HYBRID

**HYBRID
SYNERGY
DRIVE**

THE FUTURE OF AUSTRALIAN MOTORING HAS ARRIVED.

It's a statement claimed by many over the years. It's a claim usually held just briefly because it very rarely announces a change of this magnitude. This is different, for the new Hybrid Camry is a groundbreaking shift for the Australian automotive industry. A product that's doing today, what others are talking about doing tomorrow. This is the car Australia has been waiting for.

Hybrid Camry is a car inspired by a burning desire for a brighter tomorrow. A car defined by an unquenchable passion to make travelling better. The first ever hybrid car to be built in Australia, designed to produce more power, with greater efficiency. To take you further, on less fuel. And to make your presence felt everywhere, but not as much on the environment.

It is a powerful revelation. An inspired revolution. And a car that will go far beyond all your expectations.

From the sleek exterior to the ingenious Hybrid Synergy Drive system, it is a masterpiece of intuitive design and leading-edge technology. Australia's most popular medium-sized car has been re-engineered and redefined. From the outstanding performance, handling and technology to the unique safety and ongoing ownership experience – we haven't just redefined the benchmark, we've created a car for a new way of motoring.

Everyday outstanding. Everyday surprising.
Everyday amazing.

ADVANCE AUSTRALIA.

For all its technological advancements and intelligent new additions, you need look no further than the Hybrid Camry's sleek aerodynamic design to know that this is a car unlike any other Camry that's ever come before it.

Australia's most popular medium-sized car has now been redefined around the world's leading hybrid technology. It's not just the most technologically advanced Camry ever, it's the most advanced car ever built in Australia.

Here is a car that won't settle for creating a new chapter in Australian motoring history.

It's rewriting the book forever.

Hybrid Camry model shown in Silver Ash.

A VISION OF PROGRESS.

It's the refined body shape you'll notice first. Aggressive. Eye-catching. Beautiful sculpted lines that have been shaped to blend aerodynamic efficiency with impeccable good looks.

Uniquely hybrid signature blue headlamps, satin-chrome grille, bold front fascia design and integrated fog lamps distinguish the face, while exclusive LED tail lamps, and a rear spoiler on the Luxury model, complete the exterior treatment.

Shaped with intent.

The Hybrid Camry's innovative finish doesn't stop with aesthetics. Every inch of the sleek, graceful chassis has been meticulously crafted to significantly reduce air resistance, resulting in a drag co-efficient of a low 0.27, vastly improving both fuel efficiency and performance.

And that's just the beginning.

A DRIVE LIKE NO OTHER.

We've taken our world-leading hybrid technology and added a host of other technical advancements to bring Hybrid Camry to a whole new level of uncompromising performance with seamless power.

The power of two.

The inherent genius behind Hybrid technology is a petrol engine and electric motor working intelligently together as one in perfect harmony – yet the engine and motor always intuitively know when to work alone, when to rest and when to work together. It's practically unnoticeable. What you will notice, is that you'll always have more than enough power when you need it.

But it isn't just efficient when you're moving. It's just as clever when you're at a standstill. When you stop, so can the engine – so you never waste a drop of petrol. In fact, every time you hit the brakes, Hybrid Camry captures braking energy, storing it for later use.

AUSTRALIAN GOVERNMENT GREEN VEHICLE GUIDE

TOYOTA FIRST

VDIM-VEHICLE DYNAMICS INTEGRATED MANAGEMENT

From strength to strength.

It won't take you long to discover the 140kW of hybrid power the new Hybrid Camry boasts under its sleek exterior. By pairing its unique Atkinson-cycle engine to a highly efficient electric motor, you get all that power in the most fuel efficient car ever built in Australia, with the impressive fuel consumption figure of only 6.0L/100km⁽¹⁾. Simply, that means better fuel efficiency than many smaller cars with half the power.

Less fuel means fewer emissions. And at a mere 142g/km⁽¹⁾, it's little wonder Hybrid Camry is the only medium-sized and first Australian built car to be awarded 5 stars by the Australian Government's Green Vehicle Guide.

Sharp responses, smooth moves.

Locally tuned for Australian drivers and the unique demands of Australian conditions, the responsiveness of the new Hybrid Camry gives you greater feel and a more dynamic drive that has to be experienced to be believed. Improved weight-distribution helps to ensure meticulous balance and effortless control. As for transmission, an electronic Continuously Variable Transmission (e-CVT) delivers instantaneous power by instinctively selecting the transmission ratio seamlessly in all road conditions.

(1) Fuel consumption and emissions will vary depending on driving conditions/style, vehicle conditions and options/accessories. Source of fuel consumption data: ADR81/02 combined cycle.

TECHNICALLY PERFECT.

When you're handed the key to this new world of advanced engineering, the first thing you notice is that you'll never have to use it. The new Hybrid Camry will unlock as soon as you grasp the door handle and even start at the push of a button – with the key still in your pocket or handbag. It's an unmistakable reminder that the car you're about to drive is so technically advanced, it will completely shift your expectations of driving.

Slide into the driver's seat and you'll soon discover just how advanced the new Hybrid Camry really is. The gentle blue glow of the in-dash Optitron combimeter, trip computer and instrument cluster give you constant feedback at a glance – not only on important trip and vehicle information, but also on your driving performance. The instrument cluster even responds by varying the intensity of illumination to match your fuel economy.

Push button controls on the steering wheel allow you to adjust the audio system, pick up a telephone call⁽¹⁾ and change the selection of your Multi-Information Display. From choosing your favourite playlist from an iPod^{®(2,3)}, or just changing the volume on the radio, you'll never have to take your eyes off the road.

Tuned into you.

With six strategically placed speakers (eight including woofers and two dual-cone speakers with optional navigation) throughout the cabin, a 6 CD LCD display audio system (4 CD and DVD-based navigation⁽⁴⁾ with navigation option), iPod^{®(2)} and Bluetooth^{™(5)} connectivity you can listen to your favourite playlists and music wirelessly, or talk to your friends or colleagues with hands-free calling.

But the small flourishes of brilliance don't stop there. Rain-sensing wipers⁽⁶⁾, automatic headlamps and dual-zone climate control with an energy saving eco-mode all result in superior levels of cabin comfort. Similarly, the convenience of a reverse camera⁽⁷⁾ and rear parking sonars⁽⁷⁾ add to the safety of both passengers and pedestrians, while the option of a 7" LCD Satellite Navigation⁽⁴⁾ display is an added luxury you thought you might only find in a more expensive vehicle.

Simply put, everywhere you look in the new Hybrid Camry, there's an intuitive piece of technology making things more simple, more comfortable or more convenient. So every time you're on the road, you're somewhere special. And always leading the way.

(1) With navigation option only.

(2) iPod[®] is a registered trademark of Apple Inc.

(3) Only with Display audio unit.

(4) Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas.

(5) The Bluetooth word mark is owned by Bluetooth SIG, Inc. Bluetooth[™] will only operate with telephones enabled with compatible Bluetooth[™] wireless technology (HFP [Hands Free Profile] v1.0 or later and OPP [Object Push Profile] v1.1 or later international standards). OPP functionality only works on satellite navigation equipment.

(6) Hybrid Camry Luxury model only.

(7) Reverse Camera and ParkAssist are designed as driver assist devices only and should not be used as a substitute for skilled driving and safe parking practices. The area into which the vehicle is to be reversed/parked must be visually monitored by the driver while parking.

INSPIRED INSIDE AND OUT.

Step inside and enter a world of refined elegance, easy grace and sophisticated technology. A place that's more comfortable, more intelligent and more stylish. A space designed to make every journey feel like a real escape.

Hybrid Camry Luxury model shown in Crystal Pearl.

THE QUIET ACHIEVER.

Take a moment and listen – to the complete silence of the cabin. It's peaceful here. Comfortable and beautifully considered. You can't help but feel shielded from the rigours of everyday life.

Hybrid Camry Luxury model interior shown with optional navigation and moonroof.

The sound of silence.

From behind the wheel, you'll feel your eyes drawn gently towards the softly lit instrument panel, designed to give you the highest possible clarity, whatever the ambient light. But it's when you press the keyless Smart Start button that you'll really notice the difference.

The silence of the cabin is matched only by the silence of the engine. At rest, Hybrid Camry's engine is barely a whisper. In motion, the sound-insulating windscreen and noise-absorbing materials dampen exterior noise, ensuring the only thing you'll be hearing on your journey is a conversation, or your favourite songs and artists.

Metallic door trims and unique "Hybrid" scuff plates finish the interior, while the ample cabin and power adjustable seating (Luxury model only) means you won't have to compromise on space, comfort or performance.

Inside and out, Hybrid Camry has been designed to maximise the space available to driver and passengers. You'll find ample room at your feet, overhead, and for carrying all the accessories of life. The cavernous boot space gives you 389 litres of storage, and 60/40 rear split-fold seats give you the flexibility you need for those harder to carry items. But the real genius you may never see. Through meticulous design and the inclusion of a slimline hybrid battery, we've also equipped Hybrid Camry with a full-size spare alloy wheel.

EFFORTLESS POWER,
PINPOINT BALANCE.

Hybrid Camry Luxury model shown in Crystal Pearl with optional navigation and moonroof.

Anti-skid Braking System (ABS) prevents the wheels from locking, allowing you to steer around obstacles under intense braking.

Traction Control (TRC) controls power applied to each wheel and makes adjustments if it detects a loss of traction.

Vehicle Stability Control (VSC) uses EPS, ABS and TRC to keep the vehicle on course to aid safer cornering and greater control.

THE MOST ADVANCED ACTIVE SAFETY SYSTEM EVER SEEN IN THIS CLASS.

With the new Hybrid Camry, we've produced a car that you and your passengers can feel genuinely safer in. By utilising the most advanced active safety technology ever offered in an Australian built vehicle, it not only helps protect you in the unlikely event of an accident, but can actually help you avoid them in the first place.

All systems go.

Our Vehicle Dynamics Integrated Management (VDIM) system constantly assesses and effortlessly controls all the car's safety functions to comprehensively manage the balance and handling of Hybrid Camry in even the most trying of conditions.

A Toyota first, VDIM monitors your driving and then instinctively integrates the Vehicle Stability Control (VSC), Anti-skid Braking System (ABS), Electric Power-assisted Steering (EPS) and Traction Control (TRC) systems. These systems work together to ensure a prompt response from all on-board safety technologies, automatically correcting under- or over-steer and keeping you unwaveringly steady.

All-round protection.

Inside the cabin, a full complement of six SRS airbags – dual-stage driver and front passenger airbags, two front-seat

side airbags and two full-length side curtain airbags – shield occupants. You're also protected by years of Toyota testing and safety improvements. Toyota's Global Outstanding Assessment (GOA) safety program searches the world for the toughest standards and then goes beyond them.

Continually striving for safer vehicles led Toyota to the development of the Safe-T-Cell frame structure. A design precision-built to absorb impact energy most efficiently in the event of a collision, providing increased protection to those in the cabin.

Brought together, these state-of-the-art integrated active and passive safety features work seamlessly to protect yourself and others. It's a formidable package designed to give you greater confidence every time, on every drive.

THE AMAZING HYBRID CAMRY, AND THE EXCLUSIVE HYBRID CAMRY LUXURY.

with optional navigation and moonroof.
Above: Hybrid Camry model shown in Silver Ash.

THE ENDURING PLEASURE OF OWNERSHIP.

State-of-the-art technology. Innovation around every corner. And an engine more efficiently powerful than any car in its class. Not only does the new Hybrid Camry deliver impeccable driving performance, head-turning looks and astounding levels of power and safety, it's also been designed from day one to not only be a rewarding car to drive, but to own. Toyota's renowned values of quality, durability and reliability are matched with Australia's dealership network offering an unwavering level of commitment, with unprecedented support programs. Therefore, you're met with a service experience that's every bit as innovative as the car you're driving.

The Toyota Difference - Quality, Durability and Reliability. "Oh what a feeling!" With these words, generations of Toyota owners all over Australia have come to appreciate the feeling that comes with owning a Toyota vehicle. It's a feeling that comes with a 50 year heritage in Australia of unwavering commitment to quality, a genuine passion for better motoring and above all else, delivering cars that Australians want to own and drive.

What this means for you is that every time you get into the driver's seat of your Hybrid Camry and start the engine, you will feel complete confidence. Confidence that comes from knowing that the car you are driving is designed and engineered with the highest standards of quality and reliability in mind. Not to mention, the world's leading hybrid system.

Hybrid Camry Luxury model shown in Crystal Pearl.

Enduring Value.

The benefits of owning a Hybrid Camry extend long after your initial purchase. Innovative low-cost, capped-price servicing from Toyota trained technicians – who know every inch of your vehicle – means your car will perform better and more efficiently, for longer. It's Toyota Service Advantage, a program designed so your peace of mind stays in the same pristine condition as your new car, long after you've driven home from the showroom.

Peace of Mind.

The world's leading hybrid technology. Second-to-none, it's come from over 30 years research and development, plus millions of hours of real-world experience courtesy of the largest fleet of hybrid vehicles worldwide. There are 2 million vehicles powered by Hybrid Synergy Drive on the road all over the world today, so you can be sure that your Hybrid Camry is in experienced hands, backed by unrivalled levels of knowledge and an impressive range of warranties.

It's a confidence we gladly pass along, by accompanying our standard warranties with an extended 8 year/160,000km (whichever comes first), warranty on the hybrid battery.

Toyota Australia is pleased to announce that the HV (Hybrid) Battery Warranty coverage on Hybrid Camry is 8 years/160,000km, whichever comes first.

Hybrid Camry model shown in Silver Ash is accessorised with ParkAssist - Front Corner Clearance Parking Sensors⁽¹⁾, Bonnet Protector, Headlamp Covers, Slimline Weathershields and a Rear Spoiler.

TOYOTA GENUINE ACCESSORIES ARE COVERED BY OUR TOYOTA WARRANTY*

Some Toyota Genuine Accessories are not applicable to all Hybrid Camry models. See your Toyota dealer for advice regarding Toyota Genuine Accessories. Pictured Accessories are all sold separately. For a comprehensive guide on the entire range of Toyota Genuine Accessories, visit our website at accessories.toyota.com.au.

(1) ParkAssist is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices. The area into which the vehicle is to be parked must be visually monitored by the driver while parking.

(2) SAFETY WARNING: Toyota Genuine front seat covers are compatible with front seat side SRS airbags. Fitment of front seat covers which are not compatible with front seat side airbags may adversely affect airbag deployment and may result in serious injury.

(3) Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas.

(4) Available on Hybrid Camry model only.

(5) Does not support Hybrid energy monitor.

* All Toyota Genuine Accessories purchased and fitted to a Toyota are warranted for the remainder of the New Vehicle Warranty or 12 months, whichever is greater. Toyota Genuine Accessories purchased from an authorised Toyota Dealer over the counter are warranted from the date of purchase for 12 months. Conditions apply. All warranties are additional to the implied warranties under the Trade Practices Act 1974.

HYBRID SYNERGY DRIVE. BETTER TOGETHER.

With the introduction of our world leading Hybrid Synergy Drive, we've reinvented the way you move – creating a dual-source power system that's more powerful, more efficient, and with less impact on the environment, all at the same time. And in so doing, we've built something that will fire the imaginations of drivers the world over, and light a beacon for the entire automotive industry to follow.

Hybrid Synergy Drive ensures that your car runs at its most efficient, regardless of how your surroundings or needs change. While driving, the car can be powered by electricity, petrol, or a combination of both. Each complements the other to ensure that your drive remains dynamic and spirited.

ORDINARY DRIVING

Runs with electric motor and engine in most fuel-efficient configuration

Highly fuel-efficient driving

ACCELERATION

Engine power and electric motor power

Highly fuel-efficient driving

KEY

A WHOLE NEW DRIVING EXPERIENCE.

Hybrid Synergy Drive is not just a **cleaner** combination of petrol and electricity. It's a collection of smart ideas. Smart ideas that make as much sense now, as when we started thinking about them - over 30 years ago. We considered the car. We thought about how it moves, how it drives, and how you drive it.

Hybrid Synergy Drive is a full hybrid system, with two energy sources working seamlessly together as one. Each complementing the other to give you **powerful**, smooth acceleration and a **dynamic** drive. Your car can be powered by electricity, petrol, or a combination of both.

And best of all, it's all designed with economy in mind. No movement, no consumption. Because **efficiency** is about more than fuel economy. It means doing the best job possible, whatever the conditions, and rethinking the inefficiencies in driving that we've lived with for years.

Reducing our reliance on the petrol engine when we can, and turning it off completely when it's not needed. Capturing energy that would normally be wasted to later use for emission-free electric driving or for an additional power boost. In this way Hybrid Synergy Drive goes beyond smart ideas to become a collection of industry-shifting pieces of **intelligence**.

DECELERATION / BRAKING

Electricity is generated,
and partly recharges

zero emissions

SPECIFICATIONS

HYBRID CAMRY FEATURES

- Toyota's world leading Hybrid Synergy Drive technology
- 2.4L Atkinson cycle engine and electric motor producing 140kW of combined system power.
- Electronic Continuously Variable Transmission (e-CVT)
- Fuel consumption – 6.0L/100km⁽¹⁾
- CO₂ emissions – 142g/km⁽¹⁾
- Exclusive Hybrid Camry exterior styling
- Auto on/off signature hybrid blue headlamps
- Fog lamps
- 16" alloy wheels x 5 (incl. spare wheel)
- Moquette fabric seat upholstery
- Premium gear shift knob & parking brake lever
- Premium multi-function steering wheel
- Cruise control
- Optitron combimeter display
- Multi-Information Display with hybrid energy monitor, consumption display and trip computer
- Dual-zone air conditioning with power-saving eco-mode and LCD control panel
- Smart Entry & Start
- Chrome exterior door handles
- 389 litre rear boot storage space
- 60/40 rear split-fold seats
- 6 CD Display Audio System, with LCD display, 6 speakers, Bluetooth™⁽⁴⁾, USB and iPod®⁽²⁾ connectivity
- Vehicle Dynamics Integrated Management (VDIM) safety system seamlessly integrating Vehicle Stability Control (VSC), Traction Control (TRC), Anti-skid Braking System (ABS) and Electronic Power Steering (EPS)
- 6 airbags
- Dual-stage Driver and Front Passenger SRS airbag
- Front seat side SRS airbags x 2
- Full length curtain-shield SRS airbags x 2
- LED taillamps
- Reverse Camera⁽³⁾
- Rear Parking Sensors⁽³⁾ x 2
- Noise reduction windscreen

OPTIONAL NAVIGATION*

- Premium Audio with satellite navigation⁽⁵⁾ & 8 speakers

HYBRID CAMRY LUXURY FEATURES IN ADDITION TO HYBRID CAMRY FEATURES

- Rear spoiler
- Leather accented seat and door trim
- Rain-sensing wipers
- Electro-chromatic interior rear view mirror
- Driver and front passenger power seat adjustment

OPTIONAL NAVIGATION AND MOONROOF[†]

- Moonroof
- Premium Audio with satellite navigation⁽⁵⁾ & 8 speakers

Toyota Service Advantage cuts new car running costs.

Toyota Service Advantage makes owning your Hybrid Camry even more economical because you are entitled to low cost scheduled servicing. That's up to 4 standard services during the first three years or 60,000km, whichever occurs first. Terms and conditions apply. See your Toyota dealer or advantage.toyota.com.au for eligibility, pricing and more information. Toyota Service Advantage pricing represents the maximum amount payable for standard scheduled servicing which is as per 'maintenance for normal operating conditions' outlined in the Warranty & Service Handbook's service schedule. Service Advantage eligibility excludes Government and Rental vehicles and certain other exclusions apply.

The Toyota Guarantee.

We are confident that all of our vehicles will be as reliable and dependable as you need them to be. We understand that a new car purchase can often be a big decision. You need to feel confident that not only are you making the right decision now, but you are making a decision that won't end up costing you more in the future. That is why every new Toyota is proudly backed by a 3 year/100,000km warranty⁽¹⁾ (whichever occurs first), which provides you with peace of mind and care free motoring.

Extend your peace of mind.

When you purchase your new or used⁽²⁾ Toyota, you can extend your original factory warranty⁽³⁾ for up to 3 years. Providing you protection from unexpected repair bills and more importantly a little extra peace of mind.

Should you break down we also offer Roadside Assist, a reliable breakdown service with round the clock reassurance and assistance.

Toyota Extra Care is that extra helping hand when you need it most. For more details visit toyotaextracare.com.au

All the insurance coverage you could need.

Could you afford costly repairs or having to replace your vehicle altogether? At Toyota Insurance⁽⁴⁾ we understand that your vehicle is a critical part of your life and can offer you a motor insurance solution designed specifically for Toyota vehicles.

Our comprehensive motor vehicle insurance benefits include:

- Replacement of your new Toyota if it is a total loss so long as it is less than 3 years old and has travelled less than 100,000kms.
- Genuine new Toyota parts replacement promise for Toyota vehicles less than 5 years old since the date of first registration.
- Genuine Toyota quality repair guarantee for the duration of your vehicle ownership.

Toyota Insurance also goes further by offering Finance Gap Insurance and Payment Protection Insurance.

Visit toyotainsurance.com.au for more details about the coverage we offer.

Finance to get you in the driver's seat.

Toyota Financial Services⁽⁵⁾ can offer you a range of easy vehicle finance options available for you to organise conveniently at your preferred Toyota dealership.

Whether you require a simple personal vehicle loan, a novated lease for you or your employees, or serviced leasing on your small-business tool of trade vehicles we can help.

Toyota Financial Services is the best way to finance your Toyota. Visit toyotafinance.com.au to find out why.
