Oh what a feeling!

“

We are a group of passionate perfectionists who can't let well enough alone...

That's Toyota.

That's the spirit.

And that's our contribution to the world. We will be the best we can.

And we will help as many as we can to be the best they can...

— Eiji Toyoda

There's a spirit that runs through Toyota. It's a feeling of achievement. It pushes us. Inspires us.

— It's what saw us mass produce the first dedicated hydrogen fuel cell vehicle, the Mirai, and what will see us define the very future of movement. Our Japanese founders called it 'Kaizen,' but we simply call it 'continuous improvement.' A relentlessness to always move forward, never settle for good enough.

And here's the exciting part, this feeling of achievement is yours to experience. Life changing moments, just waiting to be told. Whether it's the thrill of experiencing the latest in technology, venturing somewhere completely new or simply spending more time with your family. That sense of achievement, whatever form it comes in, will be a feeling you never forget.

This is a journey for which we don't know the destination, but looking back at how far we've come, it's safe to say tomorrow looks exciting beyond imagination.

17 SAFETY	23 PRADO KAKADU	

Go anywhere in style.

When you consider the many challenges of a modern lifestyle, dropping the kids at school can now be as treacherous as negotiating a mountain pass. Which is why Prado has been designed to provide refined comfort, rugged dependability and smooth driving, whether in town, off-road or out on the highway.

Boasting bold, contemporary and head turning style, Prado is also purpose built to give you plenty of 4WD muscle to handle the tough stuff and tow heavy loads. All smartly combined with an abundance of intelligent features and outstanding creature comforts to help make sure you'll always arrive safe, refreshed and relaxed, whatever the destination.

Beauty never looked so tough.

The highly refined exterior lines of Prado have not occurred by chance. Every element has been painstakingly designed to serve a specific purpose.

Functionality comes to the fore with a muscled-up front end. The GXL, VX and Kakadu feature sophisticated chrome vertical grille bars and Daytime Running Lamps (DRLs) to give an assured presence on the road. With powerful halogen headlamps on the GX, and stylish LED headlamps on the GXL, VX and Kakadu, the path ahead will be bright even on the darkest nights.

Particular attention has been paid to refining Prado aerodynamics. Airflow is efficiently redirected around the front bumper, the tyres and wheel housings. It's channelled under the car and over the roof to smoothly exit behind the vehicle while the aero-stabilising fins support airflow past the outer mirrors and rear lights. Even air flowing through the radiator is carefully deflected to reduce turbulence.

Then should the weather take a turn for the worst, the rain sensing wipers on VX and Kakadu models will automatically spring into action.

Find everything at your command.

Cast your eyes forward from within Prado, and you'll notice every feature and control has been placed for maximum practicality and visibility.

On Kakadu models the centre console incorporates the controls for all off-road functions, so it's easy to select what you need, precisely when you need to. At the flick of a switch, Kakadu's Drive Mode Select lets you change between five different drive modes for optimum performance in all conditions.

Every switch is illuminated to catch your eye in all driving conditions. An electroluminescent combimeter with enhanced backlighting presents vital information to drivers in the GX and GXL (automatic only), VX and Kakadu. It features a colour Multi Information Display (MID) with four separate zones of information, including trip information, ride and transmission settings, outside and travel conditions and details of many vehicle operations and drive functions.

All models come with satellite navigation¹ as standard, so wherever you're heading, you'll find it a breeze to get there.

B. Multi-Terrain Monitor, underfloor view – VX and Kakadu only

Comfort to master every situation.

Whether in traffic, out in the wild, on holiday or a family weekend away, you'll always be travelling first class in Prado. It begins with the smart entry and start system, allowing you to unlock and get going while the key remains in your pocket or bag.

Gently grip the premium steering wheel on the GXL, VX and Kakadu, and you'll find the switches for cruise control, audio and phone functions at your fingertips.

You'll always stay comfortable in heated and ventilated front row seats as well as heated second row seats in the Kakadu and VX (both also available on GXL with leather accented option pack). When things start heating up, air-conditioning with a clean-air filter will keep you cool, featuring automatic tri-zone comfort on GXL, VX and Kakadu models, including a separate rear control panel.

With a minimum of nine and a maximum of fourteen speakers, Prado sounds as good as it looks. Experience breathtaking audio quality from CD, radio and your iPod,^{®2} as well as advanced connectivity via Bluetooth^{®3} with audio streaming or via a USB input.⁴ And all can be operated using simple touchscreen control.

Rear passengers in the Kakadu can also enjoy video entertainment provided by the integrated Blu-ray™ player with a large 9" colour monitor, while listening on wireless headphones. The luxurious touches even extend to a cool box in the VX and Kakadu centre console with space for four 500ml bottles.

Now go and get rough.

When the time comes to farewell the bitumen and head off-road, Prado is built to take you there and safely back again. With Variable Flow Control (VFC) power steering, you'll always have the ideal feel and level of assistance to suit the conditions.

The double wishbone front and 5-link rear suspension provide excellent handling stability and comfort even when the going gets rough. The Kinetic Dynamic Suspension System (KDSS) on the Kakadu model hydraulically controls the suspension to provide gentler behaviour. The Adaptive Variable Suspension system (AVS) on the Kakadu also allows you to choose from three modes to dampen the shock absorbers to suit particular driving conditions.

You'll also appreciate the advanced off-road assistance of Active Traction Control (A-TRC) to eliminate wheel spin on slippery surfaces by automatically distributing the power to the tyres with the best grip. When faced with heading up or down steep slopes, Hill-start Assist Control (HAC)⁵ and Downhill Assist Control (DAC)⁵ (both available on automatic only) will help reduce rolling backwards or descending too fast and getting out of shape.

The Kakadu also features crawl control⁶ to allow you to maintain a low constant speed on challenging surfaces by automatically and independently controlling both engine power and brake input to each wheel. The Multi-Terrain Select system (MTS) on Kakadu is an evolution of the A-TRC function and allows you to select grip assistance according to the terrain. Plus the rear differential lock, available on GXL (automatic), VX and Kakadu, can be activated to further optimise grip.

Keeping you in touch with the situation, the Multi-Terrain Monitor (MTM)⁷ on VX and Kakadu allows the driver to get a close look at the conditions right around the vehicle.

The power and the glory.

Every Prado is equipped with a 2.8 litre Turbo diesel engine, delivering a silky smooth 130kW of direct-injected power⁸ and an awesome 450Nm of torque⁸ (automatic only), so you'll have the grunt to tackle the muddiest trails. Make the most of Prado's 3,000kg braked towing capacity⁹ (automatic models), with peace of mind that you've got all the muscle you ever need for all your adventures.

Even with such impressive performance, this engine also delivers sufficient fuel efficiency with 8.0L/100km for the automatic transmission¹⁰ and 7.9L/100km for the manual transmission^{10,11} or around 1,700km per tank, for the 6-speed manual transmission.

D.

Safety throughout.

Wherever your Prado takes you, an incredible array of safety features will protect you. The 'Safe T-Cell' body is designed to take impact from the front, rear and sides. Seven SRS airbags, including full-length side curtain-shield airbags, help provide you with all round protection.

Vehicle Stability Control (VSC), Anti-Lock Braking System (ABS) and Traction Control (TRC) work together to help correct any potential oversteer or understeer when cornering, while Electronic Brake-force Distribution (EBD) automatically puts more braking force on the wheels that need it most. If you're towing, Trailer Sway Control (TSC) uses sensors to suppress sway triggered by elements including wind, bumpy roads and the steering operation.

The reversing camera⁵ provides clear vision of what's behind, with a Back Guide Monitor (BGM) on the Kakadu. On the GXL, VX and Kakadu, parking sensors⁵ signal how close you are to any obstacle, and on the VX and Kakadu, Blind Spot Monitor⁵ (BSM) uses radar to provide a visual warning if another vehicle is hidden in a blind spot, while Rear Cross Traffic Alert⁵ (RCTA) warns you of approaching traffic when reversing out of a parking space. The Panoramic View Monitor on the VX and Kakadu also provides a handy birds eye view display of the areas around your vehicle, making manoeuvring a breeze.

The added active safety benefits of Toyota Safety Sense+¹² are also available as standard on all automatic models.

- A. Seven SRS airbags – Overseas model shown
- B. Blind Spot Monitor – VX and Kakadu only
- C. Trailer Sway Control
- D. Multi-Terrain ABS

Toyota Safety Sense+¹²

The road is an unpredictable place – you can never be certain of what dangers may lie ahead.

Which is why we developed Toyota Safety Sense+ (TSS+),¹² a multi-feature active safety package to help keep you and your passengers out of harm's way.

TSS+ incorporates Lane Departure Alert, Pre-Collision Safety system, Automatic High Beam and Active Cruise Control.

With automated pre-collision warning and braking at its core, TSS+ uses intuitive technology to sense danger, providing greater reassurance to the driver and extra protection for passengers across a varying range of driving speeds and conditions.

Toyota
Safety
Sense

Lane Departure Alert¹³

In the event that your car drifts from its lane, this presents a serious safety hazard. This is where Lane Departure Alert (LDA) helps. It provides a visible and audible alert should you inadvertently deviate from your lane, helping keep you, your passengers and other vehicles safe.

Pre-Collision Safety system¹³ with Pedestrian Detection¹⁴

Should an unexpected incident ever occur up ahead, the Pre-Collision Safety system (PCS) with Pedestrian Detection will take action. First, Forward Collision Warning (FCW) uses radar to identify the imminent threat and issue a visible and audible alert. During braking, Brake Assist (BA) applies additional force to help slow the vehicle. If the system judges a collision to be unavoidable, Autonomous Emergency Braking (AEB) will apply the brakes to reduce speed and help mitigate the impact for vehicles and pedestrians.

Automatic High Beam¹³

Leaving your headlights on high beam can be a hazardous distraction to other drivers. By using a camera to sense either approaching headlights or the taillights ahead, Automatic High Beam (AHB) will switch between high and low beam as needed to help you maintain safe and considerate driving.

Active Cruise Control¹³

Keeping a constant distance between you and the vehicle ahead helps make driving safer. By using a milliwave radar to constantly monitor the gap, Active Cruise Control (ACC) will maintain a set space from the vehicle in front. It will also automatically accelerate or slow down to compensate for the vehicle in front varying its speed.

Prado GX

- 2.8 litre Turbo diesel engine
- 6-speed automatic or 6-speed manual transmission
- Towing capacity 3,000kg braked (automatic only); 750kg unbraked⁹
- 17" alloy wheels
- Halogen headlamps
- 5 seats (7-seat option)
- Heated and retractable side view mirrors (automatic only)
- Smart entry and start system

- Electroluminescent combimeter with colour Multi Information Display (automatic only)
- Tonneau cover
- 8" colour touchscreen display with Toyota Link¹⁵
- Satellite navigation¹ with SUNA™ traffic channel¹⁶
- 9 speaker audio system with CD player, AM/FM tuner, AUX input⁴ and USB input with iPod®² connectivity
- Bluetooth®³ connectivity

- Reversing camera
- 7 SRS airbags
- Toyota Safety Sense+ (automatic only) including Pre-Collision Safety system with Pedestrian Detection,¹⁴ Lane Departure Alert, Automatic High Beam and Active Cruise Control
- Vehicle Stability Control
- Active-Traction Control
- Downhill Assist Control and Hill-start Assist Control (both automatic only)

Sophisticated space inside.

When travelling in any environment, on any driving surface, the seating in Prado means you'll always be riding in style.

The seven-seat configuration (optional on the GX) features a 40:20:40 split sliding second-row and a 50:50 split fold flat third row to allow a wide range of configurations to handle all types of loads – from seven people

B.

to everything for a family adventure and anything in-between. The folding third-row seats and the reclining seatbacks are all power operated on Kakadu. Second-row passengers will also enjoy excellent legroom and there's

easy access to the third-row thanks to the slide and walk-in functions. And in the GXL (optional), VX and Kakadu models, you'll also enjoy the luxurious appeal of leather accented seats as well as the style of double outer stitching.

The Toyota Advantage.

Every Toyota gives you a lifetime of advantages – from a 3-year warranty, fixed price servicing, finance packages, insurance to even road-side assistance in case something should go wrong. That's what makes it a Toyota. You'll enjoy legendary Toyota value from the moment you drive away, and you'll continue to appreciate the quality, safety and innovation that's engineered into each model, every day you drive.

Discover the full range of products and services and find your nearest Dealer at toyota.com.au

A smarter way to buy.

Toyota Access puts you in complete control when buying a new car.²² Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with ongoing flexibility and assurance. To discover Toyota Access for yourself visit toyota.com.au/access

Capped price servicing.²³

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to three years or 60,000km, whichever occurs first (including Genuine parts, labour and fluids). For the full benefits consult a Toyota Dealer or visit toyota.com.au/advantage

We've got your back.

Every new Toyota is built to exceptional standards, backed by a three year/100,000km²⁴ warranty, giving you the peace of mind to feel confident for years to come. In the unlikely event that you need them, every Toyota Service Centre is committed to providing any warranty repairs you may need. They have the technology, the tools, and the skilled personnel to keep your Toyota in excellent condition.

Finance to get you going.

If you need a little help, Toyota Finance²⁵ can offer you a wide range of vehicle financing. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Even more protection.

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, Genuine Parts Promise and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.²⁶ And our Toyota Insurance Factory Approved Extended Warranty Insurance provides protection that continues after your Toyota New Vehicle Warranty ends.

Extend your peace of mind.

Whether it's a flat tyre, lost keys or a flat battery, Toyota Extra Care Roadside Assist is never more than a phone call away. Available 24 hours a day, seven days a week, every day of the year, you'll have peace of mind, whatever your emergency.²⁷
