

# Aurion

The Australian V6 that defies tradition.

**Either way, it  
defies tradition.**

*For all its understated elegance, power and efficiency, the Aurion remains something of an enigma. For here is a car that appears to defy convention at every opportunity.*

The Aurion features outstanding performance – an exhilarating 200kW. Yet it only uses 9.9L/100km<sup>9</sup> of fuel. It also offers dynamic handling and control to give you pure driving freedom – while surrounding you, almost invisibly, with a range of uncompromising safety features for you and your passengers.

Every Aurion comes complete with a custom designed package of Toyota's renowned Driver Assist Technology (DAT), which includes Vehicle Stability Control (VSC) and Traction Control (TRC) for optimised performance. Even the design of the Aurion incorporates Formula 1 design cues, while resisting frivolous design fads to ensure truly timeless looks.

Built to exacting standards right here in Australia, for a multitude of conditions, Aurion delivers greater power, refinement and handling without compromising Toyota's traditional foundations of quality, durability and reliability.

Aurion purposely avoids the status quo – and taps into a real need for drivers looking for smarter thinking, more intelligent engineering and the ability to break the traditional rules of the big Australian V6.

A benchmark has been set.

# Make it yours with Aurion Genuine Accessories.

You've made a call. And now it's time to make your Aurion yours with Toyota Genuine Accessories. Designed and detailed to fit seamlessly with your vehicle, it's your chance to stand even further apart from the crowd.

# Smarter thinking, refined styling.

Aurion V6 combines exhilarating performance, with dynamic handling and control to deliver a car you'll love to drive. Smarter thinking, more intelligent engineering and refined styling. It's the non-traditional big Aussie 6. Aurion's journey began with a simple, but seemingly contradictory question – could we design an efficient, yet powerful, large V6 car built for Australia – but with no trade-off in performance or attention to detail?

Both extreme and diverse, Australian road conditions are among the toughest on Earth. So, with Aurion, conventional thinking was thrown out the window. Toyota's Australian designers and engineers were determined to build a vehicle adapted to our unique conditions, from city driving to interstate exploring – all offering the same exhilarating driving experience.

**Pay no more from one logbook service to the next with Toyota Service Advantage.**

New Toyotas come with Toyota Service Advantage. That means you pay the same low capped-price from one logbook service to the next for the first three years or 60,000km, whichever comes first<sup>3</sup>. So you'll enjoy the peace of mind of knowing in advance what your servicing costs will be. Add it all up and that means owning a new Toyota can be a lot less expensive than other cars. For the full benefits of Toyota Service Advantage consult a Toyota Dealer or visit [advantage.toyota.com.au](http://advantage.toyota.com.au)

<sup>3</sup> Maximum payable for standard scheduled servicing (normal operating conditions) up to the first 4 services. Excludes Government and Rental vehicles. Contact your Toyota Dealer or go to [advantage.toyota.com.au](http://advantage.toyota.com.au) for other exclusions and eligibility.
