Oh what a feeling!

**Get ready for a whole
new adventure.**

Strapping on the surfboard, buckling up the kids or just loading in your overnight bags – however adventure sounds to you, you can be prepared with the latest RAV4. Built for fun, designed for discovery and made to ensure a trip of a lifetime – this is the car for the young at heart and the free of spirit.

From the front bumper to the rear door – everything about the RAV4 is geared towards your next escape. Whether it is a big road trip or just a quick shopping trip, you'll find the RAV4 is versatile, spacious and sporty enough to get you there in both style and comfort.

It is packed with superior technology, such as the 6-speaker audio, seven SRS airbags, reversing camera¹ and flexible storage options, just to name a few. The Cruiser models also feature a Blind Spot Monitor^{2,3} (BSM). This means every drive comes with the latest innovations for your enjoyment. Ready? It's time to get a little adventurous.

This is what adventure looks like.

Cruiser Petrol model shown

From the first look it's clear this is a vehicle that wears its stylish sophistication with pride. With the angular headlamps, sculpted body, deep grille and squared off bumpers – the RAV4 makes no effort to hide its sporty sense of adventure.

At the back, the spare tyre has been removed and the boot opens upwards, not sideways. Cruiser models come with a power back door for added convenience. The overall effect is a stylish, sporty silhouette that's equally at home in the great outdoors or the inner city. So if you're going off-road, or just off to the gym, your RAV4 will always look the part.

A first-class performance.

Sporty, responsive, smooth and whisper quiet. The RAV4 has been designed with your driving comfort in mind.

The Electric Power Steering (EPS) control provides precise steering feedback, while the steering shaft has been designed to minimise rotation vibration. The Dynamic Torque Control AWD system allows the driver to track the

intended driving line and achieves drivability on every road surface condition. So whether you're negotiating the Great Ocean Road or the office car park, you can be confident that cornering will always be smooth in your RAV4.

Whisper quiet...

Dampening panels on the dash and sound insulation in the floor reduce inside noise,

while outside, the door mirrors are specifically designed to optimise airflow.

...yet roaring with excitement.

When you are ready for an even greater performance, turn on SPORT Mode.⁴ With an improved accelerator response and the benefit of sports shift timing, it will help you feel in total control.

Take the inside line on life.

You might live an active lifestyle, but that doesn't mean you have to go without life's comforts. Step inside the RAV4 and you'll begin to appreciate just how comfortable and adventurous your journey can be.

The RAV4 is spacious and open – just what you would expect in an SUV – and luxurious too. There's soft-stitched padding⁵ on the dash, metallic detailing on the instrument panel, and what's more, the RAV4 has a lot more legroom than you would believe from a quick glance outside.

Taking technology new places.

Settle into the driver's seat, and find at your fingertips the Multi Information Display (MID). It keeps you up-to-date on everything you need to know, from the outside temperature to fuel economy.⁶

Room for all your stuff.

The 4th Generation RAV4 is slightly smaller on the outside, but has a large amount of cargo space on the inside. That means more room for your shopping, suitcases and sports equipment.

There are some clever space-saving aspects too. For example, the 60:40 split fold rear seats mean you can configure the back in different ways. So those long items of all shapes and sizes can be stored partly in the boot or partly in the seat area. Or, for really big loads, you can use all of the seat space to create a substantial storage area.

Out and out escapism.

The RAV4 is packed with enough smart technology and clever features to make every drive one to look forward to.

With Electric Power Steering (EPS) the RAV4's a breeze to manoeuvre. And parking's easy too. With four rear parking sensors,² you can squeeze into those tight spots with confidence. Your RAV4 even comes with a reversing camera,¹ standard across all grades, to help you see what is behind you.

Go riding on the freeway.

Cruise control⁷ is standard on all RAV4 models, so those long drives just got a whole lot more comfortable. Enjoy your trip with the AM/FM/CD 6-speaker system, complete with Bluetooth^{®8} and a USB port^{5,9} for your iPod^{®5,10} so you can crank up your favourite tunes all the way there.

Truly visionary design...

The intelligent body design of the 4th Generation RAV4 means you can see more of the road, and more of the sights, without moving a muscle. On Cruiser models there's also a Blind Spot Monitor² (BSM) that alerts you to potential hazards such as another moving vehicle by your side or in your rear blind spot.

...with room for your gear.

Phone, coffee, camera, sunnies. When you're out on an adventure, you need to be able to store all of your essentials. That's why the RAV4 is full of clever compartments, pockets and cup holders – so you never have to leave a thing behind when you get away from it all.

2.2 litre Turbo-diesel – Cruiser model shown

Great power, wielded wisely.

The RAV4 comes in three powerful and efficient engine options, including a Turbo-diesel:

2.2 litre Turbo-diesel.

Producing 110kW of power, 340Nm of torque and with an intercooled turbocharger, the diesel RAV4 delivers outstanding power. And with finely tuned transmission speeds and outstanding aerodynamics, the vehicle enhances fuel efficiency,⁶ achieving excellent performance.

2.5 litre Petrol.

Producing 132kW and 233Nm of torque, the 2.5 litre petrol engine is the most powerful in the range. But it's power delivered responsibly – with outstanding fuel efficiency,⁶ low emissions, and even minimal noise.

2.0 litre Petrol.

The 2.0 litre petrol engine puts out 107kW of power and 187Nm of torque. Multi-drive (CVT) produces smooth, powerful acceleration. What's more, ECO drive mode (Available on automatic transmission and CVT models only) regulates the engine output and air conditioning operation while keeping excessive energy consumption to a minimum.

Be adventurous. Not risky.

The RAV4 is built for fun and that means it's ready to take on some pretty gruelling conditions. While you're tackling the great outdoors, it's good to know you are doing it safely, so we have packed the RAV4 with the latest safety features. You can be confident that for every wild adventure, you will drive home in a vehicle equipped with an impressive system of safety technology, which comes with a five-star ANCAP safety rating.

Braking new ground.

When you're on the go, it's good to know you can stop in a hurry. That's why we have gone all-out with the inclusion of an intelligent Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD) and Vehicle Stability Control (VSC). Designed to help ensure maximum brake force to all wheels in even the worst conditions, it gives you more control and more confidence every time you sit behind the wheel.

We've put rolling back behind you.

Whether you are driving up a steep dirt track or negotiating a hill start in a car park, with Hill-start Assist Control (HAC) roll-backs are a thing of the past.

The one place we're not adventurous.

We have equipped the RAV4 with seven SRS airbags, including curtain shield airbags that help protect all your passengers from a side impact. It means that every time you set off on an adventure, escapade, or just a trip down to the shops, you know that should the worst come to the worst, you're protected.

Hold onto your seat.

Everything about the latest RAV4 is dynamic and adventurous, and this same stylish thinking extends to the interior as well. With total comfort in mind, the front seats have been redesigned to expand the area of contact between the passenger's body and the seat to enhance overall comfort and convenience. Add to that a variety of seat positions and features that allow you to increase knee space and elbow room; the RAV4 has all the options you need to make sure you get the best comfort during your journey.

It's what's inside that counts.

The RAV4 is available in four trim types, including fabric and premium interior with leather accented seats (Cruiser models only), so you can travel in style to every adventure.
