on the Subaru XV are complemented by an optimum blend of passive safety, designed to enhance driver and passenger protection:

- The Boxer engine sits low in the engine bay to help protect occupants by sliding below the cabin - not into it - in the event of a severe frontal collision.
- Ring-shaped passenger safety cell combines rigid reinforced sections with crumple zones designed to absorb impact energy and reduce injury.
- Seven SRS airbags - dual front, dual front side, curtain and driver's knee airbags.
- Front seatbelts feature pre-tensioners and load limiters.
- Whiplash reducing front seat design.
- Automatic Emergency Locking Retractors on all rear seatbelts.
- Height adjustable headrests throughout the cabin.
- Rear view reverse camera.
